Policy Update

2020-2021 Georgia Milestones Public Release
The 2020-2021 Georgia Milestones results were publicly released Monday, August 16, along with state-level GAA, GKIDS, and ACCESS summaries. All 2021 scores and resources can be found on the GaDOE Testing Website. Particularly helpful resources include an FAQ, overview of state results PPT, and state summary brief.

Middle School Science Waiver Submitted
The Georgia Department of Education (GaDOE) has submitted a waiver request to the U.S. Department of Education (ED) to renew the state’s existing waiver that allows grade 8 students completing the high school Physical Science course to take the high school Physical Science assessment instead of the grade 8 science EOG assessment. We will provide additional information when we receive a response from ED.

All middle school students enrolled in Algebra, Coordinate Algebra, Biology, American Literature, or U.S. History are required to take both the EOG and EOC as applicable.

Reminders for the 2021-2022 School Year
While GaDOE leadership will monitor this school year and make adjustments as necessary, the U.S. Department of Education is not expected to grant any testing flexibility or waivers in 2021-2022. This means students, even those receiving virtual instruction, will be expected to participate in Georgia Milestones/GAA/ACCESS in-person this school year.

The EOC course grade weight of 0.01% ended at the close of the 2020-2021 school year (July 31). Beginning with the August mid-month administration, the EOC course grade weight is 20%.

State charter schools and Charter/SWSS districts continue to have the flexibility to waive the use of Georgia Milestones in promotion/retention decisions.

The Advanced Placement (AP)/International Baccalaureate (IB)/Dual Enrollment (DE) EOC exemption applies to U.S. History only. All students enrolled in Algebra/Coordinate Algebra, Biology, and American Literature and Composition are expected to participate in the associated EOC.
SBOE Adopts New Math Standards
The State Board of Education (SBOE) adopted new mathematics standards at its August 26 meeting. We will engage in test development activities this school year (2021-2022) to redevelop the GKIDS 2.0, Keenlive, GAA 2.0, and Georgia Milestones mathematics assessments to align to the new standards. The timeline for implementation of the new standards and assessments has not yet been determined. We will provide additional information as it becomes available.

Contact: Allison Timberlake, Ph.D., Deputy Superintendent for Assessment & Accountability, atimberlake@doe.k12.ga.us, 470-579-3021.

Assessment Update

We are Hiring!
The Office of Assessment & Accountability is looking to fill three positions – Assessment Specialist, Data Quality and Reporting (2) and Testing/Assessment Specialist, Assessment Administration (1). Details regarding these positions may be found on the Team Georgia Careers site. These job postings will close Tuesday, September 7.

Changes in the Training Webinar Platforms Effective October 1
Beginning Friday, October 1, all assessment trainings will be conducted from the Microsoft Teams environment.

The registration process for these training sessions has not changed. Find the training session links in the Key Training Dates section of this newsletter. Using the October 15 Assessment Lunch and Learn session as an example, Ctrl+Click on the embedded link in the title. This will bring up a registration page.

Complete the information on the page and click Register Now.

That will complete the registration process and trigger an email sent to you from Microsoft Teams noreply@teams.registration.microsoft.com. Once you accept the meeting invitation within this email message, your calendar will be updated. Please ensure you have updated your calendars for all training sessions beginning October 1 with the new Teams registration links. All related GoToWebinar links have been cancelled and will not work.

Highlight for New System Test Coordinators (STCs)

DISTRICT ASSESSMENT PLANNING

Setting up your District Assessment plan for the year is a multi-step process. Most of the work takes place during the pre-testing periods. The basic steps are outlined below. Additional information may be found in the Fall Conference Series, Pre-Administration trainings, and the Student Assessment Handbook.

The Assessment Plan Template gives a tool for schools and districts for assessment planning for the year. The template is linked here and can be found on the For Educators page.

**Step 1:** The STC should first determine which students need to test. There are differences in which students are required to participate for the assessment programs. STCs should collaborate with School Test Coordinators (SchTCs), ESOL Coordinators, and Special Education Coordinators to determine student enrollment and participation in each required assessment.

**Step 2:** The STC should work with other district leaders to review the state assessment calendar and create the unique testing calendar for the district. The district
Assessment Update

The role of STC has many tasks and activities to work through. The office hours are an optional opportunity for STCs to receive responses to immediate questions. For example, there may be questions about GKIDS Readiness Check and/or Georgia Milestones Fall Mid-Month administrations. Keep in mind, the GaDOE Assessment Specialists are always available by telephone and by email and are happy to discuss local issues with district assessment planning and help to find solutions when needed.

