LEA Narrative

Fulton County Schools (FCS) is the fourth largest school district in Georgia. During the 2011-12 school year, more than 93,000 students are attending classes in 58 elementary schools, 19 middle schools, 16 high schools and 7 charter schools. The racial composition of FCS students is 42% Black, 34% White, 12% Hispanic, 9% Asian, and 3% Multi-Racial. Forty-four percent of FCS students receive free and/or reduced meals. Many schools in the northern part of the district have less than 5% of their students eligible for free and/or reduced-meals while many schools in the southern part of the district have over 95% of their students eligible. Ten percent of FCS students are classified as students with disabilities (SWD) and 7% are classified as English Learners (EL). Overall, FCS is a high-achieving district; however, there are subgroups of FCS students who do not perform on level with their peers and schools that need additional strategies and supports to move their struggling students.

Current Literacy Priorities: Fulton County Schools follows the Georgia Performance Standards (GPS) to guide literacy instruction but will transition to Common Core Georgia Performance Standards in the 2012-2013 school year. The implementation of the GPS allowed the integration of reading and writing instruction—a paradigm shift for the schools. Common Core Standards will infuse even more rigor, complex texts, informational reading, and challenge for our teachers and students. Budget constraints prevented the adoption of new materials when GPS were implemented, but plans are underway to adopt a new set of Reading and English/Language Arts (ELA) materials for the school year 2012-2013. FCS solicited extensive input from teachers, parents, students and administrators via surveys, feedback from a district oversight team, and a pilot of two vendor finalists this school year. This process served not only the materials adoption but also established a basis on which to build our district's literacy plan.

See Appendix A for a comprehensive literacy needs assessment and Appendix B for the district's literacy plan.

Management Structure: Dr. Robert Avossa became Superintendent of the Fulton County Schools in June 2011. As Superintendent, he is responsible for the leadership, administration and management of 100 schools, 13,500 employees, and an \$819.5 million general fund budget. His cabinet members lead the following functional areas: instruction, operations, finance, human resources, organizational advancement and communications.

Past Instructional Initiatives: Prior to the adoption of GPS, the learning objectives for the State of Georgia were known as Quality Core Curriculum. With those objectives, much of the literacy approach rested on the teaching of reading with some writing. Materials often produced whole-class instruction with little consideration for the individual needs of the students.

Literacy Curriculum: Teachers have access to model lesson plans written by district master teachers and the English/Language Arts Department staff. The model units demonstrate a balanced approach to the teaching of standards. Instructional plans outline the standards addressed in each of the four nine weeks' units. Additionally, resources, strategies, and balanced assessments accompany each unit of study. A comprehensive scope and sequence outlines the standards and elements for each semester of the school year.

Literacy Assessments: FCS uses benchmark assessments called Checkpoints. The English/Language Arts Department produces four benchmark assessments per year in grades two through eleven which assess reading, language arts, and writing. Checkpoints assessments use a pre and post-test formula and are aligned to the Criterion-Referenced Competency Test (CRCT), Georgia's summative assessment that is administered in the spring. FCS schools administer a writing assessment every nine weeks that focuses on the studied genre. Schools create common

assessments and assess formatively; therefore, a balanced assessment approach continues to be the assessment model for the district.

Need for a Striving Reader Project: On average, students in Fulton County Schools perform better than students across the state; for example, while Georgia's graduation rate over the past three years has moved from 79% to 81%, FCS' rate has consistently been higher and increased from 84% to 86%. In 2011, a larger percentage of FCS students met or exceeded CRCT standards than students across the state—in *every* grade and *every* tested subject. Yet, these district averages mask the rather striking achievement gaps within the district. Graduation rates across high schools ranged from 52% to 98% in 2011. The percentage of students meeting standards on the 3rd grade CRCT Reading test ranged from a low of 74% to as high as 100% at many schools. As with so many schools and districts across the country, the high poverty schools in FCS tend to fall at the lower end of the performance spectrum. Schools with large groups of students with disabilities or English learners struggle to meet achievement standards, as well. A recent survey of FCS administrators, teachers and parents highlights concerns with our district's literacy efforts and Reading and ELA curriculum and instruction. More than 53% of administrators responding do not believe the current Reading and ELA materials provided by the district address the needs of all components of literacy and six out of ten believe that technology related to Reading and ELA is not used effectively to maximize student learning. More than 54% of parents do not believe their school offers adequate opportunities for parents to learn strategies to support their child's learning in the home. Clearly, the data point to a need for additional materials, professional development, parent outreach and supports to ensure quality literacy instruction in our schools. The Striving Reader grant will help FCS address these challenges.

Striving Reader Grant Partners: FCS needs strong partners to create the necessary building blocks for literacy reform. The district is partnering with United Way of Metropolitan Atlanta and Sheltering Arms to address the needs of children from birth through pre-kindergarten (Pre-K) and is partnering with the Woodruff Arts Center to provide teachers with innovative, engaging approaches to teach literacy to students. **United Way of Metropolitan Atlanta (UWMA)** has created and implemented innovative programs and outreach initiatives to improve the quality of early care and education for all children ages birth to five in Atlanta, Georgia. Smart Start, the early childhood division of UWMA, is nationally recognized for pioneering efforts as an Early Reading First grantee. The district's partnership with UWMA will leverage their success with Early Reading First to build capacity through professional development for teachers and assistants of targeted children from birth through five years old. See Appendix C for a letter of support from UWMA. **Sheltering Arms** is Georgia's oldest nonprofit early childhood education program, and one of its most respected. Its mission is to serve working families with high quality, affordable child care and education and comprehensive support services. Founded by Atlanta volunteers in 1888, Sheltering Arms now annually serves more than 3,600 children, ages six weeks to five years old, and their families in 16 centers. Sheltering Arms is a tax-exempt 501(c)3 organization and has been nationally recognized for the success of its school readiness program. FCS is excited to partner with Sheltering Arms to improve transitions from early learning to kindergarten classrooms in South Fulton County. See Appendix D for a letter of support from Sheltering Arms. FCS has been a long-time partner with the **Woodruff Arts Center**, the largest provider of Pre-K through 12th grade arts education in America. The Woodruff Arts Center recognizes the power and potential of engaging young people in the arts. Empowering teachers with arts learning strategies helps provide students with

the skills, knowledge, and creativity required for success in their education. A Striving Reader grant will strengthen the district's partnership with the Woodruff Arts Center and will provide teachers with effective literacy strategies. See Appendix E for Woodruff's letter of support.

I. Eligibility of Schools and Centers

A. Form A

a. Students in grades 3, 5, 8 not meeting standards, based on current CRCT data

The tables below provide a number of metrics relevant to the Striving Reader grant. For FCS Pre-K classrooms, we analyzed data from the Georgia Pre-K Work Sampling System (WSS), which assesses and documents children's skills, knowledge, behavior, and accomplishments as displayed across a wide variety of education domains and as manifested on multiple occasions.

FCS Pre-K Student Achievement

Targeted Elem Schools	Language & Literacy	Mathematical Thinking	Scientific Thinking	Social Studies	Personal/Social Dev't	Physical Dev't & Health	The Arts
Bethune	56%	48%	69%	53%	60%	77%	62%
Campbell	90%	89%	88%	91%	87%	92%	89%
Love Nolan	70%	67%	64%	68%	74%	94%	80%
Oakley	44%	66%	67%	41%	32%	69%	68%
Palmetto	54%	59%	60%	53%	50%	89%	83%
E.C. West	68%	77%	77%	74%	78%	86%	79%

Source: FCS Administrative Records 2010-2011, % of Students with "Proficient" Ratings by Domain via WSS

For each school level, we analyzed key demographic subgroup data. Targeted schools for the Striving Reader grant have much larger populations of economically disadvantaged students and most have larger populations of students with disabilities and/or English learners than the district. The mobility rate, a district indicator to measure student transiency, at each targeted school is equal to or higher than the district average. In addition, CRCT Reading data clearly

exhibit a need for increased literacy supports. Schools included in this grant have higher percentages of students not meeting standards on the 3rd, 5th and 8th grade CRCT Reading tests and much lower graduation rates than the district as a whole. Tables representing school level data for all 100 schools within the district are included in Appendix F.

