Student Assessment

Assessment Tool -- DIBELS (Dynamic Indicators of Basic Early Literacy)

- DIBELS Oral Reading Fluency (DORF) is a measure of advanced phonics and word attack skills, accurate and fluent reading of connected text, and reading comprehension.
  - Example

One Birthday for All

	Every family has traditions. Traditions are things
7	people do year after year. Beth King's family has many
17	traditions they celebrate, but Beth's favorite tradition is
25	about birthdays.
27	Because Beth has so many aunts, uncles and
35	cousins, it is impossible to celebrate each birthday.
43	So once a year, on the third Saturday in July, Beth's
54	relatives have one big birthday celebration for
61	everyone. The adults stay at Beth's grandparents'
68	house. The children sleep in tents on the lawn.
77	Everyone brings food and every meal is a feast.
86	The cousins play soccer. Grandpa and the uncles sit
95	on the wide porch and drink homemade lemonade.
103	The aunts have a softball game. Everyone roots for
112	a favorite team.
115	Afterwards, everyone eats hamburgers and fresh
121	corn. At the end, Grandma brings out a big frosted cake.
132	Every year, after the family birthday celebration,
139	Beth goes to bed and starts thinking about next year's
149	birthday party. 151
