

TESTING BRIEF
Spring 2012 Georgia Criterion-Referenced Competency Tests
In Reading, English/Language Arts, Mathematics, Science, and Social Studies
April 2 -May 4, 2012

Georgia law (O.C.G.A. §20-2-281) mandates that a curriculum-based assessment be administered to students to measure the required state curriculum. These tests, referred to as Georgia Criterion-Referenced Competency Tests (CRCT), in Reading, English/Language Arts and Mathematics are administered annually to students in grades one through eight. Students in grades three through eight are also tested in Science and Social Studies. In 2001, the Georgia Academic Placement and Promotion Policy was passed enacting O.C.G.A. Sections 20-2-282 through 20-2-285. O.C.G.A. Section 20-2-283 states that no third grade student will be promoted to the fourth grade if the student does not achieve grade level performance on the third grade CRCT in Reading and no fifth or eighth grade student will be promoted to the next grade if the student does not achieve grade level performance on the CRCT in Reading and Mathematics.

The CRCT assess a sample of the knowledge and skills that educators agree comprise a complete curriculum for each grade level. Georgia students have opportunities to learn – and are expected to master – much more than the tests address. The Georgia Performance Standards (GPS) are the source of the knowledge and skills assessed on these tests beginning in 2006. Grades and subjects were phased in according to the state’s plan for transitioning to the GPS.

Beginning in 2011, Georgia launched a special version of the CRCT for students with disabilities who met specific eligibility criteria based on federal guidance. The Criterion-Referenced Competency Tests - Modified (CRCT-M) are alternate assessments based on modified achievement standards. Certain enhancements are made to the original CRCT items and the test as a whole to make the CRCT-M more accessible for eligible students with disabilities so that they could better demonstrate what they have learned. The CRCT-M are available in grades 3 through 8 in Reading, English Language Arts, and Mathematics. Students are determined to be eligible by content area; this means that a student may be eligible to participate in one content area but not another. Students must take the CRCT in any content area for which they do not meet the CRCT-M eligibility criteria. The implementation of the CRCT-M impacts longitudinal comparisons for the students with disabilities subgroup. Because the CRCT-M are not available in Science and Social Studies, longitudinal comparisons in these content areas are not affected; all students must take the CRCT in these two content areas.

Due to budgetary constraints, the CRCT in grades 1 and 2 were not administered in the 2011-2012 school year.

KEY FINDINGS – GRADE 3

Reading, English/Language Arts, Mathematics, Science, and Social Studies

- Ninety-one percent (91%), 91%, and 81% of Georgia's third grade students met or exceeded the standard for Reading, English/Language Arts, and Mathematics, respectively. Seventy-eight percent (78%) and 81% of third grade students met or exceeded the standard for Science and Social Studies, respectively.
- When comparing 2012 performance to 2011, the percent of students meeting or exceeding the standard increased by 2 percentage points in English/Language Arts. The percent of students meeting or exceeding the standard in Reading, Mathematics and Social Studies remained the same, and decreased by 2 percentage points in Science.
- When comparing 2012 performance to 2011, the percent of students exceeding the standard in Reading, English/Language Arts, Mathematics, Science, and Social Studies increased by 7, 3, 3, 3, and 4 percentage points, respectively.

KEY FINDINGS – CLOSING THE GAP GRADE 3

- In Reading, the achievement gap between Hispanic and White students has narrowed to a six (6) percentage point gap from a fourteen (14) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of White students has increased by four (4) percentage points since 2007 while the performance of Hispanic students has increased by twelve (12) percentage points.
- In Reading, the achievement gap between ELL and All Students has narrowed to an eight (8) percentage point gap from a twenty-six (26) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of All Students has increased by six (6) percentage points since 2007 while the performance of ELL students has increased by twenty-four (24) percentage points.
- In English/Language Arts, the achievement gap between ELL and All Students has narrowed to a six (6) percentage point gap from a twenty-six (26) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of All Students has increased by five (5) percentage points since 2007 while the performance of ELL students has increased by twenty-five (25) percentage points.
- In Science, the achievement gap between ELL students and All Students has narrowed to a thirteen (13) percentage point gap from a thirty-six (36) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of All Students has increased by eight (8) percentage points since 2007 while the performance of ELL students has increased by thirty-one (31) percentage points.
- In Science, the achievement gap between Hispanic and White students has narrowed to a thirteen (13) percentage point gap from a twenty-five (25) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of White students has increased by four (4) percentage points since 2007 while the performance of Hispanic students has increased by sixteen (16) percentage points.