Data Summary for Targeted Elementary Schools

Targeted Elementary Schools	% FRL	% SWD	% EL	Mobility Rate	Met AYP?	Grade 3 CRCT Reading		Grade 5 CRCT Reading	
						# Students Did not Meet	% Students Did not Meet	# Students Did not Meet	% Students Did not Meet

FCS also reviewed student scores on the Iowa Tests of Basic Skills (ITBS)—a nationally norm referenced test that our district’s 3rd, 5th and 8th graders take annually. This past year, the district’s average percentile rank for 3rd grade Reading on the ITBS was a 60. Yet, the averages of the targeted schools ranged from a low of 31 to a high of 41—well below the district average. The same can be said of 5th grade Reading scores with targeted schools ranging from the 23rd percentile to the 42nd percentile while the district average was the 59th percentile. Finally, 8th graders in Bear Creek Middle School scored at the 31st percentile compared to the district average of the 57th percentile. With a national mean percentile rank of 50, it is obvious that the schools selected need additional supports to improve their students’ performance to compete with students across the country, as well as within our district. See Appendix G for a report on FCS’ ITBS 2010 results.

b. Needs Improvement Status in Reading / Language Arts under Title I, Part A

Appendix H includes a table reflecting the percentage of students in Title I targeted elementary, middle, and high schools that met/exceeded expectations on the Criterion-Referenced Competency Test (CRCT) and the Georgia High School Graduation Test (GHSGT) based on the state’s Annual Measurable Objectives (AMO). Based on the data, it reveals that the general student population continues to make gains in Reading and English/Language Arts and

appears to be on track to meet the annual measurable objectives in 2012 based on the present percentages. A major concern, however, is the student performance at the high school level. Intensive instruction will be necessary to ensure that all high school students are capable of meeting performance objectives.

c. Percentage of Children Counted for Allocations under Title I, Part A

Striving Reader Targeted School	Number of Students	%
Bear Creek MS	1073	100
Bethune ES	758	100
Campbell ES	803	100
Creekside HS <i>(no longer an eligible Title I school)</i>	n/a	n/a
Evoline C. West ES	726	100
Love T. Nolan ES	756	100
McClarín HS	107	31
Oakley ES	727	100
Palmetto ES	535	100

Source: Student Achievement Management System and Individual Schools

d. Rationale for SRCL Grant Selection

The FCS Striving Reader core grant committee is comprised of administrators representing the following departments: Curriculum, Assessment and Accountability, Title I, Exceptional Children, and Instructional Technology. Based on extensive discussion and review of multiple sources of data, committee members agreed on the following criteria for selecting schools to participate in the Striving Reader project: Reading and English/Language Arts assessment data demonstrating performance gaps, Title I classification, schools on the district's intensive list (a framework designed to identify and support high-need schools), feeder patterns, concentration of students with disabilities, concentration of English learners, capacity to implement grant-funded activities, and a waiting list for Georgia Pre-K slots. Based on the selection criteria, the committee recommended and the cabinet approved targeting 4 early learning centers and 9 schools arranged in a feeder pattern in South Fulton County. Sheltering Arms runs 4 early

learning centers in South Fulton: East Point Center, Oakley Township Center, Stonewall Tell Center, and Welcome All Center. These centers feed 7 elementary schools: Bethune, Campbell, E.C. West, Love T. Nolan, Oakley, and Palmetto. These elementary schools feed Bear Creek Middle School, which feeds Creekside High School. McClarin High School is also included in the grant as an alternative school with an open campus and a day care center to support teen parents. Most of the elementary schools (all but Campbell) have struggled but managed to make AYP last year; however, Creekside, McClarin and Bear Creek have not made AYP in recent years. Creekside's graduation rate of 69% and McClarin's graduation rate of 52% are significantly below the district's graduation rate of 86% and reflect the socio-demographic challenges faced by students in South Fulton County. These statistics underscore the difficulties with transitions and vertical teaming. The data provide an important example of how poor literacy skills may be flagged through reading assessments during the early years but are masked in the content areas in middle and high school. Students may show early indicators of difficulty yet manage to get by in elementary school, but by the time they reach middle and high school, students experience the compounded interest of poor literacy skills and are no longer able to achieve minimum standards, much less reach higher goals of achievement. As can be seen from the tables in section I.A.a. above, all the elementary, middle and high schools targeted have demonstrable need for additional literacy supports to improve academic performance and to ensure students are graduating ready for college and careers. See Appendix I for a map of all 13 early learning centers and schools targeted for the district's Striving Reader grant.

II. Assurances: Compliance with FERPA, GPRA, GADOE Project Design

See Appendix J for Project Assurances.

III. Project Design

A. Need

Evoline C. West Elementary School is located in Fairburn, Georgia and is part of the Creekside Cluster. E.C. West has made AYP for 9 consecutive years (since the start of AYP) and is a Title-I Distinguished School. A Striving Reader Grant will help our school better address students' literacy needs and continue to make AYP. Based on the 2010-2011 CRCT Reading/Language Arts scores, our students are currently in danger of not making the projected AMO benchmark of 86.7% in the 2012 school year. E.C. West has an enrollment of 733 students. Approximately 74% of the school's population is eligible for free and/or reduced meals. Our racial breakdown is 81% Black, 11% Hispanic, 4% White, 3% Multiracial and 1% Asian. Nine percent of our students are classified as special education and 6% are classified as having limited English proficiency. Our mobility rate is 40%. We have 3 pre-kindergarten classrooms with 66 students (included in our total enrollment). Our school is committed to developing students into productive young citizens by promoting high academic standards and self-esteem. In addition, the school has some active parents and others who are willing, but need more guidance in order to support their children academically.

Catherine Smith has been the principal at E.C. West for 3 years and has worked in the school for 6 years. The school's leadership team is stable. We have a strong school culture and satisfied employees who are focused on student achievement. In the past few years, we have implemented multiple instructional initiatives that help support our approach to literacy, two examples include: 1) Writing to Win – an evidence-based K-5 professional development program that provides specific strategies for teaching writing in different genres, 2) Six Traits - The 6+1 Trait® Writing analytical model for assessing and teaching writing is made up of 6+1

key qualities that define strong writing; the key qualities are directly aligned with the Fifth Grade Georgia Writing Test. Overall, our students perform well on standardized tests in Reading and English Language Arts even with our significant population of Early Intervention Program (EIP) students, economically disadvantaged students, and English learners. We are very focused on moving the Level I students out of the ‘does not meet’ category on Georgia’s Criterion-Referenced Competency Tests (CRCT). However, we are scoring below the state average in the ‘exceeds’ category. We believe with the initiatives proposed in this grant, we can increase the number students exceeding in Reading and Language Arts, while continuing to focus on moving students from ‘does not meet’ to ‘meets’. In addition, our students tend to have vocabulary and language deficiencies, which affect their performance across curriculum areas. A Striving Reader Grant would provide our school with supplemental resources to fully implement our literacy plan.

a. School Literacy Team (5 points)

Our literacy team has been in place since the 2009-2010 school year representing all grade levels and departments. While the literacy team has had many ideas for new initiatives, we have consistently lacked the resources to see them to fruition. The members of our literacy team include:

Member Name	Title	Role / Responsibility
Catherine Smith	Principal	Monitor and evaluate literacy program and curriculum implementation school-wide. Analyze data for effectiveness of instruction.
Jill Meeker	CST – Curriculum Support Teacher	Monitor and evaluate literacy instruction and curriculum in all grade levels. Analyze student achievement data. Research additional resources.
Michelle Tankell	Kindergarten teacher	Assess Kindergarten literacy needs for instruction. Collect data and provide feedback to drive instruction.
Tanya Barrett	ESOL teacher	Evaluate resources for effectiveness with

Member Name	Title	Role / Responsibility
		ESOL learners.
Allison Bridges	4 th grade teacher	Assess 4 th grade literacy needs for instruction. Collect data and provide feedback to drive instruction.
Sarah Churchill	TAG teacher	Evaluate literacy program to ensure rigor and attention to higher order thinking skills.
Linda Gillen	3 rd grade teacher	Assess 3 rd grade literacy needs for instruction. Collect data and provide feedback to drive instruction.
Renee Rich	Media Specialist	Provide resources for interdisciplinary classroom instruction.
Synessa Debro	1 st grade teacher	Assess 1 st grade literacy needs for instruction. Collect data and provide feedback to drive instruction.
Andrea Lovelock	5 th grade teacher	Assess 5 th grade literacy needs for instruction. Collect data and provide feedback to drive instruction.
Sasha Walker	2 nd grade teacher	Assess 2 nd grade literacy needs for instruction. Collect data and provide feedback to drive instruction.

