

I know My Facts

- Each player takes one die
- Both players roll the die at the same time
- Figure out what the product of the two numbers is (what you get if you multiply the two numbers together)
- The first person to call out the product gets one point
- Both players may keep track of their own points. Both players must write down each fact that is rolled
- **How to Win:** The player with the most points after 15 rolls is the winner

Alien Math

Directions:

- Place the ten playing cards face down on the table.
- Have your child pull two cards from the table
- Multiply the two cards together
- If answered correctly place give child a tally mark and place back facedown on the table.
- If incorrect go over the correct answer and place card back on the table.
- The activity is over after your child receive twenty tally marks. Practice 4 times per week.