Keep in mind that no new information will be presented or discussed. Any policy-related or new information will always be included in the monthly Assessment Updates and the Assessment Lunch and Learns.

Please submit questions in advance via a quick Question Log. Submitting questions in advance will help the GaDOE Assessment Specialists prepare. We will share the questions and our responses with STCs.

Contact: Sandy Greene, Ed.D., Director of Assessment Administration, sgreene@doe.k12.ga.us, 470-579-5395.

Test Development

On Thursday, August 26, the State Board of Education approved the adoption of revised K-12 mathematics standards to be implemented at a date to be determined. As a result, all Georgia mathematics assessments will be re-developed to align with the new content standards. Over the next several weeks, we will be seeking educators to participate in various test development activities for GKIDS 2.0, Keenville, GAA 2.0, and Georgia Milestones.

As these activities were previously scheduled to occur over the summer, we will initially reach out to the educators who were invited at that time to determine their availability for the rescheduled dates. Should any of these educators be unavailable, we will choose replacements from the pool of nominees submitted by districts earlier this year.

Contact: Jan Blose, Ed.D., Director of Assessment Development, jblose@doe.k12.ga.us, 404-463-6665.
DRC BEACON

Georgia Milestones and DRC BEACON Assessment Data File Uploads

For 2021-2022, Georgia Milestones and the optional DRC BEACON resource will use the same three data file uploads in the DRC INSIGHT Portal.

1. Batch User
2. Multiple Student Upload (MSU)
3. Student Groups/Rostering

GEORGIA MILESTONES

Teacher-level reports will be available starting in the Winter 2021 EOC administration on the DRC INSIGHT Interactive Reporting platform. Districts wishing to make use of the optional teacher-level reporting will be required to transmit three data files. Districts may begin uploading these files during Winter EOC Test Set Up starting Monday, October 4.

DRC BEACON

Districts wishing to make use of the optional DRC BEACON Assessment resource will be required to transmit three data files. Districts may begin uploading BEACON data files now.

FAQS AND FILE LAYOUTS

GaDOE has worked with SIS vendors across the state to develop automated scripts to export these data files. Please check with your SIS vendor to determine if these automated exports are currently available.

GaDOE has developed a list of frequently asked questions to guide districts in preparing these data files. The FAQ document and the file layouts may be found on the Resources pages for DRC BEACON and Georgia Milestones.

For assistance with uploading your files to the INSIGHT portal, please contact the Georgia DRC Help Desk: gahelpdesk@datarecognitioncorp.com or 866-282-2249.

DRC BEACON Reporting

DRC BEACON offers a wide variety of reports for educators to use to inform instruction. Teachers can gain clear information on the status of students' learning toward end of year assessments. The Class Roster Report gives a quick view of class and student strengths including a scale score and performance level for every student in a class.

Teachers can then use the Individual Learning Content Progressions Report that shows tested standards and standards for growth to identify specific areas of growth where a teacher may wish to enhance or remediate to support growth in the identified growth bands.

New Resource – BEACON Educator Instructional Strategies

A new BEACON resource is the BEACON Educator Instructional Strategies or BEIS. Teachers can click on a link to a standard on the Progressions Report to open the Instructional Strategies document which calls out supporting standards and specific ideas that can be utilized for classroom instruction.

### Formative Instructional Practices (FIP)

#### FIP Webinar Series for 2021-2022

The FIP webinar series will be presented live on topics related to Formative Instructional Practices Online Professional Learning. This GaDOE resource will be available for all K-12 public schools and State Charter Schools. The series will offer one-hour presentations with resources and opportunities to ask questions. The sessions will be recorded.

FIP webinar sessions begin in October and continue monthly through April 2022. Registration is required and links to register will be published in the Assessment Newsletter under the Assessment Training section in advance. Please share this resource with colleagues in

**FIP and TestPad Training September 15**

Learn about Formative Instructional Practices (FIP), a blended model of professional learning for teachers and leaders. FIP online learning prepares educators to use lesson-based formative assessment in ways that bring clarity to the learning process for both teachers and students. FIP is a process based on four pillars: 1: Creating and Using Clear Learning Targets, 2: Collecting and Using Evidence of Student Learning, 3: Using Evidence to Provide Effective Feedback, and 4: Fostering Student Ownership of Learning. Invite your colleagues in Teaching and Learning, School Improvement, and Professional Development to participate in this webinar.