KEY FINDINGS – GRADE 4

Reading, English/Language Arts, Mathematics, Science, and Social Studies

- Ninety percent (90%), 91%, and 80% of Georgia’s fourth grade students met or exceeded the standard for Reading, English/Language Arts, and Mathematics, respectively. Eighty-one percent (81%) and 78% of fourth grade students met or exceeded the standard for Science and Social Studies, respectively.
- When comparing 2012 performance to 2011, the percent of students meeting or exceeding the standard increased by 2 percentage points in Reading, 3 percentage points in English/Language Arts, 2 percentage points in Science, and 1 percentage point in Social Studies. The percent of students meeting or exceeding the standard in Mathematics decreased by 1 percentage point.
- When comparing 2012 performance to 2011, the percent of students exceeding the standard in Reading, English/Language Arts, Science, and Social Studies increased by 6, 1, 4, and 2 percentage points, respectively. The percent of students exceeding the standard in Mathematics remained the same.

KEY FINDINGS – CLOSING THE GAP GRADE 4

- In Reading, the achievement gap between ELL students and All Students has narrowed to a sixteen (16) percentage point gap from a twenty-nine (29) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of All Students has increased by five (5) percentage points since 2007 while the performance of ELL students has increased by eighteen (18) percentage points.
- In English/Language Arts, the achievement gap between ELL students and ALL Students has narrowed to a fourteen (14) percentage point gap from a twenty-seven (27) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of All Students has increased by seven (7) percentage points since 2007 while the performance of ELL students has increased by twenty (20) percentage points.
- In Science, the achievement gap between ELL students and All Students has narrowed to a twenty-four (24) percentage point gap from a thirty-six (36) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of All Students has increased by nine (9) percentage points since 2007 while the performance of ELL students has increased by twenty-one (21) percentage points.
- In Science, the achievement gap between Hispanic and White students has narrowed to an eleven (11) percentage point gap from a twenty-five (25) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of White students has increased by four (4) percentage points since 2007 while the performance of Hispanic students has increased by eighteen (18) percentage points.

KEY FINDINGS – GRADE 5

Reading, English/Language Arts, Mathematics, Science, and Social Studies

- Ninety-one percent (91%), 94%, and 84% of Georgia's fifth grade students met or exceeded the standard for Reading, English/Language Arts, and Mathematics respectively. Seventy-eight percent (78%) and 77% of fifth grade students met or exceeded the standard for Science and Social Studies, respectively.
- When comparing 2012 performance to 2011, the percent of students meeting or exceeding the standard increased by 1 percentage point in English/Language Arts, 1 percentage point in Science, and 6 percentage points in Social Studies. The percent of students meeting or exceeding the standard remained the same for Reading and decreased by 3 percentage points in Mathematics.
- When comparing 2012 performance to 2011, the percent of students exceeding the standard in English/Language Arts, Science, and Social Studies increased by 5, 4, and 1 percentage point, respectively. The percentage of students exceeding the standard decreased by 2 points in Reading and 5 points in Mathematics.

