Frequently Asked Questions

Q. What are the federal civil rights laws, regulations and guidelines with which CTAE program must comply?

Federal law requires that all school districts receiving federal funding support from the U.S. Education Department, and providing career, technical and agricultural education programs shall comply with:

THE CIVIL RIGHTS ACT OF 1964, TITLE VI:
No person in the United States shall, on the ground of race, color, or national origin, be excluded from, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

THE REHABILITATION ACT OF 1973, SECTION 504:
No otherwise qualified handicapped individual...shall, solely by reason of his or her handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

THE EDUCATION AMENDMENTS OF 1972, TITLE IX:
No person...shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.

THE AMERICAN WITH DISABILITIES EDUCATION ACT OF 1990, TITLE II:
An act to establish a clear and comprehensive prohibition of discrimination on the basis of disability.

Q. What do I need to do, if my CTAE program is selected?

A. School districts selected for an onsite civil rights review of CTAE programs will be notified at least 30 days in advance. The facilities and documents to be reviewed, as well as an explanation of the onsite process will be provided in a detailed notification letter. The notification will be mailed to the school superintendent and the CTAE supervisor. Agencies that have implemented a self assessment process according to guidance and materials provided by CTAE review team should have in place the necessary documents and information.

Q. What will happen during the review process and after?

A. The review team will conduct an entrance meeting with school superintendent, CTAE supervisor and other staff. Afterwards the review team will review CTAE programs and
facilities, examine the documents provided, interview staff and students, and conduct an exit meeting to discuss “findings”. Within 45 days, a Letter of Findings (LOF) will be mailed to the district superintendent and the CTAE supervisor. The local agency is required to produce a voluntary compliance plan (VCP) to correct all violations. The review team will assist the school(s) in resolving any violations within a reasonable period of time, in order to finalize the review process.

To ensure equitable distribution of federal vocation education funds and to encourage high-quality Career, Technical and Agricultural Education (CTAE) programs, the U.S. Department of Education Office for Civil Rights requires the local agency to conduct compliance reviews of the state’s CTAE programs. “The mission of the U.S. Department of Education Office for Civil Rights is to ensure equal access to education and to promote educational excellence throughout the nation through vigorous enforcement of civil rights.”

School districts have been selected for on-site review and technical assistance based on a federally approved targeting plan. Ongoing compliance with civil rights statutes is required by the U.S. Department of Education Office for Civil Rights, regardless of whether your school district receives an onsite review. Federal civil rights regulations and guidelines can help us to provide each student with greater opportunities to achieve high academic standards, and to eliminate the achievement gap at state and local levels.

It is recommended that agencies have written agreements whereby the cooperating worksite staff indicates that they will not discriminate and that they understand the school or consortium cannot work with any provider that does. It is necessary to regularly review these written agreements, the assignments of students presently in such programs, and the placement process to see whether any segregated or restrictive patterns exist.
