

GO-IEP has many reports available to provide information to system administrators, school administrators and case managers. All reports can be downloaded as an Excel file.

Reports available to System Admins, School Admins, and Case Managers

Each of the following reports available within GO-IEP can be generated for the entire school district, by schools or by Case Manager.

Student Reports

The screenshot shows a web interface for selecting report criteria. At the top, a blue bar contains a dropdown menu labeled 'Report Search Criteria' with a downward arrow. Below this is a dark blue header 'Search Criteria'. The main area has a 'Reports:' label followed by a dropdown menu showing 'Students By Case Load'. Below that is a grey header 'Search Students By Case Load'. On the left, there are three dropdown menus: 'System:' with 'County' selected, 'Schools:' with 'All Schools' selected, and 'Case Manager:' with 'ALL' selected. To the right of these are eight radio button options, each with a red circular icon containing a letter: A (selected), B, C, D, E, F, G, and H. The options are: 'IEP Due', 'IEP Due in 1 Months', 'Eligibility Due', 'Eligibility Due in 1 Months', 'GAA Student', 'Disability', 'Interpreter Language', and 'Pending Evaluations'. At the bottom right, there are two buttons: 'Clear Selection' and 'Show Student Information'.

A. IEP Due: A report will be generated for students whose IEP is overdue.

This report will help system and school administrator, as well as case managers, determine whether any student has an IEP which is overdue for review.

B. IEP Due in () Months: A report will be generated providing a list of students with IEPs that will be due for review in the selected number of months.

This report will help system and school administrator, as well as case managers, monitor students with current IEPs that will be due in the designated number of months.

C. Eligibility Due: Reports will be generated for Students whose Eligibility is overdue.

This report will help system and school administrator, as well as case managers, determine whether any student has an eligibility report which is overdue for reevaluation.

D. Eligibility Lapse in () Months: Reports will be generated for students whose Eligibility will be due for reevaluation in selected number of months.

This report will help system and school administrator, as well as case managers, monitor students with current eligibilities that will be due in the designated number of months.

E. GAA Student:

This report will help system and school administrator, as well as case managers, monitor all students whose active IEP indicates they will participate in GAA.

F. Disability:

This report will help system and school administrator, as well as case managers, generate a list of all students with active IEP indicating each student's primary disability area.

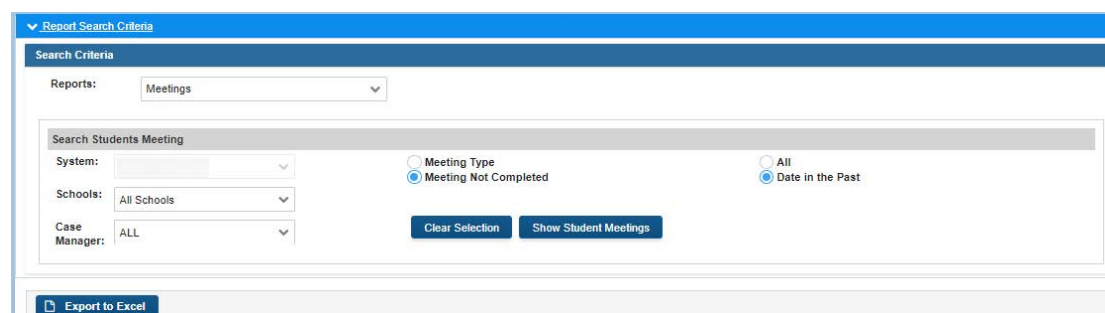

G. Interpreter Language:

This report will provide a list of all students with a parent that has a primary language other than English.

H. Pending Evaluations:

This report will help system and school administrators, as well as case managers monitor students with an active consent to evaluate.

Meeting Reports

The screenshot shows a web interface for searching meeting reports. At the top, there is a blue header with a dropdown menu labeled 'Report Search Criteria'. Below this is a 'Search Criteria' section with a 'Reports:' dropdown menu set to 'Meetings'. A 'Search Students Meeting' section contains several filters: 'System:' (dropdown), 'Schools:' (dropdown set to 'All Schools'), and 'Case Manager:' (dropdown set to 'ALL'). To the right of these are radio buttons for 'Meeting Type' (selected), 'Meeting Not Completed', and 'All'. Below the radio buttons are two buttons: 'Clear Selection' and 'Show Student Meetings'. At the bottom left, there is an 'Export to Excel' button.

Meeting Type

This report will allow users to choose a type of meeting (i.e. initial eligibility, initial IEP, redetermination) and generate a list of all the meetings that have occurred to date of that type.

Meeting Not Completed

This report will generate a list of all meetings that are currently in process (not finalized). It can be generated to report for all meetings in process or all meetings in process with a meeting date in the past.

Reports:

IEP Services

System:

Schools:

Case Manager:

State Testing Accommodations
 ESY
 Goals
 Student Services
 Special Consideration
 Transportation
 Math Rubric
 No Transition Plan (8th/9th graders)
 Student Supports

State Testing Accommodations:

This report will help system and school administrators, as well as case managers, determine the IEP driven accommodations for state-required assessments for all students listed in the report.

This report can be used to assist testing coordinators with grouping of students and allow systems to ensure that appropriate accommodations are provided.

ESY:

This report will help system and school administrators, as well as case managers, determine all students whose active IEP indicates that the ESY decision was deferred (and the IEP still needs to be amended to make the ESY decision) as well as those students who will receive ESY services.

Goals:

This report will help system and school administrators, as well as case managers monitor all the goals on the active IEP for all students listed in the report.

Student Services:

This report will help system and school administrator, as well as case managers, determine all services listed in the active IEP for all students listed in the report.

This report could be used to compare IEP services to a student's schedule at the beginning of every school year or semester. This report will also be helpful during FTE reporting periods.

Special Considerations: See the Special Considerations section under the IEP Reports section for further information

Transportation:

This report lists all the students with special transportation listed on their active IEP. This report also contains parent name, phone number, address and any notes that will assist in transportation such as wheelchair lift or AC bus.

Math Rubric:

This report lists all the students for whom the math rubric was considered.

No Transition Plan (8th/9th graders):

This report lists students that do not have a transition plan in 8th or 9th grade.

Student Services:

This report will help system and school administrators, as well as case managers, determine the IEP driven accommodations that should be delivered during classroom instruction and testing.

Reports available to only System Admins

In addition to the reports listed above, GO-IEP has several reports available for system administrators that will assist in state reporting.

Student Record Extract

This report is available as an Extract as well as Excel format. It will provide GO-IEP system administrators and SIS managers with a report all the Student Records events that have occurred during the school year and need to be reported during Student Record.

FTE Submission Report

This report will provide GO-IEP system administrators and SIS managers all information collected within GOIEP needed for FTE submission in a single report. This report can be downloaded as an Excel document or as an extract (for Infinite Campus and PowerSchool). The extract is the version that should be imported. Through this report, SIS managers can import the data into the system's SIS and system administrators can check the data for accuracy.

Timelines Report

This report will provide GO-IEP system administrators with a list of all students for whom your district has an initial evaluation or BCW transition created in GO dated between July 1 and June 30 of the school year for which Timelines are being reported. It will allow the entry of the explanation for the delay for any completed late, and generate a summary report that can then be used to enter the data into the state portal.