KEY FINDINGS – CLOSING THE GAP GRADE 5

- In English/Language Arts, the achievement gap between ELL students and All Students has narrowed to a thirteen (13) percentage point gap from a twenty-nine (29) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of All Students has increased by six (6) percentage points since 2007 while the performance of ELL students has increased by twenty-two (22) percentage points.
- In Mathematics, the achievement gap between Hispanic students and White students has narrowed to a six (6) percentage point gap from a thirteen (13) percentage point gap in 2008, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of White students has increased by ten (10) percentage points since 2008 while the performance of Hispanic students has increased by seventeen (17) percentage points.
- In Science, the achievement gap between Black students and White students has narrowed to a twenty-two (22) percentage point gap from a thirty-two (32) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of White students has increased by six (6) percentage points since 2007 while the performance of Black students has increased by sixteen (16) percentage points.
- In Science, the achievement gap between Hispanic students and White students has narrowed to a thirteen (13) percentage point gap from a twenty-eight (28) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of White students has increased by six (6) percentage points since 2007 while the performance of Hispanic students has increased by twenty-one (21) percentage points.

KEY FINDINGS – GRADE 6

Reading, English/Language Arts, Mathematics, Science, and Social Studies

- Ninety-six percent (96%), 92%, and 80% of Georgia's sixth grade students met or exceeded the standard for Reading, English/Language Arts, and Mathematics, respectively. Seventy-three percent (73%) of sixth grade students met or exceeded the standard in both Science and Social Studies.
- When comparing 2012 performance to 2011, the percent of students meeting or exceeding the standard increased by 2 percentage points in Reading, 1 percentage point in English/Language Arts, 4 percentage points in Mathematics, 2 percentage points in Science, and 1 percentage point in Social Studies.
- When comparing 2012 performance to 2011, the percent of students exceeding the standard in Reading, Mathematics, Science, and Social Studies increased by 6, 2, 4, and 4 percentage points, respectively. The percentage of students exceeding the standard remained the same for English/Language Arts.

KEY FINDINGS – CLOSING THE GAP GRADE 6

- In Reading, the achievement gap between ELL students and All Students has narrowed to a thirteen (13) percentage point gap from a twenty-four (24) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of All Students has increased by seven (7) percentage points since 2007 while the performance of ELL students has increased by eighteen (18) percentage points.
- In Mathematics, the achievement gap between Hispanic students and White students has narrowed to a nine (9) percentage point gap from a twenty (20) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of White students has increased by ten (10) percentage points since 2007 while the performance of Hispanic students has increased by twenty-one (21) percentage points.
- In Mathematics, the achievement gap between Black students and White students has narrowed to a seventeen (17) percentage point gap from a twenty-seven (27) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of White students has increased by ten (10) percentage points since 2007 while the performance of Black students has increased by twenty (20) percentage points.
- In Science, the achievement gap between Hispanic students and White students has narrowed to a fourteen (14) percentage point gap from a twenty-six (26) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of White students has increased by nine (9) percentage points since 2007 while the performance of Hispanic students has increased by twenty-one (21) percentage points.

KEY FINDINGS – GRADE 7

Reading, English/Language Arts, Mathematics, Science, and Social Studies

- Ninety-four percent (94%), 93%, and 91% of Georgia’s seventh grade students met or exceeded the standard for Reading, English/Language Arts, and Mathematics, respectively. Eighty-five percent (85%) and 78% of seventh grade students met or exceeded the standard for Science and Social Studies, respectively.
- When comparing 2012 performance to 2011, the percent of students meeting or exceeding the standard increased by 3 percentage points in Reading, 2 percentage points in Mathematics, and 3 percentage points in both Science and Social Studies. The percentage of students meeting or exceeding the standard in English/Language Arts remained the same.
- When comparing 2012 performance to 2011, the percent of students exceeding the standard in Reading, English/Language Arts, Mathematics, Science, and Social Studies increased by 3, 5, 6, 6, and 4 percentage points, respectively.

