APPENDIX I
FY2021 Georgia OCR (Office for Civil Rights)/MOA (Methods of Administration) Compliance Reviews

Frequently Asked Questions

Q. What are the federal civil rights laws, regulations and guidelines with which CTAE program must comply?

Federal law requires that all school districts receiving federal funding support from the U.S. Education Department, and providing career, technical and agricultural education programs shall comply with:

THE CIVIL RIGHTS ACT OF 1964, TITLE VI:
No person in the United States shall, on the ground of race, color, or national origin, be excluded from, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

THE REHABILITATION ACT OF 1973, SECTION 504:
No otherwise qualified handicapped individual...shall, solely by reason of his or her handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

THE EDUCATION AMENDMENTS OF 1972, TITLE IX:
No person...shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.

THE AMERICAN WITH DISABILITIES EDUCATION ACT OF 1990, TITLE II:
An act to establish a clear and comprehensive prohibition of discrimination on the basis of disability.

Q. What do I need to do if my local system is selected?

A. School districts selected for an OCR/MOA review of CTAE programs will be notified at least 30 days in advance. The facilities and documents to be reviewed, as well as an explanation of the process will be provided in a detailed notification letter. The notification will be emailed to the school superintendent and the CTAE director. Agencies that have implemented a self assessment process according to guidance and materials provided by CTAE review team should have in place the necessary documents and information.
### Q. What will happen during the review process and after?

A. The review team will conduct a virtual meeting with school superintendent, CTAE director and other staff. During the meeting, the review team will share findings for CTAE programs, school facilities, documents provided, interview surveys, and conduct an exit report to discuss “findings”. The team will conduct on-site facilities review within the next 60 days. Within 45 days of the facilities visit, a Letter of Findings (LOF) will be emailed to the district superintendent and the CTAE supervisor. The local agency is required to produce a voluntary compliance plan (VCP) to correct all violations. The review team will assist the school(s) in resolving any violations within a reasonable period of time, in order to finalize the review process.

### Q. What facilities will be reviewed?

A. The review team will review all instructional programs, as well as areas where students participate in general programs of instruction. The purpose is to assure that CTAE programs and other activities are accessible to, and usable by, persons with disabilities, and that equal educational opportunity is provided. The review may include libraries, cafeterias, resource rooms, counseling and administrative offices, lavatories, parking areas, building entrances, hallways, as well as CTAE program areas and other areas as determined. Please note that the federal financial assistance is not limited to receipt of Carl Perkins funding. It includes *any* funding from the U. S. Department of Education.

### Q. How are school districts selected for onsite reviews?

A state targeting plan, approved by the federal Office for Civil Rights, identifies the information and procedures used to select systems for review. A copy of this targeting plan is available for review upon request. Contact Dr. Ray Anukam at ranukam@doe.k12.ga.us if you have questions.

To ensure equitable distribution of federal vocation education funds and to encourage high-quality Career, Technical and Agricultural Education (CTAE) programs, the U.S. Department of Education Office for Civil Rights requires the local agency to conduct compliance reviews of the state’s CTAE programs. “The mission of the U.S. Department of Education Office for Civil Rights is to ensure equal access to education and to promote educational excellence throughout the nation through vigorous enforcement of civil rights.”

School districts have been selected for on-site review and technical assistance based on a federally approved targeting plan. *Ongoing compliance with civil rights statutes is required by the U.S. Department of Education Office for Civil Rights, regardless of whether your school district receives an onsite review.* Federal civil rights regulations and guidelines can help us to provide each student with greater opportunities to achieve high academic standards, and to eliminate the achievement gap at state and local levels.
