THE GEORGIA MILESTONES ASSESSMENT SYSTEM

The purpose of the Georgia Student Assessment Program is to measure student achievement of the state-adopted content standards and inform efforts to improve teaching and learning. Results of the assessment program are utilized to identify students failing to achieve mastery of content, to provide educators with feedback about instructional practice, and to assist school districts in identifying strengths and weaknesses in order to establish priorities in planning educational programs.

The State Board of Education is required by Georgia law (O.C.G.A. §20-2-281) to adopt assessments designed to measure student achievement relative to the knowledge and skills set forth in the state-adopted content standards. The Georgia Milestones Assessment System (Georgia Milestones) fulfills this requirement and, as a key component of Georgia's Student Assessment Program, is a comprehensive summative assessment program spanning grade 3 through high school. Georgia Milestones measures how well students have learned the knowledge and skills outlined in the state-adopted content standards in Language Arts, Mathematics, Science, and Social Studies. Students in grades 3 through 8 take an end-of-grade assessment in English Language Arts and Mathematics; additionally, students in grades 5 and 8 are assessed in Science; and students in grade 8 are assessed in Social Studies. High school students take an end-of-course assessment for each of the five courses designated by the State Board of Education. In accordance with State Board Rule, Georgia Milestones end-of-course measures serve as the final exams for the specified high school courses.

The main purpose of Georgia Milestones is to inform efforts to improve student achievement by assessing student performance on the standards specific to each course or subject/grade tested. Specifically, Georgia Milestones is designed to provide students and their parents with critical information about the students' achievement and, importantly, their preparedness for the next educational level. The assessment system is a critical informant of the state's accountability measure, the College and Career Ready Performance Index (CCRPI), providing an important gauge about the quality of the educational services and opportunities provided throughout the state. The ultimate goal of Georgia's assessment and accountability system is to ensure that all students are provided the opportunity to engage with high-quality content standards, receive high-quality instruction predicated upon those standards, and are positioned to meet high academic expectations.

Features of the Georgia Milestones Assessment System include:

- technology-enhanced items in all grades and courses;
- open-ended (constructed-response) items in English Language Arts (all grades and courses);
- a writing component (in response to passages read by students) at every grade level and course within the English Language Arts assessment; and
- online administration as the primary mode of administration.

The mode of administration for the Georgia Milestones program is online. Paper/pencil test materials, such as Braille forms, will be available for the small number of students who cannot interact with the computer due to their disability as documented in an IEP, IAP/504, or EL-TPC Plan.

Georgia Milestones follows guiding principles to help ensure that the assessment system:

- is sufficiently challenging to ensure Georgia students are well positioned to compete with other students across the United States and internationally;
- is intentionally designed across grade levels to send a clear signal of student academic progress and preparedness for the next level, whether it is the next grade level, course, or college or career;
- is accessible to all students, including those with disabilities or limited English proficiency, at all achievement levels;
- supports and informs the state’s educator-effectiveness initiatives, ensuring items and forms are appropriately sensitive to quality instructional practices; and
- includes innovative technology-enhanced items.

GEORGIA MILESTONES END-OF-GRADE (EOG) ASSESSMENTS

As previously mentioned, Georgia law (§20-2-281) mandates that the State Board of Education adopt annual measures of student achievement in the content areas of English Language Arts (ELA) and Mathematics in grades 3–8, Science in grade 5 and 8, and Social Studies in grade 8. Students must participate in the Georgia Milestones content areas measured at the end of each grade in which they are enrolled. State law further mandates that student achievement in reading, as measured as a component of the Georgia Milestones English Language Arts (ELA) EOG assessment, be utilized in promotion and retention decisions for students in grades 3, 5, and 8, while student achievement in mathematics, as measured by the Georgia Milestones Mathematics EOG assessment, be considered in grades 5 and 8. Students who fail to demonstrate grade-level achievement on these measures must receive remediation and be offered an opportunity for a retest prior to consideration for promotion to grades 4, 6, and 9 (§20-2-283 and State Board of Education Rule 160-4-2-.11).

Results of the EOG assessments, according to the legislated and identified purposes, must:

- provide a valid measure of student achievement of the state content standards across the full achievement continuum;
- provide a clear signal of each student’s preparedness for the next educational level (i.e., grade);
- allow for the detection of the academic progress made by each student from one assessed grade to the next;
- be suitable for use in promotion and retention decisions at grades 3 (reading), 5 (reading and mathematics), and 8 (reading and mathematics);
- support and inform educator-effectiveness measures; and
- inform state and federal accountability measures at the school, district, and state levels.

ASSESSMENT GUIDE

The Georgia Milestones Grade 4 EOG Assessment Guide is provided to acquaint Georgia educators and other stakeholders with the structure and content assessed by the tests. Importantly, this guide is not intended to inform instructional planning. It is essential to note that there are a small number of content standards that are better suited for classroom or individual assessment rather than large-scale summative assessment. While those standards are not included on the tests, and therefore are not included in this Assessment Guide, the knowledge, concepts, and skills inherent in those standards are often required for the mastery of the standards that are assessed. Failure to attend to all content standards within a content area can limit a student’s opportunity to learn and show what he or she knows and can do on the assessments.

The Georgia Milestones Grade 4 EOG Assessment Guide is in *no way* intended to substitute for the state-mandated content standards; it is provided to help educators better understand the structure and content of the assessments, *but is not all-encompassing of the knowledge, concepts, and skills covered in Grade 4 or assessed on the tests*. The state-adopted content standards and associated standards-based instructional resources, such as the Content Frameworks, should be used to plan instruction. This Assessment Guide can serve as a *supplement* to those resources, in addition to any locally developed resources, **but should not be used in isolation**. In principle, this Assessment Guide is intended to be descriptive of the assessment program and should not be considered all-inclusive. The state-adopted content standards are located at www.georgiastandards.org.

TESTING SCHEDULE

The Georgia Milestones Grade 4 EOG assessment is offered during the Main Administration each spring and one Summer Administration for retests.

Students will take the Georgia Milestones Grade 4 EOG assessment on days specified by their local school district during the testing window. Each district determines a local testing window within the state-designated testing window.

DEPTH OF KNOWLEDGE DESCRIPTORS

Items found on the Georgia Milestones assessments, including the Grade 4 EOG assessment, are developed with a particular emphasis on cognitive complexity, or Depth of Knowledge (DOK). DOK is measured on a scale of 1 to 4 and refers to the level of cognitive demand required to complete a task (or in this case, an assessment item). The higher the level, the *more complex* the assessment; however, higher levels do not necessarily mean *more difficult* items. For instance, a question can have a low DOK but a medium or even high difficulty level. Conversely, a DOK 4 question may have a low difficulty level but still require a great deal of cognitive thinking (e.g., analyzing and synthesizing information instead of just recalling it). The following descriptions and table show the expectations of the four DOK levels in greater detail.

Level 1 (Recall of Information) generally requires students to identify, list, or define, often asking them to recall who, what, when, and where. Consequently, this level usually asks students to recall facts, terms, concepts, and trends and may ask them to identify specific information contained in documents, excerpts, quotations, maps, charts, tables, graphs, or illustrations. Items that require students to “describe” and/or “explain” could be classified at Level 1 or Level 2, depending on what is to be described and/or explained. A Level 1 “describe” and/or “explain” would require students to recall, recite, or reproduce information.

Level 2 (Basic Reasoning) includes the engagement of some mental processing beyond recalling or reproducing a response. A Level 2 “describe” and/or “explain” would require students to go beyond a description or explanation of recalled information to describe and/or explain a result or “how” or “why.”

Level 3 (Complex Reasoning) requires reasoning, using evidence, and thinking on a higher and more abstract level than Level 1 and Level 2. Students will go beyond explaining or describing “how and why” to justifying the “how and why” through application and evidence. Level 3 questions often involve making connections across time and place to explain a concept or “big idea.”

Level 4 (Extended Reasoning) requires the complex reasoning of Level 3 with the addition of planning, investigating, applying significant conceptual understanding, and/or developing that will most likely require an extended period of time. Students should be required to connect and relate ideas and concepts *within* the content area or *among* content areas in order to be at this highest level. The distinguishing factor for Level 4 would be evidence (through a task, a product, or an extended response) that the cognitive demands have been met.

The following table identifies skills that students will need to demonstrate at each DOK level, along with sample question cues appropriate for each level.

Level	Skills Demonstrated	Question Cues
<p style="text-align: center;">Level 1 Recall of Information</p>	<ul style="list-style-type: none"> • Make observations • Recall information • Recognize formulas, properties, patterns, processes • Know vocabulary, definitions • Know basic concepts • Perform one-step processes • Translate from one representation to another • Identify relationships 	<ul style="list-style-type: none"> • Tell who, what, when, or where • Find • List • Define • Identify; label; name • Choose; select • Compute; estimate • Express as • Read from data displays • Order
<p style="text-align: center;">Level 2 Basic Reasoning</p>	<ul style="list-style-type: none"> • Apply learned information to abstract and real-life situations • Use methods, concepts, and theories in abstract and real-life situations • Perform multi-step processes • Solve problems using required skills or knowledge (requires more than habitual response) • Make a decision about how to proceed • Identify and organize components of a whole • Extend patterns • Identify/describe cause and effect • Make basic inferences or logical predictions from data or text • Interpret facts • Compare or contrast simple concepts/ideas 	<ul style="list-style-type: none"> • Apply • Calculate; solve • Complete • Describe • Explain how; demonstrate • Construct data displays • Construct; draw • Analyze • Extend • Connect • Classify • Arrange • Compare; contrast • Predict

Level	Skills Demonstrated	Question Cues
<p style="text-align: center;">Level 3 Complex Reasoning</p>	<ul style="list-style-type: none"> • Solve an open-ended problem with more than one correct answer • Create a pattern • Generalize from given facts • Relate knowledge from several sources • Draw conclusions • Translate knowledge into new contexts • Compare and discriminate between ideas • Assess value of methods, concepts, theories, processes, and formulas • Make choices based on a reasoned argument • Verify the value of evidence, information, numbers, and data 	<ul style="list-style-type: none"> • Plan; prepare • Create; design • Ask “what if?” questions • Generalize • Justify; explain why; support; convince • Assess • Rank; grade • Test; judge • Recommend • Select • Conclude
<p style="text-align: center;">Level 4 Extended Reasoning</p>	<ul style="list-style-type: none"> • Analyze and synthesize information from multiple sources • Examine and explain alternative perspectives across a variety of sources • Describe and illustrate how common themes are found across texts from different cultures • Apply mathematical models to illuminate a problem or situation • Design a mathematical model to inform and solve a practical or abstract situation • Combine and synthesize ideas into new concepts 	<ul style="list-style-type: none"> • Design • Connect • Synthesize • Apply concepts • Critique • Analyze • Create • Prove

SCORES

Students will receive a scale score and an Achievement Level designation based on total test performance. In addition, students will receive information on how well they performed at the domain level. For more information on scoring, please see the *Georgia Milestones End-of-Grade (EOG) Interpretive Guide for Score Reports*. Additional information on the items contributing to these scores is found in the Description of Test Format and Organization sections for English Language Arts (ELA) and Mathematics.

Selected-response items and technology-enhanced items are machine scored. The Mathematics assessment consists of selected-response and technology-enhanced items. However, the English Language Arts (ELA) assessment consists of a variety of item types that contribute to the student's score, including selected-response, technology-enhanced, constructed-response, extended constructed-response, and extended writing-response. Items that are not machine scored—i.e., constructed-response, extended constructed-response, and extended writing-response items—require rubrics for manual scoring.

ENGLISH LANGUAGE ARTS (ELA)

DESCRIPTION OF TEST FORMAT AND ORGANIZATION

The Georgia Milestones English Language Arts (ELA) EOG assessment is primarily a criterion-referenced test, designed to provide information about how well a student has mastered the grade-level state-adopted content standards in English Language Arts (ELA). The assessment consists of both operational items and field test items (newly written items that are being tried out and do not contribute to the student's score). Each student will receive one of four Achievement Level designations, depending on how well the student has mastered the content standards. The four Achievement Level designations are Beginning Learner, Developing Learner, Proficient Learner, and Distinguished Learner. In addition to criterion-referenced information, the Georgia Milestones measures will also produce an estimate of how Georgia students are achieving relative to their peers nationally. The norm-referenced information provided is supplementary to the criterion-referenced Achievement Level designation and will not be utilized in any manner other than to serve as a barometer of national comparison. Only the criterion-referenced scores and Achievement Level designations will be utilized in the accountability metrics associated with the assessment program (such as student growth measures, educator-effectiveness measures, or the CCRPI).

The table on the following page outlines the number and types of items included on the Grade 4 English Language Arts EOG assessment.

Grade 4 English Language Arts (ELA) EOG Assessment Design

Description	Number of Items	Number of Points
1-point Selected-Response and Technology-Enhanced Items ^{1, 2}	37	37
2-point Technology-Enhanced Items ¹	5	10
2-point Constructed-Response Items	1	2
4-point Extended Constructed-Response Items	1	4
7-point Extended Writing-Response Items	1	7
Field Test Items ³	6	0
Total⁴	51	60

¹ **Technology-Enhanced:** Possible variants of the technology-enhanced item types used for ELA include evidence-based selected-response, drag-and-drop, and drop-down.

² **1-point Selected-Response and Technology-Enhanced Items:** The ratio of selected-response to technology-enhanced items may vary. The target range of 1-point technology-enhanced items is 0 to 5.

³ **Field Test Items:** Field test items may include 1-point selected-response, 1-point technology-enhanced, 2-point evidence-based selected-response, 2-point technology-enhanced, and 4-point extended constructed-response items.

⁴ **Total:** Of the total 51 items, 45 contribute to the student's ELA score.

The test will be given in three sections. Students will be given a maximum of 90 minutes to complete Section 1, which includes the extended writing-response. Students may have up to 80 minutes per section to complete Sections 2 and 3. The total estimated testing time for the Grade 4 English Language Arts (ELA) EOG assessment ranges from approximately 125 to 250 minutes. Total testing time describes the amount of time students have to complete the assessment. It does not take into account the time required for the test examiner to complete pre-administration and post-administration activities (such as reading the standardized directions to students). Section 1, which focuses on writing, must be administered on a separate day. Sections 2 and 3 must be scheduled such that both will be completed in a single day or over the course of two consecutive days (one section each day) and should be completed within the same week following the district's testing protocols for the EOG measures (in keeping with state guidance).

CONTENT MEASURED

The Grade 4 English Language Arts (ELA) assessment will measure the Grade 4 standards that are described at www.georgiastandards.org.

The content of the assessment is organized into two groupings, or domains, of standards for the purposes of providing feedback on student performance. A content domain is a reporting category that *broadly* describes and defines the content of the course, as measured by the EOG assessment. The standards for Grade 4 English Language Arts (ELA) are grouped into two domains: Reading and Vocabulary, and Writing and Language. Each domain was created by organizing standards that share similar content characteristics. The content standards describe the level of expertise that Grade 4 English Language Arts (ELA) educators should strive to develop in their students. Educators should refer to the content standards for a full understanding of the knowledge, concepts, and skills that may be assessed on the EOG assessment.

The approximate proportional number of points associated with each domain is shown in the following table. A range of cognitive levels will be represented on the Grade 4 English Language Arts (ELA) EOG assessment. Educators should always use the content standards when planning instruction.