The literacy team members are responsible for identifying literacy needs in our school and community. Team members act as a liaison between teachers, parents and students, and the community. They review data, conduct surveys, and collect input from teachers, students and parents. Based on data collection and analysis, the team drafted our literacy plan. See Appendix K for the minutes from our last two meetings. The plan will evolve as the needs of our students change.

b. Needs Assessment (Analysis and Identification of Student and Teacher Data 5 points)

At E.C. West, our Pre-K students assess lower than the district average in all areas as demonstrated by the table below. Our Pre-K student needs will be addressed in a separate proposal targeting all Pre-K classrooms in targeted Striving Reader Elementary Schools.

Pre-K Student Achievement Work Sampling Data

Targeted Elem Schools	Language & Literacy	Mathematical Thinking	Scientific Thinking	Social Studies	Personal/Social Dev't	Physical Dev't & Health	The Arts
E.C. West	68%	77%	77%	74%	78%	86%	79%
<i>District Totals</i>	<i>80%</i>	<i>80%</i>	<i>86%</i>	<i>82%</i>	<i>82%</i>	<i>93%</i>	<i>87%</i>

Source: FCS Administrative Records, 2010-2011

Our overall Reading CRCT scores decreased 1.1 percentage points from 87.9% in 2010 to 86.8% in 2011, yet our students still performed 6.8 percentage points above the State Annual Measureable Objective (AMO). Our improvement plan targeted increasing the exceeding students to 25% in 2011 and 26% in 2012 in Reading. While there was a small increase in the percentage of students exceeding in Reading, it is important to note that there was also an increase in the percentage of students not meeting standards. More notably was the increase in the percentage of students not meeting standards in the subgroup Students with Disabilities (SWD) in 4th and 5th grade. We need to improve differentiated instruction, flexible grouping, and teaching strategies that will positively impact academic success in Reading for all students. In order to do this effectively, more resources and professional learning is needed. The tables below highlight CRCT trend data for 3rd-5th graders.

Reading/ English Language Arts – Grade 3					
Criterion Reference Test Reading/English Language Arts – All Students

Further, although our 3rd grade students performed above the state average, they did not meet our targeted success in the persuasive writing genre in the four areas of writing (ideas, organization, style, and conventions). The 3rd grade students missed our target success by 3 percentage points in ideas, 9 percentage points in organization, 11 percentage points in style, and 6 percentage points in conventions. Current writing programs emphasize modeling, student practice, rubrics, and portfolio utilization which accounts for higher averages in ideas and organization. However, based on data (see table below) there is an obvious gap in style which could be improved with vocabulary development and exposure.

3rd Grade – Persuasive (Meets and Exceeds)	Ideas	Organization	Style	Conventions
2009	90%	84%	82%	82%
2010	90%	87%	83%	82%
2011	87%	79%	73%	78%

In the area of writing, our 5th grade students maintained 83% meeting and exceeding standards in both 2010 and 2011. Yet, persuasive and informational writing in all domains fell below system and state average. Pairing current Writing to Win strategies with much needed programs and resources for vocabulary development would improve informational writing in

particular. Having a stronger grasp of topics with vocabulary usage and exposure would allow students to write more confidently and improve the persuasive and informational weakness.

5th Grade Writing Assessment Data	Meets and Exceeds	Exceeds	Meets	Does Not Meet
2007	80%	11%	69%	20%
2008	82%	15%	67%	18%
2009	85%	5%	80%	15%
2010	83%	6%	77%	17%
2011	83%	5%	78%	17%

High-quality, evidence-based professional learning is essential to the successful implementation of our literacy plan. In the 2012-2013 school year, Georgia is transitioning from Georgia Performance Standards to Common Core Standards. The Common Core Standards specifically target speaking and listening, high level vocabulary, and verbal expression. Our professional learning plan supports teachers in the successful implementation of these new, rigorous standards. To identify teachers' specific professional learning needs related to literacy, the administrative team reviewed teacher performance data, and the literacy team conducted faculty surveys. After reviewing multiple data sources, the most common areas of professional learning needs for teachers in grades K-1 relate to support for speaking, listening, reading, and writing. The most critical professional learning needs for teachers in 2nd-5th grade relate to strategies that increase vocabulary, fluency and student interest in reading and writing.

Whole-brain teaching is an instructional approach derived from neurolinguistic descriptions of the functions of the brain's left and right hemispheres. Neurolinguistic findings about the brain's language functions show that in the integrated brain, the functions of one hemisphere are immediately available to the other, producing a more balanced use of language. Whole-brain teaching emphasizes active learning. For this reason, learners are encouraged to visualize, draw, and use drama as they develop new ideas, in order to retain them. One fourth grade teacher is

currently using Whole-Brain Teaching Strategies. See the results below on the Reading unit 1 common assessment compared to her fourth grade colleagues after nine weeks (average class score).

- Class 1 (on level class) – 84.64% (With Whole-Brain Teaching)
- Class 2 (on level class) – 88.41% (With Whole-Brain Teaching)
- Class 3 (on level class) – 74.44% (Without Whole-Brain Teaching)
- Class 4 (on level class) – 70.21% (Without Whole-Brain Teaching)
- Class 5 (advanced class) - 84.68% (Without Whole-Brain Teaching)

The ‘on level’ classes with Whole-Brain Teaching scored as well as, or better than, the ‘advanced class’, and significantly better than the other ‘on level’ classes. We would like to offer professional learning to all faculty members to increase literacy and student engagement in this domain. Further, all faculty members will need professional development to integrate technology into their classrooms. We have had great success leveraging technology to engage our students; however, our teachers need ongoing training to maintain parity with advances in educational technology with a particular focus on assistive technology for all students not just SWD.

Two of our teachers have obtained a Reading Endorsement through the district. We would like to offer a cohort of teachers the opportunity to earn their Reading Endorsement on our campus. A detailed list of teacher participation in professional learning communities and other professional development is included in section III.B.e.

Teacher retention is not an issue at our school. We have low turnover rates among faculty members. The lower teacher retention in 2010-2011 was due to budget reductions and class size increases. See the table below for retention of certified teachers the past three years.

School Year	Percentage of Certified Teachers Retained
2010-11	83%
2009-10	92%
2008-09	94%

Source: Fulton County Schools Administrative Records

Curriculum Needs

The new Common Core Standards calls for greater rigor in all academic areas. One of the changes is a demand for increased speaking and listening skills designed to prepare students for the highly interactive 21st century community. In order to meet this new requirement, we need additional instructional materials and supports to impact students' improvement in the areas of speaking and listening through rich literary experiences. In addition, we would like to build classroom resources of interactive literacy centers that focus on verbal expression, vocabulary building skills, and promote student collaboration. These literacy centers will offer vital content instruction in an engaging, student-friendly format. An increase in quality literature is needed in all grade levels. Currently, most classroom libraries are non-existent or scarce at best. The majority of the student population receives free or reduced lunch services. Research shows that students at or below poverty level are exposed to and hear fewer words daily as compared to students of a higher socioeconomic status. According to the U.S. Department of Education vocabulary is directly tied to student achievement. On a survey of our students, 16% stated they did not have books at home, 16% stated they would like more books to check out and take home to read, and 43% stated they do not visit the public library. See Appendix L for complete survey data. It is the responsibility of our school to close this gap by providing as many opportunities with language as possible. In a survey of our teaching staff, 66.7% of our teachers stated that they do not have a sufficient amount of literacy materials to meet the needs of all their students and 72% stated they did not have an abundant amount of books in their classroom library. A

literature-rich classroom will provide students with daily access and interaction with a variety of print materials. To target our EL (English Learners) population, we need access to an engaging online curriculum to increase English vocabulary and boost comprehension through activities differentiated for individual student levels. The software would also provide teachers with specific, real time data to plan instruction.