You will also gain insight into the TestPad formative assessment and benchmarking program that is free and found in the SLDs. Educators can use TestPad to create and administer formative assessments to their students.
Teachers can use the item bank found in TestPad or create their own tests with a simple test item editor. This resource is available to all Georgia teachers.

Contacts:
- Kelli Harris-Wright, Assessment Specialist, kharris-wright@doe.k12.ga.us, 470-579-6329.
- Joe Blessing, Program Manager, jbilling@doe.k12.ga.us, 470-579-6326.

GKIDS 2.0 and GKIDS Readiness Check

Platform User Guide
The GKIDS platform is operational. Please contact Bobbie Bable if you are a STC and unable to activate your account.

Reminders
- Accounts for additional system users, SchTCs, and teachers must be set up for this school year before access to the platform is available.
- The GKIDS Readiness Check (RC) window is the first six weeks of each district’s school year, and the end date is on the main page of the district dashboard. Please contact Bobbie Bable if your correct RC end date is not populated.
- All of the 2021-2022 resource documents have been posted on the GKIDS section of the GaDOE Assessment page. The substantive changes for the year are in the Platform User Guide on pages 18, 67, 72, 87, and 97.
- Instructions for creating and uploading students rosters are in the Platform User Guide.
- All of the training modules for teachers have been loaded and the training checklists for new and returning teachers are on the GKIDS 2.0 Resources page. There is no quiz to take after completing the Readiness Check modules. Certificates are available at the end of each module that you can screen print to show completion for the Readiness Check. The Course Completion quiz is for the entire GKIDS course.
- Platform-related questions may be submitted through the Intercom chat feature of the GKIDS platform. This feature is accessed through the blue conversation icon in the bottom right-hand corner of a user's dashboard.

Contact: Bobbie Bable, Assessment Specialist, bbable@doe.k12.ga.us, 470-579-6324.

Keenville

The Keens are super excited about the new school year and cannot wait to meet their new friends on Planet Peachy Keen!

For English Language Arts, in both grades 1 and 2, the Keens suggest assigning the following games:
- **Peachy Acres Farm** and **River Clean-Up** are fun, literary-based comprehension games that focus on the Key Ideas and Details strand within the Reading Literary Domain.
- For students not quite ready for reading comprehension games, Museum of Mysteries, Harbor Phonics, and Peaching Playground can be assigned to assess your students' phonics and word recognition skills. These games proved to be very popular among educators during the 2020-2021 school year and help promote student self-efficacy in literacy.

For mathematics, the Keens recommend:
- For Grade 1, **Unit 1: Creating Routines Using Data** – Cloud Hopper and Treat Factory
- For Grade 2, **Unit 1: Extending Base Ten Understanding – Cloud Hopper, Treat Factory**, Peaching Café, and Peaching Gym

As a reminder, updated Keenville Resources are now available, including User Guides, Curriculum Maps, and Parent Guides. A Summary of Keenville Updates is also available to assist users in locating additional information related to the updates made for this school year.

The 2021-2022 Keenville Teacher & Leader Training Course is also available in SLDS, along with optional training checklists for new and returning users.

Contact: Lisa Hardman, Assessment Specialist, lhardman@doe.k12.ga.us, 470-579-6354.
ACCESS for ELLs 2.0

2021-2022 Pre-ID/Multiple Student Upload File Layout in WIDA AMS

The 2021-2022 version of the Pre-ID/Multiple Student Upload file layout and sample file was made available in WIDA AMS Friday, August 27. As a reminder, the 2021-2022 file layout has some significant changes from the prior year’s layouts. Please review your file carefully before importing it into WIDA AMS.

Secure Portal Redesign and Launch

Ensure your WIDA Secure Portal account is up to date before the redesigned WIDA Secure Portal launches on Wednesday, September 1. It is especially important for STCs to ensure that the school field in the My Account Info box on their My Account & Secure Portal page is empty.

The WIDA Secure Portal will be down for this planned upgrade beginning Tuesday, August 31 at 2 p.m. until Wednesday, September 1 at 6 a.m.

Testing Updates

WIDA has information to support educators during these challenging times. Please visit the COVID-19 Response and Updates webpage for the latest updates and access to relevant resources.

When recording students’ oral responses, test administrators must ensure audio is functioning properly.