GRADE 4 ENGLISH LANGUAGE ARTS (ELA): DOMAIN STRUCTURES AND CONTENT WEIGHTS

Reporting Categories and Content Standards

Reporting Category/Domain	Content Standards Assessed	Approximate # of Points	Approximate % of Test
Reading and Vocabulary		32	53%
Key Ideas and Details	ELAGSE4.RL (1, 2, 3)	18	30%
	ELAGSE4.RI (1, 2, 3)		
Craft and Structure/ Integration of Knowledge and Ideas	ELAGSE4.RL (5, 6, 7, 9)	8	13%
	ELAGSE4.RI (5, 6, 7, 8, 9)		
Vocabulary Acquisition and Use	ELAGSE4.RL4/RI4	6	10%
	ELAGSE4.L (4, 4a, 4b, 4c, 5, 5a, 5b, 5c, 6)		
Writing and Language		28	47%
Writing	ELAGSE4.W (1, 1a, 1b, 1c, 1d, 2, 2a, 2b, 2c, 2d, 2e, 3, 3a, 3b, 3c, 3d, 3e, 4, 7, 8, 9, 9a, 9b)	16	27%
Language	ELAGSE4.L (1, 1a, 1b, 1c, 1d, 1e, 1f, 1g, 2, 2a, 2b, 2c, 2d, 3, 3a, 3b, 3c)	12	20%
Total		60	100%

Text Type Reporting Categories and Content Standards

Each reading and vocabulary question connects to one of the Reading and Vocabulary domains as well as to one of the Text Type domains. While each item is categorized into two different domains, performance on each item counts only one time in determining the student's total score.

Reporting Category/Domain	Content Standards Assessed	Approximate # of Reading and Vocabulary Points	Approximate % of Reading and Vocabulary Points
Text Type		32	100%
Reading Literary Text	ELAGSE4.RL (1, 2, 3, 4, 5, 6, 7, 9)	19	60%
	ELAGSE4.L (4, 4a, 4b, 4c, 5, 5a, 5b, 5c, 6)		
Reading Informational Text	ELAGSE4.RI (1, 2, 3, 4, 5, 6, 7, 8, 9)	13	40%
	ELAGSE4.L (4, 4a, 4b, 4c, 5, 5a, 5b, 5c, 6)		

ITEM TYPES

The English Language Arts (ELA) portion of the Grade 4 EOG assessment consists of selected-response, technology-enhanced, constructed-response, extended constructed-response, and extended writing-response items.

A selected-response item, sometimes called a multiple-choice item, is defined as a question, problem, or statement that appears on a test followed by several answer choices, sometimes called options or response choices. The incorrect choices, called distractors, usually reflect common errors. The student's task is to choose, from the alternatives provided, the best answer to the question posed in the stem (the question). The English Language Arts (ELA) selected-response items will have four answer choices.

A technology-enhanced item is an innovative way to measure student skills and knowledge by using scaffolding within a multi-step process. Technology-enhanced items are worth one or two points. If the item is worth two points, partial credit is awarded for special combinations of responses that do not include all the correct answers. For ELA, there are a number of specific technology-enhanced item types being used:

- In Evidence-Based Selected-Response (EBSR) items, the student responds to a two-part question. In the first part, the student responds to an inferential or key concept question related to a stimulus text. In the second part, the student provides evidence from the same text to support the inference or idea. In both parts of an EBSR item, the student selects the responses from the choices provided. There is one correct answer for each part of an EBSR item. If the student responds correctly to both parts of the EBSR item, the student receives two points. Partial credit may be awarded when a student answers the first part correctly.
- In drag-and-drop items, the student can show language, writing, research, or comprehension skills by organizing or sequencing information into a table or simple graphic. The student uses a mouse, touchpad, or touchscreen to move responses to designated areas on the screen.
- In drop-down menu items, the student reads a stimulus text with two to four drop-down menus embedded in the text. The student uses a mouse, touchpad, or touchscreen to open each drop-down menu and select the correct answer from the drop-down options. Each drop-down menu will include two to four options.
- Since some technology-enhanced items in this guide were designed to be used only in an online, interactive-delivery format, some of the item-level directions will not appear to be applicable when working within the format presented in this document (for example, "Move the descriptions onto the lines of the paragraph" or "Click To Respond").
- This icon  identifies special directions that will help the student answer technology-enhanced items as shown in the format presented within this guide. These directions do not appear in the online version of the test but explain information about how the item works that would be easily identifiable if the student were completing the item in an online environment.

To give students practice using technology-enhanced items in an online environment very similar to how they will appear on the online test, visit "Experience Online Testing Georgia."

1. Go to the website "Welcome to Experience Online Testing Georgia" (<http://gaexperienceonline.com/>).
2. Select "Test Practice."
3. On the right side of the page, you will see "End-of-Grade (EOG) Spring Main." Select "Online Tools Training" which appears underneath it.
4. Select "EOG Test Practice."
5. Select "Technology Enhanced Items."
6. Select "All Grades."

7. You will be taken to a login screen. Use the username and password provided on the screen to log in and practice navigating technology-enhanced items online.

Please note that Google Chrome is the only supported browser for this public version of the online testing environment.

A constructed-response item asks a question and solicits the student to provide a response he or she constructs on his or her own, as opposed to selecting from options provided. The constructed-response items on the EOG assessment will be worth two points. Partial credit may be awarded if part of the response is appropriate based upon the prompt and the rubric.

An extended constructed-response item is a specific type of constructed-response item that elicits a longer, more detailed response from the student than a two-point constructed-response item. The stimulus used for this type of item may be a literary or informational passage or a paired passage set. A paired passage set may consist of two literary passages, two informational passages, or one of each passage type. The extended constructed-response items on the EOG assessment will be worth four points. For English Language Arts (ELA), the student will respond to a narrative prompt based on a passage the student has read, and the response will be scored for the Writing and Language domain. Partial credit may be awarded if part of the response is appropriate based upon the prompt and the rubric.

The extended writing-response items require students to write an opinion essay or develop an informative/explanatory essay. As part of the extended writing task, students must first read two passages and then respond to three multiple-choice items and one constructed-response item. All of these items help students write their extended essay by focusing them on the main idea(s) and key details in the passages. Two of the selected-response items will address each of the passages separately. One selected-response item and the constructed-response item will address both of the passages together. All three selected-response items and the constructed-response item contribute to the Reading and Vocabulary domain. These items will be followed by an extended writing-prompt, which requires the student to draw from reading experiences when writing an essay response and to cite evidence from the passage(s) to support claims and conclusions in the essay. The writing task is worth seven points that contribute to the Writing and Language domain.

ENGLISH LANGUAGE ARTS (ELA) DEPTH OF KNOWLEDGE EXAMPLE ITEMS

Example items that represent the applicable DOK levels across various Grade 4 English Language Arts (ELA) content domains are provided.

All example and sample items contained in this guide are the property of the Georgia Department of Education.

Example Items 1–3

Read the article and answer example items 1 through 3.

Hide and Seek

Soldiers in the United States Army wear uniforms that are covered with patches of green, brown, and tan. The pattern on these uniforms is called camouflage. It is used to help soldiers blend in with their surroundings. Humans are not the only ones who use camouflage. Animals use camouflage as well.

Hiding with Colors

If someone wants to hide at night, what color should the person wear? Dressing in black will help him or her blend in with the night sky. Some animals also have colors that help them blend in. The white fur on the polar bear makes it hard to see in the snow. The arctic fox changes color twice a year. In the winter, the fox turns white so it can blend in with the snow. In the summer, the fox turns brown so it can blend in with dry grass and bushes.

Hiding with Patterns

In addition to colors, patterns are useful for blending in. Stripes and spots help animals blend in with the different colors and shadows in their surroundings. Baby deer have white spots that look just like the sunlight's pattern of light and dark. When sunlight falls between leaves and branches in the forest, the baby deer are safely hidden. Cheetahs also have dark spots that help them blend in with the sun's light and dark patterns.

Hiding by Imitation

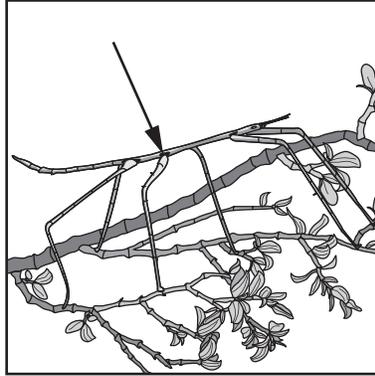

Some animals imitate, or pretend to be, other animals. For example, some king snakes have stripes. These stripes make the king snakes look like coral snakes. Coral snakes use a poisonous liquid called venom when they bite. Other animals and people stay away from king snakes because they think they are poisonous coral snakes. This helps king snakes stay safe.

Hiding by Disguise

Many insects use a disguise, or costume, to help them hide. Imagine looking at a leaf and then seeing it fly away! The leaf is actually the South Indian Blue Oakleaf butterfly. A stick insect resembles the branches of the plant it lives on. This makes it very hard to find!

Camouflage is useful for both humans and animals. It is interesting to learn about all the ways there are to hide!

Stick Insect

Example Item 1

Selected-Response: 1 point

DOK Level: 2

English Language Arts (ELA) Grade 4 Content Domain: Reading and Vocabulary

Standard: ELAGSE4RI7. Interpret information presented visually, orally, or quantitatively (e.g., in charts, graphs, diagrams, time lines, animations, or interactive elements on Web pages) and explain how the information contributes to an understanding of the text in which it appears.

Why is the picture of the cheetah MOST LIKELY included in the article?

- A. to show that a cheetah likes to sit in the grass
- B. to show the way a cheetah hunts animals in the grass
- C. to show that a cheetah is the same height as the grass
- D. to show the way a cheetah uses its spots to hide in the grass

Correct Answer: D

Explanation of Correct Answer: The correct answer is choice (D) to show the way a cheetah uses its spots to hide in the grass. This image helps clarify a concept that can be hard for readers to imagine based solely on the text. Choice (A) is incorrect because the article does not discuss what cheetahs like to do, so the image cannot support that interpretation. Choice (B) is incorrect because the article does not discuss how cheetahs hunt, so readers do not need clarification. Choice (C) is incorrect because the article does not discuss the cheetah's height, so the image would not need to clarify that for the reader.

Example Item 2

Drag-and-Drop Technology-Enhanced: 2 points

DOK Level: 3

English Language Arts (ELA) Grade 4 Content Domain: Reading and Vocabulary

Standard: ELAGSE4RI7. Interpret information presented visually, orally, or quantitatively (e.g., in charts, graphs, diagrams, time lines, animations, or interactive elements on Web pages) and explain how the information contributes to an understanding of the text in which it appears.

Complete the chart by moving the question that is answered by the illustrations in the article into the first column. Then move the TWO details from the article that BEST answer this question into the second column.

Question That is Answered by the Illustrations	Details from "Hide and Seek"

Questions

What are some ways that certain living creatures use camouflage?

When do certain living creatures most frequently use camouflage?

Details

Dressing in black will help him or her blend in with the night sky.

When sunlight falls between leaves and branches in the forest, the baby deer are safely hidden.

Many insects use a disguise, or costume, to help them hide.

Stripes and spots help animals blend in with the different colors and shadows in their surroundings.

Coral snakes use a poisonous liquid called venom when they bite.

Click To Respond

➡ Due to the size of the response area, this item has a “Click To Respond” button on the screen. Clicking this button will bring up the response area at full size.

Go on to the next page to finish example item 2.

Example Item 2. *Continued.*

Scoring Rubric

Points	Description
2	The student correctly fills in both columns (order within each column does not matter).
1	The student correctly fills in the first column and one bullet in the second column (order within each column does not matter).
0	The student correctly fills in the second column or does not correctly fill in either column.

Exemplar Response

The correct response is shown below.

Question That Is Answered by the Illustrations	Details from "Hide and Seek"
<ul style="list-style-type: none"> • What are some ways that certain living creatures use camouflage? 	<ul style="list-style-type: none"> • Stripes and spots help animals blend in with the different colors and shadows in their surroundings. • Many insects use a disguise, or costume, to help them hide.

<u>Questions</u>	<u>Details</u>	
<p>When do certain living creatures most frequently use camouflage?</p>	<p>Dressing in black will help him or her blend in with the night sky.</p> <p>When sunlight falls between leaves and branches in the forest, the baby deer are safely hidden.</p>	<p>Coral snakes use a poisonous liquid called venom when they bite.</p>

The correct response for the first column is "What are some ways that certain living creatures use camouflage?" The first illustration shows a large cat blending in with the grass. Based on the first illustration, one of the correct responses for the second column is "Stripes and spots help animals blend in with the different colors and shadows in their surroundings." The second illustration shows an insect that blends in to its surroundings by disguising itself as a branch on a plant. This type of camouflage keeps the insect hidden from other animals since it looks like part of the natural environment. Based on the second illustration, the other correct response for the second column is "Many insects use a disguise, or costume, to help them hide." NOTE: The order of the details within the second column does not matter.

Example Item 3

Extended Constructed-Response: 4 points

DOK Level: 4

English Language Arts (ELA) Grade 4 Content Domain: Writing and Language

Standard: ELAGSE4W3. Write narratives to develop real or imagined experiences or events using effective technique, descriptive details, and clear event sequences.

Write a story in which you find an animal hiding in nature. Describe the animal and how you find it.

Be sure to use information from the article to help you develop details in your story.

Narrative Writer’s Checklist

Be sure to:

- Develop a real or imagined experience.
- Establish a situation and introduce a narrator and/or characters.
- Organize events in order.
 - Use transitional words and phrases to sequence the events.
- Use dialogue and/or description to:
 - develop events.
 - show how characters respond to situations.
- Use concrete words, phrases, and sensory details to describe the events.
- Include a conclusion.
- Use ideas and/or details from the passage(s).
- Check your work for correct usage, grammar, spelling, capitalization, and punctuation.

Now write your narrative on your answer document. Refer to the Writer’s Checklist as you write and proofread your narrative.

The following is an example of a four-point response. See the four-point holistic rubric for a text-based narrative response on pages 66 and 67 to see why this example would earn the maximum number of points.

One day I was walking down by the river with my mom. Suddenly, I heard a loud rustling in the trees overhead. I looked up and saw an animal crouching on a branch just above me.

At first I thought it might be a raccoon, but then I saw it had some reddish fur in its coat. It had a sharp pointed nose and two pointed ears. It was a fox! To my surprise, the fox did not move. It just stayed frozen, watching me closely with shining black eyes.

“Come look at this,” I whispered to my mom.

“Where is it? I can’t see anything,” she said.

“It’s perfectly camouflaged,” I told her, pointing to where the fox was.

After we looked at it closely, we saw that the fox’s fur was not one solid color. It had spots of gray, white, and reddish-orange. The different colored patches let it blend in with the sunlight and shadow on the gray bark of the tree.

We stood there a long time and even took some pictures. Finally, we walked away. When I looked over my shoulder, the fox was still watching us. I wonder if the fox knew that we could see it, too. Maybe it thought its camouflaged coat made it invisible.

Example Item 4

Extended Writing-Response: 7 points

DOK Level: 4

English Language Arts (ELA) Grade 4 Content Domain: Writing and Language

Standards:

ELAGSE4W1. Write opinion pieces on topics or texts, supporting a point of view with reasons.

ELAGSE4L1. Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.

ELAGSE4L2. Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

This section of the test assesses your skill to comprehend reading passages and use information from the passages to write an opinion essay.

Before you begin writing your essay, you will read two passages.

As you read the passages, think about details you may use in an opinion essay about giving and receiving allowance.

These are the titles of the passages you will read:

1. A Regular Allowance for Doing Chores
2. Allowance as a Reward

A Regular Allowance for Doing Chores

Many experts say it is important to give children a regular allowance (usually a small amount of money) for doing chores. It teaches them how to be responsible, how to manage money, and how to value working hard. Earning money for doing chores allows children to practice important decision-making skills.

It is important for young children to practice being responsible for something. A child may not be thankful for something if he or she receives it too easily. On the other hand, a child who must use his or her allowance to buy something is likely to learn the value of hard work. The child will have a chance to experience the reward that comes from hard work, even if the hard work is not fun.

Another good thing about earning a regular allowance is the chance for a child to practice planning to buy something. An important part of planning is being patient. In order to plan well for a purchase, a child must think ahead about the total cost of the item he or she wishes to buy. Then the child must plan for how long he or she must save to buy it.

Some people say that one of the best ways for children to learn how to be responsible is for them to have the chance to make “safe” mistakes. For example, it is better to miss out on going to a movie when you’re young than to run out of money to pay for a home later in life.