KEY FINDINGS – CLOSING THE GAP GRADE 7

- In Reading, the achievement gap between ELL students and All Students has narrowed to a twenty-three (23) percentage point gap from a forty (40) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of All Students has increased by nine (9) percentage points since 2007 while the performance of ELL students has increased by twenty-six (26) percentage points.
- In Reading, the achievement gap between Hispanic students and White students has narrowed to a four (4) percentage point gap from a fifteen (15) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of White students has increased by five (5) percentage points since 2007 while the performance of Hispanic students has increased by sixteen (16) percentage points.
- In English/Language Arts, the achievement gap between ELL students and All Students has narrowed to a twenty-two (22) percentage point gap from a thirty-seven (37) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of All Students has increased by four (4) percentage points since 2007 while the performance of ELL students has increased by nineteen (19) percentage points.
- In Mathematics, the achievement gap between ELL students and All Students has narrowed to an eighteen (18) percentage point gap from a twenty-nine (29) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of All Students has increased by seventeen (17) percentage points since 2007 while the performance of ELL students has increased by twenty-eight (28) percentage points.

KEY FINDINGS – CLOSING THE GAP GRADE 7 (CONTINUED)

- In Mathematics, the achievement gap between Hispanic students and White students has narrowed to a four (4) percentage point gap from a fifteen (15) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of White students has increased by eleven (11) percentage points since 2007 while the performance of Hispanic students has increased by twenty-two (22) percentage points.
- In Mathematics, the achievement gap between Black students and White students has narrowed to a nine (9) percentage point gap from a twenty-two (22) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of White students has increased by eleven (11) percentage points since 2007 while the performance of Black students has increased by twenty-four (24) percentage points.
- In Science, the achievement gap between ELL students and All Students has narrowed to a thirty (30) percentage point gap from a thirty-eight (38) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of All Students has increased by fifteen (15) percentage points since 2007 while the performance of ELL students has increased by twenty-three (23) percentage points.

KEY FINDINGS – GRADE 8

Reading, English/Language Arts, Mathematics, Science, and Social Studies

- Ninety-six percent (96%), 95%, and 77% of Georgia's eighth grade students met or exceeded the standard for Reading, English/Language Arts, and Mathematics, respectively. Seventy-four percent (74%) and 77% of eighth grade students met or exceeded the standard in Science and Social Studies, respectively.
- When comparing 2012 performance to 2011, the percent of students meeting or exceeding the standard increased by 2 percentage points in English/Language Arts, 7 percentage points in Science, and 4 percentage points in Social Studies. The percent of students meeting or exceeding the standard remained the same in Reading, and decreased by 1 percentage point in Mathematics.
- When comparing 2012 performance to 2011, the percent of students exceeding the standard in Reading, Science, and Social Studies increased by 4, 1, and 3 percentage points, respectively. The percent of students exceeding the standard decreased by 3 percentage points in English/Language Arts and remained the same in Mathematics.

KEY FINDINGS – CLOSING THE GAP GRADE 8

- In Reading, the achievement gap between ELL students and All Students has narrowed to a twenty-four (24) percentage point gap from a thirty-nine (39) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of All Students has increased by seven (7) percentage points since 2007 while the performance of Hispanic students has increased by twenty-two (22) percentage points.
- In English/Language Arts, the achievement gap between ELL students and All Students has narrowed to a twenty-two (22) percentage point gap from a forty-two (42) percentage point gap in 2007, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of All Students has increased by seven (7) percentage points since 2007 while the performance of Hispanic students has increased by twenty-seven (27) percentage points.
- In Mathematics, the achievement gap between Hispanic students and White students has narrowed to a ten (10) percentage point gap from an eighteen (18) percentage point gap in 2008, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of White students has increased by twelve (12) percentage points since 2008 while the performance of Hispanic students has increased by twenty (20) percentage points.
- In Mathematics, the achievement gap between Black students and White students has narrowed to a nineteen (19) percentage point gap from a twenty-four (24) percentage point gap in 2008, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of White students has increased by twelve (12) percentage points since 2008 while the performance of Black students has increased by seventeen (17) percentage points.

