

## What's in it for me?

## If you are a COUNSELOR / REGISTRAR, MSIX allows you to...

- Obtain a student's full legal name, birth date, and his/ her parents'/ guardians' names.
- View a student's enrollment and course history information to help you:
  - place a student in the correct courses (either the continuation of a course in progress or the next course in a logical sequence);

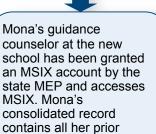

Mona is 19 and is enrolling in her third school of the year. She hopes to graduate from high school in a few months.

The guidance counselor determines that if Mona finishes the current semester with passing grades, she will have enough credits to graduate.

Neither Mona nor her parents have copies of her earlier transcripts showing what high school credits she has accrued.

coursework and grades.

determine what credits a student needs for graduation;

- determine a student's most recent grade placement; and
- view a student's assessment history to determine additional assessment needs.
- Look for a Limited English Proficient (LEP) flag for a student. This may be an indication that an LEP placement test should be administered.
- See if a student has an Individualized Education Plan (IEP) flag so that you can contact the previous school to request the IEP.

Scenario 1

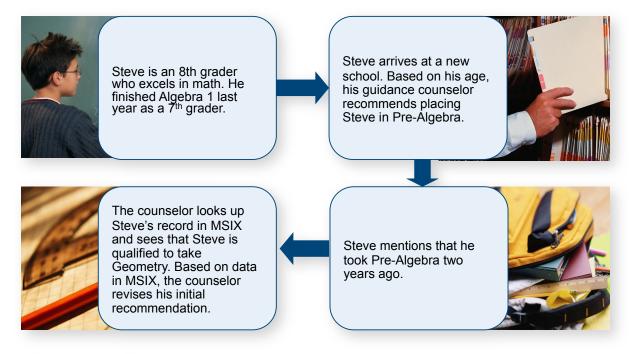

If you are a COUNSELOR / REGISTRAR, MSIX allows you to...

- Send a move notification or an enrollment comment to a student's next school.
- Search for immunization flags to determine where immunization records reside.
- View a student's consolidated record to determine if there is data that will clarify or explain any confusing information obtained during an interview.
- Find course catalogs and standardized test information from other states.

- View a student's consolidated record to determine special needs/ circumstances, such as:
  - Medical alerts
  - Priority for Services (PFS) status

Scenario 2