Finally, it is important to learn that we must work hard—and wait. It is good for children to understand that they can’t buy everything they want. This helps children make smart choices about their spending. The hope is that a responsible child will grow into a responsible adult!

Allowance as a Reward

Many parents give their children a regular allowance for doing chores. Some experts warn that this is a bad idea. Chores should be expected, not rewarded with money. Children should do chores because it is part of what it means to be part of a family.

According to some studies, teenagers who received a regular allowance were less likely to understand the importance of hard work. Instead, these teens believed that they should be given a certain amount of money no matter what.

There are many parents who believe that an allowance should be given only as a reward for doing something well. For example, a child might receive a special reward for earning good grades, which encourages the child to keep studying. This kind of reward system can also prepare students for college. Students who earn high grades are more likely to receive extra money in the form of scholarships, which help pay for schooling.

Giving children an occasional special allowance can teach them that hard work pays, not that their parents owe them money. In addition, children will learn that being a hard worker and doing something well is a reward in itself. This kind of mindset helps children be successful. They will value working hard—money or no money.

WRITING TASK

People have different ideas about giving and receiving allowance.

Think about the ideas in BOTH passages. Then write an **opinion essay** in your own words that explains whether or not children should receive a regular allowance.

Be sure to use information from BOTH passages in your **opinion essay**.

Writer's Checklist

Be sure to:

- Introduce your opinion.
- Support your opinion with reasons and details from the passages.
- Give your reasons and details in a clear order.
- Develop your ideas clearly and use your own words, except when quoting directly from the passages.
- Identify the passages by title or number when using details or facts directly from the passages.
- Use linking words, phrases, and clauses to connect reasons.
- Use clear language and vocabulary.
- Have a strong conclusion that supports your opinion.
- Check your work for correct usage, grammar, spelling, capitalization, and punctuation.

Now write your opinion essay on your answer document. Refer to the Writer's Checklist as you write and proofread your essay.

The following are examples of seven-point responses. See the seven-point, two-trait rubric for a text-based opinion response on pages 70 and 71 to see why these examples would earn the maximum number of points.

Many kids get an allowance for doing chores around the house or for getting good grades. I agree with the first passage that giving kids an allowance is a good idea.

First of all, earning an allowance helps kids learn about money. They will think about the money they have earned and find out how much things cost. They will know how to save up for things they really like instead of spending all their money right away as soon as they get it.

An allowance also helps kids learn about hard work. The second passage says that allowance can be a reward for good grades. If a kid earns money for getting an A in math, he or she might work extra hard to keep getting good grades. Kids will also learn that they have to work to get the things they want. They don't just get things for free.

In the end, allowance can be a good thing but parents have to decide how they want to give it. In my opinion, kids should get allowance for chores and grades because they will work hard and learn about money at the same time.

OR

People have different opinions about whether kids should receive an allowance. Passage 1 says that allowance for activities like chores can help kids learn to be responsible with money. They can learn to be patient and save up for what they want. Passage 2 says kids should learn these responsibilities without being paid. I agree with Passage 2. Getting money for doing things like chores does not make sense.

As it says in Passage 2, kids are part of the family. They should do work around the house because they want to help out and not just because they want money. Instead of paying kids an allowance every week, it could be a better idea to reward them in another way for something special they did. One example might be that if a student receives a good grade, that student might be allowed to choose what is for dinner that night. That would make the reward a lot more special too.

In conclusion, giving kids money can help them learn to save up and be responsible. But parents do not need to pay them an allowance for everything they do. Kids should work hard for their family without being paid and get rewarded for things that are truly special.

ENGLISH LANGUAGE ARTS (ELA) ADDITIONAL SAMPLE ITEMS

This section has two parts. The first part is a set of 22 sample items for the English Language Arts (ELA) portion of the EOG assessment. The second part contains a table that shows for each item the standard assessed, the DOK level, the correct answer (key), and a rationale/explanation about the key and distractors. The sample items can be utilized as a mini-test to familiarize students with the item formats found on the assessment.

All example and sample items contained in this guide are the property of the Georgia Department of Education.

Items 1–9

Read the story and answer items 1 through 9.

The Great Surprise

I was sitting at the kitchen table doing my homework. I heard my parents whispering in the other room and wondered what their conversation was about. I tried to hear what they were saying, but I couldn't make it out. I bounced out of my seat and scampered to the other room.

"Mom!" I said. "Why are you and Dad whispering?"

My parents exchanged a hesitant look. "Well," said my mom, "we were discussing an exciting surprise. But we aren't sure if we should tell you."

I thought back to last year when our family had planned a visit to my grandmother. The visit was intended to be a surprise. My dad informed me about the trip, and I was supposed to keep it a secret. However, one night when I was talking on the phone to my grandmother, I spilled the beans. It was an accident! I had forgotten that the visit was a secret. I felt very bad.

"You can tell me!" I exclaimed. "I promise that I learned my lesson when I told Grandma about our visit. I won't spoil any more surprises!"

"We think you've learned your lesson, Kate," my dad responded. "We'll tell you about this surprise because we think you can keep it a secret."

I felt so relieved that my parents had decided to trust me with this exciting news! I had a feeling this time would be different.

"We are getting a dog!" exclaimed my dad. "Don't reveal it to Charlie. He'll find out on Friday when he gets home from school."

I was so excited that I almost screamed! My brother, Charlie, had been pleading with my parents for a dog for years, but they had always said no. Now he was finally going to get his wish, and he would be thrilled. Thursday and Friday were difficult days! I was tempted to tell Charlie about the dog several times, but I remembered my promise and kept my mouth firmly closed. It felt great to be true to my word.

At long last, Friday afternoon arrived. As Charlie and I walked up to our house after school, we heard a faint noise.

"What's that?" Charlie asked, turning to me with delight in his eyes. "Is that barking I hear?" He tossed his backpack aside and ran into the house. A huge smile broke over my face, and I quickly ran after him.

"A dog! I can't believe it, our very own dog!" Charlie yelled as he saw the puppy contentedly playing on the floor with one of Dad's ancient shoes from the garage.

"Yes, Charlie, our very own dog, just like you have been asking for!" my mom answered.

“Wow, what a great surprise!” Charlie said. “Kate, isn’t it a great surprise?” he asked me.

“Yes, Charlie! It is a great surprise,” I answered gleefully.

“And thanks to Kate,” my mom said, smiling, “it really was a surprise.”

I felt wonderful for keeping my promise, and my brother was overjoyed at his surprise. I really had learned my lesson.

Item 1

Selected-Response: 1 point

What is the MOST LIKELY reason Kate’s parents discuss their plans by whispering?

- A. They are not sure whether Kate wants a dog.
- B. They are not sure whether to tell Kate about the surprise.
- C. They do not want Kate to tell her grandmother another secret.
- D. They do not want to disturb Kate while she is doing her homework.

Item 2

Selected-Response: 1 point

In the poem the *Odyssey*, Odysseus faces many choices that tempt him to do things other than travel home. Which of these BEST describes the meaning of *tempted* as it is used in this sentence from the story?

I was tempted to tell Charlie about the dog several times, but I remembered my promise and kept my mouth firmly closed.

- A. Kate stopped thinking about keeping the secret.
- B. Kate almost did something wrong by telling the secret.
- C. Kate almost did something dangerous by telling the secret.
- D. Kate stopped speaking to her brother because of the secret.

Item 3

Selected-Response: 1 point

Read the sentences from the story.

However, one night when I was talking on the phone to my grandmother, I spilled the beans. It was an accident! I had forgotten that the visit was a secret. I felt very bad.

Which sentence BEST explains the meaning of *spilled the beans* as it is used in the story?

- A. Kate said something she was not supposed to say.
- B. Kate said something that hurt someone's feelings.
- C. Kate said something that scared someone.
- D. Kate said something that was not true.

Item 4

Selected-Response: 1 point

What does the word *hesitant* mean in the paragraph?

My parents exchanged a hesitant look. "Well," said my mom, "we were discussing an exciting surprise. But we aren't sure if we should tell you."

- A. funny
- B. pleased
- C. unafraid
- D. uncertain

Item 5

Selected-Response: 1 point

When the prefix *dis-* is added to the word *contentedly* as it is used in the sentence, what is the meaning of the new word *discontentedly*?

"I can't believe it, our very own dog!" Charlie yelled as he saw the puppy contentedly playing on the floor with one of Dad's ancient shoes from the garage.

- A. less upset
- B. not happily
- C. very satisfied
- D. more peacefully

Item 6

Drag-and-Drop Technology-Enhanced: 2 points

Move the sentence that BEST describes the theme of the story into the first column of the chart. Then move TWO key details that BEST support the theme into the second column.

Theme	Supporting Details
•	•

Themes

- It is important to trust in the people we love.
- A well-timed surprise is a good idea for a gift.
- Keeping surprises a secret can bring more happiness than revealing them.

Details

- I had forgotten that the visit was a secret. I felt very bad.
- "No!" tell you about this surprise because we think you can keep it a secret."
- I felt so relieved that my parents had decided to trust me with this exciting news!
- It felt great to be true to my word.
- I felt wonderful for keeping my promise, and my brother was overjoyed at his surprise.

Click To Respond

➡ Due to the size of the response area, this item has a “Click To Respond” button on the screen. Clicking this button will bring up the response area at full size.

-  Use a mouse, touchpad, or touchscreen to move the descriptions below the chart into the chart next to the bullets.

Item 7

Evidence-Based Selected-Response Technology-Enhanced: 2 points

This question has two parts. Answer Part A, and then answer Part B.

Part A

Which sentence BEST describes Kate at the end of the story?

- A. She is proud of herself.
- B. She is concerned about her brother.
- C. She is surprised about the puppy.
- D. She is calm toward her dad.

Part B

Which sentence from the story BEST supports your answer in Part A?

- A. I tried to hear what they were saying, but I couldn't make it out.
- B. I thought back to last year when our family had planned a visit to my grandmother.
- C. I felt so relieved that my parents had decided to trust me with this exciting news!
- D. I felt wonderful for keeping my promise, and my brother was overjoyed at his surprise.

Item 8

Selected-Response: 1 point

Based on the story, which statement about Kate's dad is MOST LIKELY true?

- A. He likes surprising people.
- B. He likes talking in a whisper.
- C. He has always wanted a dog.
- D. He has trouble keeping secrets.

Item 9

Extended Constructed-Response: 4 points

Write a conclusion to the story that starts with Charlie asking Kate, “How did you keep the secret?”

Use details from the story to help describe what happens. Use descriptive words and phrases to make your writing more interesting.

Narrative Writer’s Checklist

Be sure to:

- Develop a real or imagined experience.
- Establish a situation and introduce a narrator and/or characters.
- Organize events in order.
 - Use transitional words and phrases to sequence the events.
- Use dialogue and/or description to:
 - develop events.
 - show how characters respond to situations.
- Use concrete words, phrases, and sensory details to describe the events.
- Include a conclusion.
- Use ideas and/or details from the passage(s).
- Check your work for correct usage, grammar, spelling, capitalization, and punctuation.

Now write your narrative on your answer document. Refer to the Writer’s Checklist as you write and proofread your narrative.

Go on to the next page to finish item 9.

A large rectangular box containing 25 horizontal lines, intended for writing.

Items 10–13

This section of the test assesses your skill to comprehend reading passages and use information from the passages to write an opinion essay.

Before you begin writing your essay, you will read two passages and answer two multiple-choice questions and one short constructed-response question about what you have read.

As you read the passages, think about details you may use in an opinion essay about giving and receiving allowance.

These are the titles of the passages you will read:

1. A Regular Allowance for Doing Chores
2. Allowance as a Reward

A Regular Allowance for Doing Chores

Many experts say it is important to give children a regular allowance (usually a small amount of money) for doing chores. It teaches them how to be responsible, how to manage money, and how to value working hard. Earning money for doing chores allows children to practice important decision-making skills.

It is important for young children to practice being responsible for something. A child may not be thankful for something if he or she receives it too easily. On the other hand, a child who must use his or her allowance to buy something is likely to learn the value of hard work. The child will have a chance to experience the reward that comes from hard work, even if the hard work is not fun.

Another good thing about earning a regular allowance is the chance for a child to practice planning to buy something. An important part of planning is being patient. In order to plan well for a purchase, a child must think ahead about the total cost of the item he or she wishes to buy. Then the child must plan for how long he or she must save to buy it.

Some people say that one of the best ways for children to learn how to be responsible is for them to have the chance to make “safe” mistakes. For example, it is better to miss out on going to a movie when you’re young than to run out of money to pay for a home later in life.

Finally, it is important to learn that we must work hard—and wait. It is good for children to understand that they can’t buy everything they want. This helps children make smart choices about their spending. The hope is that a responsible child will grow into a responsible adult!

Allowance as a Reward

Many parents give their children a regular allowance for doing chores. Some experts warn that this is a bad idea. Chores should be expected, not rewarded with money. Children should do chores because it is part of what it means to be part of a family.

According to some studies, teenagers who received a regular allowance were less likely to understand the importance of hard work. Instead, these teens believed that they should be given a certain amount of money no matter what.

There are many parents who believe that an allowance should be given only as a reward for doing something well. For example, a child might receive a special reward for earning good grades, which encourages the child to keep studying. This kind of reward system can also prepare students for college. Students who earn high grades are more likely to receive extra money in the form of scholarships, which help pay for schooling.

Giving children an occasional special allowance can teach them that hard work pays, not that their parents owe them money. In addition, children will learn that being a hard worker and doing something well is a reward in itself. This kind of mindset helps children be successful. They will value working hard—money or no money.

Item 10

Selected-Response: 1 point

What is the MAIN disagreement between the authors of “A Regular Allowance for Doing Chores” and “Allowance as a Reward?”

- A. The authors disagree about how often allowances should be given.
- B. The authors disagree about how much money is given for hard work.
- C. The authors disagree about how old kids should be to receive an allowance.
- D. The authors disagree about the importance of working hard.

Item 11

Selected-Response: 1 point

Read this sentence from “Allowance as a Reward.”

For example, a child might receive a special reward for earning good grades, which encourages the child to keep studying.

Which word is closest in meaning to *encourages* as it is used in this sentence?

- A. requests
- B. forces
- C. promises
- D. inspires

Item 12

Constructed-Response: 2 points

Explain a lesson that is shared by BOTH passages.

Use details from BOTH passages to support your answer. Write your answer on the lines on your answer document.

A large rectangular box containing 15 horizontal lines for writing an answer.

Item 13

Extended Writing-Response: 7 points

WRITING TASK

People have different ideas about giving and receiving allowance.

Think about the ideas in BOTH passages. Then write an **opinion essay** in your own words that explains whether or not children should receive a regular allowance.

Be sure to use information from BOTH passages in your **opinion essay**.

Writer’s Checklist

Be sure to:

- Introduce your opinion.
- Support your opinion with reasons and details from the passages.
- Give your reasons and details in a clear order.
- Develop your ideas clearly and use your own words, except when quoting directly from the passages.
- Identify the passages by title or number when using details or facts directly from the passages.
- Use linking words, phrases, and clauses to connect reasons.
- Use clear language and vocabulary.
- Have a strong conclusion that supports your opinion.
- Check your work for correct usage, grammar, spelling, capitalization, and punctuation.

Now write your opinion essay on your answer document. Refer to the Writer’s Checklist as you write and proofread your essay.

Items 14–22

Item 14

Selected-Response: 1 point

Which sentence uses the underlined relative pronoun correctly?

- A. Our class is going to a concert on Friday, which is good news for kids who like music.
- B. Our class is going to a concert on Friday, whom is good news for kids who like music.
- C. Our class is going to a concert on Friday, that is good news for kids who like music.
- D. Our class is going to a concert on Friday, who is good news for kids who like music.

Item 15

Selected-Response: 1 point

Read the fragment.

Yesterday, before I went to play at the park, _____.

Which phrase should be added to the fragment to form a complete sentence?

