# PARENT INVOLVEMENT COORDINATOR

# SPOTLIGHT

The Georgia Department of Education's Parent Engagement Program strives to highlight the important and extraordinary work Parent Involvement Coordinators (PICs) and other parent professionals are doing in support of Title I parental involvement across the state. Each month during the school year, a PIC is featured in the "PIC Spotlight", which is an announcement bulletin that is shared with the entire PIC Network on the Georgia PIC Network Blog. Additionally, this individual is included in the "PIC Spotlight Book", which is a collection of past honorees featuring their innovative practices that is available on the Parent Engagement Program Website.

Individuals are selected based on the progress they have made with parent engagement initiatives in their school, district, and/or community. To be considered, please address the following in your story submission:

- What makes this practice unique and successful in your school, district, and/or community?
- How did you create and implement this initiative?
- How has this practice helped your school community address various family needs in addition to helping parents stay involved in their children's education?
- What were the outcomes? How did this practice strengthen the learning goals that teachers have for students and help achieve these goals?

Please share your story today by completing this form and returning it to a member of the Parent Engagement Program staff before leaving the meeting.

You may also submit stories for the PIC Spotlight at any time throughout the year. Stories can be submitted on the PIC Network Blog using the "**Have A Parent Engagement Story?**" link under the Share Your Success! tab. Individuals selected to appear in the PIC Spotlight will be contacted by Nate Schult, Parent Engagement Specialist, in order to gather additional details including possible pictures for their story**!**