Students are not allowed to take cellphones, smartwatches or Bluetooth headsets into test or Screener sessions.

Be sure to check WIDA AMS and the WIDA Secure Portal to ensure all new schools have been uploaded.

Please note WIDA does not have a remote administration solution for WIDA Screener or ACCESS for ELLs.

Review the FAQs-WIDA’s New Screener for Kindergarten published by GaDOE ESOL. This document answers commonly asked test security questions for WIDA Screener.

Contact: Mary Nesbit-McBride, Ph.D., Assessment Specialist, mnesbit@doe.k12.ga.us, 470-579-6345.

Georgia Alternate Assessment 2.0

GAA 2.0 Teacher Resource Guides

GAA 2.0 Teacher Resource Guides are now available. These content-specific guides are:

- a supplemental resource designed to acquaint Georgia educators and other stakeholders with the GAA 2.0 structure and test content;
- provided to complement other instructional resources developed by the local school district or the Special Education Division of the Georgia Department of Education; and
- not intended to replace the state-adopted content standards nor the Extended Content Standards.

As a reminder, revisions have been made to the GAA 2.0 high school assessments to include content only from the course in each content area that continues to be assessed with Georgia Milestones (American Literature, Algebra I/Coordinate Algebra, Biology, and U.S. History). The spring 2022 administration of the GAA 2.0 will be aligned to these Revised GAA 2.0 High School blueprints. Updated High School Extended Content Standards and Vocabulary Lists are also available.

GAA 2.0 in High School

The Georgia Student Assessment Handbook describes those students who are eligible to take the GAA 2.0 in high school. The GAA 2.0 is intended for students who are instructed on alternate academic standards. The instructional program for students with significant cognitive disabilities includes courses that align with the general education courses associated with the Georgia Milestones EOC measures. In this way, the GAA 2.0 in high school serves as the alternate assessment for the high school assessment program. “The assessment shall be administered for the first time in grade 11 and must occur prior to intended graduation” p.47. A student who is retained or is repeating grade 11 is NOT required to be assessed a second (or more) time using the GAA 2.0.

Students who were eligible to take the GAA 2.0 in 2020-2021 but were unable to do so, should participate in the administration of the GAA 2.0 in 2021-2022.
GAA 2.0 Braille Survey
Questar will distribute the GAA 2.0 Braille Survey to STCs in October to determine the number of GAA 2.0 Braille Booklets needed in each school district by grade. It is important that STCs complete the survey by Friday, October 29.

Contact: Mary Nesbit-McBride, Ph.D., Assessment Specialist, mnesbit@doe.k12.ga.us, 470-579-6345.

Georgia Milestones
Pre-ID File Process Changes to Multiple Student Upload (MSU)
For SY2021-2022, districts will no longer upload their student Pre-ID file for the Georgia Milestones tests to the state. Instead, districts will upload their student file directly to the vendor, DRC. This transition process has been in place for several years, and the SIS vendors across the state have been provided the replacement Multiple Student Upload (MSU) layout for the Pre-ID file. The MSU and Pre-ID data files have the exact same layout; the difference is that the Pre-ID data file is in .txt format, whereas the MSU file is in .csv format. Please check with your SIS vendor to determine if this automated export is currently available.

The MSU layout is available on DRC INSIGHT. One major advantage of the MSU process over the Pre-ID process is that it will allow districts to submit up-to-date student demographic information nearer to the testing window and allows districts to update (re-upload) this information as needed (if, for instance, an error is found in the SIS, districts would update the SIS and then reupload the MSU).

There are no official due dates for when the MSU files should be uploaded to DRC. The upload process should be done during the Test Setup phase of the testing window. **Winter EOC 2021 Test set up begins on Monday, October 4.** STCs should work with local technology coordinators to determine the best time(s) to upload student information based on local testing windows.

For assistance with the process of uploading your MSU file to the DRC INSIGHT portal, please contact the Assessment Specialist assigned to your district or the Georgia DRC Help Desk: gahelpdesk@datarecognitioncorp.com, 866-282-2249.

