

December 16, 2019

The Honorable Betsy DeVos  
Secretary of Education  
U.S. Department of Education  
400 Maryland Avenue, SW  
Washington, D.C. 20202  
Betsy.DeVos@ed.gov

Dear Honorable Betsy DeVos:

Pursuant to 34 CFR § 200.6(c)(4), the Georgia Department of Education is requesting a one-year waiver from the alternate assessment 1.0 percent participation cap placed on states under the *Every Student Succeeds Act*. Georgia requested, and was granted, a similar waiver for 2018-2019. As detailed in this waiver request, Georgia utilized the time granted by the waiver to plan and implement a number of changes that support the State's objective of being at or below the cap. Receiving an additional one-year waiver will afford Georgia the time necessary to continue to review, revise, and implement State guidelines and LEA supports to address the percentage of students who are administered the State's alternate assessment.

The Georgia Department of Education is committed to ensuring that the State's alternate assessment is administered to only those students for whom it is intended. Within this waiver request, you will find updated alternate assessment data, documentation of changes to policies, guidelines, and additional details on State supports to LEAs. Additionally, all waiver submission requirements have been provided along with a plan and timeline for continuing the State's alternate assessment cap efforts during the 2019-2020 school year.

I look forward to hearing from you regarding this waiver request. Should you have questions, please feel free to contact Allison Timberlake, Deputy Superintendent for Assessment and Accountability, by phone or email at 404-463-6666 or [atimberlake@doe.k12.ga.us](mailto:atimberlake@doe.k12.ga.us).

Thank you for your consideration.

Sincerely,

Richard Woods  
Georgia's School Superintendent

## 1. ESSA's 1.0 Percent Cap and Georgia's Alternate Assessment

Section 1111(b)(2)(D)(i)(I) of the *Every Student Succeeds Act (ESSA)* places a state-level 1.0 percent cap on the number of students who can be assessed using a State's alternate assessment based on alternate academic achievement standards (AA-AAAS) in each subject area. Assessment participation data from the 2018-2019 school year reveal that Georgia was above the 1.0 percent cap, having utilized the State's alternate assessment to assess greater than 1.0 percent of students across each of the four content areas. Georgia anticipates that it will be above the cap in 2019-2020 and the State is seeking a one-year waiver from the requirement as detailed in 34 CFR §200.6(c)(3). Georgia is seeking this waiver for English language arts, mathematics, science, and social studies. Receiving the waiver will provide the requisite time to further review, revise, and implement the guidelines and local educational agency (LEA) supports developed during the previous waiver.

Under *ESSA* and the *Individuals with Disabilities Education Act (IDEA)* of 2004, states must ensure that all students, including students with significant cognitive disabilities, have access to a general curriculum that encompasses challenging academic standards and are assessed in their progress toward meeting the academic standards. The Georgia Alternate Assessment (GAA) 2.0 is the State-provided AA-AAAS for those students with significant cognitive disabilities who cannot participate in the general statewide assessment program, even with maximum allowable accommodations.

The GAA was initially developed in 2007 as a portfolio of student work that demonstrated progress and achievement on selected skills aligned to the State's curriculum. The assessment was redesigned significantly during 2017-2018 and the GAA 2.0 was implemented for the first time during the 2018-2019 school year. The GAA 2.0 includes standardized tasks with multiple levels of complexity, and it was designed to ensure that students with significant cognitive disabilities are provided access to State academic content standards and are given the opportunity to demonstrate achievement of the knowledge, concepts, and skills inherent in the standards. The assessment is administered to all eligible students in grades K, 3-8, and 11 for English language arts and mathematics and in grade 5, 8, and 11 in science and social studies.

## 2. Waiver Submission Requirements

### 2.1 Ninety-day Requirement

States are required (34 CFR §200.6(c)(4)i) to submit the alternate assessment waiver at least 90 days prior to the start of the relevant subject testing windows. The 2019-2020 testing window for GAA 2.0 is March 23 through May 1, 2020. In submitting this waiver on December 16, 2019, the State has met this requirement.

### 2.2 Data Requirements

States are required (34 CFR §200.6(c)(4)ii) to provide the number and percentage of student subgroups defined in section 1111(c)(2)(A), (B), and (D) who were assessed using the AA-AAAS. States are also required to provide data showing that 95 percent of all students and the students with disabilities subgroup, as identified in section 1111(c)(2)(C), were administered a State assessment. Appendix A.1 provides the number and percentage for each of these student subgroups for English language arts, mathematics, science, and social studies.

The percentage of students assessed via the GAA 2.0 in 2018-2019 was 1.3 for English language arts, mathematics, and science and 1.4 for social studies. Appendix A.2 provides the count and percentage of LEAs in Georgia that assessed more than 1.0 percent of all students using the GAA. Among the 213 LEAs in 2018-2019,

70.9 percent were above 1.0 percent in English language arts,  
68.5 percent were above 1.0 percent in mathematics,  
69.5 percent were above 1.0 percent in science, and

74.2 percent were above 1.0 percent in social studies.

In 2018-2019, English language arts and mathematics assessments were required for students in grades 3 through 8 and in the 9th Grade Literature, American Literature, Algebra I or Coordinate Algebra, and Geometry or Analytic Geometry courses. Science and social studies were assessed in grades 5 and 8 and in the Biology, Physical Science, Economics/Business/Free Enterprise, and U.S. History courses. The requirement that 95 percent of all students, and students with disability, be assessed was met for all content areas by grade level. Appendix A provides the number enrolled, number tested, and percentage of enrolled students who were assessed using Georgia Milestones and GAA for each of the required end-of-grade (A.3) and end-of-course (A.4) subjects. Data are provided for all students and Students with Disability subgroup. State level 2018-2019 participation files that are published on the Georgia Department of Education (GaDOE) website by content area, grade level, and subject area are provided in A.5 and A.6.

### 3. Implementation and 2019 Plan

During 2018-2019, the GaDOE developed a plan to address the 1.0 percent cap and began implementing the guidelines and supports designed to ensure that the State's alternate assessment based on alternate achievement standards (AA-AAS) is administered to only those students for whom it is intended. This section details completed, ongoing, and newly-planned waiver-related work by the State since the submission of the initial waiver. These efforts include an overhaul of the participation guidelines provided to LEAs, technical assistance and supports to LEAs, and ensuring that any disproportionality issues in alternate assessment administration are addressed.

#### 3.1 Improving the Implementation of State Guidelines

As required by 34 CFR §200.6(c)(4)(iv)(A), the State improved its guidelines to ensure that all regulations included in §200.6(d) (State guidelines for students with the most significant cognitive disabilities) have been adequately addressed. The new guidelines ensure that the State has established, consistent with section 612(a)(16)(C) of the IDEA, clear and appropriate guidelines for IEP teams to apply when making participation determinations and monitoring the implementation of these guidelines.

*3.1.1 State Eligibility Criteria:* The State reviewed and revised the eligibility criteria for the alternate assessment based on alternate achievement standards (AA-AAS). In developing eligibility criteria for the administration of GAA 2.0, the GaDOE completed a significant overhaul of the participation guidelines made available to districts. The *Participation Guidelines for the Georgia Alternate Assessment* were revised through an iterative process with educators and were finalized for publication as the *Eligibility Criteria for the Georgia Alternate Assessment (GAA) 2.0* in November of 2018 for the 2018-2019 school year. It was expected at that time that Individualized Education Program (IEP) teams would utilize the previous participation guidelines if teams had met and established participation in the alternate assessment prior to November of 2018 until the IEP team met next. Those students whose IEP teams met following November of 2018 were required to utilize the revised eligibility criteria. Any subsequent meetings to establish participation on the GAA 2.0 would be required for all IEP teams considering assessment options for students with cognitive disabilities utilizing only the revised eligibility criteria as published in the *Student Assessment Handbook* the following 2019-2020 school year. Simply stated, since the guidelines were published in November 2018, most IEP decisions for 2018-2019 were already made and would not have been changed based on the new guidelines. Therefore, the new guidelines would be first used statewide in spring 2019 and would impact placement decisions for the 2019-2020 school year.

