

Title I Distinguished and Reward Schools

The Distinguished Schools list will be run annually beginning in the Fall of 2018. Distinguished Schools (Title I Schoolwide) are eligible to apply for the National ESEA Distinguished Schools Program award sponsored by the National Association of ESEA State Program Administrators. Each state selects two (2) schools for this award; these two schools attend that national conference and are recognized during the conference. Additionally, each school receives award funds from Title I A to support participation in the national conference.

<i>Distinguished Schools</i>
Entrance Criteria
<ul style="list-style-type: none"> Title I Schools Only When ranked according to their most recent CCRPI single score, are among the highest performing schools that represent 5% of all Title I Schoolwide schools and 5% of all Title I Targeted Assistance schools eligible for identification. Schools identified for CSI or TSI support are not eligible.

The Reward Schools list will be run annually beginning in the Fall of 2019.

<i>Reward Schools</i>
Entrance Criteria
<ul style="list-style-type: none"> Title I Schools Only When ranked according to their rate of CCRPI single score improvement to 100* from the previous year to the current year, are among the greatest improving schools that represent 5% of all Title I Schoolwide schools and 5% of all Title I Targeted Assistance schools eligible for identification AND do not have greater than 50% red achievement flags for ED, EL, and SWD subgroups across all grade bands. Schools identified for CSI or TSI support and schools identified as Title I Distinguished Schools are not eligible.

*Rate of CCRPI single score improvement to 100 examples

	2018 CCRPI Single Score	Difference between 100 and 2018 CCRPI Single Score	2019 CCRPI Single Score	Difference between 2019 CCRPI Single Score and 2018 CCRPI Single Score	Rate of CCRPI Single Score Improvement
School A	70	$100 - 70 = 30$	75	$75 - 70 = 5$	$5/30 = 16.67\%$
School B	90	$100 - 90 = 10$	95	$95 - 90 = 5$	$5/10 = 50\%$