KEY FINDINGS – CLOSING THE GAP GRADE 8 (CONTINUED)

- In Social Studies, the achievement gap between Hispanic students and White students has narrowed to a twelve (12) percentage point gap from a twenty-eight (28) percentage point gap in 2008, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of White students has increased by thirteen (13) percentage points since 2008 while the performance of Hispanic students has increased by twenty-nine (29) percentage points.
- In Social Studies, the achievement gap between Black students and White students has narrowed to a twenty-one (21) percentage point gap from a twenty-nine (29) percentage point gap in 2008, in terms of the percent of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing because the performance of White students has increased by thirteen (13) percentage points since 2008 while the performance of Black students has increased by twenty-one (21) percentage points.

OVERALL FINDINGS - SPECIAL POPULATIONS

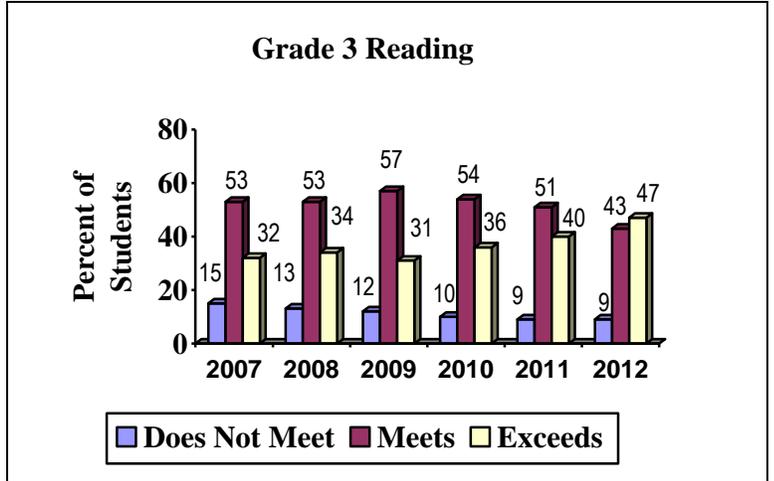

- When comparing 2012 performance to 2011, English Language Learner (ELL) students improved achievement by one or more percentage points in 27 of the 30 grade/content area tests that are comparable (grades 1 and 2 are not included this year). English Language Learners experienced one-year gains greater than 5 percentage points in the following areas:
 - Grade 3 English/Language Arts;
 - Grade 4 English/Language Arts;
 - Grade 5 Social Studies;
 - Grade 6 Reading;
 - Grade 7 Reading, Science, and Social Studies; and,
 - Grade 8 English/Language Arts, Science, and Social Studies.
- Prior to 2011, performance gains of Students with Disabilities (SWD) have been highlighted in this section of the brief as well as performance gains of ELL students. However, with the implementation of the CRCT-M, an alternate assessment based on modified achievement standards for eligible SWD students, the population of SWD participating in the CRCT has significantly changed. Where all SWD took the CRCT in 2010 and years prior, a percentage of SWD students took the CRCT-M in 2011. This shift in the number of students belonging to the SWD subgroup makes CRCT longitudinal comparisons for the subgroup inappropriate in grades and content areas where the CRCT-M is available (Grades 3-8 in Reading, English/Language Arts and Math).
- When comparing 2012 performance to 2011 in Science and Social Studies, Students with Disabilities improved achievement by one or more percentage points in 8 of 12 grade/content combinations. Students with Disabilities experienced a one-year gain greater than 5 percentage points in grade 5 Social Studies.

