New or Changed Information

- All words following the word **“NOTE”**: provide further information about the data element and validations.
- All words that appear **BOLD AND ALL CAPS** identify a FTE Data Element.
- All words that appear in ***Bold and Italics*** identify a DOE web application.
- All letters or numbers appearing within ‘single quotes’ identify a valid value for a particular data element.

Definitions

- 1. Active**
 - An active record for a student is a record in which the **WITHDRAWAL REASON** and the **WITHDRAWAL DATE** are BLANK.
- 2. Inactive**
 - Refers to a student that has withdrawn from school. This is indicated by a **WITHDRAWAL REASON** and **WITHDRAWAL DATE** having a valid value along with the **STATUS = ‘W’**
- 3. No-show**
 - Refers to a student who started the enrollment process but subsequently did not attend the school. This is indicated by an appropriate **WITHDRAWAL REASON** and a **WITHDRAWAL DATE** of **06/16/2013** (the previous fiscal year date/year is used to identify no-shows).
- 4. Edit**
 - An integrity and a validity test on data transmitted. There are two types of edits: errors or warnings.
- 5. Error**
 - A type of edit that causes a record to be rejected and not processed. An error message is generated and provides the reason the data did not pass the edit.
- 6. Warnings**
 - A type of edit that causes a record to be accepted and processed, but the data are flagged because of verification purposes. A warning message is generated that provides the reason the data was flagged.

Acronyms

ESOL - English to Speakers of Other Languages
GDOE - Georgia Department of Education
IEP - Individualized Education Program
EL – English Learner (formerly ELL)
PSO - Post Secondary Option
SBOE - State Board of Education

NOTE: The table in Appendix A is used for age validation purposes only. This table does not have any relation to age ranges or limitations for program requirements, and should not be used to determine whether a student should be promoted or retained based on age. The table was developed to establish boundaries for error checking as it relates to individual student age. EX: These ranges would prevent a 6-year-old student from being reported as a high school graduate. Another example of how this table is used is to prevent a 9-year-old student from being reported as withdrawing to enlist in the military.
