Next Steps Action Plan

Strategy: Embed sustainable family, school, and community engagement initiatives in school improvement to increase student achievement using the National PTA Standards for Family-School Partnerships and the Developmental Assets.

1. Identify all of your school improvement goals.

2. Select one goal to embed family-school-community partnerships.

3. Identify what is already being done to increase family-school-community partnerships.

4. Think creatively about other family-school-community partnership activities that could be implemented as part of your plan.

5. Identify who will be responsible for carrying out these tasks.
   a)
   b)
   c)

6. Identify the resources you will need to be successful.

7. Establish a reasonable timeline in which this can be accomplished. Base you plan's timeline on one school year.

8. Document your data to support your success, progress, or challenges for each activity.

9. Determine whether your activity work impacted your overall goal.

10. Remember that progress takes time and start small. Once you are comfortable with the planning process consider embedding family-school-community partnerships into all of your school improvement goals for maximum impact.