The Georgia Department of Education Special Education Division and Assessment Division provided several training sessions intended to inform IEP teams of the usage of the new eligibility criteria and provided information regarding data sources and rationale for making evidence-based decisions.

In previous years, participation guidelines were provided as a flowchart. The eligibility criteria accompanying GAA 2.0 (Appendix B.1) involve a two-step process. First, the IEP team must review the four eligibility criteria.

**Does the student require intensive, individualized instruction in a variety of instructional settings?**

The student needs specialized academic instruction and techniques over a period of time to ensure that he or she can learn, retain information, and transfer skills to other settings.

**Does the student have a significant cognitive disability?** A significant cognitive disability is determined by the IEP team and must be based on evaluation information performed by a qualified evaluation team. The significant cognitive disability must affect the student's intellectual functioning and be documented as such in the student's individualized education program (IEP).

**Does the student require specialized supports to access and participate in the grade-level Georgia Standards of Excellence (GSE) that require modifications based on the student's Present Levels of Academic Achievement and Functional Performance (PLAAFP)?** Access to the grade-level curriculum is mandated by the federal government. A student with a significant cognitive disability requires access to the GSEs through prerequisite skills that are linked to the grade-level curriculum.

**Does the student require specialized supports to demonstrate age-appropriate adaptive behavior?** A student with a significant cognitive disability needs specialized support throughout the day in areas such as expressing his or her needs, getting from place to place, eating lunch, negotiating social situations, and/or taking care of personal needs.

For a student to be eligible to participate in the GAA 2.0, the IEP team must answer yes to all four questions. Additionally, IEP teams are expected to document sources of evidence and justifications for each criterion marked with a "Yes".

Step two of the determination process requires the IEP team to provide an assurance that each member of the team received training and guidance regarding student participation in State mandated assessments. The assurances include the following:

Under 34 Code of Federal Regulations (CFR) 300.320(a)(6) and [O.C.G.A § 20-2-281], if the IEP team determines that the student will take GAA, the IEP team may provide additional summary statements of why the student cannot participate in the Georgia Milestones Assessment System, with or without allowable accommodations, and why the alternate assessment is appropriate for the student, including that all of the eligibility criteria are met.

The decision to administer GAA is based on multiple sources of measurable, objective evidence, including, but not limited to, current IEP PLAAFP statements, goals and/or objectives, report cards, progress reports, work samples, teacher observations, Full and Individual Evaluations (FIE), standardized achievement test results, and classroom, district, and statewide assessment results. This decision is not based solely on the student's previous performance on statewide assessment.

The decision to administer GAA is made by the IEP team, not administratively based on federal accountability requirements which limit the number of students taking an alternate assessment who can be counted as proficient in CCRPI performance calculations. Although GAA is intended for a small number of students, the proficiency cap does not limit the number of students receiving special education services who may take the alternate assessment.

The decision to administer GAA is based on the student's educational needs and the instruction the student is receiving. This decision is not based solely on the student's disability category and is not based on the student's racial or economic background, excessive or extended absences, or amount of time or location of service delivery.

*3.1.2 Definition of Students with the Most Significant Cognitive Disabilities:* The State's definition of intellectual disability is provided in Appendix B.2. The GaDOE reviewed this definition and determined that no revisions were required, as the current definition sufficiently ensures that:

The identification of a student as having a particular disability or as an English learner does not determine whether a student is a student with the most significant cognitive disabilities §200.6(d)(1)(i);

A student with the most significant cognitive disabilities is not identified solely on the basis of the student's previous low academic achievement, or the student's previous need for accommodations to participate in the general State or districtwide assessments §200.6(d)(1)(ii); and

A student is identified as having the most significant cognitive disabilities because the student requires extensive, direct individualized instruction and substantial supports to achieve measurable gains on the challenging State academic content standards §200.6(d)(1)(iii).

Additionally, the GaDOE has emphasized with LEAs that participation on the State's alternate assessment should only occur when all eligibility criteria have been met and a student's Individualized Education Program (IEP) team determines that the student cannot meaningfully access the general statewide assessments, even with the maximum appropriate accommodations. IEP teams are required to follow the revised guidelines, and participation decisions shall not be based on any of the following:

- Disability category or label
- Expectation of poor performance on the Georgia Milestones assessment
- Accommodation requirements to participate in assessment process
- Previous poor performance
- Instructional setting or percent of time receiving special education services
- Attendance issues
- Anticipated emotional distress
- Anticipated disruptive behavior
- Native language or English learner status
- Economically disadvantaged status
- Impact of student scores on an accountability system
- Administrator or parent request

With the goal of reducing the state to at or below the 1% cap and ensuring that the State's alternate assessment is administered to only those students for whom it is intended, the State realizes that the work must start with kindergarten students. To that end, the GaDOE will encourage LEAs and school staff to identify the instructional supports necessary to help students in kindergarten through second grades better access the Georgia Standards of Excellence and the associated general assessment. It is believed that once IEP teams have made the decision to place students on GAA 2.0, it is difficult for them to reconsider their original decision. To this end, the following steps will be taken to reduce the number of students participating in the alternate assessment.

## **GKIDS 2.0**

- develop fully integrated extended access to assessment content without separating out students who need additional support. The learning progressions for Georgia's existing kindergarten assessment will be expanded to allow teachers to assess student's current skill level and develop robust information regarding the student's current communication mode. The goal/intended outcome is to reduce the number of students testing using GAA in 3<sup>rd</sup> grade because teachers have an experience with assessing students who require additional support on the general assessment given appropriate support and accommodations.
- develop reporting processes that focus on adding descriptive information (about accommodations and supports needed) as opposed to reducing or qualifying information (conditionalizing a score).

Estimates for alternate assessment participation in grade 3 based on Pre-ID records dropped by 15% between Fall 2018 and Fall 2019. As this decrease is not observed across all grades, this may be interpreted to be the result of the efforts in place to reduce early overidentification for alternate participation. This drop, in conjunction with the ongoing efforts in place to reduce overidentification in early grades, is expected to roll up, such that the decrease in the current grade 3 cohort is maintained in subsequent years, as that decrease continues for future cohorts entering grade 3.

### **District Intervention Study**

- implement a research study in a district that will use existing participation criteria to identify students who are eligible for locally selected alternate assessment in first and second grades.
- increase awareness of resources and accommodations in place and available to support students being assessed on the general assessment with maximum allowable accommodations where possible.
- increase focus on aligning assessment to instruction in that students instructed on the general content standards with accommodations must be assessed on the general assessment with accommodations.

**3.1.3 LEA Assurances and Certifications:** In completing the mandatory GAA Participation application, LEAs are required to provide assurances to the following statements.

- *A review of local policies, procedures, and practices has been conducted to assure they support appropriate identification of students for GAA 2.0 participation in accordance with State guidelines.*
- *The LEA has provided training and support to Individualized Education Program (IEP) teams to ensure that IEP teams are adhering to eligibility guidelines for GAA 2.0*
- *A review of local GAA 2.0 participation will occur to ensure the LEA will identify and address, if necessary, any disproportionality in the percentage of students in any subgroup participating in the GAA 2.0*

Any LEAs failing to answer in the affirmative for all three assurances will be identified to receive targeted technical assistance and supports.

In October 2019 there were only two districts that failed to answer in the affirmative for all three statements regarding the 2019-2020 school year administration.

