

## Eligibility Criteria for the Georgia Alternate Assessment 2.0 (GAA)

### Step I: Review the Eligibility Criteria for GAA

Prior to reviewing the eligibility criteria for GAA, the Individualized Education Program (IEP) team must understand all assessment options, including the characteristics of each assessment and the potential implications of each assessment choice. The GAA 2.0 is intended for students with the most significant cognitive disabilities. Instruction for these students is based on alternate academic achievement standards, which are aligned to the Georgia Standards of Excellence at a reduced depth, breadth, and complexity. Beginning with students who enroll in ninth grade for the first time on or after the 2020-2021 school year, students who participate in the GAA 2.0 will be eligible for the state-defined alternate diploma rather than the regular high school diploma (SBOE 160-4-2-.48).

According to O.C.G.A § 20-2-281, school districts are required to follow the procedures specified in the applicable test administration materials. As a result, the IEP team must use this form to document its assessment decisions. If GAA is being considered, the IEP team must review the four criteria below and select **Yes** or **No** if applicable to the student. To be eligible to participate in GAA, the answer to all four of the questions below must be **Yes**. If the answer to any of the questions is **No**, the student is not eligible to participate in GAA and must participate in the Georgia Milestones Assessment System. Each **Yes** answer requires a justification that contains evidence that the student meets the criteria.
