

Shuffle the playing cards. Turn over enough numbers to fill in each blank for each example then work with your child to solve the equations.

$$\begin{array}{r} \times \\ \hline \end{array} \begin{array}{r} \\ \hline \end{array} = \begin{array}{r} \\ \hline \end{array}$$

$$\begin{array}{r} \times \\ \hline \end{array} \begin{array}{r} \\ \hline \end{array} = \begin{array}{r} \\ \hline \end{array}$$

$$\begin{array}{r} \times \\ \hline \end{array} \begin{array}{r} \\ \hline \end{array} = \begin{array}{r} \\ \hline \end{array}$$

$$\begin{array}{r} \times \\ \hline \end{array} \begin{array}{r} \\ \hline \end{array} = \begin{array}{r} \\ \hline \end{array}$$

$$\begin{array}{r} \times \\ \hline \end{array} \begin{array}{r} \\ \hline \end{array} = \begin{array}{r} \\ \hline \end{array}$$