## **3.2 Support and Oversight of LEA Implementation**

In addition to updating State guidelines, the GaDOE developed technical assistance and supports, as required by 34 CFR §200.6(c)(4)(iv)(B), to promote proper implementation of the guidelines among LEAs. The GaDOE has devised a three-tier approach to technical assistance and supports. The intensity of services provided to each LEA is determined by the division of Special Education Services and Supports following an analysis of district-level GAA (2017-2018) and GAA 2.0 (2018-2019) participation data.

It should be noted that GaDOE staff members from the Division of Special Education and Supports, as well as the Division of Assessment and Accountability, have regularly participated since 2018 in the National Center on Educational Outcomes (NCEO) Community of Practice for the 1% Participation Threshold and the NCEO Peer Learning Groups (Digging into Your Data: Building a 1% Data Analysis and Use Plan; Guiding and Evaluating District Justifications IEP Team Decision Making)(B.3). GaDOE will continue to actively participate in these sessions in order to learn from peers how best to support implementation of the 1.0 percent participation threshold for AA-AAAS participation by providing technical assistance.

**3.2.1 Universal Technical Assistance and Supports:** The GaDOE began providing universal technical assistance and supports to LEAs in 2017-2018 and continues to do so. These supports include guidelines, resources, and training to assist LEA administrators and local IEP team members during the GAA eligibility

determination process. All LEAs were provided the GAA 2.0 eligibility criteria in 2018-2019. The GaDOE has provided numerous resources and training opportunities to ensure LEAs and IEP teams understand and follow the updated criteria.

More than twenty conference presentations and webinars were provided to special education directors, coordinators, and teachers as well as parents between November 2018 and November 2019 (B.4 - GAA 2.0 Support). Other resources and supports include the 2019 Student Assessment Handbook, 2019-2020 Accessibility & Accommodations Manual, monthly Assessment Update newsletters (B.5); GAA 2.0 Test Administration Trainings (B.6); GAA2.0 Resources including eligibility criteria forms, GAA 2.0 Pre and Post Administration Checklist, GAA 2.0 Spring Test Administration Manual, scoring, reporting, and teacher resources (B.7); and GAA 2.0 Parent Flyer (B.8).

GaDOE has provided district level reports to assist LEAs in examining data and determining potential areas where additional scrutiny is warranted. LEAs have also received face-to-face, virtual and on-line instructions on how to access this data on-demand at the LEA level. Although still in draft, the State is utilizing components of the District Dialogue Guide from NCEO to assist all districts in this process.

The State has presented sessions addressing the participation rate at conferences for the Georgia Council of Special Education Administrators (GCASE) and Georgia Compensatory Educational Leaders (GCEL). Multiple sessions on instruction for students with the most significant cognitive disabilities were available at the IDEAS conference (a conference for teachers).

During 2018-2019 and continuing in 2019-2020, face to face, “make and take” day-long professional learning is available to teachers in LEAs. By the end of the 2020 school year, ten of these will have occurred in regional locations. Webinars addressing instructional concerns are available on the State website and at least two more are in the planning process.

As part of on-site visits during the cross-functional monitoring process, LEA participation rates in the alternate assessment are discussed and direct technical assistance is provided to support district efforts. Other needs for support are based on responses on the annual GAA Participation Application, LEA corrective action plans, GAA 2.0 participation data analysis, and field data collected by the division of Special Education Services and Supports.

Since the GAA 2.0 was a new assessment for the 2018-2019 school year, webinar and in-person sessions regarding score interpretation included pointers for using score reports for potential indicators of participation appropriateness. GaDOE staff will continue to provide support to districts and assist in identifying potential “red flags” that may warrant additional investigation.

GAA 2.0 now yields an achievement score that can be compared year to year. Once districts have more than one data point (after the Spring 2020 administration) they can begin to examine trends in sustained proficiency. Additionally, the State is exploring ways to assist districts in utilizing data from the Learning Characteristics Inventory (new with the advent of the GAA 2.0) to include in the decision-making process.

### *3.2.2 Targeted Technical Assistance and Supports:*

The State is working currently to develop a corrective action plan template to provide to those LEAs with GAA participation rates above 1.0 percent. The plans will require LEAs to detail how GAA participation policies, practices, and processes are implemented locally. The GaDOE will review the plans to ensure LEAs are following State guidelines with fidelity. The State is also working currently to identify best practices to provide to LEAs above 1.0 percent. These best practices include, but are not limited to, methods for informing and engaging local public stakeholders beyond the reporting requirements.

The GaDOE has developed the targeted technical assistance and supports that are provided to LEAs above 1.0 percent and the State is focusing currently on building staff capacity for this work. Determinations for support are based on responses on the annual GAA Participation Application, LEA corrective action plans,

GAA 2.0 participation data analysis, and field data collected by the division of Special Education Services and Supports. These services will include, but not be limited to, the following improvement targets:

LEA capacity for gathering and analyzing district and school data pertaining to GAA participation rates;  
LEA capacity for gathering and analyzing data on the characteristics of students participating in the GAA;  
LEA capacity to provide professional development to IEP team members and other local educators on the nature of the GAA and who should participate; and  
Capacity of parents of students with disabilities to participate in the IEP decision-making process.

### *3.2.3 Intensive Technical Assistance and Supports:*

The State is continuing to develop and improve the intensive technical assistance and supports to appropriate districts. This includes LEA-specific, one-on-one services for those LEAs demonstrating significant needs that cannot be addressed sufficiently through targeted services. Additionally, modules to support LEA staff training and consistent understanding of participation guidelines is being developed in conjunction with resources being developed by the NCEO Peer Learning Groups and Community of Practice. Likewise, the State is expanding the availability of parent information through our Parent Mentor Partnership and other outlets, to be sure parents have adequate information to guide their participation in the process.

## **3.3 Disproportionality**

The State began addressing student subgroup disproportionality in GAA participation through an LEA assurance included in the GAA Participation Application. During 2018-2019 and 2019-2020, additional State disproportionality work includes an annual analysis of risk ratios and the incorporation of disproportionality into universal and targeted technical assistance and supports.

*3.3.1 Assurance from Districts:* In Fall 2018, the GaDOE administered its annual GAA Participation Application. LEAs that anticipated being above 1.0 percent in GAA participation in any subject for which assessments were administered under 34 CFR §200.2(a)(1) in 2018-2019 were required to provide assurances that the LEA adhered to State guidelines and that disproportionality issues were addressed. The GAA Participation Application contained an item addressing potential disproportionality among student subgroups. LEAs were required to provide assurance that any disproportionality in GAA participation among student subgroups listed under section 1111(c)(2)(A), (B), or (D) of *ESSA* was addressed. LEAs provided that assurance by answering affirmatively to the following statement:

**“A review of local GAA participation will occur to ensure the LEA will identify and address, if necessary, any disproportionality in the percentage of students in any subgroup participating in the GAA.”**

Among the LEAs that anticipated administering the GAA, forty-five responded “No” to the assurance. LEAs which responded “No” were identified as needing technical assistance.

*3.3.2 Disproportionality Data and Technical Assistance and Supports:* The GaDOE is working to address any disproportionality issues, as required by 34 CFR §200.6(c)(4)(iv)(C). In January 2019 (for school year 2017-2018) and in October 2019 (for school year 2018-2019), LEAs were provided with relative risk ratios (RRR) for all student subgroups included in 1111(c)(2)(A), (B), and (D) of *ESSA* for all four content areas. The ratios are currently being calculated by GaDOE utilizing the following formulas.

$$\text{Relative risk ratio} = \frac{\text{subgroup risk}}{\text{comparison group risk}}$$

$$\text{Subgroup risk} = \frac{\# \text{ students in subgroup assessed via the GAA}}{\# \text{ students in subgroup assessed via Georgia Milestones}}$$

$$\text{Comparison group risk} = \frac{\# \text{ students } \textbf{not} \text{ in subgroup assessed via the GAA}}{\# \text{ students } \textbf{not} \text{ in subgroup assessed via Georgia Milestones}}$$

These ratios will be calculated annually and provided to LEAs to support local disproportionality efforts. Following the initial analysis of disproportionality data, the GaDOE will determine what guidelines, if any, the State needs to provide to LEAs. Additionally, disproportionality resources will be included in the universal and targeted technical assistance and supports. Additional assistance and supports will be provided to LEAs as deemed appropriate and based on State-level personnel capacity.

