## GUIDANCE FOR DUAL ENROLLMENT CREDIT

### A. Introduction

Dual enrollment credit provides opportunities for Georgia high school students to take college-level courses and earn concurrent credit toward a high school diploma and a college degree. Participation in dual enrollment credit eases the transition from high school to college, provides students an early start on their college careers, and offers meaningful and challenging academic experiences to qualified students, including those who might not otherwise have access to early college opportunities. Dual enrollment credit can help increase the number of high school graduates who are both college and career ready.

Any eligible 11th or 12<sup>th</sup> grade (in some cases 9<sup>th</sup>-10<sup>th</sup>) high school student may enroll full-time or part-time in approved credit-bearing college-level courses approved by the State Board of Education. Courses may be taken before, during or after regular school hours, on the college campus, on-line or at the high school during their regular school calendar year. *Approved courses must count toward state and/or local high school graduation requirements.* Local school systems must share dual enrollment credit information by April 1<sup>st</sup> for the following school year to all 8<sup>th</sup>-11<sup>th</sup> grade students/parents. Interested students and parents must complete a *Sign-Off Form* acknowledging they have been provided the counseling services needed for participation.

### B. Dual Enrollment Credit Definitions and Acronyms

1. Accel Program. The Accel Program is a non-need based financial aid program funded by the state and administered by the Georgia Student Finance Commission to assist students who are simultaneously attending an eligible high school in Georgia and taking coursework leading to an Associate or Baccalaureate Degree from an eligible postsecondary institution in Georgia as a dual credit enrollment student.
2. Approved Courses. Approved courses are those identified by the Georgia Department of Education as eligible to be taken under Dual Enrollment Credit programs. College courses must be comparable to the high school course for the student to receive credit.
3. Articulated Credit. Articulated credit refers to credit that students are awarded by both the high school and the post-secondary institution when they have successfully completed identified academic and career related courses leading to a diploma, certificate or degree. Through an articulation agreement, institutions agree to aid in a seamless transition without repetition of coursework already mastered in high school. Local agreements will be created by the local system and college while state agreements will be determined by the state agencies.
4. Credit. Credits are earned as either .5 or 1 unit and are applied toward high school graduation and credit hours earned toward the completion of a program of study. High school students must have local approval to participate, advisement, and scheduling completed with their high school counselor and approval from the postsecondary institution before enrolling in the college classes to be eligible to receive high school credit and funding. Students can earn up to four units of high school credit per

# Transition Career Partnerships, Move On When Ready, Dual Enrollment/Dual Credit

# April 1 Deadline for Dual Enrollment Information to be shared with 8<sup>th</sup>-11<sup>th</sup> grade students

## SUGGESTED BEST TRANSITION CAREER PARTNERSHIP PRACTICES FOR LOCAL SYSTEMS

APRIL 1, IS DEADLINE FOR ALL DUAL ENROLLMENT INFORMATION TO BE SHARED LOCALLY WITH EIGHTH - ELEVENTH GRADE STUDENTS.

1. Eighth grade students and parents meeting to inform them of the opportunities the students have for taking dual enrollment and articulated classes.
2. Eighth grade students participate in a Teachers-As-Advisors (TAA) lesson on Dual Enrollment opportunities.
3. Eighth graders are given more in-depth information about articulation and dual

## Georgia's Technical Skill Attainment Inventory 2012-2013

Georgia, like many other career and technical education nations, has worked in recent years to establish a means to ascertain the level of technical skill attainment on the part of completers. Georgia's measurement process has been a response to the Perkins IV Legislation, specifically the mandate that states to implement a valid and reliable assessment directly to industry validated standards.

In working to identify existing assessment (or develop new) that would not only support the mandates set forth in the legislation but would also support Georgia students in their quest for employment with valuable credentials, the state's technical skill attainment inventory will be comprised of several measurement components:

- national industry certifications,
- national occupational assessments, and
- state licensures and state developed assessments

TAG EDUCATION COLLABORATIVE PRESENTS

# GEORGIA STEM DAY MAY 3, 2013

Georgia STEM Day is a day for schools, students, teachers, and companies to raise awareness, celebrate and engage in activities involving science, technology, engineering and math!

## WHY PARTICIPATE IN STEM DAY?

STEM is Georgia's future!

Innovative and quality education in STEM is vital for providing professional opportunities for students as well as strengthening Georgia's future workforce and economy.

Inventive and engaging STEM learning starts with each teacher in each classroom across the state.

Visit [www.tagedonline.org/event/georgia-stem-day](http://www.tagedonline.org/event/georgia-stem-day) to get s

## HOW DO I GET INVOLVED?

- **Educators:** Incorporate fun and innovative STEM activities into your classroom.
- **Companies:** Volunteer to speak about your exciting STEM careers for students at your business.
- **Partners:** Promote STEM Day resources and activity ideas for

Sponsored by the  
Technology Association of  
Georgia (TAG) Education  
Collaborative

### Counseling to Support Georgia's Students

What are you doing to help your students be college and career ready?

This web site is devoted to helping school counselors review, understand, and implement the many aspects and current procedures necessary to help students graduate high school prepared for postsecondary studies, the workforce, military, or attend a state-approved apprenticeship. The tools and resources on these pages have been developed and designed to help School Counselors or Teachers as Advisors comply with recent state laws found in House Bill 400,

House Bill 186, and House Bill 713.

Click on the appropriate link below to find information related to your current situation.