KEY FINDINGS – GRADES 3, 5, AND 8 PROMOTION/RETENTION

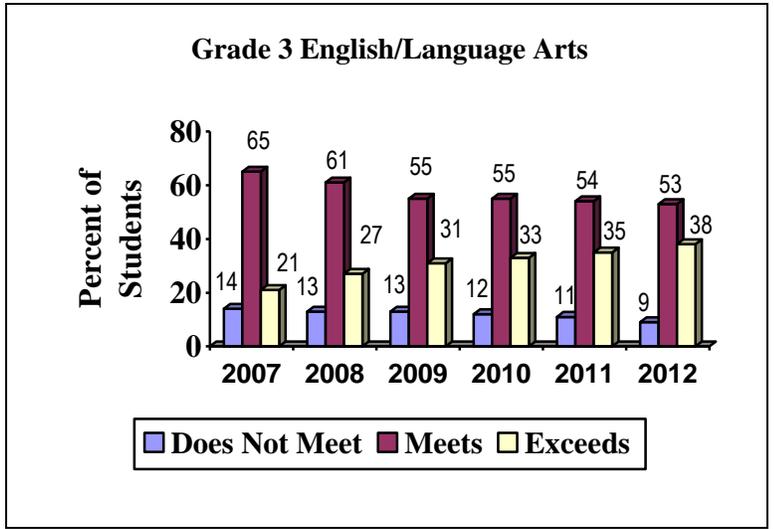

- Ninety-one percent (91%) of third grade students met or exceeded the standard in Reading. Nine percent (9%) of Georgia's third graders did not meet the standard and are therefore candidates for remediation and retention.
- Ninety-one percent (91%) of fifth grade students met or exceeded the standard in Reading while 84% met or exceeded the standard in Mathematics. Nine percent (9%) of the fifth grade students did not meet the standard in Reading, while 16% did not meet in Mathematics. Five percent (5%) of fifth grade students did not meet the standard in both Reading and Mathematics. Georgia's fifth graders who did not meet the standard in Reading and/or Mathematics are candidates for remediation and retention.
- Ninety-six percent (96%) of eighth grade students met or exceeded the standard in Reading while 77% met or exceeded the standard in Mathematics. Four percent (4%) of eighth graders did not meet the standard in Reading while 23% did not meet the standard in Mathematics. Three percent (3%) of eighth grade students did not meet the standard in both Reading and Mathematics. Georgia's eighth graders who did not meet the standard in Reading and/or Mathematics are candidates for remediation and retention.

Historical Performance of Georgia Students on the CRCT

Grade 3 Reading						
Performance Level	Percent of Students					
	07	08	09	10	11	12
Does Not Meet	15	13	12	10	9	9
Meets	53	53	57	54	51	43
Exceeds	32	34	31	36	40	47

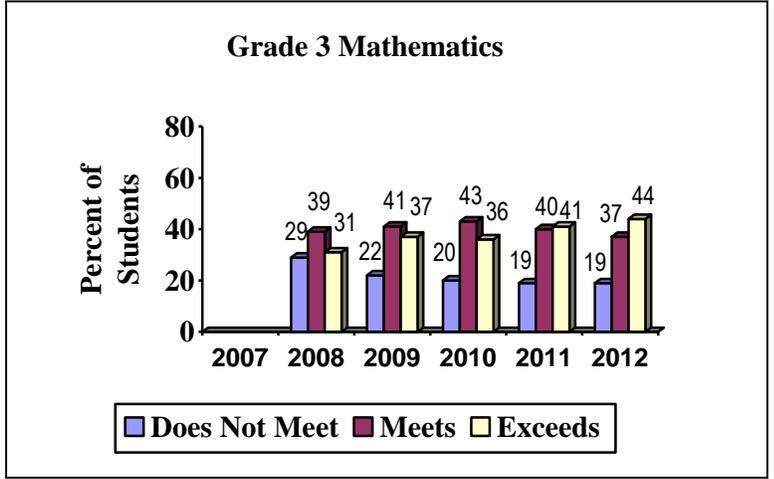

Grade 3 English/Language Arts						
Performance Level	Percent of Students					
	07	08	09	10	11	12
Does Not Meet	14	13	13	12	11	9
Meets	65	61	55	55	54	53
Exceeds	21	27	31	33	35	38