Technology Needs

In addition to printed books, our students need access to eReaders in 3rd through 5th grades to encourage small group reading instruction utilizing quality literature in a way that inspires our 21st century students. This technology will increase the availability of quality novels/chapter books consistently so that at all levels, students will be reading books at independent reading levels. This technology will also allow students to listen to books that are at a higher reading level with the text-to-speech feature to support heterogeneous reading groups or mixed ability literature circles. Research shows that kindergarteners and first graders using digital readers demonstrated greater progress in word meaning and fluency than students using traditional texts. Our students are part of the digital native generation and respond well to technology resources. This technology will not only engage students but prepare them for the technological requirements of their generation. Some of our teachers have been trained in the Inspired Classroom model. This model increases the number of desktop computers in a classroom and assigns lessons using the computers throughout the day, such as digital storytelling, creating PowerPoints, typing papers, and researching topics. The Inspired Classroom allows students to participate in authentic and engaging learning activities. The benefit of this model also encourages students to use the technology to get information, find solutions, and respond as a

team to prove understanding and learning. More desktop computers are needed to increase the number of teachers using this teaching model at E.C. West.

Family Engagement Needs

Overall, our parents are working class individuals with basic literacy skills. They want to help their children and support their learning, but they struggle with the best strategies to employ at home. For example, by 3rd grade, parents are unprepared helping their children with homework. Further, our students do not have access to books at home. We would like to support our parents and promote family literacy by providing trade books to be taken home and returned, as part of the homework routine. Although we do have a designated parent resource center, literacy materials are limited due to budget constraints.

c. Needs Assessment Process (5 points)

Our school is constantly reviewing data from standardized tests like the CRCT, district tests such as the Checkpoints, and school-based common assessments to identify student needs. Our literacy team, grade level chairs, classroom teachers, and administrative staff participate in our needs assessment process. We conduct a comprehensive needs assessment to support both our Title I Plan and our School Improvement Plan. Literacy needs are identified through this rigorous process. Each member of our school team has a part in the completion of our comprehensive needs assessment. Grade level and departmental representatives meet with their respective teams to review data, collaborate on current literacy initiatives, and determine future needs. When the team meets, they share feedback from their departmental meetings and come to a consensus about school wide literacy goals. Data is collected and analyzed throughout the school year from local, district and state standardized test data to identify at-risk populations of students. Completing the needs assessment for our literacy plan allowed us to target students

who were not meeting standards in Reading and English Language Arts. In addition, students who receive remedial support, English learners, and students with disabilities were closely monitored for the possibility of not meeting standards. Teachers and students provided input regarding literacy needs by completing a literacy survey. Results of both surveys were considered in assessing our needs and developing our plan. The literacy team solicited feedback from the grade level team in order to ensure all teachers were involved in the needs assessment process.

d. Areas of Concern (5 points)

The literacy team identified six areas of concern based on student needs identified in section III.A.b. above. In order for E.C. West to provide children and students access to a lifetime of literacy, there are nine key components that research has determined should be in place as defined by Georgia's literacy plan and referenced in the 'What' document. Of those nine components, E.C. West is focusing on Standards, Ongoing Formative and Summative Assessments, Response to Intervention and Clearly Articulated Plan for Transitions and Alignment. The table below summarizes the six areas of concern, aligns each to the state's literacy component, reflects the targeted grade, and details the current literacy strategies that are in place.

Research-based Practices Found in Georgia Literacy Plan						
Area of Concern	Standards	Assessments	RtI - Tiered Instruction	Transitions	Grade	Current Strategies
1) Lack of resources that promote verbal expression and high level vocabulary	The student acquires and uses grade-level words to communicate effectively: -listens to a variety of texts and uses new vocabulary in oral language -reads literary and informational texts and incorporates new words into oral and written language -identifies the meaning of common idioms and figurative phrases and incorporates them into oral and written language -determines the meaning of unknown words on the basis of context.	Checkpoints Common Assessments ITBS CRCT GKIDS DIBELS	<u>Tier 1:</u> All students are instructed using SBI best practices which include differentiation of instruction and flexible grouping of students. <u>Tier 2:</u> Modification of instructional setting where data is used to determine needs and research based interventions are applied, such as Early Intervention Program or Extend Learning. <u>Tier 3:</u> Teachers meet with informal collaboration teams of teachers to discuss research based and tailored interventions. <u>Tier 4:</u> Specially designed learning for students with clearly defined circumstances, needs, and abilities. e. Root Cause Analysis (5 points)

Staff members at E.C. West are involved in data and root cause analysis. Grade level chairs discuss data and root causes in their leadership meetings. All teachers participate in data analysis and shared causes and strategies needed to improve during grade level meetings, staff meetings, and via email response. Teachers continually look at data throughout the school year and discuss their discoveries related to root cause analysis. Based on staff member input, there are multiple causes to our areas of concern including:

- Students' verbal skills are weak in grades K through 5.
 - Speaking and listening has not been emphasized in the current GPS, which has led to reduced ability to excel in these areas.
 - Past Interventions include purchase of language master cards for vocabulary in grades K and 1; audiobooks for all grade levels; collaboration of teachers to share strategies for vocabulary; and collaboration with special area teachers to include content vocabulary in lessons.
 - Needs assessment and data analysis revealed a steady decrease or no gain in vocabulary test scores.
- Students' exposure to cultural experiences is limited due to financial constraints.
 - The percentage of free and reduced lunch students is 72%.
 - 5th grade students were given the option of a trip to Washington D.C. to tour the museums and historical sites. Many parents could not afford the group rate. Participation was below 25%.
 - Feedback from the committee revealed that student vocabulary suffers due to lack of real life experiences.

- Students' access to literature and other literacy materials are limited in 3rd through 5th grades.
 - Student and parent surveys showed that students lack choices in reading materials and may have difficulty finding reading materials on their instructional level. Over half of students surveyed do not ever visit the public library.
- Teachers' knowledge of teaching highly rigorous verbal skills is limited due to a lack of professional development in this area for grades K through 5.
 - Due to lack of funding, professional development has not been implemented in this area.

B. Quality of Project Design

a. Project Goals and Objectives (5 points)

Based on our areas of concern, the literacy team created the following Striving Reader project goals:

- By the end of the Grant period, increase the percentage of students exceeding standards on the Reading portion of the CRCT to 26%.
- By the end of the Grant period, increase the percentage of students meeting or exceeding standards on the 5th grade Writing Test to 86%.
- By the end of the Grant period, increase the percentage of students meeting or exceeding standards on the 3rd grade Writing Test within the Persuasive genre to: 92% in Ideas, 89% in Organization, 85% in Style, and 85% in Conventions.

Our project objectives are the strategies that we will implement to achieve project goals. These were determined by looking at our current resources and achievement. All of the resources we are requesting will help us meet the goals and objectives. Our objectives include:

- increasing the amount of quality literature in each classroom across genres,
- increasing the amount of literature that is sent home for students to read,

- increasing the amount of literacy materials for teachers to use during differentiated instruction,
- increasing teachers' knowledge of literacy strategies through professional development, and
- increasing the access for EL students to beneficial technology programs to help them become proficient in English.

b. Scientific, Evidence-Based Literacy Plan (10 points)

Implementation Plan for Goals and Objectives Identified

The books, interactive centers, and electronic readers would be purchased the first year and are sustainable materials to be used for many years following. The professional learning/ artist in residence programs are over a three year period. The Reading Cohort would be offered for two consecutive years. Standardized test data as well as DIBELS would be reviewed to check progress toward our goals.

Faculty and Staff to Implement Plan

All teachers and administrators will have an active role in implementing our school's literacy plan. Teachers must take responsibility for putting their full effort into learning the new strategies and applying them to their classroom practice. Administrators need to support teachers through this process and monitor the effectiveness of the plan as it is implemented.

Current Instructional Schedule

The master scheduled was built to include long instructional blocks for all grade levels for all subjects. Currently, all students receive more than two hours of Reading/ Language Arts instruction. . In addition, literacy skills are taught across the curriculum in all content areas throughout the school day. See Appendix M for the current instructional schedule.

Plan for Tiered Literacy Instruction

Teachers plan standards-based, differentiated instruction to meet the needs of all students. Our reduced class size model with a focus on small group instruction is in place for all grade levels as a Tier 2 intervention. Our informal collaboration teams meet monthly to review data for students who are struggling and plan interventions for the areas of struggle. If after the informal collaboration period, a student is still not making gains, they will be referred to the formal SST process for further intervention. The Informal Collaboration and formal SST process help teachers provide Tier 3 intervention strategies. Students who are designated as Exceptional Education or EL are provided more specific Tier 4 interventions.