#### 4. Data and Reporting

##### 4.1 LEA Reporting to State

The annual GAA Participation Application serves as the State's primary collection tool for projected GAA participation data<sup>1</sup>, assurances, justifications, and other information pertaining to local GAA administration. Additionally, the projected participation data submitted by LEAs provides the State with approximate counts of the districts that require the targeted and intensive assistance and supports outlined in 3.2.2 and 3.2.3. In December 2018, LEAs completed the 2018-2019 GAA Participation Application. At that time, those that projected exceeding the 1% cap provided justifications. When LEAs then completed the 2019-2020 GAA Participation Application in October 2019, those districts that did indeed exceed the cap were allowed to review the justifications previously provided. Those justifications will be posted on the GaDOE public website in January 2020 (just as they were in January 2019). In October 2019, LEA completed the GAA Application with information regarding 2019-2020, including projected GAA participation data<sup>2</sup>, assurances, justifications, and other information pertaining to local GAA administration participation.

##### 4.2 LEA Reporting to Parents

LEAs and IEP teams are required (34 CFR §200.6(d)(3)) to ensure that parents of students being considered for participation in the GAA are informed, consistent with 34 CFR §200.2(e), that the student's achievement will be measured based on alternate academic achievement standards. IEP teams are also expected to provide guidance to parents regarding the impact of participation on high school graduation and graduation requirements. The State's division of Special Education Services and Supports is working currently with LEAs to ensure this requirement is met by all LEAs.

##### 4.3 LEA Reporting to the State and the Public

The LEAs that projected a 2018-2019 districtwide participation rate of greater than 1.0 percent were required (34 CFR §200.6(c)(3)(ii)) to submit justifications as part of the 2018-2019 GAA Survey. The 2019-2020 application, using actual assessment counts from 2018-2019, provides LEAs that were above 1.0 percent an opportunity to review justifications and make any necessary edits prior to these justifications being posted publicly. LEAs that expected to be at or below 1.0 percent, and thus did not provide a justification within the 2019 survey, are required to provide a justification if the actual participation rate was greater than 1.0 percent. These justifications will be posted on the GaDOE website by February 2020, with any personally identifiable student information redacted (34 CFR §200.6(c)(3)(iv)).

##### 4.4 State Reporting to LEAs

The GaDOE generated 2018-2019 district-level GAA Participation Data Reports that included the percentage of each student subgroup assessed via the GAA by content area (Appendix A.1). These reports

<sup>1</sup> Actual participation data were obtained from the assessment vendors after the testing window closed.

<sup>2</sup> Actual participation data were obtained from the assessment vendors after the testing window closed.

were provided to LEAs in October 2019 to assist LEAs in examining data and determining potential areas where additional scrutiny is warranted.

In addition to participation rate reports, the State began generating annual district-level disproportionality reports in January 2019 based on 2017-2018 participation data and continued the practice in October 2019, providing 2018-2019 data. These reports will be provided to LEAs to assist in local efforts to ensure that alternate assessment administration is reserved for only those students for whom the GAA is intended. Additionally, these reports are provided to the division of Special Education Services and Supports to assist in the provision of technical assistance and supports to LEAs, including those detailed within this waiver request.

## 5. Timeline and Activities

### 5.1 General Calendar of Waiver Activities for 2018-2019 and 2019-2020 School Years

	Oct – Dec 2018	Jan- Mar 2019	Apr – Jun 2019	Jul – Sep 2019	Oct – Dec 2019	Jan- Mar 2020	Apr- June 2020	July- Sep 2020	Oct- Dec 2020	Jan- Mar 2021
Public comment period	19				20					
Review of public comments, revision of waiver	19				20					
Submission of waiver	19				20					
GAA Participation Application	19	19			20					
GAA assessment collection window		19	19			20	20			
GAA participation data analysis				19				20		
State GAA Participation Data Reports for LEAs				19	19			20		
State GAA Participation Report for Public					19				20	
LEA justifications posted						19				20
GAA disproportionality data calculation, dissemination, analysis				19				20		

19	Activities related to the 2019 waiver
20	Activities related to the 2020 waiver

### 5.2 Training and Activities 2017-2020

#### GAA activities from 2017-2020

##### *October - December 2017*

- GAA Participation Application (a.k.a. Survey)
- Development of eligibility criteria for the GAA 2.0

##### *January - March 2018*

- 2017-2018 GAA assessment window
- State guidelines revised
- 2016-2017 GAA Participation Data Reports provided to LEAs
- Development of eligibility criteria for the GAA 2.0 continued

##### *April - June 2018*

- 2017-2018 GAA assessment window, continued
- Meeting: State Advisory Panel for Special Education– presentation on GAA 2.0 covered eligibility criteria
- Development of eligibility criteria for the GAA 2.0 continued

***July - September 2018***

- 2017 GAA Participation Data Reports provided to LEAs
- GaDOE explored possible technical assistance from U.S. Department of Education
- Development of eligibility criteria for the GAA 2.0 continued
- Eligibility criteria for the GAA 2.0 released
- Training: Special Education Services and Supports – General Supervision and Implementation Training
- Training: Special Education Director’s Webinar

***October - December 2018***

- Training: GAA 2.0 fall training webinar: Orientation to new assessment / deeper look at test design
- Training: GAA 2.0 Administration Procedures Training
- Training: Orientation to new assessment / deeper look at test design
- Training: GAA 2.0 G-CASE Conference presentation
- Training: Instructional Support for Students with Significant Cognitive Disabilities
- 2018 GAA Participation Data Reports provided to LEAs
- 2019 GAA Participation Application

***January - March 2019***

- 2019 GAA Participation Application continued
- Creation and dissemination of 2018 GAA 2.0 Participation Disproportionality Reports
- Meeting: State Advisory Panel for Special Education
- Posting of 2018 LEA justifications for administering the GAA to greater than 1.0 percent of assessed students
- Training: GAA 2.0 Pre-Assessment Training webinar: Final test set-up/preparation
- GAA 2.0 assessment window

***April - June 2019***

- GAA 2.0 assessment window continued
- 2019 GAA 2.0 participation rates calculated

***July - September 2019***

- 2019 GAA Participation Data Reports provided to LEAs
- 2019 GAA 2.0 Participation Disproportionality Report calculated and shared with Special Education

***October - December 2019***

- 2020 GAA Participation Application
- Training on the Eligibility Criteria for the Intervention District Study. Reducing the number of students participating in the alternate assessment

***January - March 2020***

- Instructional Training on Effective Instruction for Teachers of Students with Significant Cognitive Disabilities
- Posting of 2019 LEA justifications for administering the GAA to greater than 1.0 percent of assessed students
- Training at the Georgia Compensatory Educational Leaders, Inc. (G-CEL) - A Deeper Look at the 1% CAP for the Alternate Assessment
- GAA 2.0 Nextera Platform Training
- GAA 2.0 Pre-Administration Training
- GAA 2.0 GAA 2.0 Test Setup and review of Nextera Online Platform
- GAA 2.0 assessment window