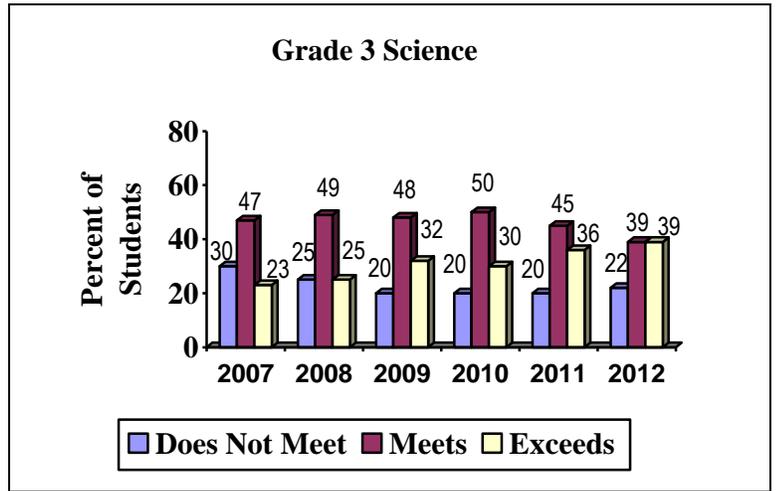

Grade 3 Mathematics						
Performance Level	Percent of Students					
	07	08	09	10	11	12
Does Not Meet	--	29	22	20	19	19
Meets	--	39	41	43	40	37
Exceeds	--	31	37	36	41	44

Beginning in 2008, scores are based on the GPS providing baseline data.

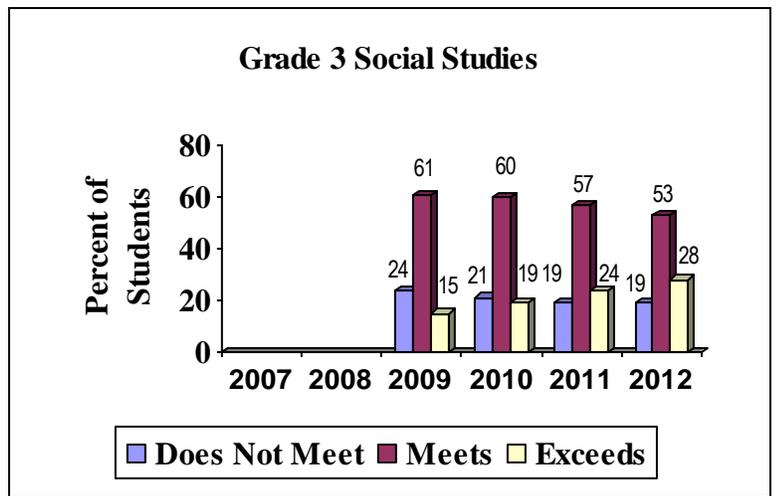

Historical Performance of Georgia Students on the CRCT

Grade 3 Science						
Performance Level	Percent of Students					
	07	08	09	10	11	12
Does Not Meet	30	25	20	20	20	22
Meets	47	49	48	50	45	39
Exceeds	23	25	32	30	36	39

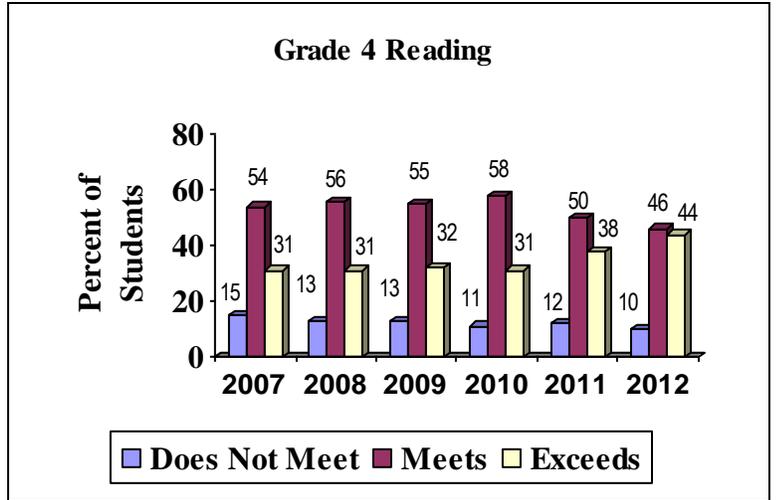

Grade 3 Social Studies