- A. I tried to look for
- B. all I could do
- C. I helped my brother
- D. and I got my coat

Item 16

Selected-Response: 1 point

Where should a comma be added to correctly write this sentence?

Aiden wanted to go to the movie but first he had to finish his chores.

- A. after *wanted*
- B. after *movie*
- C. after *first*
- D. after *finish*

Item 17**Selected-Response:** 1 point**Read the paragraph.**

¹ On Tuesday afternoons, I go with my big brother to a pet shelter. ² We do different jobs like play with kittens, puppies, and other animals. ³ We do lots of other stuff too. ⁴ Last week I helped keep a dog calm while the vet trimmed its nails. ⁵ The week before that, I cleaned a rabbit cage. ⁶ Each week I do something different, but I always enjoy it.

Which revision BEST helps to make the paragraph clearer?

- A. In sentence 2, change “different jobs” to “lots of things.”
- B. In sentence 3, change “do lots of other stuff” to “brush dogs and feed cats.”
- C. In sentence 4, change “trimmed its nails” to “helped it.”
- D. In sentence 5, change “cleaned a rabbit cage” to “helped with cleaning.”

Item 18**Selected-Response:** 1 point**When would a writer MOST LIKELY use this sentence?**

After the band concert on Friday night, students are welcome to go to the cafeteria for a snack.

- A. when writing morning announcements for school
- B. when writing a note to a friend
- C. when writing an entry in a private journal
- D. when writing a report for class

Item 19

Drop-Down Technology-Enhanced: 1 point

Complete the sentence to show correct capitalization.

We learned about Washington during our trip to public library last week.

➡ Use a mouse, touchpad, or touchscreen to click the arrow beside each of the four blank boxes. When you click the arrow, a drop-down menu will appear, showing you all the possible options for that blank. Each drop-down menu with its options is shown below.

We learned about Washington during our trip to public library last week.

<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
president President	field Field	oak Oak	street Street

Item 20**Drop-Down Technology-Enhanced:** 2 points

Complete the sentences by choosing the correct verb phrase from each drop-down menu.

Yesterday was beautiful outside, and I noticed that my neighbor his dog on the sidewalk. This neighbor has been working hard to train the dog, and as I look out my window right now, I see that the dog on command. By the end of spring, my neighbor a well-trained dog!

- ➡ Use a mouse, touchpad, or touchscreen to click the arrow beside each of the three blank boxes. When you click the arrow, a drop-down menu will appear, showing you all the possible options for that blank. Each drop-down menu with its options is shown on the next page.

Go on to the next page to finish item 20.

Item 20. Continued.

Yesterday was beautiful outside, and I noticed that my neighbor his dog on the sidewalk. This neighbor has been working hard to train the dog, and as I look out my window, I see that the dog on command. By the end of spring, my neighbor

-
- is walking
- was walking
- will be walking

Yesterday was beautiful outside, and I noticed that my neighbor his dog on the sidewalk. This neighbor has been working hard to train the dog, and as I look out my window right now, I see that the dog on command. By the end of spring, my neighbor a well-trained dog!

-
- is sitting
- was sitting
- will be sitting

Yesterday was beautiful outside, and I noticed that my neighbor his dog on the sidewalk. This neighbor has been working hard to train the dog, and as I look out my window right now, I see that the dog on command. By the end of spring, my neighbor a well-trained dog!

-
- is enjoying
- was enjoying
- will be enjoying

Item 21

Drag-and-Drop Technology-Enhanced: 1 point

Read the student's paragraph from a formal letter to the principal. Remove the ONE sentence that should NOT be included in a formal letter.

If more games were painted on the blacktop, we would have more options for recess. For example, we could have tic-tac-toe and hopscotch on one side of the blacktop. I mean, these games would be super fun and great exercise for each and every student. New lines for basketball games could go under the hoops, and there could be more four square games painted.

Sentence That Should NOT Be Included
<p>If more games were painted on the blacktop, we would have more options for recess.</p> <p>For example, we could have tic-tac-toe and hopscotch on one side of the blacktop.</p> <p>I mean, these games would be super fun and great exercise for each and every student.</p> <p>New lines for basketball games could go under the hoops, and there could be more four square games painted.</p>

Use a mouse, touchpad, or touchscreen to move the descriptions below the table into the table.

Item 22

Drag-and-Drop Technology-Enhanced: 2 points

Read the paragraph from a student's informational essay about birdwatching.

Birdwatching is a hobby that anyone can participate in. Many varieties of birds can be seen in places such as backyards, school playgrounds, and parks. It is an activity people can easily do alone or with other birdwatchers.

Move the TWO details that BEST develop the topic into the box.

?

Details That BEST Develop the Topic

-
-

Details:

- Birdwatching can be done both indoors and outdoors.**
- Some birdwatchers win contests when they spot rare birds.**
- Birdwatching encourages people to take pictures of nature.**
- Birdwatchers do not need specific equipment to be successful.**
- Some birdwatchers travel long distances to see uncommon birds.**

 Use a mouse, touchpad, or touchscreen to move the descriptions below the box into the box next to the bullets.

ENGLISH LANGUAGE ARTS (ELA) ADDITIONAL SAMPLE ITEM KEYS

Item	Standard/ Element	DOK Level	Correct Answer	Explanation
1	ELAGSE4RL3	2	B	The correct answer is choice (B) They are not sure whether to tell Kate about the surprise. Whispering is something people do when they want to keep something private, so Kate’s parents whisper because they do not want Kate to overhear their conversation. Choice (A) is incorrect because Kate’s parents are talking about a dog for the whole family, not just for Kate. Choice (C) is incorrect because Kate’s parents are not planning on surprising her grandmother. Choice (D) is incorrect because Kate’s parents do not mention disturbing Kate as a concern.
2	ELAGSE4RL4	2	B	The correct answer is choice (B) Kate almost did something wrong by telling the secret. The word “tempt” refers to wanting to do something, but then ultimately deciding against it. Choice (A) is incorrect because Kate thinks about the secret for the entire story. Choice (C) is incorrect because even if Kate revealed the secret, no one would be in danger. Choice (D) is incorrect because the story never mentions that Kate stopped talking to her brother.
3	ELAGSE4L5b	2	A	The correct answer is choice (A) Kate said something she was not supposed to say. The expression “spilled the beans” within the context of the story suggests Kate said something she was not meant to have said. Choice (B) is incorrect because Kate did not hurt someone’s feelings. Choice (C) is incorrect because Kate did not scare anyone. Choice (D) is incorrect because Kate did not lie.
4	ELAGSE4L4a	2	D	The correct answer is choice (D) uncertain. People who hesitate are unsure about something, so they may look worried or concerned. They may also question whether to do something. Choice (A) is incorrect because being hesitant is not related to being funny. Choice (B) is incorrect because Kate’s parents are unsure, not pleased. Choice (C) is incorrect because Kate’s parents actually are a little worried or afraid that Kate might tell the secret.
5	ELAGSE4L4b	2	B	The correct answer is choice (B) not happily. The context of this sentence clearly shows that the puppy is happy, so adding the prefix “dis-” creates the opposite of “contentedly.” Choice (A) is incorrect because nothing in the story indicates that the puppy was upset. Choices (C) and (D) are incorrect because the prefix “dis-” is most often used to form negative words.

Item	Standard/ Element	DOK Level	Correct Answer	Explanation
6	ELAGSE4RL2	3	N/A	See scoring rubric and exemplar response on page 57.
7	ELAGSE4RL3	3	A/D	<p>The correct answers are choice (A) She is proud of herself, and choice (D) I felt wonderful for keeping my promise, and my brother was overjoyed at his surprise.</p> <p>Kate struggles to keep the secret, as she has not been successful keeping secrets in the past. Therefore, the fact that she doesn't tell her brother about the new puppy makes her feel proud, especially when she sees how happy her brother is. The correct answer choice for Part B of the item shows the sentence from the story that best supports how Kate can be described at the end of the story. In Part A, choice (B) is incorrect because her brother is happy and excited at the end of the story, which is not a cause for concern. Choice (C) is incorrect because she has known about the puppy since early in the story. Choice (D) is incorrect because the end of the story does not discuss an interaction between Kate and her dad. The incorrect options in Part B support incorrect answers in Part A.</p>
8	ELAGSE4RL3	3	A	<p>The correct answer is choice (A) He likes surprising people. Kate's dad wants to keep the puppy a secret because he most likely enjoys giving someone something that is not expected. Choice (B) is incorrect because the story does not continue with dialogue for Kate's dad. Choice (C) is incorrect because he never states whether he wants a dog. Choice (D) is incorrect because the story makes it clear he can keep a secret.</p>
9	ELAGSE4W3	4	N/A	See exemplar responses on page 58 and the four-point holistic rubric beginning on page 66.
10	ELAGSE4RI6	3	A	<p>The correct answer is choice (A) The authors disagree about how often allowances should be given. This answer is correct because Passage 1 ("A Regular Allowance...") argues for "earning a regular allowance" while Passage 2 ("Allowance as a Reward") argues for "an occasional special allowance." Both passages agree with the concept that some kind of allowance can be good. Choice (B) is incorrect because the amount of allowance given for hard work is not discussed in detail. Choice (C) is incorrect because the age of children receiving an allowance is not specified. Choice (D) is incorrect because both authors agree on the idea of teaching the value of hard work.</p>

Item	Standard/ Element	DOK Level	Correct Answer	Explanation
11	ELAGSE4L5c	2	D	The correct answer is choice (D) <i>inspires</i> . The word <i>inspires</i> is closest in meaning to <i>encourages</i> as it is used in the sentence pulled from the passage. Choices (A), (B), and (C) are incorrect because <i>requests</i> , <i>forces</i> , and <i>promises</i> are not synonyms for <i>encourages</i> .
12	ELAGSE4RI9	3	N/A	See scoring rubric and exemplar responses on page 59.
13	ELAGSE4W1, ELAGSE4L1, ELAGSE4L2	4	N/A	See exemplar responses on page 60 and the seven-point, two-trait rubric beginning on page 70.
14	ELAGSE4L1a	2	A	The correct answer is choice (A) Our class is going to a concert on Friday, <u>which</u> is good news for kids who like music. This sentence uses the relative pronoun <i>which</i> correctly. Choices (B), (C), and (D) are incorrect because the relative pronouns <i>whom</i> , <i>that</i> , and <i>who</i> are not correct relative pronouns to use in the sentence.
15	ELAGSE4L1f	2	C	The correct answer is choice (C) I helped my brother. This phrase correctly completes the sentence. Choices (A) and (B) do not form a complete sentence. Choice (D) does not make logical sense in the context of the sentence.
16	ELAGSE4L2c	2	B	The correct answer is choice (B) after <i>movie</i> . A comma is needed before the conjunction <i>but</i> because it serves as a coordinating conjunction that combines two independent clauses into one sentence. Choices (A), (C), and (D) are incorrect because a comma does not belong after <i>wanted</i> , <i>first</i> , or <i>finish</i> .
17	ELAGSE4L3a	2	B	The correct answer is choice (B) In sentence 3, change “do lots of other stuff” to “brush dogs and feed cats.” This phrase provides the greatest clarity as to what the writer does at the shelter. Choices (A), (C), and (D) are vague and simply restate more general ideas from their corresponding sentences.

Item	Standard/ Element	DOK Level	Correct Answer	Explanation
18	ELAGSE4L3c	2	A	The correct answer is choice (A) when writing morning announcements for school. The situation that would require such matter-of-fact presentation of school-related information would be morning announcements. Choice (B) is incorrect because a student writing a note to a friend could use informal language and also the writer would most likely not address a larger audience (<i>students are welcome . . .</i>). Choice (C) is incorrect because in a personal journal one might note an event, but the information would be for personal use and no larger group (<i>students</i>) would be addressed. Choice (D) is incorrect because a report for class would most likely not require specific details of an upcoming school event.
19	ELAGSE4L2a	1	N/A	See scoring rubric and exemplar response on page 61.
20	ELAGSE4L1b	2	N/A	See scoring rubric and exemplar response on page 62.
21	ELAGSE4W4	2	N/A	See scoring rubric and exemplar response on page 63.
22	ELAGSE4W2b	2	N/A	See scoring rubric and exemplar response on page 64.

ENGLISH LANGUAGE ARTS (ELA) EXAMPLE SCORING RUBRICS AND EXEMPLAR RESPONSES

Item 6

Scoring Rubric

Points	Description
2	The student correctly fills in both columns (order within each column does not matter).
1	The student correctly fills in the first column or the first column and one bullet in the second column (order within each column does not matter).
0	The student correctly fills in the second column or does not correctly fill in either column.

Exemplar Response

The correct response is shown below.

Theme	Supporting Details
<ul style="list-style-type: none"> • Keeping surprises a secret can bring more happiness than revealing them. 	<ul style="list-style-type: none"> • I had forgotten that the visit was a secret. I felt very bad. • I felt wonderful for keeping my promise, and my brother was overjoyed at his surprise.
<p><u>Themes</u></p> <p>It is important to trust in the people we love.</p> <p>A well-timed surprise is a good idea for a gift.</p>	<p><u>Details</u></p> <p>“We’ll tell you about this surprise because we think you can keep it a secret.”</p> <p>I felt so relieved that my parents had decided to trust me with this exciting news!</p> <p>It felt great to be true to my word.</p>

The correct response in the first column is “Keeping surprises a secret can bring more happiness than revealing them.” This is the correct response because the main character learns that successfully keeping the surprise dog a secret from her brother resulted not only in his happiness but hers as well. The correct responses in the second column are “I had forgotten that the visit was a secret. I felt very bad.” and “I felt wonderful for keeping my promise, and my brother was overjoyed at his surprise.” These details correctly support the theme by developing the idea that the narrator recalls a time when she could not keep a secret and uses that experience to keep the current secret. NOTE: The order of details does not matter.

Item 9

To view the four-point holistic rubric for a text-based narrative response, see pages 66 and 67.

Exemplar Response

Points Awarded	Sample Response
4	<p>“How did you keep the secret?” Charlie asked Kate. He knew that she was usually terrible at doing that. “I remembered how bad I felt when I ruined the surprise for Grandma. She would have been so much more excited to find out by seeing us instead of having me tell her. So after Mom and Dad told me about the dog, I kept reminding myself of how much happier you would be to find out by seeing the puppy than just having me tell you.”</p> <p>Charlie looked at Kate with surprise. “You mean you did this for me?”</p> <p>“Of course!” Kate said. “I know how much you want a dog, so it was important to make getting one as special as possible.”</p> <p>Charlie smiled and thanked Kate. Then the two of them got down on the floor and played with the puppy together.</p> <p>“I think I’ll name him Surprise!” said Charlie. Kate agreed that was a perfect name.</p>
3	<p>“How did you keep the secret?” Charlie asked Kate. He knew that she was usually terrible at doing that. “I just kept thinking of how bad I felt about Grandma. I knew that if I did the same thing to you, I wouldn’t forgive myself.”</p> <p>Charlie was surprised that Kate would do something like that for him.</p> <p>“I know how much you want a dog, so it was important to make getting one as special as possible,” Kate said.</p> <p>Charlie smiled and thanked her. “I think I’ll name him Surprise!” Kate agreed that was a perfect name.</p>
2	<p>“How did you keep the secret?” Charlie asked Kate.</p> <p>“I felt bad about Grandma, I wanted to make it special for you,” Kate said.</p> <p>Charlie smiled and thanked Kate. Then the two start to play with the puppy. “I named him Surprise” said Charlie. “Good idea” said Kate.</p>
1	<p>“How did you keep the secret?” Charlie asked Kate.</p> <p>“I felt bad about Grandma.”</p> <p>Charlie was happy that Kate kept the secret.</p>
0	<p>Kate kept the secret for Charlie.</p>

Item 12

Scoring Rubric

Points	Description
2	<p>The response achieves the following:</p> <ul style="list-style-type: none"> • Gives sufficient evidence of the ability to integrate information from two texts on the same topic • Includes specific examples/details that make clear reference to the texts • Adequately integrates information from two texts on the same topic with clearly relevant information based on the texts
1	<p>The response achieves the following:</p> <ul style="list-style-type: none"> • Gives limited evidence of the ability to integrate information from two texts on the same topic • Includes vague/limited examples/details that make reference to the texts • Integrates information from two texts on the same topic with vague/limited information based on the texts
0	<p>The response achieves the following:</p> <ul style="list-style-type: none"> • Gives no evidence of the ability to integrate information from two texts on the same topic

Exemplar Response

Points Awarded	Sample Response
2	Both passages talk about how kids can learn the lesson that hard work is important. The first passage talks about how if kids work hard, then they can earn an allowance. The second passage also teaches the lesson that hard work is important. It says that kids should learn that working hard to do something well is “a reward in itself.” Knowing the value of hard work is more important than the value of money. Hard work makes you successful.
1	“A Regular Allowance for Doing Chores” and “Allowance as a Reward” teach an important lesson in a different way. The lesson the passages share is that hard work is important. When kids work hard, they can earn an allowance as a reward.
0	The passages have different ways of talking about hard work. They also talk about earning an allowance.

