This Program of Study may serve as a graduation guide for the next four plus years, along with other career planning and educational materials. Courses listed in this model may include recommended coursework and should be individualized to students’ educational and career goals. Each graduation plan needs to meet minimum high school graduation requirements. Dual Enrollment courses can be high school academic and/or career technical education courses.

**NOTE:** Students have many options to ENTER and EXIT from their academic studies into the workforce. When a student graduates from high school, they are eligible to choose one of many ENTRANCE POINT options: 1. Enroll in either a 2 or 4 year post-secondary program; 2. Enroll in an apprenticeship program or the military; or 3. Enter the workforce using technical skills learned in high school. When a student finishes a 2- or 4-year degree program, they may choose to EXIT 1. Enroll in an apprenticeship program or the military; 2. Enroll in a professional university degree program; or 3. Enter the workforce using technical skills learned.

**Security and Protective Services Career Pathway Completers - Industry Credentialing for High School Students**

Upon completion of sequenced courses in the Security and Protective Services Pathway, students are eligible to complete the Industry-Recognized student credential for fulfillment of the End of Pathway Assessment. Secondary students completing the Security and Protective Services pathway will be able to sit for the National Industry Credentialled assessment offered on-line from NOCTI, LPSSC, and SkillsUSA. Once mastery is reached, students will receive recognition for completion and use this credential in conjunction with their job or continuing training. For specific assessment information, refer to: http://bit.ly/GALPSCS.

#### Security and Protective Services

**Pathway Description**

Law, Public Safety, Corrections and Security workers plan, manage and provide legal, public safety, and security and protective services. Occupations are numerous and represent multiple levels of education and skills. Occupations fall into major categories based on common knowledge and skills: correction services such as correctional officers and jailers; emergency and fire management services such as fire fighters, EMTs, paramedics, and public safety communications; security and protective services such as information security IT specialists; law enforcement such as criminal investigators, police officers, special agents; and legal services such as a court reporters or lawyers.

Workers in the in the Security & Protective services area protect property, people, and information. Security personnel often work in public buildings such as museums or art galleries to protect paintings and exhibits by inspecting people and packages entering and leaving the building. In factories, laboratories, government buildings, healthcare facilities, data processing centers, and military bases, security officers protect information, products, computer codes, and defense secrets and check the credentials of people and vehicles entering and leaving the premises.

Employment in this field Is expected to grow by about 18% from 2014 to 2024 which is as fast as the average for all occupations. Background and additional training can lead to transportation security screeners such as those that work the Atlanta International Airport. They are better known as TSA officers.

Numerous job openings will stem from employment growth attributable to the desire for increased corporate, industrial and homeland security. Also, a more security-conscious society and concern about drug-related crimes should contribute to the increasing demand.