Existing Resources (Time, Personnel, and Strategies) for Tier I-Tier IV Instruction

Currently, our school has 6.5 EIP teachers and 1.5 Title I funded teachers. This allows all grade levels to have some classes which serve EIP students (students who are struggling) in a reduced class size model for the entire instructional day. This allows small group, differentiated instruction for all instructional blocks, rather than the traditional 45 minute pull-out model used in many schools. This allows targeted instruction to be delivered for students in the various tiers. ESOL students receive at least one segment of ESOL from our 1.5 ESOL teachers to supplement their regular literacy instruction. In addition, students in 3-5th grades have the opportunity to attend extended learning or extended day classes to meet the needs of struggling learners. Students with Disabilities receive additional services per their IEPs from our 4 exceptional education teachers, our speech therapist, or our other itinerant specialists (OT, vision, PT).

The initiatives we would implement through this literacy plan do not conflict with other initiatives we have in place. In fact, it will complement our other initiatives well and strengthen our current plan.

c. Strategies and Materials to Support Literacy Plan (5 points)

Current Resources / Activities

Current resources available in all classrooms include:

- Activboards and LCD projectors (purchased with Title I money)
- Literature – many of the current books are older and in less than excellent condition
- Writing to Win materials
- Textbooks
- Classroom computers for student use
- VCR/DVD players

Current resources which are shared include:

- Sets of novels or easy readers to be used in small group guided reading
- Flipcharts created for use on the activboards
- Science closet for science materials

Library Resources:

- Fiction and non-fiction books
- DVDs and CDs
- Magazines/periodicals
- Computers for student use

Our literacy plan addresses need-based strategies for all students and targeted subgroups of students, on a timely basis. Some strategies that we have already implemented include:

- Phonics –we use two supplemental phonics programs as part of our literacy initiative where students learn to recognize, read, and write letter sounds, blend the sounds together

(synthesize), and break them apart (segment). In kindergarten, we use a multi-modal approach to learning the building blocks of reading and writing.

- Junior Great Books – a program developed by the Great Books Foundation, that uses the shared inquiry discussion method, a way for students to achieve a more thorough understanding of a text by discussing questions, responses, and insights with fellow readers. A few teachers have been trained and have the resources for this program,
- Extended Learning and Extended Day – an after-school program for 3rd - 5th graders who are at risk of not passing state standards. Certified teachers provide targeted instruction in both reading and math two afternoons a week.
- Structuring schedules to provide all teachers (special education, ESOL and classroom) time to meet and discuss student progress and plan quality lessons.
- Collaborating in vertical teams to develop intervention strategies for Tier 2 and 3 students.
- Using of a variety of instructional technology to engage students.
- Conducting regular 3 minute walkthroughs each week to assess literacy instruction in classrooms.
- Utilizing consistent school-wide writing strategies to develop writing skills in narrative, persuasive, response to literature, and informational genres and providing teachers with professional learning to implement this effectively.

Proposed Resources

We propose to invest significant resources in teacher professional development. For kindergarten and first grade teachers, we will implement the Georgia Wolf Trap program. In this program, classroom teachers work with professional teaching artists to learn drama strategies that promote learning in literacy skills including speaking, listening, reading and writing. The

program builds drama skills in oral and non-verbal expression, creative and critical thinking, as well as ensemble work and self-regulation. For 2nd through 5th grade teachers, we will implement Reader's Theater and Junior Great Books strategies to increase vocabulary, fluency, and student interest. Reader's Theater uses drama skills to engage students in higher level texts using vocal expression and higher level vocabulary. It boosts speaking and listening skills, which are prevalent in the new Common Core Standards. In a study by Roser and Martinez, evidence has shown that second graders who did Reader's Theater on a regular basis made, on average, more than a year's growth in reading. In addition, Tim Rasinski, a professor at Kent State University, points out that "research has demonstrated that practiced reading or repeated reading does lead to significant gains in fluency, which is a key element in effective reading programs." In addition, we want to create a text rich environment in our classrooms by investing in classroom book sets across content areas. Further, we want to leverage technology and invest in e-Readers, interactive literacy centers, literacy software, and assistive technology accommodations (text reader, graphic organizer, talking word processor, and word prediction).

d. Project Procedures and Supports (5 points)

Sample Schedule by Grade for Tiered Instruction

Tier	Amount of Time -Literacy	Delivered By
Tier I	2 hours	Content Teacher
Tier II	45 minutes – small group, differentiated	Content Teacher, Teaching Assistant
Tier III	45 minutes	Content Teacher, EIP Teacher
Tier IV	Dependent on individualized plan	Exceptional Education Teachers, EL Teachers

Tier I – General Instruction: All grade levels (K-5) receive a minimum of two hours of uninterrupted Reading and English/ Language Arts instruction. Literacy instruction is encouraged to be integrated into the other content areas whenever possible.

Tier II – Needs Based Learning: Our instructional model allows all EIP students to receive reduced class size instruction for their entire instructional day (Reading, Language Arts, Math, Science, and Social Studies). This allows ample time for differentiated strategies to be implemented to meet the needs of these struggling students. Kindergarten students get an additional 45 minutes of EIP twice a week. Grades 3-5 students have four hours a week of after school instruction to help meet their needs.

Tier III – SST Driven Learning: Strategies designated during the SST process are implemented in the reduced size classroom. Teachers have an established protocol for providing interventions in small groups. This is extended for students in the SST process as the specific strategies are added to the regular instruction. Data to show the effectiveness of these strategies is collected consistently and reviewed by the SST team monthly.

Tier IV – Specifically Designed Learning: The learning accommodations and strategies are specifically spelled out in a student’s IEP or ESOL learning plan. These accommodations and strategies are monitored by the exceptional education and EL teachers.

e. Professional Learning Strategies Identified on the Basis of Documented Needs (5 points)

Professional Learning Conducted within Past Year

Professional Learning Topic	PL Hours	% of Staff Attending
Writing to Win	30	100%
Promethean	20	80%
Data Analysis	10	100%
Standards Based Classroom	10	100%
Differentiation	10	100%
K-2 Math	8	30%
3-5 Math Errors	8	30%

Professional Learning Topic	PL Hours	% of Staff Attending
Step2 Achieve	10	100%
Social Studies Integration	10	25%
Learning Styles	10	35%
Assessment and Evaluation	10	100%
Grading and Evaluation Practices, Thomas Guskey	6	100%
Achievement Series	5	50%

All of our teachers participate in a variety of professional learning opportunities throughout the year. Some training is required for all staff, such as the Module 4 Differentiation course, and others the teachers choose, based on their own areas of need. This allows the professional learning plan to be differentiated for the teachers. Our school has focused on four main areas for the past few years: math, integration of reading and social studies, and teaching strategies (standards-based classroom). This year, we are adding professional learning community protocols to our areas of focus. Our teachers need ongoing professional learning on rigorous literacy instruction, differentiation, student engagement, and technology integration. Professional learning will be needed to meet the increased rigor of the Common Core Standards. Our teachers learn best when the professional learning teaches specific skills/ strategies they can implement immediately, includes modeling of the strategies, and incorporates coaching of the new strategies as teachers begin to implement. The model used by the Writing to Win consultant has been the most effective and we would like to replicate that in future professional learning sessions. In addition to consultants, we believe in building a professional learning community by allowing our teachers to share their strengths with one another through common planning time and formal professional learning, led by teachers. Professional learning needs to be relevant and job-embedded. The same philosophy we employ in teaching (differentiated and highly engaging)

should be used implemented in professional learning. Both the Reader's Theater and the Wolf Trap programs include a coaching component in which teachers are supported as they learn these new teaching strategies. With grant funding, we plan to offer teachers a Reading Endorsement Cohort on our campus. Previously, our teachers were expected to travel long distances to earn a Reading Endorsement. By offering it at the school, more teachers will participate.

f. Assessment / Data Analysis Plan (5 points)

The table below summarizes our current assessment protocol.