Item 13

The following are examples of seven-point responses. See the seven-point, two-trait rubric for a text-based opinion response on pages 70 and 71 to see why these examples would earn the maximum number of points.

Many kids get an allowance for doing chores around the house or for getting good grades. I agree with the first passage that giving kids an allowance is a good idea.

First of all, earning an allowance helps kids learn about money. They will think about the money they have earned and find out how much things cost. They will know how to save up for things they really like instead of spending all their money right away as soon as they get it.

An allowance also helps kids learn about hard work. The second passage says that allowance can be a reward for good grades. If a kid earns money for getting an A in math, he or she might work extra hard to keep getting good grades. Kids will also learn that they have to work to get the things they want. They don't just get things for free.

In the end, allowance can be a good thing but parents have to decide how they want to give it. In my opinion, kids should get allowance for chores and grades because they will work hard and learn about money at the same time.

OR

People have different opinions about whether kids should receive an allowance. Passage 1 says that allowance for activities like chores can help kids learn to be responsible with money. They can learn to be patient and save up for what they want. Passage 2 says kids should learn these responsibilities without being paid. I agree with Passage 2. Getting money for doing things like chores does not make sense.

As it says in Passage 2, kids are part of the family. They should do work around the house because they want to help out and not just because they want money. Instead of paying kids an allowance every week, it could be a better idea to reward them in another way for something special they did. One example might be that if a student receives a good grade, that student might be allowed to choose what is for dinner that night. That would make the reward a lot more special too.

In conclusion, giving kids money can help them learn to save up and be responsible. But parents do not need to pay them an allowance for everything they do. Kids should work hard for their family without being paid and get rewarded for things that are truly special.

Item 19**Scoring Rubric**

Points	Description
1	The student correctly selects all four drop-down menu options.
0	The student does not correctly select all four drop-down menu options.

Exemplar Response

The correct response is shown below.

We learned about Washington during our trip to public library last week.

In the first drop-down menu, the correct response is “President.” The word “President” is capitalized because it is part of a proper noun title. In the second drop-down menu, the correct response is “field.” It is not capitalized because it is an adjective that modifies a common noun. In the third drop-down menu, the correct response is “Oak.” In the fourth drop-down menu, the correct response is “Street.” The words “Oak” and “Street” are capitalized because capital letters are always used for the names of streets.

Item 20

Scoring Rubric

Points	Description
2	The student correctly selects all three drop-down menu options.
1	The student correctly selects two drop-down menu options.
0	The student does not correctly select at least two drop-down menu options.

Exemplar Response

The correct response is shown below.

Yesterday was beautiful outside, and I noticed that my neighbor his dog on the sidewalk. This neighbor has been working hard to train the dog, and as I look out my window right now, I see that the dog on command. By the end of spring, my neighbor a well-trained dog!

In the first drop-down menu, the correct response is “was walking”; this sentence shows an action that was in progress in the past, so it needs to use the past progressive verb form. In the second drop-down menu, the correct response is “is sitting”; this sentence shows an action that is in progress in the present, so it needs to use the present progressive verb form. In the third drop-down menu, the correct response is “will be enjoying”; this sentence shows an action that will be in progress in the future, so it needs to use the future progressive verb form.

Item 21

Scoring Rubric

Points	Description
1	The student correctly fills in the box.
0	The student does not correctly fill in the box.

Exemplar Response

The correct response is shown below.

?

Sentence That Should NOT Be Included

I mean, these games would be super fun and great exercise for each and every student.

If more games were painted on the blacktop, we would have more options for recess.

For example, we could have tic-tac-toe and hopscotch on one side of the blacktop.

New lines for basketball games could go under the hoops, and there could be more four square games painted.

The correct response is “I mean, these games would be super fun and great exercise for each and every student.” This is the correct response because this sentence contains casual language that does not match the formal style of the rest of the letter to the principal.

Item 22

Scoring Rubric

Points	Description
2	The student correctly fills in both bullets (order within the box does not matter).
1	The student correctly fills in one bullet (order within the box does not matter).
0	The student does not correctly fill in either bullet.

Exemplar Response

The correct response is shown below.

?

Details That BEST Develop the Topic

- **Birdwatching can be done both indoors and outdoors.**
- **Birdwatchers do not need specific equipment to be successful.**

Details:

Some birdwatchers win contests when they spot rare birds.

Birdwatching encourages people to take pictures of nature.

Some birdwatchers travel long distances to see uncommon birds.

The correct responses are “Birdwatching can be done both indoors and outdoors.” and “Birdwatchers do not need specific equipment to be successful.” These are the correct responses because these two details provide the most specific and relevant details to develop the topic, which is that birdwatching can happen just about anywhere and that it is a hobby that anyone can participate in. NOTE: The order of the details does not matter.

ENGLISH LANGUAGE ARTS (ELA) WRITING RUBRICS

Grade 4 items that are not machine-scored—i.e., constructed-response, extended constructed-response, and extended writing-response items—are manually scored using either a holistic rubric or a two-trait rubric.

Four-Point Holistic Rubric

Genre: Narrative

A holistic rubric essentially has one main trait. On the Georgia Milestones EOG assessment, a holistic rubric contains a single point scale ranging from zero to four. Each point value represents a qualitative description of the student’s work. To score an item on a holistic rubric, a scorer or reader need only choose the criteria and associated point value that best represents the student’s work. Increasing point values represent a greater understanding of the content and, thus, a higher score.

Seven-Point, Two-Trait Rubric

Genre: Opinion or Informational/Explanatory

A two-trait rubric, on the other hand, is an analytic rubric with two traits. On the Georgia Milestones EOG assessment, a two-trait rubric contains two point scales, one for each trait. The point scale for one trait ranges from zero to four, and the point scale for the other trait ranges from zero to three. A score is given for each of the two criteria/traits, for a total of seven possible points for the item. To score an item on a two-trait rubric, a scorer or reader must choose the criteria and associated point value for each trait that best represents the student’s work. The two scores are added together. Increasing point values represent a greater understanding of the content and, thus, a higher score.

On the following pages are the rubrics that will be used to evaluate writing on the Georgia Milestones Grade 4 English Language Arts (ELA) EOG assessment.

Four-Point Holistic Rubric

Genre: Narrative

Writing Trait	Points	Criteria
<p><i>This trait examines the writer’s ability to effectively develop real or imagined experiences or events using effective techniques, descriptive details, and clear event sequences based on a text that has been read.</i></p>	4	<p><i>The student’s response is a well-developed narrative that fully develops a real or imagined experience based on text as a stimulus.</i></p> <ul style="list-style-type: none"> • Effectively establishes a situation and introduces a narrator and/or characters • Organizes an event sequence that unfolds naturally • Effectively uses narrative techniques, such as dialogue and description, to develop rich, interesting experiences and events or show the responses of characters to situations • Uses a variety of words and phrases consistently to signal the sequence of events • Uses concrete words, phrases, and sensory language consistently and effectively to convey experiences and events precisely • Provides a conclusion that follows from the narrated experiences or events • Integrates ideas and details from source material effectively • Has very few or no errors in usage and/or conventions that interfere with meaning*
	3	<p><i>The student’s response is a complete narrative that develops a real or imagined experience based on text as a stimulus.</i></p> <ul style="list-style-type: none"> • Establishes a situation and introduces one or more characters • Organizes events in a clear, logical order • Uses narrative techniques, such as dialogue and description, to develop experiences and events or show the responses of characters to situations • Uses words and/or phrases to indicate sequence • Uses words, phrases, and details to convey experiences and events • Provides an appropriate conclusion • Integrates some ideas and/or details from source material • Has a few minor errors in usage and/or conventions that interfere with meaning*

Four-Point Holistic Rubric

Genre: Narrative (continued)

Writing Trait	Points	Criteria
<p><i>This trait examines the writer's ability to effectively develop real or imagined experiences or events using effective techniques, descriptive details, and clear event sequences based on a text that has been read.</i></p>	2	<p><i>The student's response is an incomplete or oversimplified narrative based on text as a stimulus.</i></p> <ul style="list-style-type: none"> • Introduces a vague situation and at least one character • Organizes events in a sequence but with some gaps or ambiguity • Attempts to use a narrative technique, such as dialogue and description, to develop experiences and events or show the responses of characters to situations • Uses occasional signal words to indicate sequence • Uses some words or phrases inconsistently to convey experiences and events • Provides a weak or ambiguous conclusion • Attempts to integrate ideas or details from source material • Has frequent errors in usage and conventions that sometimes interfere with meaning*
	1	<p><i>The student's response provides evidence of an attempt to write a narrative based on text as a stimulus.</i></p> <ul style="list-style-type: none"> • Response is a summary of the story • Provides a weak or minimal introduction of a situation or a character • May be too brief to demonstrate a complete sequence of events • Shows little or no attempt to use dialogue or description to develop experiences and events or show the responses of characters to situations • Uses words that are inappropriate, overly simple, or unclear • Provides few, if any, words that convey events • Provides a minimal or no conclusion • May use few, if any, ideas or details from source material • Has frequent major errors in usage and conventions that interfere with meaning*
	0	<p><i>The student will receive a condition code for various reasons:</i></p> <ul style="list-style-type: none"> • Blank • Copied • Too Limited to Score/Illegible/Incomprehensible • Non-English/Foreign Language • Off Topic/Off Task/Offensive

*Students are responsible for language conventions learned in their current grade as well as in prior grades. Refer to the language skills for each grade to determine the grade-level expectations for grammar, syntax, capitalization, punctuation, and spelling. Also refer to the "Language Progressive Skills, by Grade" chart in the Appendix for those standards that need continued attention beyond the grade in which they were introduced.

Seven-Point, Two-Trait Rubric

Trait 1 for Informational/Explanatory Genre

Writing Trait	Points	Criteria
<p>Idea Development, Organization, and Coherence</p> <p><i>This trait examines the writer’s ability to effectively establish a controlling idea, support the idea with evidence from the text(s) read, and elaborate on the idea with examples, illustrations, facts, and other details. The writer must integrate the information from the text(s) into his/her own words and arrange the ideas and supporting evidence (from the text[s] read) in order to create cohesion for an informative/explanatory essay.</i></p>	4	<p><i>The student’s response is a well-developed informative/explanatory text that examines a topic in depth and conveys ideas and information clearly based on text as a stimulus.</i></p> <ul style="list-style-type: none"> • Effectively introduces a topic • Effectively develops the topic with multiple facts, definitions, concrete details, quotations, or other information and examples related to the topic • Groups related ideas together to give some organization to the writing • Effectively uses linking words and phrases to connect ideas within categories of information • Uses precise language and domain-specific vocabulary to explain the topic • Provides a strong concluding statement or section related to the information or explanation presented
	3	<p><i>The student’s response is a complete informative/explanatory text that examines a topic and presents information based on text as a stimulus.</i></p> <ul style="list-style-type: none"> • Introduces a topic • Develops the topic with some facts, definitions, and details • Groups some related ideas together to give partial organization to the writing • Uses some linking words to connect ideas within categories of information, but relationships may not always be clear • Uses some precise language and domain-specific vocabulary to explain the topic • Provides a concluding statement or section
	2	<p><i>The student’s response is an incomplete or oversimplified informative/explanatory text that cursorily examines a topic based on text as a stimulus.</i></p> <ul style="list-style-type: none"> • Attempts to introduce a topic • Attempts to develop a topic with too few details, but not all of these are supported or relevant to the topic • Ineffectively groups some related ideas together • Uses few linking words to connect ideas, but not all ideas are well connected to the topic • Uses limited language and vocabulary that does not clearly explain the topic • Provides a weak concluding statement or section
	1	<p><i>The student’s response is a weak attempt to write an informative/explanatory text that examines a topic based on text as a stimulus.</i></p> <ul style="list-style-type: none"> • May not introduce a topic or topic is unclear • May not develop a topic • May be too brief to group any related ideas together • May not use any linking words to connect ideas • Uses vague, ambiguous, or repetitive language • Provides a minimal or no concluding statement or section
	0	<p><i>The student will receive a condition code for various reasons:</i></p> <ul style="list-style-type: none"> • Blank • Copied • Too Limited to Score/Illegible/Incomprehensible • Non-English/Foreign Language • Off Topic/Off Task/Offensive

Seven-Point, Two-Trait Rubric

Trait 2 for Informational/Explanatory Genre

Writing Trait	Points	Criteria
Language Usage and Conventions <i>This trait examines the writer's ability to demonstrate control of sentence formation, usage, and mechanics as embodied in the grade-level expectations of the language standards.</i>	3	<i>The student's response demonstrates full command of language usage and conventions.</i> <ul style="list-style-type: none"> • Has clear and complete sentence structure, with appropriate range and variety • Shows knowledge of language and its conventions when writing • Any errors in usage and conventions do not interfere with meaning*
	2	<i>The student's response demonstrates partial command of language usage and conventions.</i> <ul style="list-style-type: none"> • Has complete sentences, with some variety • Shows some knowledge of language and its conventions when writing • Has minor errors in usage and conventions with no significant effect on meaning*
	1	<i>The student's response demonstrates weak command of language usage and conventions.</i> <ul style="list-style-type: none"> • Has fragments, run-ons, and/or other sentence structure errors • Shows little knowledge of language and its conventions when writing • Has frequent errors in usage and conventions that interfere with meaning*
	0	<i>The student will receive a condition code for various reasons:</i> <ul style="list-style-type: none"> • Blank • Copied • Too Limited to Score/Illegible/Incomprehensible • Non-English/Foreign Language • Off Topic/Off Task/Offensive

*Students are responsible for language conventions learned in their current grade as well as in prior grades. Refer to the language skills for each grade to determine the grade-level expectations for grammar, syntax, capitalization, punctuation, and spelling. Also refer to the "Language Progressive Skills, by Grade" chart in the Appendix for those standards that need continued attention beyond the grade in which they were introduced.

