## How PBIS Increased Our Attendance And Decreased Discipline

Chad Crumley, [guest blogger for GPB Education](#)

Gainesville City Schools has dug deep into PBIS, Positive Behavior Interventions and Supports, for all students P - 12. During 2015-2016, groups of teachers and administrators from each school were trained to help with the PBIS mission. During this training, a clear, consistent message was conveyed as a need for all students, and the group developed the 4 Rs - Ready, Respectful, Responsible, and Role Model. The 4 Rs are used daily to remind students of the high expectations throughout the school and on the bus. These are also shared with parents as way to help reinforce the high expectations.

At Centennial Arts Academy, a K-5 elementary school, the PBIS program began as a grassroots effort. A team saw a need and started a plan to help. Centennial Arts Academy had positive incentives in place for excellent behavior. However, these efforts were not connected to specific expectations. Thus, the team worked on a plan to communicate the behavioral expectations and at the same time reward students displaying the expected behaviors. The team developed expectations centered on the 4 Rs for all areas of the school and bus. These are posted in each area of the school, classroom, and bus. At the end of the year last year, the team purchased low cost items called "Spirit Sticks" to help reward students. At the beginning of 2016-2017, the school started with a PBIS pep rally, explaining the high expectations and prizes to be earned. Throughout the year, teachers teach lessons regarding the desired behaviors, reinforcing as needed.