***April - June 2020***

- GAA 2.0 assessment window continued
- 2020 GAA 2.0 participation rates calculated
- Instructional Training at the Institute Designed for Educating All Students Conference (IDEAS) - A Deeper Look at the 1% CAP for the Alternate Assessment

***July - September 2020***

- 2020 GAA Participation Data Reports provided to LEAs

- 2020 GAA 2.0 Participation Disproportionality Report calculated and shared with Special Education
- Training for parents at the Georgia Parent Mentor Partnership

**October - December 2020**

- 2021 GAA Participation Application
- Preparation to post 2020 LEA justifications for administering the GAA to greater than 1.0 percent of assessed students

**5.3 34 CFR §200.6(d) Regulations**

	<b>2018-2019 Status</b>	<b>2019-2020 Status</b>
(d) State guidelines for students with the most significant cognitive disabilities. If a State adopts alternate academic achievement standards for students with the most significant cognitive disabilities and administers an alternate assessment aligned with those standards, the State must -		
(1) Establish, consistent with section 612(a)(16)(C) of the IDEA, and monitor implementation of clear and appropriate guidelines for IEP teams to apply in determining, on a case-by-case basis, which students with the most significant cognitive disabilities will be assessed based on alternate academic achievement standards. Such guidelines must include a State definition of “students with the most significant cognitive disabilities” that addresses factors related to cognitive functioning and adaptive behavior, such that -	Completed	Completed; with monitoring work ongoing
(i) The identification of a student as having a particular disability as defined in the IDEA or as an English learner does not determine whether a student is a student with the most significant cognitive disabilities;	Completed	Completed
(ii) A student with the most significant cognitive disabilities is not identified solely on the basis of the student's previous low academic achievement, or the student's previous need for accommodations to participate in general State or districtwide assessments; and	Completed	Completed
(iii) A student is identified as having the most significant cognitive disabilities because the student requires extensive, direct individualized instruction and substantial supports to achieve measurable gains on the challenging State academic content standards for the grade in which the student is enrolled;	Completed	Completed
(2) Provide to IEP teams a clear explanation of the differences between assessments based on grade-level academic achievement standards and those based on alternate academic achievement standards, including any effects of State and local policies on a student's education resulting from taking an alternate assessment aligned with alternate academic achievement standards, such as how participation in such assessments may delay or otherwise affect the student from completing the requirements for a regular high school diploma;	Completed	Completed
(3) Ensure that parents of students selected to be assessed using an alternate assessment aligned with alternate academic achievement standards under the State's guidelines in §200.6(d) of this section are informed, consistent with §200.2(e), that their child's achievement will be measured based on alternate academic achievement standards, and how participation in such assessments may delay or otherwise affect the	Completed	Completed

student from completing the requirements for a regular high school diploma;		
(4) Not preclude a student with the most significant cognitive disabilities who takes an alternate assessment aligned with alternate academic achievement standards from attempting to complete the requirements for a regular high school diploma;	Completed	Completed
(5) Promote, consistent with requirements under the IDEA, the involvement and progress of students with the most significant cognitive disabilities in the general education curriculum that is based on the State's academic content standards for the grade in which the student is enrolled;	Completed	Completed
(6) Incorporate the principles of universal design for learning, to the extent feasible, in any alternate assessments aligned with alternate academic achievement standards that the State administers consistent with §200.2(b)(2)(ii); and	Completed	Completed
(7) Develop, disseminate information on, and promote the use of appropriate accommodations consistent with §200.2(b) of this section to ensure that a student with significant cognitive disabilities who does not meet the criteria in §200.2(a)(1)(ii) of this section -		
(i) Participates in academic instruction and assessments for the grade in which the student is enrolled; and	Completed	Completed
(ii) Is assessed based on challenging State academic standards for the grade in which the student is enrolled.	Completed	Completed

#### 5.4 Implementation Status for Recommended Strategies

The GaDOE has incorporated into its work the strategies for meeting the cap from the National Center on Educational Outcomes (NCEO).<sup>3</sup> Each strategy is provided below, along with the State's current implementation status.

Strategy	2018-2019 Status	2019-2020 Status
Gather district and school data on current participation rates in the alternate assessment.	Completed	Ongoing
Gather data on the characteristics of students participating in the alternate assessment.	Completed	Ongoing
Create or examine a state definition of "students with the most significant cognitive disabilities" and revise guidelines, as needed, for determining whether a student should participate in the alternate assessment.	Completed	Completed
Provide professional development for IEP team members and other educators on the nature of the alternate assessment and who should participate in it.	Completed	Ongoing
Provide information sessions for parents of students with disabilities so that they can participate in the IEP decision-making process about the assessment in which their child participates.	Completed	Ongoing

## B.1 GAA 2.0 Eligibility Criteria

### Eligibility Criteria for the Georgia Alternate Assessment 2.0 (GAA)

#### Step I: Review the Eligibility Criteria for GAA

Prior to reviewing the eligibility criteria for GAA, the Individualized Education Program (IEP) team must understand all assessment options, including the characteristics of each assessment and the potential implications of each assessment choice.

According to O.C.G.A § 20-2-281, school districts are required to follow the procedures specified in the applicable test administration materials. As a result, the IEP team must use this form to document its assessment decisions.

If GAA is being considered, the IEP team must review the four criteria below and select **Yes** or **No** if applicable to the student. To be eligible to participate in GAA, the answer to all four of the questions below must be **Yes**. If the answer to any of the questions is **No**, the student is not eligible to participate in GAA and must participate in the Georgia Milestones Assessment System. Each **Yes** answer requires a justification that contains evidence that the student meets the criteria.

Student Name			Grade		
Eligibility Criteria		Sources of Evidence (check if used)		Justification	
<b>1. Does the student require intensive, individualized instruction in a variety of instructional settings?</b> The student needs specialized academic instruction and techniques over a period of time to ensure that he or she can learn, retain information, and transfer skills to other settings.	<b>Yes</b> <b>No</b>	<input type="checkbox"/> Present Levels of Academic Achievement and Functional Performance <input type="checkbox"/> Anecdotal Notes and Observations <input type="checkbox"/> Benchmark Data <input type="checkbox"/> Progress Monitoring Data <input type="checkbox"/> Other _____			
<b>2. Does the student have a significant cognitive disability?</b> A significant cognitive disability is determined by the IEP team and must be based on evaluation information performed by a qualified evaluation team. The significant cognitive disability must affect the student's intellectual functioning and be documented as such in the student's individualized education program (IEP).	<b>Yes</b> <b>No</b>	<input type="checkbox"/> Results of Individual Cognitive Ability Test <input type="checkbox"/> Results of Adaptive Behavior Skills Assessment <input type="checkbox"/> Other _____			

Student Name			Grade		
Eligibility Criteria		Sources of Evidence (check if used)		Justification	
<b>3. Does the student require specialized supports to access and participate in the grade-level Georgia Standards of Excellence (GSE) that require modifications based on the student's Present Levels of Academic Achievement and Functional Performance (PLAAFP)?</b> Access to the grade-level curriculum is mandated by the federal government. A student with a significant cognitive disability requires access to the GSEs through prerequisite skills that are linked to the grade-level curriculum.		<b>Yes</b>  <b>No</b>	<input type="checkbox"/> Results of Individual Cognitive Ability Test <input type="checkbox"/> Results of Adaptive Behavior Skills Assessment <input type="checkbox"/> Anecdotal Notes and Observations <input type="checkbox"/> Benchmark Data <input type="checkbox"/> Progress Monitoring Data <input type="checkbox"/> Results of language assessments including English Learner (EL) assessments, if applicable <input type="checkbox"/> Other _____		
<b>4. Does the student require specialized supports to demonstrate age-appropriate adaptive behavior?</b> A student with a significant cognitive disability needs specialized support throughout the day in areas such as expressing his or her needs, getting from place to place, eating lunch, negotiating social situations, and/or taking care of personal needs.		<b>Yes</b>  <b>No</b>	<input type="checkbox"/> Results of Individual Cognitive Ability Test <input type="checkbox"/> Results of Adaptive Behavior Skills Assessment <input type="checkbox"/> Other _____		