Seven-Point, Two-Trait Rubric

Trait 1 for Opinion Genre

Writing Trait	Points	Criteria
<p>Idea Development, Organization, and Coherence</p> <p><i>This trait examines the writer’s ability to effectively establish a point of view and to support the opinion with reasons from the text(s) read. The writer must form an opinion from the text(s) in his/her own words and organize reasons for the opinion (from text that they have read) in order to create cohesion for an opinion essay.</i></p>	4	<p><i>The student’s response is a well-developed opinion piece that effectively examines a topic and supports a point of view, with reasons, clearly based on text as a stimulus.</i></p> <ul style="list-style-type: none"> • Effectively introduces a topic and clearly states an opinion • Creates an effective organizational structure that logically groups ideas and reasons to support the writer’s purpose • Provides clear reasons that are supported by facts and details • Uses linking words and phrases effectively to connect opinions and reasons • Provides a strong concluding statement or section related to the opinion presented
	3	<p><i>The student’s response is a complete opinion piece that examines a topic and supports a point of view based on text.</i></p> <ul style="list-style-type: none"> • Introduces a topic and states an opinion • Provides some organizational structure that groups ideas and reasons to support the writer’s purpose • Provides reasons that are supported by facts • Uses some linking words to connect opinions and reasons • Provides a concluding statement or section related to the opinion presented
	2	<p><i>The student’s response is an incomplete or oversimplified opinion piece that examines a topic and partially supports a point of view based on text.</i></p> <ul style="list-style-type: none"> • Attempts to introduce a topic and state an opinion • Attempts to provide some organization, but structure sometimes impedes the reader • Attempts to provide reasons that are sometimes supported by facts • Uses few linking words to connect opinions and reasons; connections are not always clear • Provides a weak concluding statement or section that may not be related to the opinion
	1	<p><i>The student’s response is a weak attempt to write an opinion piece that examines a topic and does not support a text-based point of view.</i></p> <ul style="list-style-type: none"> • May not introduce a topic or state an opinion • May not have any organizational structure evident • May not provide reasons that are supported by facts • May not use any linking words to connect opinions and reasons • Provides a minimal or no concluding statement or section
	0	<p><i>The student will receive a condition code for various reasons:</i></p> <ul style="list-style-type: none"> • Blank • Copied • Too Limited to Score/Illegible/Incomprehensible • Non-English/Foreign Language • Off Topic/Off Task/Offensive

Seven-Point, Two-Trait Rubric

Trait 2 for Opinion Genre

Writing Trait	Points	Criteria
<p>Language Usage and Conventions</p> <p><i>This trait examines the writer's ability to demonstrate control of sentence formation, usage, and mechanics as embodied in the grade-level expectations of the language standards.</i></p>	3	<p><i>The student's response demonstrates full command of language usage and conventions.</i></p> <ul style="list-style-type: none"> • Has clear and complete sentence structure, with appropriate range and variety • Shows knowledge of language and its conventions when writing • Any errors in usage and conventions do not interfere with meaning*
	2	<p><i>The student's response demonstrates partial command of language usage and conventions.</i></p> <ul style="list-style-type: none"> • Has complete sentences, with some variety • Shows some knowledge of language and its conventions when writing • Has minor errors in usage and conventions with no significant effect on meaning*
	1	<p><i>The student's response demonstrates weak command of language usage and conventions.</i></p> <ul style="list-style-type: none"> • Has fragments, run-ons, and/or other sentence structure errors • Shows little knowledge of language and its conventions when writing • Has frequent errors in usage and conventions that interfere with meaning*
	0	<p><i>The student will receive a condition code for various reasons:</i></p> <ul style="list-style-type: none"> • Blank • Copied • Too Limited to Score/Illegible/Incomprehensible • Non-English/Foreign Language • Off Topic/Off Task/Offensive

*Students are responsible for language conventions learned in their current grade as well as in prior grades. Refer to the language skills for each grade to determine the grade-level expectations for grammar, syntax, capitalization, punctuation, and spelling. Also refer to the "Language Progressive Skills, by Grade" chart in the Appendix for those standards that need continued attention beyond the grade in which they were introduced.

MATHEMATICS

DESCRIPTION OF TEST FORMAT AND ORGANIZATION

The Georgia Milestones Mathematics EOG assessment is primarily a criterion-referenced test, designed to provide information about how well a student has mastered the grade-level state-adopted content standards in Mathematics. The assessment consists of both operational items and field test items (newly written items that are being tried out and do not contribute to the student’s score). Each student will receive one of four Achievement Level designations, depending on how well the student has mastered the content standards. The four Achievement Level designations are Beginning Learner, Developing Learner, Proficient Learner, and Distinguished Learner. In addition to criterion-referenced information, the Georgia Milestones measures will also produce an estimate of how Georgia students are achieving relative to their peers nationally. The norm-referenced information provided is supplementary to the criterion-referenced Achievement Level designation and will not be utilized in any manner other than to serve as a barometer of national comparison. Only the criterion-referenced scores and Achievement Level designations will be utilized in the accountability metrics associated with the assessment program (such as student growth measures, educator-effectiveness measures, or the CCRPI).

The table on the following page outlines the number and types of items included on the Grade 4 Mathematics EOG assessment.

Grade 4 Mathematics EOG Assessment Design

Description	Number of Items	Number of Points
1-point Selected-Response and Technology-Enhanced Items ^{1, 2}	42	42
2-point Technology-Enhanced Items ¹	8	16
Field Test Items ³	5	0
Total⁴	55	58

¹ **Technology-Enhanced:** Possible variants of the technology-enhanced item types used for Mathematics include multiple-part selected-response, multiple-select, drag-and-drop, drop-down, graphing, and keypad-input.

² **1-point Selected-Response and Technology-Enhanced Items:** The ratio of selected-response to technology-enhanced items may vary. The target range of 1-point technology-enhanced items is 0 to 5.

³ **Field Test Items:** Field test items may include 1-point selected-response, 1-point technology-enhanced, and 2-point technology-enhanced items.

⁴ **Total:** Of the total 55 items, 50 contribute to the student's Mathematics score.

The test will be given in two sections. Students may have up to 65 minutes per section to complete Sections 1 and 2. The total estimated testing time for the Grade 4 Mathematics EOG assessment ranges from approximately 60 to 130 minutes. Total testing time describes the amount of time students have to complete the assessment. It does not take into account the time required for the test examiner to complete pre-administration and post-administration activities (such as reading the standardized directions to students). Sections 1 and 2 must be scheduled such that both will be completed in a single day or over the course of two consecutive days (one section each day) and should be completed within the same week following the district's testing protocols for the EOG measures (in keeping with state guidance).

CONTENT MEASURED

The Grade 4 Mathematics assessment will measure the Grade 4 standards that are described at www.georgiastandards.org.

The content of the assessment is organized into five groupings, or domains, of standards for the purposes of providing feedback on student performance. A content domain is a reporting category that *broadly* describes and defines the content of the course, as measured by the EOG assessment. The standards for Grade 4 Mathematics are grouped into five domains: Operations and Algebraic Thinking, Numbers and Operations in Base 10, Numbers and Operations—Fractions, Measurement and Data, and Geometry. Each domain was created by organizing standards that share similar content characteristics. The content standards describe the level of expertise that Grade 4 Mathematics educators should strive to develop in their students. Educators should refer to the content standards for a full understanding of the knowledge, concepts, and skills subject to be assessed on the EOG assessment.

The approximate proportional number of points associated with each domain is shown in the following table. A range of cognitive levels will be represented on the Grade 4 Mathematics EOG assessment. Educators should always use the content standards when planning instruction.

GRADE 4 MATHEMATICS: DOMAIN STRUCTURES AND CONTENT WEIGHTS

Reporting Categories and Content Standards

Reporting Category/Domain	Content Standards Assessed	Approximate # of Points	Approximate % of Test
Operations and Algebraic Thinking	MGSE4.OA (1, 2, 3, 4, 5)	11 or 12	20%
Number and Operations in Base 10	MGSE4.NBT (1, 2, 3, 4, 5, 6)	11 or 12	20%
Number and Operations—Fractions	MGSE4.NF (1, 2, 3, 4, 5, 6, 7)	17	30%
Measurement and Data	MGSE4.MD (1, 2, 3, 4, 5, 6, 7, 8)	11 or 12	20%
Geometry	MGSE4.G (1, 2, 3)	6	10%
Total		58	100%

The Standards for Mathematical Practice (1–8) will be embedded within items aligned to the mathematical content standards.

ITEM TYPES

The Mathematics portion of the Grade 4 EOG assessment consists of selected-response and technology-enhanced items.

A selected-response item, sometimes called a multiple-choice item, is defined as a question, problem, or statement that is followed by several answer choices, sometimes called options or response choices. The incorrect choices, called distractors, usually reflect common errors. The student's task is to choose, from the choices provided, the best answer to the question (the stem). The Mathematics selected-response items will have four answer choices.

A technology-enhanced item is an innovative way to measure student skills and knowledge by using scaffolding within a multi-step process. Technology-enhanced items are worth one or two points. If the item is worth two points, partial credit is awarded for special combinations of responses that do not include all the correct answers. For Mathematics, there are a number of specific technology-enhanced item types being used:

- In multi-select items, the student is asked to pick two or three correct responses from five or six answer options.
- In multi-part items, the student responds to a question, statement, or prompt that has two or more parts.
- In drag-and-drop items, the student uses a mouse, touchpad, or touchscreen to move responses to designated areas on the screen.
- In drop-down menu items, the student uses a mouse, touchpad, or touchscreen to open a drop-down menu and select an option from the menu. A drop-down menu item may have multiple drop-down menus.
- In keypad-input items, the student uses the physical keyboard or the pop-up keyboard on a touchscreen to type a number, expression, or equation into an answer box.
- In coordinate-graph items, the student uses a mouse, touchpad, or touchscreen to draw lines and/or plot points on a coordinate grid on the screen.
- In line-plot items, the student uses a mouse, touchpad, or touchscreen to place Xs above a number line to create a line plot.
- In bar-graph items, the student uses a mouse, touchpad, or touchscreen to select the height of each bar to create a bar graph.
- In number-line items, the student uses a mouse, touchpad, or touchscreen to plot a point and/or represent inequalities.
- Since some technology-enhanced items in this guide were designed to be used only in an online, interactive-delivery format, some of the item-level directions will not appear to be applicable when working within the format presented in this document (for example, "Move the clocks into the graph" or "Create a scatter plot").
- This icon  identifies special directions that will help the student answer technology-enhanced items as shown in the format presented within this guide. These directions do not appear in the online version of the test but explain information about how the item works that would be easily identifiable if the student were completing the item in an online environment.

To give students practice using technology-enhanced items in an online environment very similar to how they will appear on the online test, visit “Experience Online Testing Georgia.”

1. Go to the website “Welcome to Experience Online Testing Georgia” (<http://gaexperienceonline.com/>).
2. Select “Test Practice.”
3. On the right side of the page, you will see “End-of-Grade (EOG) Spring Main.” Select “Online Tools Training” which appears underneath it.
4. Select “EOG Test Practice.”
5. Select “Technology Enhanced Items.”
6. Select “All Grades.”
7. You will be taken to a login screen. Use the username and password provided on the screen to log in and practice navigating technology-enhanced items online.

Please note that Google Chrome is the only supported browser for this public version of the online testing environment.

MATHEMATICS DEPTH OF KNOWLEDGE EXAMPLE ITEMS

Example items that represent the applicable DOK levels across various Grade 4 Mathematics content domains are provided.

All example and sample items contained in this guide are the property of the Georgia Department of Education.

Example Item 1

Selected-Response: 1 point

DOK Level: 1

Mathematics Grade 4 Content Domain: Numbers and Operations in Base Ten

Standard: MGSE4.NBT.3. Use place value understanding to round multi-digit whole numbers to any place.

Tina and her class collected soda cans for recycling. They collected 738 cans. Tina’s teacher wants to know how many cans the class collected rounded to the nearest hundred.

What is 738 rounded to the nearest hundred?

- A. 700
- B. 730
- C. 740
- D. 800

Correct Answer: A

Explanation of Correct Answer: The correct answer is choice (A) 700. The number 738 is closer to 700 than to 800, so 738 rounds to 700. Use the tens place to round to the nearest hundred. Since 3 is less than 5, round down to 700. Choice (B) is incorrect because it rounds incorrectly to the tens place. Choice (C) is incorrect because it rounds to the tens place instead of to the hundreds place. Choice (D) is incorrect because it rounds up to the nearest hundred instead of down.

Example Item 2

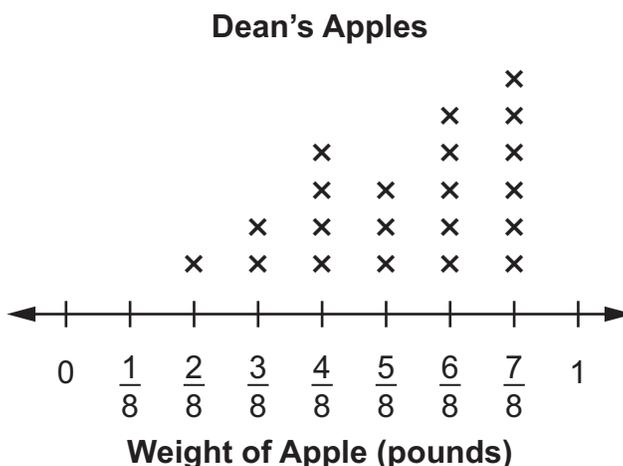

Selected-Response: 1 point

DOK Level: 2

Mathematics Grade 4 Content Domain: Measurement and Data

Standard: MGSE4.MD.4. Make a line plot to display a data set of measurements in fractions of a unit ($\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{8}$). Solve problems involving addition and subtraction of fractions with common denominators by using information presented in line plots.

The line plot shows the weights of the apples that Dean picked.

Dean sold all the apples that he picked that weighed less than $\frac{4}{8}$ pound at his fruit stand. What is the total weight, in pounds, of the apples Dean sold at his fruit stand?

- A. $\frac{5}{8}$
- B. $\frac{7}{8}$
- C. 1
- D. 3

Correct Answer: C

Explanation of Correct Answer: The correct answer is choice (C) 1. Dean sold 1 apple weighing $\frac{2}{8}$ pound and 2 apples weighing $\frac{3}{8}$ pound. $\frac{2}{8} + \frac{3}{8} + \frac{3}{8} = \frac{8}{8} = 1$. Choice (A) is incorrect because it includes only 1 apple per weight. Choice (B) is incorrect because it contains an error of adding $\frac{1}{8}$ instead of $\frac{2}{8}$. Choice (D) is incorrect because it is a count of the number of apples sold.

Example Item 3**Selected-Response:** 1 point**DOK Level:** 3**Mathematics Grade 4 Content Domain:** Operations and Algebraic Thinking

Standard: MGSE4.OA.3. Solve multistep word problems with whole numbers and having whole-number answers using the four operations, including problems in which remainders must be interpreted. Represent these problems using equations with a symbol or letter standing for the unknown quantity. Assess the reasonableness of answers using mental computation and estimation strategies including rounding.

Peyton has 375 apples. She has 282 Granny Smith apples, and the remaining apples are Gala apples. Peyton plans to make bags of apples using all the Gala apples. Each bag will have 8 Gala apples.

Will Peyton have enough Gala apples to fill 12 bags, and why?

- A. yes, because 12 times 8 is 96
- B. yes, because 11 times 8 is 88
- C. no, because she will need 5 more apples to fill the last bag
- D. no, because she will need 3 more apples to fill the last bag

Correct Answer: D

Explanation of Correct Answer: The correct answer is choice (D) no, because she will need 3 more apples to fill the last bag. Peyton has $375 - 282$ or 93 Gala apples. If 8 apples are in each bag, then the most she can use is 8×11 , or 88, apples with 5 remaining apples. She will need 3 more apples to fill the last bag. Choice (A) is incorrect because even though $12 \times 8 = 96$, Peyton only has 93 Gala apples, not 96. Choice (B) is incorrect because the question asks whether Peyton can fill 12 bags, not 11. Choice (C) is incorrect because 5 is the number of Gala apples Peyton has leftover, not the number of Gala apples she needs.

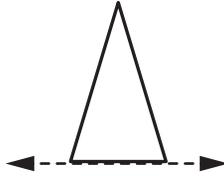

MATHEMATICS ADDITIONAL SAMPLE ITEMS

This section has two parts. The first part is a set of 19 sample items for the Mathematics portion of the EOG assessment. The second part contains a table that shows for each item the standard assessed, the DOK level, the correct answer (key), and a rationale/explanation about the key and distractors. The sample items can be utilized as a mini-test to familiarize students with the item formats found on the assessment.

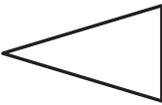

All example and sample items contained in this guide are the property of the Georgia Department of Education.

Item 1**Selected-Response:** 1 point

Kaley is drawing a symmetrical design. She uses the line shown as the line of symmetry.

Which of these shows how Kaley should draw a triangle that touches the line of symmetry to create her symmetrical design?

