Webinars

- Easy way for your teachers to participate in professional development training without having to travel.
- Facilitates discussion and allows your teacher to develop a network of people who are all teaching the same course
- Many of the webinars are a series of ten. If teachers participate in ten webinars (live or archived), they can potentially earn a PLU.
- New "Go to Webinar" platform is easy to use
- Doesn't replace "in person" PD, just provides an option for additional training.

Webinars for Healthcare Science, LPSCS and Personal Care Services

Richard Woods,
Georgia's School Superintendent
"Educating Georgia's Future"
ga.doe.org

- Easy way for teachers (administrators may also participate) to attend a - 1 hour professional development training without having to travel. These are meant to supplement, not replace, in person, hands-on trainings .
- Most of these webinars provide general information about the course they cover, including: the standards, resources, job shadowing /clinicals, EOPA etc. Many will have guest speakers from industry. They also give teachers the chance to interact with others teaching the same course and ask questions.
- By signing up for the 10 webinar series on www.ctaern.org the teacher will be eligible to earn a PLU (by either attending live or watching the archived versions).
- They should go ahead and register if they plan on participating. Once they register they will receive a reminder the day before and one hour before the webinar begins.
- A microphone with a head set will help you be able to interact during the webinar.