## Step II: Assurances

The IEP team has participated in training and guidance regarding student participation in state mandated assessments that includes the information below:
Under 34 Code of Federal Regulations (CFR) 300.320(a)(6) and [O.C.G.A § 20-2-281], if the IEP team determines that the student will take GAA, the IEP team may provide additional summary statements of why the student cannot participate in the Georgia Milestones Assessment System, with or without allowable accommodations, and why the alternate assessment is appropriate for the student, including that all of the eligibility criteria are met.
Additional Summary Statements (if necessary):
The decision to administer GAA is based on multiple sources of measurable, objective evidence, including, but not limited to current IEP PLAAFP statements, goals and/or objectives, report cards, progress reports, work samples, teacher observations, Full and Individual Evaluations (FIE), standardized achievement test results, and classroom, district, and statewide assessment results. This decision is not based solely on the student's previous performance on statewide assessment.
The decision to administer GAA is made by the IEP team, not administratively based on federal accountability requirements which limit the number of students taking an alternate assessment who can be counted as proficient in CCRPI performance calculations. Although GAA is intended for a small number of students, the proficiency cap does not limit the number of students receiving special education services who may take the alternate assessment.
The decision to administer GAA is based on the student's educational needs and the instruction the student is receiving. This decision is not based solely on the student's disability category and is not based on the student's racial or economic background, excessive or extended absences, or amount of time or location of service delivery.

B.2: State Board Rule Intellectual Disability Definition

Appendix (e): **INTELLECTUAL DISABILITY (ID).**

160-4-7-.05-21 ELIGIBILITY DETERMINATION AND CATEGORIES OF ELIGIBILITY

**Definition.**

Intellectual disabilities refer to significantly subaverage general intellectual functioning which exists concurrently with deficits in adaptive behavior that adversely affects educational performance and originates before age 18. [34 C.F.R § 300.8(c)(6)] Intellectual disability does not include conditions primarily due to a sensory or physical impairment, traumatic brain injury, autism spectrum disorders, severe multiple impairments, cultural influences or a history of inconsistent and/or inadequate educational programming.

(a) Significantly subaverage general intellectual functioning is defined as approximately 70 IQ or below as measured by a qualified psychological examiner on individually administered, nationally normed standardized measures of intelligence.

(1) All IQ scores defining eligibility for children with intellectual disabilities shall be interpreted as a range of scores encompassed by not more than one standard error of measurement below and above the obtained score. The standard error of measurement for a test may be found in the technical data section of the test manual.

(2) Any final determination of the level of intellectual functioning shall be based on multiple sources of information and shall include more than one formal measure of intelligence administered by a qualified psychological examiner. There may be children with IQ scores below 70 who do not need special education. Interpretation of results should take into account factors that may affect test performance such as socioeconomic status, native language, and cultural background and associated disabilities in communication, sensory or motor areas.

(i) Significantly subaverage intellectual functioning must be verified through a written summary of at least one structured observation that demonstrates the child's inability to progress in a typical, age appropriate manner and with consideration for culturally relevant information, medical and education history.

(b) Deficits in adaptive behavior are defined as significant limitations in a child's effectiveness in meeting the standards of maturation, learning, personal independence or social responsibility, and especially school performance that is expected of the individual's age-level and cultural group, as determined by clinical judgment.

(1) The child demonstrates significantly subaverage adaptive behavior in school and home, and, if appropriate, community environments. These limitations in adaptive behavior shall be established through the use of standardized adaptive behavior measures normed on the general population, including people with disabilities and people without disabilities. On these standardized measures, significant limitations in adaptive behavior are operationally defined as performance that is at least two standard deviations below the mean of either (a) one of the following three types of adaptive behavior: conceptual, social, or practical, or (b) an overall (composite) score on a standardized measure of conceptual, social, and practical skills. Documentation must include information from at least two sources. The first source shall be

someone from the local school who knows the child and the second source shall be someone who

knows the child outside of the school environment such as a parent, guardian, or person acting as a parent. \_

(i). Interpretation of results should consider the child's cultural background, socioeconomic status and any associated disabilities that may limit or impact the results of the adaptive behavior measures.

(c) Deficits in intellectual functioning and adaptive behavior must have existed prior to age 18.

(d) A child must not be determined to be a child with an Intellectual Disability if the determinant factor for that determination is:

1. Lack of appropriate instruction in reading, including the essential components of reading instruction;
2. Lack of appropriate instruction in math;
3. Lack of appropriate instruction in written expression;
4. Limited English proficiency;
5. Visual, hearing or motor disability;
6. Emotional disturbances;
7. Cultural factors;
8. Environmental or economic disadvantage; or
9. Atypical educational history (multiple school attendance, lack of attendance, etc.).

### **Eligibility and Placement.**

A child may be classified as having an intellectual disability (at one of the levels listed below) when a comprehensive evaluation indicates deficits in both intellectual functioning and adaptive behavior. Intellectual functioning and adaptive behavior shall be considered equally in any determination that a child is eligible for services in the area of intellectual disability. A comprehensive educational evaluation shall be administered to determine present levels of academic functioning. The report shall be prepared for each child to provide an adequate description of the data collected and explicit pre-referral interventions prior to evaluation and to explain why the child is eligible for services in a program for children with intellectual disabilities. In situations where discrepancies exist between test score results from intellectual functioning, adaptive behavior and academic achievement, the eligibility report must contain a statement of specific factors considered which resulted in the decision of the eligibility team. Eligibility teams must establish that any limits in performance are not primarily due to the exclusionary factors and must document this in the eligibility report:

A child may be classified as having an intellectual disability at one of the levels listed below.

### **Mild intellectual disability (MID).**

- (1) Intellectual functioning ranging between an upper limit of approximately 70 to a lower limit of approximately 55; and
- (2) Deficits in adaptive behavior that significantly limit a child's effectiveness in meeting the standards of maturation, learning, personal independence or social responsibility, and especially school performance that is expected of the individual's age level and cultural group, as determined by clinical judgment.

**Moderate intellectual disability (MOID).**

- (1) Intellectual functioning ranging from an upper limit of approximately 55 to a lower limit of approximately 40; and
- (2) Deficits in adaptive behavior that significantly limit a child's effectiveness in meeting the standards of maturation, learning, personal independence or social responsibility, and especially school performance that is expected of the individual's age-level and cultural group as determined by clinical judgment.

**Severe intellectual disability (SID).**

- (1) Intellectual functioning ranging from an upper limit of approximately 40 to a lower limit of approximately 25; and
- (2) Deficits in adaptive behavior that significantly limit a child's effectiveness in meeting the standards of maturation, learning, personal independence or social responsibility and especially school performance that is expected of the individual's age-level and cultural group as determined by clinical judgment.

**Profound intellectual disability (PID).**

- (1) Intellectual functioning below approximately 25; and
- (2) Deficits in adaptive behavior that significantly limit a child's effectiveness in meeting the standards of maturation, learning, personal independence or social responsibility and especially school performance that is expected of the child's age-level and cultural group, as determined by clinical judgment.

### B.3: NCEO CoP and PLG Participation

- A. The Georgia Department of Education (GaDOE) Department of Special Education and Supports participates in The National Center on Educational Outcomes (NCEO) **Community of Practice** for the 1% Participation Threshold. The group meets every two weeks. The Special Education Department has had someone participate in the majority of the sessions.

