## LDS ROLE error

Resolution: Assign an approved Role or Confirm the ROLE has been "provisioned" on the DOE side. Appears that the user has an LDS ROLE that has not been provisioned on the DOE side. This could be because the Profile Manager or "Super User" has created a ROLE inside of SIS, but that ROLE has not been provisioned on the DOE side.

Richard Woods,  
Georgia's School Superintendent  
"Educating Georgia's Future"  
[gadoe.org](http://gadoe.org)

## ***To add new Roles to access LDS***

***New Roles will need to be added to your SIS.  
However your SIS makes this available.***

***Now a "Super User " will have the ability &  
requirement to add that New Role in the "Profile  
Manager".***

Richard Woods,  
Georgia's School Superintendent  
"Educating Georgia's Future"  
[gaDOE.org](http://gaDOE.org)

***Only One USER Role is able to access the Profile Manager.***

***User Role must have the label/token as **D5U** – this is the field that is passed via the tunnel.***

***As the **D5U** user – the only application available is the Profile Manager.***

Here is an Example: a QR code is merely a series of spots and squares- unless on the other side some one has matched that QR code to a specific item.

Richard Woods,  
School Superintendent  
"Georgia's Future"  
[gadoe.org](http://gadoe.org)

**OPTIONAL!**

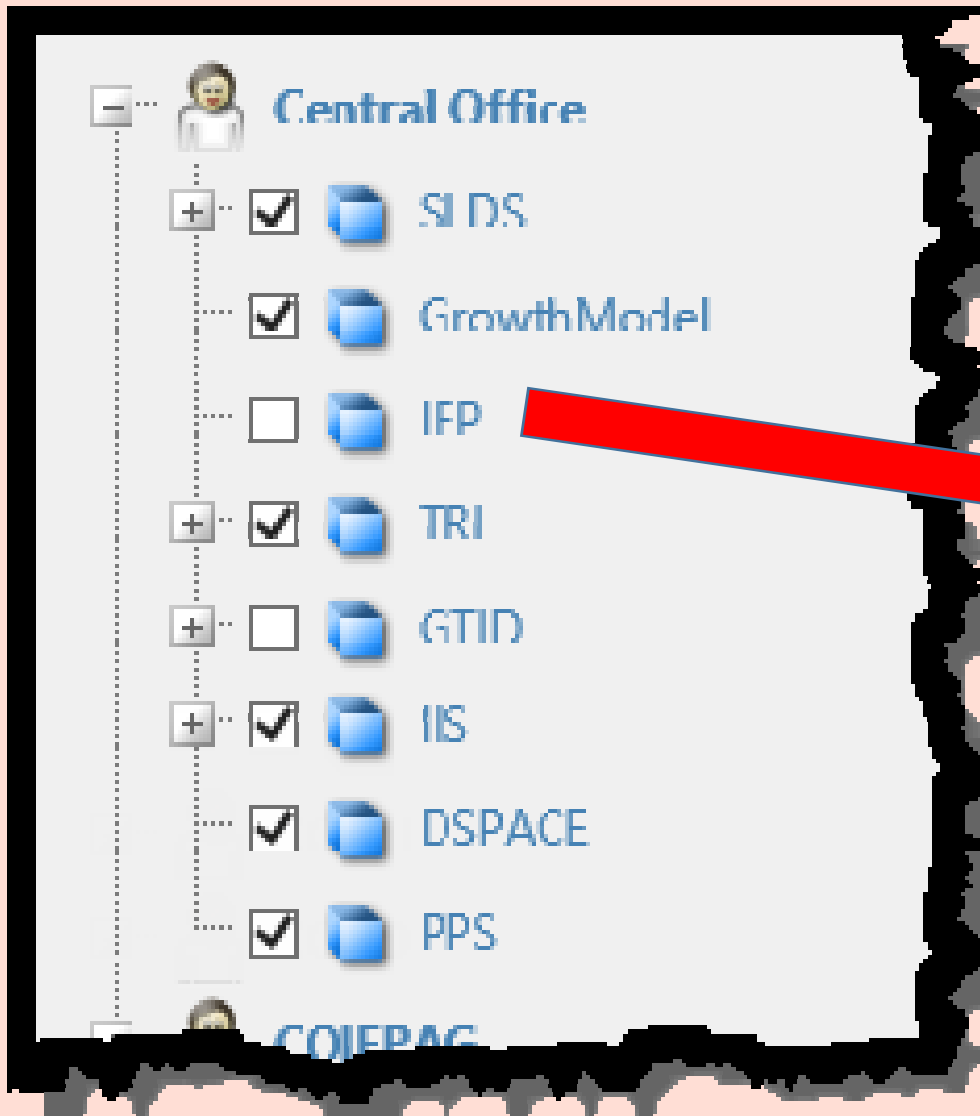

## Examples of why you could use this.

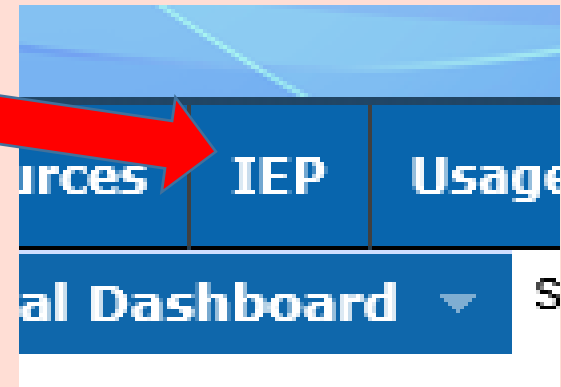

- You may want to create a ROLE to provide access to GUIDE.
- You may want to create a ROLE to prevent the user from seeing Growth Model.
- You may want to create a ROLE to allow access to the High School Feedback report
