Social Studies Resource

Introduction

The Georgia Standards of Excellence (GSE) articulate what students should know and should be able to do for each content area at the conclusion of a given grade or course. As the GSE have been reviewed and implemented into Georgia Milestones for social studies, Georgia educators involved in the review process indicated that it would be helpful for educators across Georgia to receive an extended list of content-related proper nouns to supplement the language of the standards for use in assessment items.

Background

Generally, under Georgia Milestones for social studies, proper nouns that are present in the text of the content standards are used in test items. However, Georgia educators involved in the item development process have indicated that there are additional terms that are inherent to the instruction of the content defined in the standards, and the Georgia Department of Education has determined that it is in the best interest of instruction across Georgia to bolster the clarity and accuracy of the test items by providing an extended list of proper nouns implied through the implementation of the GSE.

For example, in grade 5, consider standard SS5H4, “Explain America’s involvement in World War II”. While “Axis powers” and “Allied powers” are not stated explicitly in the standards, Georgia educators involved in the review process understand that those terms are necessary in the instruction process for this standard, and that avoiding those two terms would create less clarity in the test items. Instead of simply saying “Axis powers,” ambiguous phrasing would have to be created to describe “countries that fought on the side of Germany during the war” or “countries that fought against the United States during the war”; thereby increasing the reading load for the student and decreasing clarity.

How to Use the Supplemental Resource

Georgia educators believe that the terms provided in this document are inseparable from the content being assessed, and as such, are terms that students will have had an opportunity to learn in the course of their regular instruction. This resource highlights terminology that teachers may encounter in the teacher notes produced by the Georgia Department of Education.

Please note that not all terms identified in the teacher notes, study guides, and assessment guides are included in this list. This is a limited list of additional proper nouns to be used when teaching and assessing social studies content based on the recommendations of Georgia educators. Educators should ensure that their students are familiar with this extended list of proper nouns so that students are prepared when they take the Georgia Milestones assessment in social studies.