*Participants: Program Manager for Special Education Services and Support*  
November 1, 2018- Present

- B. GADOE staff members participates in **National Center on Educational Outcomes (NCEO) 1% Participation Threshold Peer Learning Groups**

- 1) Digging into Your Data: Building a 1% Data Analysis and Use Plan

*Participant: Program Manager for Special Education Services and Support*

The purpose of this group is to have the participants work collaboratively to examine data related to the 1% Threshold to determine ways to approach the provision of technical assistance to districts.

February 13, 2019  
February 27, 2019  
March 13, 2019  
March 27, 2019  
April 10, 2019  
April 24, 2019

- 2) **Guiding and Evaluating District Justifications**

*Participants: Program Manager and/or Program Specialist for Special Education Services and Support*

The purpose of this peer group is to have states work with each other to identify what should be required in district justifications for exceeding the 1% threshold; how to evaluate justifications that the state receives; and how to act on the evaluations. We discussed how NCEO will support the CoP in developing student profiles to use for training LEAs. We also shared with the group Georgia's resources for training educators and provided parent resources.

## B.6: Assessment Resources – GAA 2.0 Training 1 and Training 2

### Georgia Alternate Assessment 2.0 (GAA 2.0)

---

The Individuals with Disabilities Education Act of 2004 (IDEA) and the Every Student Succeeds Act (ESSA) require that states ensure all students, including those with significant cognitive disabilities, have access to challenging academic standards and participate in the state's assessment program. The U.S. Department of Education defines alternate achievement standards as establishing performance expectations that differ in complexity from grade-level achievement standards. These standards must be aligned with the state's content standards, promote access to the general content standards, and articulate the highest achievement levels possible for the individual student. This means teachers may customize learning expectations for students who participate in alternate assessments.

# Georgia Alternate Assessment 2.0

## KEY FEATURES

**Basic text and simplified graphics** are used to help students understand test material.

The test is untimed to allow for **flexible scheduling**, including customized student breaks and pacing.

If a student does not provide the correct answer to a question, examiners are directed to give students a **second, scripted opportunity** with additional support to answer the item.

Examiners can use the same **manipulatives** during testing that students use during classroom instruction to help students respond to tasks.

**Scenarios** or passages introduce each task to engage students and activate their background knowledge.

For more information,  
contact the Assessment  
Administration Division

(800) 634-4106

### What is the GAA 2.0?

The Georgia Alternate Assessment 2.0 (GAA 2.0) is designed to ensure that students with significant cognitive disabilities are provided access to the state academic content standards and given the opportunity to demonstrate achievement of the knowledge, concepts, and skills inherent in the standards.

The Georgia Standards of Excellence and Extended Content Standards for students with significant cognitive disabilities drive the curriculum, instructional strategies, and assessment.

### What are Extended Content Standards?

The Extended Content Standards reflect how a grade-level standard can be made accessible for students with significant cognitive disabilities for both instruction and assessment. They are separated into three access points, starting with the least complex and moving to the most complex concepts and skills. GAA 2.0 tasks are written to these access points.

### How are Assessment Items Structured?

Each test has 10 tasks. Tasks begin with a scenario, followed by three parts that increase in complexity to give students the opportunity to show what they know and can do.

### How will the test be administered to students?

Test examiners will assess each student individually. Most students will be able to use the same communication mode on the GAA 2.0 test as they would typically use in their classroom. The assessment is not timed and can be paused for a variety of reasons.

### How will scores be used?

Parents can use scores to learn more about their student's achievement. Educators can use assessment results to plan for classroom instruction and monitor student progress. Scores are also utilized in the state's school accountability system, the College and Career Ready Performance Index (CCRPI).

### Who will take the GAA 2.0?

The GAA 2.0 will be administered to all eligible students in the following areas:

- Grades K, 3-8, and high school will be assessed in English Language Arts and Mathematics.
- Grades 5, 8, and high school will also be assessed in Science and Social Studies.

### When will my child take the test?

Georgia's Spring 2020 GAA 2.0 test administration window is March 23 through May 1, 2020. School district administrators determine when students within their district will test during this state window.

## **Appendix C: Public Notice**

LEAs and the public were provided an opportunity to submit feedback to the GaDOE prior to the submission of this waiver request. The public comment period lasted from October 23 to November 29 - meeting the 30-day State Board of Education rule. Public notice of the intent to submit a waiver (C.1) was posted to the GaDOE website (C.2). Emails were sent from the GaDOE's Deputy Superintendent of Assessment and Accountability to LEA superintendents (C.3), assessment directors (C.4), special education directors (C.5), and Title I directors (C.6). Additionally, notice was sent to LEA accountability contacts (C.7) and members of the State's Special Education State Advisory Panel which includes GA PTA(C.8).

C1: Public Notice- Document

October 29, 2019

**Public Notice of ESSA Alternate Assessment Waiver for 2019-2020**

The Georgia Department of Education (GaDOE) is seeking comments on the following waiver request for the Elementary and Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act (ESSA), which will be submitted to the U.S. Department of Education (US ED). Comments and questions should be submitted to Allison Timberlake, Deputy Superintendent for Assessment and Accountability, at [atimberlake@doe.k12.ga.us](mailto:atimberlake@doe.k12.ga.us) no later than Friday, November 29, 2019.

The ESSA includes a statewide 1.0 percent participation cap in alternate assessments based on alternate achievement standards (AA-AAS) for each content area (1111(b)(2)(D)(i)(I)). States can request a one-year waiver from this requirement if the state anticipates being above the cap. Georgia received a one-year waiver from the requirement for the 2018-2019 school year. The GaDOE is submitting a similar request for the 2019-2020 school year to provide the necessary time to continue to implement policies and district supports to ensure the alternate assessment is only administered to those students for whom it is intended.

In 2019, Georgia's schools utilized the Georgia Alternate Assessment (GAA 2.0) for an estimated 1.3 percent of tested students. The GaDOE is anticipating that Georgia will be above the 1.0 percent cap in 2019-2020 as well. The waiver submission will include a demonstration of progress in the work of reducing the percentage of students assessed via the GAA as well as the following information, as outlined in 34 CFR § 200.6(c)(4)ii-v:

- State-level data analysis a) showing the number and percentage of students in each subgroup who took the GAA, and b) validating the State has measured the achievement of at least 95 percent of all students and at least 95 percent of students with disabilities;
- assurances from the State that each local education agency (LEA) anticipated to exceed the 1.0 percent cap a) followed State guidelines under paragraph 200.6(d) - excluding (d)(6), and b) will address any disproportionality in the percentage of student subgroups under section 1111(c)(2)(A), (B), or (D) being administered the GAA; and
- a plan and timeline by which a) the State will improve its guidelines under § 200.6(d), b) the State will take additional steps to support and provide appropriate oversight to each LEA that the State anticipates will use the GAA to assess more than 1.0 percent of its students in a content area, and c) the State will address any disproportionality in the percentage of students taking the GAA.

Prior to submitting this ESSA waiver request, the GaDOE is providing public notice to all interested parties across Georgia. The GaDOE is providing such notification by posting a public notice on its website of the intent to request a waiver of the alternate assessment based on alternate achievement standards 1.0 percent cap. In addition, the GaDOE has emailed information pertaining to the waiver to all district superintendents, Title I directors, assessment directors, special education directors, parent groups, and the State Advisory Panel for Special Education. Copies of all comments the State may receive from stakeholders in response to this notice will be attached to the waiver request sent to US ED.

## C.2: Public Notice Posted - Website location

**From:** Ken Banter <kbanter@doe.k12.ga.us>  
**Sent:** Wednesday, October 23, 2019 8:13 AM  
**To:** Paula Swartzberg <pswartzberg@doe.k12.ga.us>; John Wight <JWight@doe.k12.ga.us>  
**Subject:** Public Notice of ESSA AA Waiver

Paula,

We have posted on our website (see below) the public notice seeking comments on our waiver request on ESSA's alternate assessment 1.0 cap.