- A. 
- B. 
- C. 
- D. 

Item 2**Selected-Response:** 1 point

Eva and Joe are each given 1 yard of ribbon for an art project. They each cut a piece of their ribbons to use for the project. Eva cut $\frac{2}{5}$ of her ribbon, and Joe cut $\frac{7}{8}$ of his ribbon.

Which statement accurately shows who cut the longest piece of ribbon?

- A. Eva cut a longer piece of ribbon than Joe because $\frac{2}{5} > \frac{7}{8}$.
- B. Eva cut a longer piece of ribbon than Joe because $\frac{2}{5} < \frac{7}{8}$.
- C. Joe cut a longer piece of ribbon than Eva because $\frac{2}{5} < \frac{7}{8}$.
- D. Joe cut a longer piece of ribbon than Eva because $\frac{2}{5} > \frac{7}{8}$.

Item 3**Selected-Response:** 1 point

Robert has 144 pennies equally grouped in 9 rows.

How many pennies are in each row?

- A. 14
- B. 15
- C. 16
- D. 17

Item 4**Selected-Response:** 1 point

The table shows the heights of four children.

Child	Height
Ben	38 inches
Kim	3 feet, 8 inches
Sarah	1 foot, 9 inches
Steve	44 inches

Which two children are the tallest?**(12 inches = 1 foot)**

- A. Ben and Kim
- B. Ben and Steve
- C. Kim and Steve
- D. Sarah and Steve

Item 5**Selected-Response:** 1 point**Which shape has the same number of PAIRS of parallel sides as a square?**

- A. regular hexagon
- B. pentagon
- C. rhombus
- D. triangle

Item 6

Selected-Response: 1 point

The students during the first lunch period ate $5\frac{5}{8}$ pans of lasagna. The students during the second lunch period ate $3\frac{1}{8}$ pans of lasagna.

How many MORE pans of lasagna did the students during the first lunch period eat than the students during the second lunch period ate?

- A. $2\frac{4}{8}$ pans
- B. $2\frac{7}{8}$ pans
- C. $8\frac{4}{8}$ pans
- D. $8\frac{6}{8}$ pans

Item 7

Selected-Response: 1 point

Which number is a prime number?

- A. 15
- B. 21
- C. 33
- D. 47

Item 8

Selected-Response: 1 point

Josh bought oranges and apples. The apples weigh 3 times more than the oranges. The apples weigh 12 pounds.

If the weight of the oranges is represented by \square , which of these shows how to find the weight of the oranges?

A. $3 + \square = 12$

B. $\square - 3 = 12$

C. $\square \times 3 = 12$

D. $\frac{\square}{3} = 12$

Item 9

Multi-Part Multi-Select Technology-Enhanced: 2 points

Part A

A factor pair of 93 is 1 and 93.

What is another factor pair of 93?

- A. 3 and 9
- B. 3 and 31
- C. 9 and 10
- D. 3 and 90

Part B

Select TWO numbers that are multiples of 8.

- A. 8
- B. 22
- C. 56
- D. 68
- E. 84

Item 10**Multi-Select Technology-Enhanced:** 2 points

Yolanda has $\frac{4}{5}$ of a bag of dog food remaining. She will put the remaining dog food in smaller bags.

Select **THREE** equations that can represent fractions of the bag of dog food that Yolanda can put in smaller bags.

A. $\frac{4}{5} = \frac{1}{5} + \frac{1}{5} + \frac{1}{5} + \frac{1}{5}$

B. $\frac{4}{5} = \frac{2}{3} + \frac{2}{2}$

C. $\frac{4}{5} = \frac{4}{1} + \frac{1}{5}$

D. $\frac{4}{5} = \frac{3}{5} + \frac{1}{5}$

E. $\frac{4}{5} = \frac{2}{5} + \frac{1}{5} + \frac{1}{5}$

F. $\frac{4}{5} = \frac{1}{5} + \frac{4}{5}$

Item 11

Multi-Part Technology-Enhanced: 2 points

Katie buys a container that has 24 ounces of iced tea mix. This container has enough iced tea mix to make 10 quarts of iced tea.

(1 cup = 8 ounces)

(4 cups = 1 quart)

(1 gallon = 4 quarts)

(2 cups = 1 pint)

Part A

Which quantity is equivalent to 10 quarts?

- A. 2 gallons
- B. 3 pints
- C. 32 ounces
- D. 40 cups

Part B

Katie used $1\frac{1}{2}$ tablespoons of iced tea mix for every cup of water. She used 6 cups of water to make some iced tea.

Which statement describes the number of tablespoons of iced tea mix and the number of ounces of water Katie used?

- A. Katie used 9 tablespoons of iced tea mix and 14 ounces of water.
- B. Katie used 9 tablespoons of iced tea mix and 48 ounces of water.
- C. Katie used 12 tablespoons of iced tea mix and 14 ounces of water.
- D. Katie used 12 tablespoons of iced tea mix and 48 ounces of water.

Item 12

Drag-and-Drop Technology-Enhanced: 2 points

Move each number representation into the column that BEST describes it. Not all number representations will be used.

Less Than 7,392	Equal to 7,392

$7,000 + 300 + 90 + 2$

$7,000 + 200 + 90 + 3$

$(7 \times 1,000) + (9 \times 100) + (3 \times 10) + (2 \times 1)$

$(7 \times 1,000) + (3 \times 100) + (2 \times 10) + (9 \times 1)$

seven thousand three hundred ninety-two

seven thousand four hundred twenty-three

Use a mouse, touchpad, or touchscreen to move the number representations into the columns. Each number representation may be used once.

Item 13**Drag-and-Drop Technology-Enhanced:** 2 points

Margie creates a pattern. The first number in the pattern is 3. The pattern follows the rule "multiply by 2."

Move a number into each blank to show the first four terms in Margie's pattern.

_____ , _____ , _____ , _____ , ...									
0	1	2	3	4	5	6	7	8	9
10	11	12	13	14	15	16	17	18	
19	20	21	22	23	24	25	26		

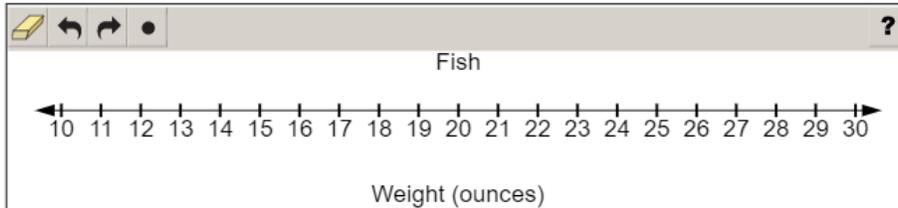

Use a mouse, touchpad, or touchscreen to move numbers into the blanks. Each number may be used once.

Item 14

Number-Line Technology-Enhanced: 2 points

Erin, Michelle, Beth, and Denice went fishing. Erin caught a fish that weighs 12 ounces. Michelle caught a fish that weighs 2 times as much as Erin's fish weighs. Beth caught a fish that weighs 28 ounces. Denice caught a fish that weighs 10 ounces less than Beth's fish weighs.

Plot four points to represent the weight, in ounces, of each of the four fish caught.

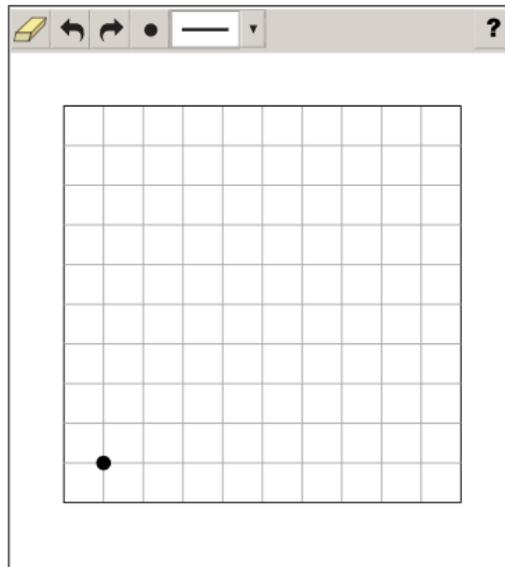

- ➡ Use a mouse, touchpad, or touchscreen to plot points on the number line. At most 4 points can be plotted.

Item 15**Coordinate-Graph Technology-Enhanced:** 2 points

Place line segments on the grid to create a rectangle with an area of 16 square units and a perimeter of 20 units. A point representing one corner of the rectangle is already drawn.

(Area = Length \times Width)

(Perimeter = $2(\text{Length} + \text{Width})$)

- ➡ Use a mouse, touchpad, or touchscreen to draw points and line segments on the grid. At most 3 points and 4 line segments can be placed.

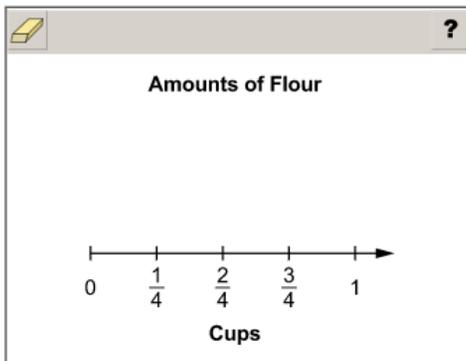

Item 16

Line-Plot Technology-Enhanced: 2 points

Lillian has $2\frac{3}{4}$ cups of flour. The list shows the four amounts, in cups, of flour she used to make four different recipes.

$$\frac{2}{4} \quad \frac{3}{4} \quad \frac{3}{4} \quad \frac{2}{4}$$

Complete the line plot by adding an X to represent the amounts, in cups, of flour that Lillian used to make the recipes AND the amount of flour that Lillian has remaining.

 Use a mouse, touchpad, or touchscreen to add Xs to the line plot. At most 4 Xs can be plotted for each amount.

Item 17**Keypad-Input Multi-Part Technology-Enhanced:** 2 points**Part A**

Store A received a shipment of 15 boxes of phones. Each box had 12 phones.

Part A

Write an expression to represent the number of phones Store A received in the shipment.

						
1	2	3	+	-	×	÷
4	5	6	<	=	>	
7	8	9	(-)			
0	.	$\frac{\square}{\square}$				

 Use a mouse, touchpad, or touchscreen to enter a response.

Go on to the next page to finish item 17.

Item 17. Continued.

Part B

Store A received a shipment of 15 boxes of phones. Each box had 12 phones.

Part B

Store B also received a shipment of phones. Each of the boxes Store B received had 24 phones. The number of boxes of phones received by Store B was 3 times as many as Store A received.

How many phones did Store B receive in its shipment?

		
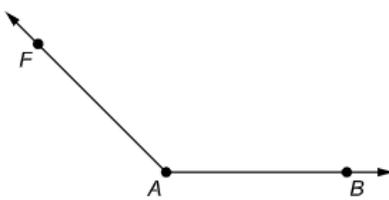

<input type="text"/>		
1	2	3
4	5	6
7	8	9
0	.	$\frac{\square}{\square}$

 Use a mouse, touchpad, or touchscreen to enter a response.

Item 18

Drop-Down Technology-Enhanced: 2 points

Angle FAB is shown.

Angle FAB is a(n) angle because the measure of angle FAB is .

➡ Use a mouse, touchpad, or touchscreen to click the arrow beside each of the three blank boxes. When you click the arrow, a drop-down menu will appear, showing you all the possible options for that blank box. Each drop-down menu with its options is shown below.

Angle FAB is a(n) angle because the measure of angle FAB is .

acute

obtuse

right

straight

less than

exactly

greater than

90 degrees

180 degrees

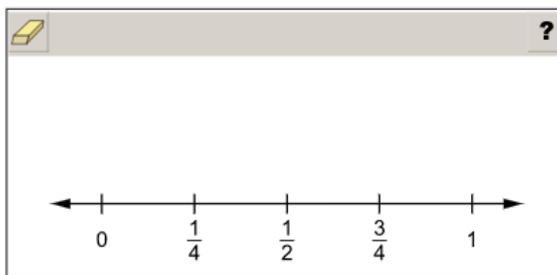

Item 19

Line-Plot Technology-Enhanced: 1 point

A table of values is shown.

0	1	$\frac{3}{4}$	$\frac{1}{4}$	1	$\frac{1}{2}$	$\frac{1}{4}$
---	---	---------------	---------------	---	---------------	---------------

Complete the line plot to represent the values.

- ➡ Use a mouse, touchpad, or touchscreen to add Xs to the line plot. At most 3 Xs can be plotted for each value.

MATHEMATICS ADDITIONAL SAMPLE ITEM KEYS

Item	Standard/ Element	DOK Level	Correct Answer	Explanation
1	MGSE4.G.3	2	A	The correct answer is choice (A). When the triangle is folded across the line, it will produce an upside-down triangle. Choices (B), (C), and (D) are incorrect because they will not result in a symmetrical design.
2	MGSE4.NF.2	2	C	The correct answer is choice (C) Joe cut a longer piece of ribbon than Eva because $\frac{2}{5} < \frac{7}{8}$. Choice (A) is incorrect because $\frac{2}{5}$ is less than $\frac{7}{8}$, so Eva's ribbon is shorter than Joe's. Choice (B) is incorrect because Eva's ribbon is the $\frac{2}{5}$ not the $\frac{7}{8}$. Choice (D) is incorrect because $\frac{2}{5}$ is less than $\frac{7}{8}$.
3	MGSE4.NBT.6	2	C	The correct answer is choice (C) 16. When 144 pennies are equally grouped into 9 rows, there are 16 pennies in each row. $9 \times 16 = 144$. Choice (A) is incorrect because it is the result of dividing 14 tens by 9 to get the tens digit and 44 ones by 9 to get the ones digit. Choice (B) is incorrect because it is the result of mistaking 5×9 as 54. Choice (D) is incorrect because it is the result of mistaking 7×9 as 54.
4	MGSE4.MD.1	2	C	The correct answer is choice (C) Kim and Steve. The measurement 3 feet, 8 inches, is equivalent to 44 inches. The measurement 1 foot, 9 inches, is equivalent to 21 inches. The greatest height in the table is 44 inches, and Kim and Steve share that height. Choices (A), (B), and (D) incorrectly identify one of the children's heights.
5	MGSE4.G.2	2	C	The correct answer is choice (C) rhombus. A square has two PAIRS of parallel sides, as does a rhombus. Choice (A) is incorrect because there are three pairs of parallel sides. Choice (B) is incorrect because a pentagon can have at most one pair of parallel sides. Choice (D) is incorrect because a triangle has no parallel sides.

Item	Standard/ Element	DOK Level	Correct Answer	Explanation
6	MGSE4.NF.3c	2	A	The correct answer is choice (A) $2\frac{4}{8}$ pans. $\frac{5}{8} - \frac{1}{8} = \frac{4}{8}$ and $5 - 3 = 2$. Choice (B) is incorrect because the numerator was found by $8 - 1$ instead of $5 - 1$. Choice (C) is incorrect because it is the result of adding the whole numbers and subtracting the fractions. Choice (D) is incorrect because it is the result of adding instead of subtracting.
7	MGSE4.OA.4	1	D	The correct answer is choice (D) 47. A prime number is only divisible by 1 and itself. Choice (A) is incorrect because 15 is divisible by 3 and 5. Choice (B) is incorrect because 21 is divisible by 3 and 7. Choice (C) is incorrect because 33 is divisible by 3 and 11.
8	MGSE4.OA.2	2	C	The correct answer is choice (C) $\square \times 3 = 12$. Since the apples weigh 3 times more than the oranges, $\square \times 3$ represents the weight of the apples. Since the apples weigh 12 pounds, $\square \times 3 = 12$. Choices (A) and (B) are incorrect because they use an incorrect operation to represent the relationship. Choice (D) is incorrect because it divides the numbers in the wrong order.
9	MGSE4.OA.4	2	Part A: B Part B: A, C	Part A: The correct answer is choice (B) 3 and 31. Choice (A) is incorrect because 3 and 9 are the digits of 93 but 9 is not a factor of 93. Choice (C) is incorrect because neither 9 nor 10 is a factor of 93 but factors of 90. Choice (D) is incorrect because $3 + 90$ is 93 but 90 is not a factor of 93. Part B: The correct answers are choices (A) and (C). Choices (B), (D), and (E) are incorrect because there is no whole number that can be multiplied by 8 to get them.
10	MGSE4.NF.3b	2	A/D/E	The correct answers are choices (A), (D), and (E). Each of these recognizes that when adding fractions, the denominators must be the same and the numerators are added together. Choice (B) is incorrect because the denominators are added. Choice (C) is incorrect because it incorrectly creates unit fractions. Choice (F) is incorrect because it results in $\frac{5}{5} = 1$.

