

160-4-7-.14 PERSONNEL, FACILITIES AND CASELOADS
Summary of changes

The facilities section of this rule has been adjusted to clarify the requirements for a special education classroom and to prevent discriminatory practices of special education wings or other stigmatizing activities.

The Caseloads section has been changed to reflect the general class size/caseload rule. Previously, in both rules, there have been notes under the charts that describe exceptions. Each rule had different notes. We have incorporated those notes into the rules and made the chart the same for both rules.