Assessment	Purpose	Skills	Frequency
Checkpoints	Benchmark Assessments to inform instruction	The Georgia Performance Standards	August, December, January
Common Formative Assessments (Quick Checks)	Progress monitoring	Standards Stressed in Unit of Study	Daily, Weekly, or As Needed
Common Summative Assessments	Progress monitoring	Standards Stressed in Unit of Study	At the Closure of a Unit of Study
CRCT Checkpoints Diagnostic Test	Indicate Areas of Strength and Weaknesses Relative to a Grade Level's Standards	Reading, Vocabulary, Literary Comprehension, Media Literacy, Grammar and Sentence Construction, Research and Writing	March
DIBELS	Progress Monitoring – kindergarten	Phonemic awareness	Three times a year
End of Unit Assessments	Progress monitoring with a Summative Assessment	Assessment of a Writing Genre	At the end of a Nine Weeks Period
GKIDS (kindergarten)	Progress Monitoring	Critical Early Literacy Standards	Three Times a Year

Assessment	Purpose	Skills	Frequency
Informal Assessments	Frequent Checks for Understanding Along the Learning of Learning	Georgia Performance Standards	Daily, Weekly
ITBS	Comparison to Other Students on Nationally Normed Assessment	Vocabulary, Comprehension, Spelling, Capitalization, Punctuation, Usage and Expression	October
Mock Writing Test	Progress Monitoring-grade 5	Ideas, Organization, Style, and Conventions	March
Periodic Fluency Assessments	Progress monitoring of grades K - 8	Decoding and assessing accuracy, rate, and prosody	Three Times a Year
State Writing assessments (grades 3 and 5)	Progress Monitoring of writing for grades K – 3 and 4 - 5	Ideas, Organization, Style, and Conventions	March

Teachers are involved in making decisions regarding the use of academic assessments to improve instructional programs. Grade level teams meet to discuss the use of academic assessments. Grade level chairs meet with the leadership team to share information. A grade level pacing calendar is created yearly. Achievement Series is used to evaluate student success and plan future instruction. Teacher input is valued in making all decision regarding assessment of the academic program at E.C. West. Teachers work collaboratively to create common assessments and quick checks and to analyze the data from these assessments. Teachers on each grade level decide which standards to measure with the various assessments and how often the assessment needs to be given for each unit of instruction. Common assessments and quick checks are given regularly to check progress towards mastery of performance standards. Teachers analyze the results of these formative assessments and change plans, groups and

strategies based on the results. Common assessment results are reported at a school level on a spreadsheet and reviewed. Student Support Teams are in place for students who are not making progress toward mastery. Our school commits to using the DIBELS Next assessment as part of the Striving Reader project across all grade levels as appropriate. Our administrators and teachers will participate in the Georgia Department of Education's professional learning sessions to learn how to administer DIBELS Next assessments.

How Assessment Data is Shared with Parents

We receive two copies of student test results. We give one copy to parents in student packets or during parent-teacher conferences. The interpretation of the test results is provided to parents during conferences and upon request. Parent-teacher conferences are initiated by teachers twice a year for all students and more often for students who are struggling to meet standards, academically or behaviorally. Parents are able to request a parent-teacher conference at any time during the school year. School assessment data is shared on our website and at an annual State of the School address. In addition, current CRCT data is displayed in our lobby.

IV. Experience of the Applicant (10 points)

A. LEA Initiatives

Fulton County Schools has a strong track record of effectively implementing large, competitive grants at the federal, state, and private foundation level. Examples are included in the table below.

Competitive Grant Title	Funded Amount	Audit Findings
Smaller Learning Communities grant	\$5.2M	No audit findings
Readiness & Emergency Management for Schools grant	\$608,355	No audit findings
Teaching American History grant	\$989,801	No audit findings
Carol M. White Physical Education grant	\$1.5M	No audit findings
Mathematics and Science Partnership grant	\$440,356	No audit findings

Competitive Grant Title	Funded Amount	Audit Findings
Strategic Data Project grant	\$500,000	No audit findings

At the federal level, in 2008, Fulton County Schools received a \$5.2 million Smaller Learning Communities grant from the U.S. Department of Education to develop career-focused academies in four high-need high schools, including the targeted Creekside High School. The initiative has been successful; participating schools have seen increased student proficiency on the state tests, increased graduation rates, and increased enrollment in postsecondary education the year following graduation. Other competitive, federal grant awards include a \$608,355 Readiness and Emergency Management for Schools grant in 2009, a \$1 million Teaching American History grant in 2008, and a \$1.5 million Carol M. White Physical Education Program grant in 2004. At the state level, FCS has received multiple Mathematics and Science Partnership Program grants from the Georgia Department of Education – the current grant valued at \$440,356. Further, Fulton County Schools received a Strategic Data Project grant valued at approximately \$500,000 from the Center for Education Policy Research at Harvard University. The Strategic Data Project, funded by the Bill & Melinda Gates Foundation, is a national education initiative to help school district and state leaders increase student achievement and attainment through data-informed decision-making.

B. Initiatives Implemented Without Outside Funding Support

FCS has developed and implemented numerous education programs designed to increase student achievement using general operating funds. These programs attend to the delivery of student-focused instruction, ongoing assessment, use of data, and continuous improvement. Our benchmark assessment program, known as Checkpoints, assesses student mastery of the Georgia Performance Standards (GPS) in a pre-test/post-test format each semester. Teachers and

principals have easy access to Checkpoints data for formative instructional planning, as well as placement of students within the on-level, advanced or accelerated curriculum through an online Student Achievement Management System (SAMS). Teachers access SAMS to support instructional practices through pacing guides, units, lesson plans and instructional resources for all curricular areas and grade levels. The utilization of these formative assessments and the analysis of student-specific data have enabled teachers to implement differentiated learning strategies to improve student achievement. Since initial implementation of the GPS, tools such as Checkpoints and SAMS have helped the district demonstrate steady gains in the percentage of students meeting and exceeding state standards in all grades and subjects.

C. Capacity to Coordinate Resources

As demonstrated through our history with successful implementation of multiple federal, state and private grants and internal initiatives, FCS staff and faculty have the capacity and expertise to successfully implement large, complex initiatives. FCS will implement the proposed Striving Reader project on time and within budget. The FCS management team has extensive experience working across departments and schools as well as with external partners to achieve project goals. Staff members from partnering organizations, i.e., United Way, Sheltering Arms, and the Woodruff Arts Center, all have experience implementing complex projects that are time and budget constrained.

D. Sustainability of Initiatives Implemented by the LEA

FCS is committed to the Striving Reader project and values the need to provide high-quality literacy support to targeted schools. Dr. Robert Avossa, the superintendent, has made this initiative a district priority. Establishing the grant committee and conducting needs assessments have provided a solid foundation for FCS' Striving Reader grant and have allowed district and

school leaders to plan with the end in mind. That is, the district and targeted schools have established long-term goals and incorporated sustainability considerations into their literacy plans. FCS will sustain programming beyond the grant period by securing funding from a variety of sources. FCS general operating funds will be used to support literacy investments. Title II, Part A funds will help support professional development in literacy. Grant funding from local and national philanthropic organizations will be pursued to sustain the literacy interventions over time. Prospective funders who have a philanthropic focus on supporting literacy initiatives include: Laura Bush 21st Century Librarian Program, National Endowment for the Humanities, The Libri Foundation, The Braitmayer Foundation, The Malone Family Foundation, etc. The local business community also will be solicited for corporate contributions to support literacy interventions, e.g., Dollar General, Verizon, AT&T, Target, Wal-Mart, Sylvan Dell Publishing, Houghton Mifflin Harcourt, Barnes and Noble, ING, Sun Trust, etc.

V. Resources (10 points)

A. Coordination with Existing Programs and Family Literacy Services

The district has the capacity to implement with fidelity a large, complex grant like the Striving Reader Comprehensive Literacy Project and align resources to complement existing funding streams. FCS is not included in the state's Race to the Top grant, nor does it receive any School Improvement Grant funding. Thus, FCS is currently not implementing any district-wide, federally-funded reform initiatives that might absorb limited capacity within schools. The targeted schools are willing and excited about implementing a Striving Reader grant. The table below summarizes select state and federal funding received by the district and allocated to the targeted schools and centers.