Item	Standard/ Element	DOK Level	Correct Answer	Explanation
11	MGSE4.MD.1	3	Part A: D Part B: B	<p>Part A: The correct answer is choice (D) 40 cups. The amount 10 quarts is equivalent to 40 cups. Choice (A) is incorrect because 10 quarts is equivalent to 2.5 gallons. Choice (B) is incorrect because 10 quarts is equivalent to 20 pints. Choice (C) is incorrect because 10 quarts is equivalent to 320 ounces.</p> <p>Part B: The correct answer is choice (B). The amount 6 cups of water equals 48 ounces of water, and 6 cups times $1\frac{1}{2}$ tablespoons of iced tea mix per cup of water is 9 tablespoons. Choice (A) is incorrect because it adds 8 and 6 to get 14 ounces. Choice (C) is incorrect because it incorrectly found the number of tablespoons and the number of ounces of water Katie used. Choice (D) is incorrect because it incorrectly found the number of tablespoons Katie used.</p>

MATHEMATICS EXAMPLE SCORING RUBRICS AND EXEMPLAR RESPONSES

Item 12

Scoring Rubric

Points	Description
2	The student correctly completes both columns.
1	The student correctly completes one column.
0	The student does not correctly complete either column.

Exemplar Response

The correct response is shown below.

?

Less Than 7,392	Equal to 7,392
$7,000 + 200 + 90 + 3$ $(7 \times 1,000) + (3 \times 100) + (2 \times 10) + (9 \times 1)$	$7,000 + 300 + 90 + 2$ seven thousand three hundred ninety-two
$(7 \times 1,000) + (9 \times 100) + (3 \times 10) + (2 \times 1)$ seven thousand four hundred twenty-three	

In the first column, “7,000 + 200 + 90 + 3” is 7,293 in standard form. This is less than 7,392 because the hundreds place is smaller. Also in the first column, “(7 × 1,000) + (3 × 100) + (2 × 10) + (9 × 1)” is 7,329 in standard form. This is less than 7,392 because the tens place is smaller. In the second column, “7,000 + 300 + 90 + 2” is 7,392 written in expanded form and “seven thousand three hundred ninety-two” is 7,392 written out in words. The remaining two number representations are not used, as they are both greater than 7,392.

Item 13

Scoring Rubric

Points	Description
2	The student correctly places all four numbers.
1	The student correctly places the starting number but does not correctly place all three other numbers.
0	The student does not correctly place the starting number.

Exemplar Response

The correct response is shown below.

The image shows a digital workspace with a yellow eraser icon and a question mark icon in the top left corner. Below the icons, the number pattern $\underline{3}, \underline{6}, \underline{12}, \underline{24}, \dots$ is displayed. Underneath the pattern is a grid of numbers from 0 to 26, arranged in three rows and ten columns:

0	1	2		4	5		7	8	9
10	11		13	14	15	16	17	18	
19	20	21	22	23		25	26		

The pattern begins with the number 3 and follows the rule to multiply each number by 2 to get the next number in the pattern. The second number in the pattern is 6 because $3 \times 2 = 6$. The third number is 12 because $6 \times 2 = 12$. The fourth number is 24 because $12 \times 2 = 24$.

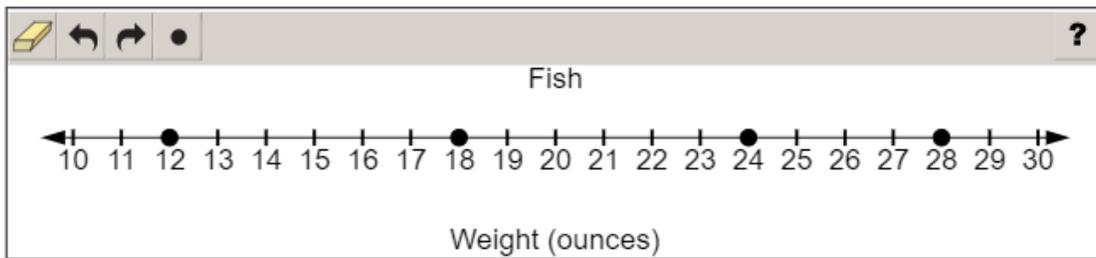

Item 14

Scoring Rubric

Points	Description
2	The student correctly plots all four points.
1	The student correctly plots two or three points.
0	The student does not correctly plot at least two points.

Exemplar Response

The correct response is shown below.

The point plotted at 12 represents the weight of Erin’s fish. Michelle’s fish has twice the weight of Erin’s fish, and $12 \times 2 = 24$, so the point plotted at 24 represents the weight of Michelle’s fish. The point plotted at 28 represents the weight of Beth’s fish. The point at 18 represents the weight of Denice’s fish, because her fish weighs 10 ounces less than Beth’s fish and 18 is 10 less than 28.

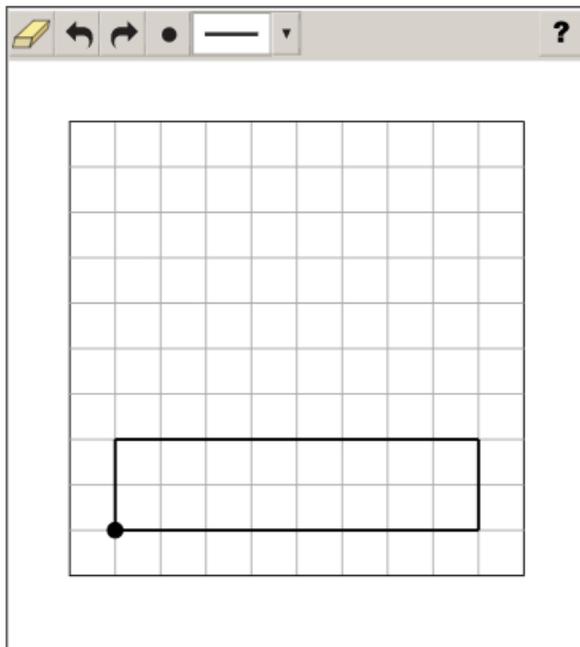

Item 15

Scoring Rubric

Points	Description
2	The student correctly creates a rectangle with an area of 16 square units and a perimeter of 20 units, and one of the vertices of the rectangle is on the given point on the grid.
1	The student correctly creates a rectangle with either an area of 16 square units or a perimeter of 20 units, and one of the vertices of the rectangle is on the given point on the grid.
0	The student does not correctly create a rectangle with an area of 16 square units or a perimeter of 20 square units.

Exemplar Response

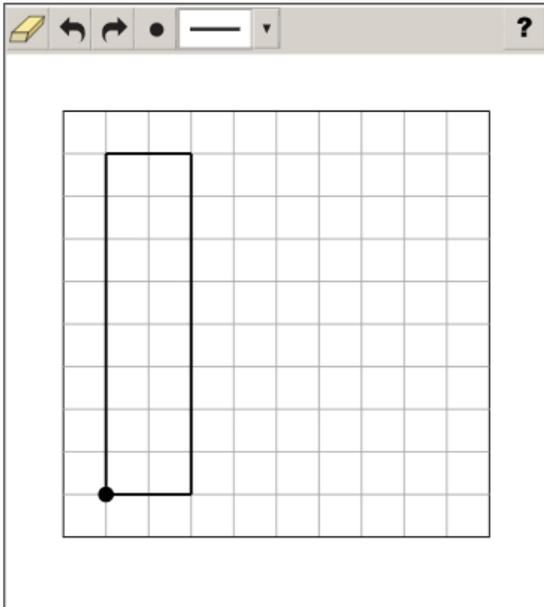

Two possible correct responses are shown below.

Go on to the next page to finish item 15.

Item 15

OR

The area of a rectangle is equal to its length times its width, so a rectangle with an area of 16 square units must have a length and width that multiply to get 16. That means the rectangle has the possible lengths and widths of 4 and 4, 8 and 2, and 16 and 1. Since the perimeter of a rectangle is equal to 2 times its length plus its width, the length and width of a rectangle with a perimeter of 20 units must add up to 10. That means the rectangle has the possible lengths and widths of 5 and 5, 6 and 4, 7 and 3, 8 and 2, and 9 and 1. To have both an area of 16 square units and a perimeter of 20 units, the rectangle must have a length of 8 and a width of 2.

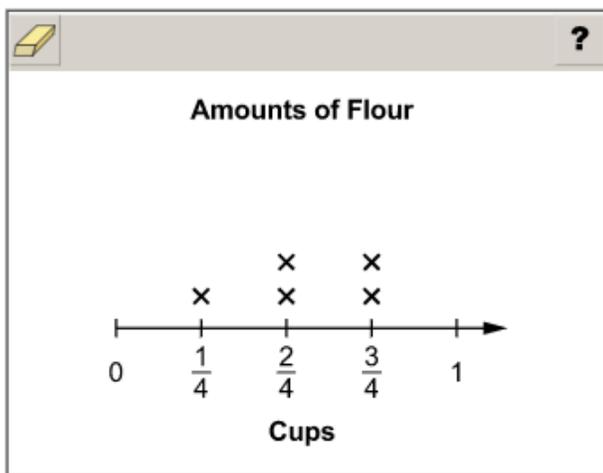

Item 16

Scoring Rubric

Points	Description
2	The student correctly plots the five amounts.
1	The student correctly plots the four amounts given or the amount of flour remaining.
0	The student does not correctly plot the four amounts given or the amount of flour remaining.

Exemplar Response

The correct response is shown below.

Since Lillian used both $\frac{3}{4}$ cups of flour and $\frac{2}{4}$ cups of flour in two recipes each, there are 2 Xs plotted above each of those fractions. To determine how much flour Lillian has remaining, subtract the fractions from $2\frac{3}{4}$. Since $2\frac{3}{4} - \frac{3}{4} - \frac{3}{4} - \frac{2}{4} - \frac{2}{4} = \frac{1}{4}$, Lillian has $\frac{1}{4}$ cup of flour remaining, which is represented by the X plotted above $\frac{1}{4}$ on the line plot.

Item 17

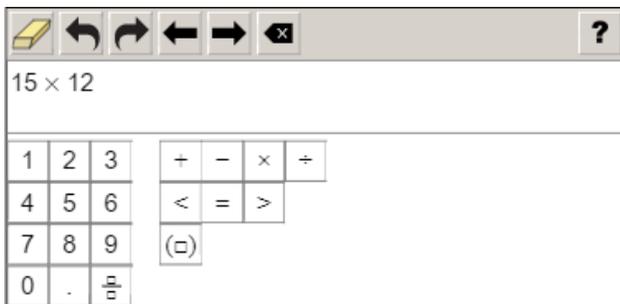

Scoring Rubric

Points	Description
2	The student correctly answers both Part A and Part B.
1	The student correctly answers either Part A OR Part B.
0	The student does not correctly answer either part.

Exemplar Response

Part A

The correct response is shown below.

A digital calculator interface. The top bar contains icons for erasing, undo, redo, left arrow, right arrow, and a question mark. The display shows the expression 15×12 . Below the display is a numeric keypad with digits 1-9, 0, a decimal point, and a fraction template icon. To the right of the numeric keypad are operation buttons for addition (+), subtraction (-), multiplication (x), division (÷), less than (<), equals (=), and greater than (>), along with a square root button (√).

This is the correct response because the context is multiplying 15 boxes times 12 phones in each box to find the total number of phones.

Part B

The correct response is shown below.

A digital calculator interface. The top bar contains icons for erasing, undo, redo, left arrow, right arrow, and a question mark. The display shows the number 1080. Below the display is a numeric keypad with digits 1-9, 0, a decimal point, and a fraction template icon. To the right of the numeric keypad are operation buttons for addition (+), subtraction (-), multiplication (x), division (÷), less than (<), equals (=), and greater than (>), along with a square root button (√).

This is the correct response because the number of boxes is 15×3 and the number of phones in each box is 24. This leads to 45 boxes of 24 phones, and 45 times 24 is 1,080.

Item 18

Scoring Rubric

Points	Description
2	The student correctly selects all three drop-down menu options.
1	The student correctly selects the first drop-down menu option OR correctly selects both the second and third drop-down menu options.
0	The student does not correctly select the first drop-down menu option OR correctly select both the second and third drop-down menu options.

Exemplar Response

The correct response is shown below.

Angle FAB is a(n) angle because the measure of angle FAB is .

“Obtuse” is correct for the first menu because all angles greater than 90 degrees are classified as obtuse angles. “Greater than” and “90 degrees” are correct because they explain the reference angle that is used for classifying angles.

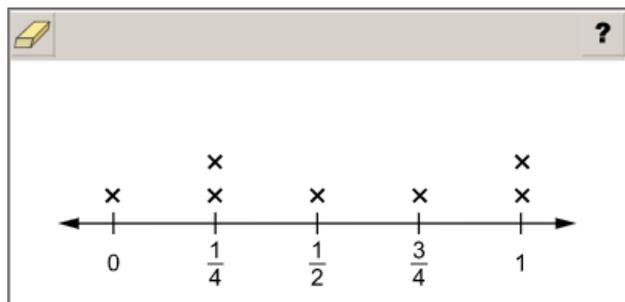

Item 19

Scoring Rubric

Points	Description
1	The student correctly plots all seven Xs.
0	The student does not correctly plot all seven Xs.

Exemplar Response

The correct response is shown below.

This is the correct response because it shows an X to represent each number in the table.

APPENDIX: LANGUAGE PROGRESSIVE SKILLS, BY GRADE

The following skills, marked with an asterisk (*) in Language standards 1–3, are particularly likely to require continued attention in higher grades as they are applied to increasingly sophisticated writing and speaking.

Standard	Grade(s)							
	3	4	5	6	7	8	9–10	11–12
L.3.1f. Ensure subject-verb and pronoun-antecedent agreement.								
L.3.3a. Choose words and phrases for effect.								
L.4.1f. Produce complete sentences, recognizing and correcting inappropriate fragments and run-ons.								
L.4.1g. Correctly use frequently confused words (e.g., <i>to/too/two</i> ; <i>there/their</i>).								
L.4.3a. Choose words and phrases to convey ideas precisely.*								
L.4.3b. Choose punctuation for effect.								
L.5.1d. Recognize and correct inappropriate shifts in verb tense.								
L.5.2a. Use punctuation to separate items in a series.†								
L.6.1c. Recognize and correct inappropriate shifts in pronoun number and person.								
L.6.1d. Recognize and correct vague pronouns (i.e., ones with unclear or ambiguous antecedents).								
L.6.1e. Recognize variations from standard English in their own and others' writing and speaking, and identify and use strategies to improve expression in conventional language.								
L.6.2a. Use punctuation (commas, parentheses, dashes) to set off nonrestrictive/parenthetical elements.								
L.6.3a. Vary sentence patterns for meaning, reader/listener interest, and style.†								
L.6.3b. Maintain consistency in style and tone.								
L.7.1c. Places phrases and clauses within a sentence, recognizing and correcting misplaced and dangling modifiers.								
L.7.3a. Choose language that expresses ideas precisely and concisely, recognizing and eliminating wordiness and redundancy.								
L.8.1d. Recognize and correct inappropriate shifts in verb voice and mood.								
L.9-10.1a. Use parallel structure.								

* Subsumed by L.7.3a

† Subsumed by L.9-10.1a

‡ Subsumed by L.11-12.3a
