CAPS

CAPS (Certification/Curriculum Assignment Policies System), created by Georgia Professional Standards Commission [Rule 505-2-.26 \(.pdf\)](#) ([requires Adobe Reader](#)) titled "IN-FIELD ASSIGNMENTS", is a web-based resource that aligns courses in the Georgia state-approved curriculum with the Georgia certificate(s) that are in-field to teach that course. The system allows a user to find a course and its appropriate certificates using four different search criteria: by choosing a subject area, entering a course number, entering an exact title or partial title, and/or choosing a grade level. CAPS also allow a user to choose a certificate field and display the courses that that specific certificate is in-field with.

Courses listed in CAPS are described in [Rule 160-4-2-.03 LIST OF STATE-FUNDED K-8 SUBJECTS AND 9-12 COURSES](#)" (.pdf) ([requires Adobe Reader](#)).

Choose or enter search criteria and click the Search button. Click the Clear button to start over.

Course Title: Exploring Public Safety and Government Education Grade 6

Course Description: This course serves as an introduction to a variety of public safety and government related occupations. Students will focus on the various careers in public safety and government. They will complete studies in the Georgia Public Safety System, emergency management organization, major historical events in law and justice, corrections, the private public services sector, the armed forces and disaster response. Regardless of career their choice, the purpose of the course is to prepare students to be productive citizens. Students will also receive real life insight from a variety of guest speakers and industry professionals, who will assist in the exploration of public safety. These professionals will give students insight on how to apply the techniques and strategies learned in class to real life. The class will survey each occupational field, study the requirements for the field, explore the associated training and responsibilities, and complete a journal or project on each career field.

CAPS AND NEW PATHWAYS COURSES

Some new courses must still be aligned with a field of certification or a new certificate field must be created

GaPSC and GaDOE collaborate to determine the certificate fields for each course

If a new field must be added a GaPSC rule must be initiated and adopted which is typically a six (6) month process