Resources Available	Title I Funds	Title II Funds	Bright From the Start Funds
<i>Fulton County Schools</i>	\$20,685,036	\$2,330,577	\$5,650,000
Bear Creek MS	\$287,040	n/a	n/a
Bethune ES	\$197,440	n/a	\$98,530
Campbell ES	\$248,320	n/a	\$59,806
Creekside HS	n/a	n/a	n/a
E.C. West ES	\$162,134	n/a	\$158,336
Love T. Nolan ES	\$200,640	n/a	\$109,071
McClarín HS	\$76,480	n/a	n/a
Oakley ES	\$196,160	n/a	\$59,806
Palmetto ES	\$132,160	n/a	\$109,071
Sheltering Arms (4 centers)	n/a	n/a	\$473,308

Title I is a federally funded program designed to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging state academic standards and state academic assessments. The district's Title I Office provides Title I schools with extensive technical assistance on the appropriate use of funds to comply with federal funding rules and regulations to ensure that funds supplement and not supplant existing resources. Title I funding will complement Striving Reader investments in literacy. **Title II** funding is held at the district level and supports all schools; individual schools do not receive a Title II allocation. The purpose of Title II, Part A is to increase the academic achievement of all students by helping schools and districts improve teacher and principal quality and ensuring that all teachers are highly qualified. Priorities for the district's Title II, Part A funding include: moving all non-highly qualified teachers to highly qualified status within an appropriate timeframe, assisting special education teachers with gaining the content knowledge necessary to add content concentrations to their certificates, revising procedures for selecting and retaining professionally certified and highly qualified

teachers, and supporting professional development activities aimed at building teacher and principal effectiveness. The purpose of Title II, Part D is to improve student academic achievement through the use of technology in elementary schools and secondary schools. Title II, Part D formula grants for 2010–2011 created a scaffold upon which the Striving Reader Grant can continue to build. Besides having basic literacy skills, today's students also need technology skills for communicating, investigating, accessing and using information, computing, thinking critically about messages inherent in new media, and understanding and evaluating data. Georgia Department of Early Care and Learning (**Bright from the Start**) is responsible for meeting the child care and early education needs of Georgia's children and their families. Currently, FCS' Pre-K program provides 6.5 hours of instructional time, five days per week, and 160 days per year for eligible children. The school district receives state lottery funding through Bright from the Start to pay for classroom teachers, equipment, materials, and supplies to support its Pre-K program. The portion of the Pre-K grant funds that are allocated to the school level budgets are for teacher and teacher assistant salaries, substitutes, and benefits. The district also allocates funds to school budgets for instructional materials and supplies, field trips and postage. The remaining Pre-K grant funds are kept at the district level for distribution to schools as needed and for support of students, parent involvement, teachers, and classrooms. Bright from the Start funding for the Sheltering Arms early learning centers covers teacher and assistant salaries and benefits, instructional materials and supplies, and other non-instructional costs.

Federal funding from Title I and II as well as state funding from Bright from the Start will complement investments made with Striving Reader funds to ensure alignment with student needs. FCS will incorporate Striving Reader plans and funds into its annual planning and review process in order to ensure funds are used to supplement, not supplant, Federal, state or local

funds and to ensure alignment of resources. As schools submit their School Improvement Plans coupled with their Title I and Title II Plans to their Area Superintendents and to the Assistant Superintendent for Curriculum and Support for review, close attention will be paid to the alignment of identified student needs, instructional strategies to address the needs, timelines for implementation and monitoring, and budgets, to ensure that all resources are focused and converge to support student achievement in the area of literacy and will not be used to supplant public funds. Area Superintendents provide feedback to schools on drafts and must sign-off on the final versions of the school plans.

VI. Management Plan and Key Personnel (10 points)

Administrators, faculty members and program staff from FCS, United Way, Sheltering Arms and Woodruff Arts Center have the capacity and expertise to successfully implement our Striving Reader grant. Qualifications for key personnel are laid out below.

A. Management Plan and Key Personnel Responsible for Grant Implementation

The FCS management team has extensive experience working across departments and with external partners to achieve project goals and thus will implement the proposed project on time and within budget. Faculty from partnering institutions all have experience implementing complex projects that are time and budget constrained. The following individuals are qualified for their role and committed to improving literacy in targeted schools and early learning centers. The full time equivalent (FTE) for Fulton County Schools' staff to implement the grant is included in parentheses.

Dr. Robert Avossa – FCS Superintendent (0.025 FTE) – will be ultimately responsible for grant implementation. Dr. Avossa will keep the Fulton County Board of Education briefed on grant

progress and results and will allocate the necessary resources to ensure fidelity of implementation. Dr. Avossa received his Ph.D. from Wingate University.

Dr. Linda Anderson – FCS Deputy Superintendent Instruction (0.05 FTE) will chair the Striving Reader Governing Board and provide strategic oversight for grant implementation. Dr. Anderson reports directly to the Superintendent; she received her Ph.D. in Educational Leadership from Mercer University.

Amy Krause – FCS Assistant Superintendent Curriculum and Support (0.10 FTE) will be accountable for the Striving Reader grant and will supervise the Striving Reader Project Director to integrate proposed strategies and supports with other system processes to ensure alignment. Ms. Krause has served as the district's liaison on several literacy initiatives including Reading Recovery with Georgia State University and Reading First with the Georgia Department of Education. As a former reading specialist in the state of Alabama, Ms. Krause understands the components of a balanced literacy approach. Ms. Krause holds a Specialist degree in Educational Leadership and a Master of Arts in Education with a concentration in Early Childhood and also Administration and Instructional Supervision.

Dr. Vic Shandor – Instructional Area Superintendent (0.1 FTE) is the Instructional Area Superintendent for the Creekside cluster of schools—the main feeder pattern in this grant. He will serve on the Striving Reader Governing Board and will ensure vertical alignment of curriculum and professional learning across Striving Reader schools. In his capacity as a member of the FCS Executive Leadership team, Dr. Shandor will communicate best practices to schools across the district to support sustainability of Striving Reader strategies. Dr. Shandor holds a Master's degree in Special Education and an Ed.D. in Educational Leadership.

Larry Wallace – FCS Striving Reader Project Director (1.0 FTE) will coordinate the Striving Reader project and manage the grant budget. Mr. Wallace will serve as a bridge among the schools and the functional areas involved. Externally, he will liaise with project partners on an operational level and will work collectively with partners to ensure their services are integrated into the project design. Mr. Wallace has most recently served as Project Director for the district's \$5.2 million Smaller Learning Communities grant. He has extensive experience managing complex projects, involving multiple partners, with significant reporting requirements. Mr. Wallace holds a Master of Arts in Education with a concentration in Instructional Technology and a Specialist in Education with a concentration in Educational Leadership.

Katrina Mitchell – UWMA Senior Director, Education will serve on the Striving Reader Governing Board. Ms. Mitchell is responsible for coordinating all professional learning for Sheltering Arms faculty and FCS Pre-K teachers in targeted elementary schools.

Amy Hobart – Sheltering Arms Director of Early Care and Education will sit on the Governing Board and act as liaison for the Sheltering Arms Striving Readers component. Ms. Hobart designs and delivers training to enhance the effectiveness of the Sheltering Arms teaching and family support staff based on national competency goals and indicators in early education, and provides program-level consultation and training to build the capacity of the center management teams in developmentally appropriate practice.

Carol Jones – Woodruff Arts Center, Alliance Theatre - Director of Institute for Educators and Teaching Artists will serve on the Striving Reader Governing Board and is responsible for coordinating all professional learning for teachers participating in the Alliance Theatre's literacy-based programs Pre-K – 2 Georgia Wolf Trap Early Learning Through the Arts, Reader's Theatre, and Collision Plus.

B. Commitment to Implementation Plan

The individuals named in the table below support the district’s Striving Reader grant proposals and are committed to implementing grant strategies and activities with fidelity. The Instructional Area Superintendents are champions of the Striving Reader grant because it provides more focused attention to targeted schools’ literacy needs.

