

The TLSD team will offer Electronic Platform training sessions at various locations as the transition is made from Performance Matters to the Student Longitudinal Data System (SLDS). SLDS will house all TKES and LKES evaluations beginning on July 1, 2018. For information regarding these additional trainings, see link provided below.

On May 4, 2018, **Georgia's Induction Summit 2018: Attaining New Heights in Teacher and Principal Induction** through Teacher and Leader Effectiveness will feature general sessions and breakout sessions at Middle Georgia State University in Macon, Georgia. This year's summit themes will provide presentations, resources and networking opportunities through four lens: attracting, preparing, recruiting and retaining effective teachers and leaders. For registration information, see link provided below.

Each year the TLSD Platform team creates a presentation to dig a bit deeper into a component of the TLSD Platform. Based on the feedback received at the Data Conference "Deeper Dive" presentation this year, the TLSD Team reconfigured the presentation and tailored it to meet the needs of districts. The TLSD Platform team reached out to districts to see how they were using the TLSD Platform to capture data and how they utilized the data in their districts. The team looked at the research effective data literacy practices in order to show districts how to extrapolate and analyze their TLE Platform data so that districts can make high stake decisions. During this presentation we will show districts how to:

- See Trends Across Multiple Years
- Treat Formative Data like it is Summative Data
- Subgroup Level III Ratings
- Identify Knowledge Gaps across District Subgroups
- Identify if Teacher Needs are being met based on Self-Assessment and Summative Data
- Organize Data into quick, readable reports

For additional information or if you would like to schedule this in your district, contact Melinda Moe (mmoe@doe.k12.ga.us).

The annual **Federal Programs Conference** is an opportunity for federal grant administrators to learn about administrative updates, best practices, innovative initiatives, and explore the impact on student achievement results. For registration information, see link provided below:

THE NEW TKES/LKES ELECTRONIC PLATFORM

Coming
July 2018

A New TKES/LKES Platform to Meet Your Needs!

IN RESPONSE TO YOUR FEEDBACK

IMPROVEMENTS

- SINGLE SIGN-ON THROUGH SLDS
- STREAMLINED VIEW
- INCREASED FUNCTIONALITY
- USER-FRIENDLY
- CONTINUED DATA PROTECTION
- BETTER DATA DASHBOARDS AND DISPLAYS
- MOBILE COMPLIANT

Beginning in July 2018, the TLSD Electronic Platform will be moving into the Statewide Longitudinal Data System (SLDS). Two focus groups of school and district users were convened to provide feedback and guide revisions.

Their input kept the look and feel very similar while streamlining the functionality, reducing the number of clicks, and ensuring a more intuitive, user-friendly experience. A pilot will be conducted in early spring to ensure a smooth statewide rollout in July. Beginning in June, all 16 RESAs will participate in scheduled update training.

TLSD would like to thank GaDOE's Technology Services Department for their tireless work, engagement, and support. It has truly been a team effort.

Single Sign-on Through SLDS

- Sign into Student Information System (SIS) via the Statewide Longitudinal Data System (SLDS) without an additional sign-in

Personalized Professional Learning

- Competency badging and completion seals
- Updated search functionality
- Updated graphics

PSC Recertification Support

- Resource toolkit will be available
- PLC Forum capability

GEORGIA INDUCTION SUMMIT 2018

ATTAINING NEW HEIGHTS:
attracting, preparing, recruiting, and retaining

FRIDAY, MAY 4, 2018 | 8:00 a.m.–3:30 p.m.
