This Program of Study may serve as a graduation guide for the next four plus years, along with other career planning and educational materials. Courses listed in this model may include recommended coursework and should be individualized to students’ educational and career goals. Each graduation plan needs to meet minimum high school graduation requirements. Dual Enrollment courses can be high school academic and/or career technical education courses.

**Entrance or Exit Point**

**Notes:**

1. Enroll in either a 2- or 4-year post-secondary program; or 2. Enroll in an apprenticeship program or the military; or 3. Enter the workforce using technical skills learned in high school. When a student finishes a 2- or 4-year degree program, they may choose to **Exit** and 1. Enroll in an apprenticeship program or the military; 2. Enroll in a professional university degree program; or 3. Enter the workforce using technical skills learned.

**Graphic Communications Career Pathway Completers - Industry Credentialing for High School Students**

Upon completion of sequenced courses in the Graphic Communications Career Pathway, students are eligible to complete the Industry-Recognized student credential for fulfillment of the End of Pathway Assessment. Secondary students completing the Graphic Communications Pathway will be able to sit for the National Industry Credential assessment offered on-line from Adobe Illustrator, Adobe InDesign, Adobe Photoshop, NOCTI, PrintED, and SkillsUSA. Once mastery is reached, students will receive recognition for completion and use this credential in conjunction with their job or continuing training. For specific assessment information, refer to: [http://bit.ly/ArtsAVTechEOPA](http://bit.ly/ArtsAVTechEOPA)

  - Youth Apprenticeship
  - Clinicals

**Postsecondary Options:**
- 4-Year Universities/Colleges
- 2-Year Colleges
- Technical Colleges
- State Registered Apprenticeships
- Special Purpose Schools
- On-the-Job Training
- Military

**Earning Postsecondary Credits While in High School**
A vital way to get ahead and realize you can pass college courses is by earning postsecondary credits as a high school student. Georgia offers a dual credit program titled Dual Enrollment. You need to talk with your parents, school counselor, or advisor about the proper courses to take each year in high school and dual credit.

Students completing the course work in this Plan, will have earned/completed an Industry Credential, Technical Certificate of Credit (TCC), Associates of Applied Science Degree, and/or Bachelor's Degree.

**Postsecondary Transition**
- Students who will continue their education in a Program of Study at one of the University System of Georgia institutions should prepare to take the ACT or SAT for admissions. Tests for admissions may vary from institution to institution. Contact the selected institution for specific testing information. Additional admissions information can be found at Staying On Course. ([https://www.usg.edu/assets/student_affairs/documents/Staying_on_Course.pdf](https://www.usg.edu/assets/student_affairs/documents/Staying_on_Course.pdf))
- Students who will continue their education in a Program of Study at one of the Technical College System of Georgia institutions should prepare to complete a placement exam.
- Students who will continue their education and training in the US Military should take the ASVAB assessment.
- Students should utilize electronic college and career databases to select the most appropriate postsecondary opportunities to match their selected career field, including registered apprenticeships.
- Georgia's dual-credit programs have been combined into one program entitled Dual Enrollment, in which high school students may earn their high school course credits while taking college courses.

**Related Pathway Occupations**
- Graphic Designers
- Desktop Publishers
- Prepress Technicians & Workers
- Print Binding & Finishing Workers
- Printing Press Operators
- Proofreaders & Copy Markers

**Other Related Occupations**
- Equipment Repairers
- Commercial & Industrial Designers
*ONET Online

**Graphics Communications Pathway Description**

Programs in printing technologies prepare people to produce printed materials such as books, magazines, brochures, and educational materials. Students learn to lay out pages, make plates, and operate printing presses. They learn to set up, maintain, and repair equipment. They also learn to work with sometimes very complex publishing software to edit digital images.

Students will take courses in print-related operations, including lithography, offset printing, and flexography. They will learn to lay out the components of a page such as text columns, graphics, and headers. With a background in this field, you may open doors for yourself to related careers in desktop publishing, graphic arts, technical writing, and web publishing. Jobs related directly to this pathway are page layout workers, prepress operators, and printing press operators.

Workers in the industry will need to continually upgrade their skills because of rapidly-changing technology. Due to an increase in digital technology, skill in computer networks and software is especially important for potential employees.

Postsecondary programs of study in Georgia are Graphics Communications Management; Printing and Graphics Technology; and Printing and Graphics Technician, as one of Georgia’s “HOT” jobs through 2020.
