GNETS Students, Schedules & Teachers

Example County uses PowerSchool as the Student Information System and uploads the Student Class file on a daily basis.

School Creation

Create a GNETS Program "school" in PowerSchool by navigating to: *District -> Schools/Schools Info -> Click "New" School* if you do not already have one.

Dowers	chool		Welcome, Help Sign Out				
e rowers	cricor		School: District Office Term: Y17 Year				
Start Page > District Setup	> Schools/School Info > Edit School		e 1º 🖕				
Functions Attendance	Edit School						
Enrollment Summary	School Information						
Dashboard	School Name						
Special Functions	School Abbreviation	Enter the	(example: FHS)				
Georgia LDS Alert Solutions 2	Is a Summer School	appropriate fields	Checking this will allow the school to show up in the student "Summer School Indicator" drop-down and will change how the year term number is identified for years starting after July 1.

PowerLunch	Exclude From State Reporting?						
PS Administrator	Grades		- (lowest - highest)				
PT Administrator ReportWorks Developer	Historical Grade Levels (only historical data in this ra GPAs, graduation credit, etc.)	nge of grade levels is used for cumulative					
	Default Next School		(a school number where students who graduate from this school will be sent. Leave as 0 for none.)				
	Sort Order						
	When Scheduling, Display Courses From		Current School *				

Calendar Setup

At the newly created GNETS Program "school", use *Calendar Setup* to setup a calendar for the current academic year. Please note the Pre-requisites for Calendar Setup are: Set up *Years & Terms, Periods & Days, Attendance Conversions,* and *Bell Schedules*. Complete Instructions can be found in PowerSource Document ID: 77156.

Staff(Teachers) & Security Setup

Enter the new staff including the Social Security Numbers of the GNETS teachers. Complete Instructions can be found in PowerSource Document ID: 77163

Student Information

GNETS students are reported to GADOE from their HOME school including their schedules. For each GNETS student, the below data should be reported under the *Special Programs* link for that student at the HOME School.

Start Page > Student Selection > Special Programs > Edit Special Program Enrollment						
Edit Special Program Enrol	Iment					
Sample Student - Dundee School

Alternative System Code						
Alternative School Number	Program Code, GNETS Segments Alternative System Code, & Alternative School Number	S, Dele	ete	Subm	it	

GNETS Teachers

Example County has collected the Social Security Numbers of the GNETS teachers so they can report them to GADOE. The LEA will not receive errors in Student Class or Student Record for the GNETS teachers. GNETS teachers should be reported as the Primary Teacher on the sections for the GNETS sections.

ield	Value