DRC’s Insight Portal is located here: https://www.drcedirect.com/all/eca-portal-v2-ui/#/login
STCs and Technology Directors may also benefit from watching the Technology Directors Training that occurred in July 2021. Click on the link to register and to receive the recording of this presentation.

https://attendee.gotowebinar.com/register/723686873907877901

Georgia Milestones Interactive Reporting
As part of our continued improvement for Georgia Milestones reporting and beginning with the Winter 2021 EOC, the Interactive Reporting Platform for teachers will be introduced. Districts wishing to make use of this optional resource will be required to transmit three data files directly to DRC through INSIGHT. These data files must be uploaded to INSIGHT in this order to avoid receiving error messages.
1. Batch User
2. Multiple Student Upload (MSU)
3. Student Groups/Roster

GaDOE has worked with SIS vendors across the state to develop automated scripts to export these data files. Technology Directors and/or STCs should check with local SIS vendors to determine if these automated exports are currently available. This three-file upload process is mentioned on the Technology Director’s Training that occurred in July 2021.

A Georgia Milestones and BEACON File Layout FAQs for Districts 2021 document is provided on the Georgia Milestones Resources page. Additional details will be given during the Georgia Milestones Pre-Administration and Test Setup training on Tuesday, October 12 and the Interactive Reporting webinar on Tuesday, November 30. Links to those training sessions are found in the Key Trainings section found in the newsletter.

Georgia Milestones AP/IB/DE and Course Listing
Students enrolled in and completing courses assessed by a Georgia Milestones End-of-Course assessment shall take the EOC as a final exam that shall count as a
Assessment Update

portion of the final numeric grade. The 2021-2022 Course List can be found on the Georgia Milestones Resources page.

Students enrolled in American Literature and Composition, Algebra I or Coordinate Algebra, and Biology are required to take the Georgia Milestones EOC regardless of AP/IB/DE course enrollment. Students who pass the AP, IB or DE course are exempt from the EOC in US History. For additional information, the AP/IB/DE FAQ document can be found on the Georgia Milestones Resources page.

Georgia Milestones Test Design

As a reminder, the High School Physical Science assessment shall be administered to grade 8 students enrolled in the high school course, in lieu of the Grade 8 Science EOG. Beginning in 2021-2022, the HS Physical Science assessment will follow a shortened test design.

- The test blueprint for HS Physical Science is included in the Grade 8 EOG Test Blueprints document.
- Assessment Guides and Study Guides for HS Physical Science have been updated to reflect the new test design.
- The Secure Practice Test for grade 8 will now have two options (one with grade 8 science items, the other with HS Physical Science items).

Details regarding the Georgia Milestones test design are available in the Assessment Guide for each grade level or course, as well as in the Test Blueprints found on the Georgia Milestones Resources webpage.

Contacts:

- Taiesha Adams, Ed.D., Assessment Specialist, taadams@doe.k12.ga.us, 470-579-6299.
- Joe Blessing, Program Manager, jblessing@doe.k12.ga.us, 470-579-6326.

NAEP/NCES

Pre-Administration Training

Districts that have schools participating in the NAEP assessments for 2021-2022 have been recently notified. STCs and the designated school coordinators should plan to attend the pre-administration training on Thursday, October 14. The registration link is in the Key Training Dates section of this newsletter.

Contact: Bobbie Bable, Assessment Specialist, bbable@doe.k12.ga.us, 470-579-6324.

Accountability Update

Thank you for your hard work in completing the three CCRPI applications that closed in August! Please remember that the Non-Participation application must be completed by district staff with CCRPI access by the end of the day Thursday, September 16. Application resources can be accessed by going to the CCRPI MyGaDOE Portal and choosing CCRPI Resources. If you are not responsible for completing the Non-Participation application, be sure to forward email updates to the appropriate staff in your district.

The GAA application will be available Thursday, September 16 – Friday, October 1. The application should be completed by assessment directors with CCRPI access in collaboration with special education directors. Look for an email with details when the application opens. The user guide, training webinar recording, and webinar handout will be posted in the CCRPI Resources section of the CCRPI MyGaDOE Portal.

Please contact the GaDOE accountability specialist assigned to assist your district with any questions or concerns. Your district accountability Point of Contact gains critical information each month at the Accountability Lunch and Learns and is another good resource for you.
Key Training Dates for September-October 2021

*Please note: for all GoToWebinar meeting links below, if the meeting date has passed, the meeting link will take you to the recording. Meeting links are embedded within the title.*

Note: beginning October 1, the GaDOE will be moving from GoToWebinars to webinars within Microsoft Teams. When you click on the meeting names below after October 1, you will be able to register with your district email address for the webinar. Once you register for the webinar, you will receive an email from Microsoft Teams noreply@teams.registration.microsoft.com to allow you to add the webinar to your calendar.