### LEA Monitoring and Technical Assistance Unit

The Title I, Part A Technical Assistance and Monitoring unit provides technical assistance, resources, and program monitoring of local education agencies to ensure that all children have an opportunity to obtain a high quality education and to achieve proficiency on high academic standards.

Title I, Part A is a part of the Elementary and Secondary Education Act of 1965 as amended by the Every Student Succeeds Act (ESSA). This Act provides federal funds through the Georgia Department of Education to local educational agencies (LEAs) and public schools with high numbers or percentages of poor children to help ensure that all children meet challenging State academic content and student academic achievement standards.

**Subject:** Georgia ESSA Waiver Request for 1% Participation Cap for GAA  
**Importance:** High

Superintendents,

The Georgia Department of Education (GaDOE) will be seeking a waiver from the U.S. Department of Education (US ED) regarding the 1.0 percent participation cap put in place under the *Every Student Succeeds Act* (ESSA). Prior to submitting the waiver, the GaDOE is seeking comments from local education agencies (LEAs) and other education stakeholders.

In submitting the 1.0 percent participation cap waiver, the GaDOE is requesting that US ED allow the State a year to further implement guidelines and interventions to support LEAs in ensuring the appropriate administration of the Georgia Alternate Assessment (GAA 2.0). During the one-year waiver period, the GaDOE's offices of Special Education and Assessment and Accountability would work collaboratively to ensure LEAs are provided the necessary support and technical assistance.

Additional waiver details are available in the alternate assessment waiver public notice. The notice is attached to this email and is also available on the GaDOE's [Title I](#) webpage. If you have any comments or questions pertaining to this waiver, please send them to me by November 29, 2019.

Thank you,

Allison

## **Appendix D: Public Comments and GaDOE Responses**

The GaDOE received five responses during the public comment period. Four of the responses were from LEAs in favor of the State submitting the waiver. The LEAs explained in the comments the special circumstances that led them to exceed the 1%. The fifth response from an advocate and member of the State Advisory Panel was not substantively related to the waiver; rather, it addressed graduation options. The State did not receive any feedback from stakeholders that required modification to the waiver or the State's plan for implementing waiver-related activities during 2019-2020.

## Appendix D - Public Comments – 2020 GAA 1% Waiver

### D. 1: LEA Comment

**From:** Jamie Taylor <[jamie.taylor@berrien.k12.ga.us](mailto:jamie.taylor@berrien.k12.ga.us)>

**Sent:** Tuesday, October 29, 2019 3:53 PM

**To:** Allison Timberlake <[ATimberlake@doe.k12.ga.us](mailto:ATimberlake@doe.k12.ga.us)>

**Subject:** Public Notice of ESSA Alternate Assessment Waiver for 2019-2020

Comment:

It is difficult for a small school system to get below the 1% cap when we only test 1600 students. Only our students with significant cognitive disabilities participate in the GAA. The students in those classrooms are truly the ones that need to participate. When we have 24 students on the GAA at three different schools, we will never be able to get below the 1% threshold. This percentage is unfair to small school districts.

While I understand the need for technical assistance and implementing the strategies, that still will not help us get below the 1%.

Thanks,

Jamie Taylor

**Subject:** RE: Public Notice of ESSA Alternate Assessment Waiver for 2019-2020

Jamie,

Thank you very much for the feedback. The federal requirement only places a 1% cap at the state level, not at the district level. Therefore if a district has everything properly in place but still exceeds 1%, that will be taken into consideration when offering technical assistance.

Thank you,

Allison

**Subject:** Valdosta City comment concerning 1% Participation Cap for GAA

Good afternoon,

Valdosta City would like to submit a comment for the 1% Participation Cap for Alternative Assessments under ESSA. Please take into consideration districts who have a residential treatment facility within their jurisdiction, specifically those private facilities that do not provide educational services, but rely on the local school district to provide services. VCS has a private residential treatment facility within its city limits that serves students who have significant cognitive disabilities. We do not evaluate nor identify these students, as they already come to our district with an active eligibility. This impacts our overall 1% participation rate as these students move into this facility from around the state and out of the state.

Thank you for your time and consideration.

Dr. Vakesha E. Mays

Director of Special Education

**Subject:** RE: Valdosta City comment concerning 1% Participation Cap for GAA

Vakesha,

Thank you very much for the feedback. The federal requirement only places a 1% cap at the state level, not at the district level. Therefore if a district has everything properly in place but still exceeds 1%, that will be taken into consideration when offering technical assistance.

Thank you,

Allison

**Subject:** Carrollton City Schools - Support for Georgia ESSA Waiver Request for 1% Participation Cap for GAA

Dr. Timberlake,

On behalf of Carrollton City Schools, I would like to let you know that we support the ESSA waiver request for 1% participation cap for GAA administration. The GAA enrollment in Carrollton City Schools currently exceeds the 1% cap because a special program exists in our system that has drawn large numbers of students with the most significant disabilities. Families of students with the most significant cognitive disabilities move to the Carrollton City School district specifically to receive specialized services due to the exceptional special education services and supports provided. The GAA is a vital assessment for our students that meet the criteria for administration. Thank you for your consideration as we continue to administer the GAA for all students that meet the criteria, even if participation exceeds 1%.

Thank You,

**Mary Raburn**

Director of Student Services

Carrollton City Schools

**Subject:** Re: Georgia ESSA Waiver Request for 1% Participation Cap for GAA

Hi Dr. Timberlake,

We very much appreciate the GaDOE being an advocate for local systems regarding the GAA waiver. We also appreciate the opportunity to provide feedback on this issue. Our piece of feedback would be that systems (such as Fayette) are slightly going over the cap based on the number of students enrolled in our Dual Enrollment (DE) Courses. Additionally, if the testing rule allowing students enrolled in AP/IB classes is passed to exempt the EOC (I do support this recommendation), this will most likely impact us as well. My thinking is that the USED may not be as familiar with enrollment calculation implications of DE and the potential exemption of the testing waiver.

We wish you good luck as you push for the waiver and thanks again for the opportunity to share our thoughts with you.

Sincerely,

Jody

**Subject:** Waiver for GAA

Good morning. I understand that you are collecting comments regarding the GAA waiver. While we support real education for all with disabilities the incoherent diploma/assessment system in Georgia needs overhaul. Without delving into the State's motivation for pushing more students into GAA the effect is that Georgia's graduation rate is artificially inflated. Georgia needs real graduation options that support students of all abilities. By granting Georgia a waiver in its administration of GAA, Georgia will continue to artificially inflate its graduation statistics while leaving more and more kids without marketable skills. Thank you.

Devon Orland, J.D.

**Subject:** RE: Waiver for GAA

Mr. Orland,

Thank you for your email and feedback. Georgia is pursuing this waiver of the statewide 1% cap as we are currently above 1%. This waiver will provide more time to provide technical support to districts to help ensure they are following state guidelines when placing students on the GAA as well as addressing any disproportionality in their placements.

Additionally, 2018-2019 was the first administration of our revised alternate assessment, the GAA 2.0. This assessment was redesigned to ensure that students with significant cognitive disabilities are provided access to the state academic content standards and given the opportunity to demonstrate achievement of the knowledge, concepts, and skills inherent in the standards. You can learn more about the GAA 2.0 on our [website](#).

Finally, Georgia recently requested an ESSA amendment to create an alternate diploma for students with significant cognitive disabilities. You can read more about this process on our [website](#).

Thank you again for taking the time to provide feedback on Georgia's 1% waiver request.

Thank you,

Allison
