This Program of Study may serve as a graduation guide for the next four plus years, along with other career planning and educational materials. Courses listed in this model may include recommended coursework and should be individualized to students' educational and career goals. Each graduation plan needs to meet minimum high school graduation requirements. Dual Enrollment courses can be high school academic and/or career technical education courses.

- **Bachelor of Science**

The University System of Georgia offers students' higher education options at 30 institutions throughout the state, providing a wide range of academic programming including certificates and associate, baccalaureate, masters, doctoral and professional degrees.

Note: Students have many options to ENTER and EXIT from their academic studies into the workforce. When a student graduates from high school, they are eligible to choose one of many ENTRANCE POINT options: 1. Enroll in either a 2- or 4-year post-secondary program; 2. Enroll in an apprenticeship program or the military; or 3. Enter the workforce using technical skills learned in high school. When a student finishes a 2- or 4-year degree program, they may choose to EXIT and 1. Enroll in an apprenticeship program or the military; 2. Enroll in a professional university degree program; or 3. Enter the workforce using technical skills learned.

**Entrepreneurship Career Pathway Completers - Industry Credentialing for High School Students**

Upon completion of sequenced courses in the Entrepreneurship Career Pathway, students are eligible to complete the Industry-Recognized student credential for fulfillment of the End of Pathway Assessment. Secondary students completing the Entrepreneurship pathway will be able to sit for the National Industry Credentialed assessment offered on-line from NOCTI and OKCareerTech. Once mastery is reached, students will receive recognition for completion and use this credential in conjunction with their job or continuing training. For specific assessment information, refer to: [http://bit.ly/BMA-EOPA](http://bit.ly/BMA-EOPA)

Entrepreneurship Pathway Description

Entrepreneurs, innovators, proprietors, and small business owners play a key role in Georgia’s economy. According to the United States Small Business Administration, there are 907,068 small businesses in Georgia ([http://www.sba.gov/](http://www.sba.gov/)). Small business owners manage their own companies.

Job opportunities in business are varied and educational requirements vary according to specialization. Business professionals may be managers, owners, accountants, economists, administrators, or analysts. Those considering a career in business, especially entrepreneurs, should be analytical, detail-oriented, flexible, and decisive. They will be required to coordinate several activities at once, quickly analyze and solve specific problems, and cope with deadlines. Business professionals should also have good communication skills and be able to establish working relationships with many different people, from managers, supervisors and other professionals to clerks and related workers.

There are basically three types of small businesses: sole proprietorship, partnerships, and corporations. Marketing skills are critical to a small business owner. It is important for owners to know when to take a risk, adapt to the changing market conditions, improve services, promote their goods or services and hire new employees. As with any other business, owners must be competitive while keeping costs down.

Owners who employ other workers must hire, train, and supervise their employees. Some run the entire business themselves.