Site/Department	Individual Responsible	Supervisor
<i>Site-Level Coordinators - Fulton County Schools</i>		
Bear Creek MS	Darron Franklin – Principal	Vic Shandor – Instructional Area Superintendent
Bethune ES	Zina Rhodes – Principal	Iris Moran – Instructional Area Superintendent
Campbell ES	Denine Cadet - Principal	Vic Shandor – Instructional Area Superintendent
Creekside HS	Earnest Killum – Principal	Vic Shandor – Instructional Area Superintendent
Evoline C. West ES	Catherine Smith – Principal	Vic Shandor – Instructional Area Superintendent
Love T. Nolan ES	Chandra Lemons – Principal	Iris Moran – Instructional Area Superintendent
McClarín HS	Anita Lee – Principal	Susan Dorenkamp – Instructional Area Superintendent
Oakley ES	Vonnie Thompson - Principal	Vic Shandor – Instructional Area Superintendent
Palmetto ES	Carlene Millen - Principal	Vic Shandor – Instructional Area Superintendent
<i>Site-Level Coordinators - Sheltering Arms</i>		
East Point Center	Kathy Bolling – Acting Director	Bernice Paschal – Program Coordinator
Oakley Township Center	Ron McNair – Center Director	Bernice Paschal – Program Coordinator
Stonewall Tell Center	Rosalyn Williams – Center Director	Lee Shaw – Program Coordinator
Welcome All Center	Linda Rhea – Center Director	Bernice Paschal – Program Coordinator
Professional Learning Coordinator	Lisa McDermott - Facilitator	Karen Cox – Executive Director, Professional Learning
Instructional Technology Coordinator	Mindy Ramon - IT Training Support Coordinator	Kathy Politis – Director, Instructional Technology
Literacy Assessment	Mary Rulo – Support	Sherrie Moss – Director, ELA

Site/Department	Individual Responsible	Supervisor
Coordinator	Specialist, ELA	
Purchasing	Professional Assistant	Larry Wallace – Striving Reader Project Director

VII. Sustainability Plan (10 points)

Fulton County Schools’ Striving Reader grant can serve as a blueprint that can be scaled and replicated to build principal, early learning site director and teacher capacity to improve literacy achievement for all of our students from birth through 12th grade. Our targeted schools and Sheltering Arms’ early learning centers will become demonstration sites for how to systemically align multiple funding sources to improve literacy across all content areas. The district will create the Striving Reader Governing Board comprised of key personnel from the central office, targeted schools, United Way, Sheltering Arms, and the Woodruff Arts Center. The governing board, chaired by Dr. Anderson, will meet biannually to review program data, assess results, monitor progress toward goals and sustain program outcomes over time. Board members will serve as ambassadors to share best practices at local and state literacy forums. Through the district’s experience with other large-scale initiatives, it has developed a healthy appetite for data analysis and program improvement. For example, annual evaluations of the Smaller Learning Communities grant have pushed participating schools to reconsider certain approaches and develop new strategies to not only meet grant objectives, but to ensure grant activities become embedded in schools’ strategic plans beyond the life of the grant. These lessons learned will be carried over to the implementation of the Striving Reader grant.

A. Expanding the Lessons Learned with other Schools and New Teachers

A goal of the Striving Reader grant is to identify best practices at participating schools and share those strategies with schools throughout the district to ensure sustainability. At the district level, the communication of best practices will be the responsibility of the Instructional Area

Superintendent (Dr. Vic Shandor) and the Project Director. Participating schools will share lessons learned at the district's annual Best Practices Conference for teachers, instructional staff and school leaders. In addition, participating schools will be expected to share their experiences with all schools and divisions within the district through technical assistance workshops, school site visits, and administrative staff meetings. For example, teachers of English learners in Striving Reader schools can demonstrate through lesson plans how they scaffold instruction by using best practices for EL when developing oral language, reading skills, and writing.

B. Extending the Assessment Protocol Beyond the Grant Period

Beyond the life of the grant, the Dynamic Indicator of Basic Early Literacy Skills (DIBELS Next) and Scholastic Reading Inventory (SRI) can be used to provide essential data for all students. Not only does DIBELS Next provide a fluency measure, it also assesses early phonemic awareness and first sound fluency of an individual student. The SRI provides benchmark assessments for the identification of students' reading skills; SRI guides teachers to differentiate and offer intervention strategies for struggling students. Students receive a Lexile score based on the comprehension of a text which has an equivalent reading level. Once a student masters one level, the program gives another reading passage at a higher level. Media centers categorize books by their Lexile levels; therefore, SRI helps match the reader to the appropriate text for 75% reading accuracy rate. An accuracy rate ensures that appropriate challenge is built in, but the level of frustration for the student will be low. The grant-sponsored professional development for DIBELS Next and SRI will ensure that all staff in targeted schools will be trained in the use of these assessments.

C. Extending the Professional Learning Practices beyond the Grant Period to New Staff

UWMA will provide Sheltering Arms early learning teachers and FCS Pre-K teachers with the skills and knowledge to enhance the early language, literacy, and pre-reading development of young children, particularly those from low income families, through strategies and professional development that are grounded in scientifically-based reading research and family literacy. The professional development plan systematically addresses early literacy skills essential to future reading success by providing seminars, field trips to model classrooms, study groups, in-classroom coaching, summer institute and local and national conferences. The success of UWMA's programs can be measured by the quality of the classroom environment, child outcomes that assess the main skills predictive of reading success, the use of valid assessment instruments, and the professional learning opportunities provided to teachers. Aspects of the Striving Reader professional learning practices delivered by United Way that will be continued beyond the grant period include: enhancing classroom learning environments, providing teachers with new ways to help children improve their language, providing coaching and early literacy training for teachers to help them fully integrate literacy throughout their classrooms, engaging families in their child's early reading experiences to reinforce these skills at home.

As Striving Reader schools bring on new staff in future years, literacy training will be provided as part of new teacher development. Curriculum contacts (High School Department Chairs, Middle School Coordinators, and Elementary Curriculum Support Teachers) will provide opportunities for new teachers to learn grant-funded strategies, such as those learned through the partnership with the Woodruff Arts Center, and use resources during the first two years of induction as a part of each school's new teacher support program. These programs support the

new teacher's transition into the school. An assigned mentor teacher will work with new staff as they begin to plan and implement instructional strategies that support the school's literacy plan.

D. Sustaining Technology beyond the Grant Period

On November 8, 2011 Fulton County voters extended a one-penny sales tax to upgrade technology in classrooms and build new schools. The SPLOST (Special Purpose Local Option Sales Tax) education tax is expected to raise \$912 million for Fulton County school improvements over its five-year lifetime. The SPLOST proposal calls for technology enhancements, particularly in the areas of wireless, mobile learning devices for student use, updated video and audio recording tools, improved and expanded distance learning for students, virtual space for digital student work, interactive classroom websites with curriculum resources and assignments, updated equipment for technology and career-oriented classes, teacher/student communication and collaboration tools, and online professional learning resources for staff. The district's technology plan will help sustain the Striving Reader investments made in educational technology.

VIII. Evaluation – Assurance of Compliance with GADOE Requirements

Fulton County Schools will adhere to all OMB, EDGAR, GPRA, GADOE Performance Measures, and grant evaluation requirements. The district will prepare, according to GADOE requirements, an annual evaluation report by June 30th each year to document progress towards achieving grant goals.

IX. Appendices

- A. Comprehensive Literacy Needs Assessment
- B. Literacy Plan
- C. Letter of Support – United Way of Metropolitan Atlanta
- D. Letter of Support – Sheltering Arms
- E. Letter of Support – Woodruff Arts Center
- F. School Level Data for all Schools in FCS
- G. ITBS 2010 Results
- H. Reading / English Language Arts AMO Results
- I. Map of Targeted Early Learning Centers and Schools
- J. Striving Reader Comprehensive Literacy Grant Specific Program Assurance:
- K. Literacy Team Meeting Minutes – E.C.West
- L. Literacy Needs Assessment Student Survey – E.C.West
- M. Current Instructional Schedule – E.C.West

A. Comprehensive Literacy Needs Assessment

The district does not have a single needs assessment document that reflects all of the data collection and analysis that was performed for this grant. The core grant committee from the central office plus the faculty and administrators in the targeted schools and centers reviewed a variety of data sources as part of the needs assessment process including:

- Criterion-Referenced Competency Tests (CRCT) performance data for elementary and middle school students
- End of Course Tests (EOCT) performance data for high school students
- 3rd, 5th, and 8th grade Writing Assessments
- Graduation data for high school students
- Iowa Tests of Basic Skills (ITBS) for 3rd, 5th, and 8th graders
- Checkpoints formative assessment data
- Title I Plans
- School Improvement Plans
- Intensive School Plans
- Socio-economic data
- AYP data
- Mobility data
- Attendance data
- Discipline data
- Pre-K waiting lists
- Preschool Special Education (PSE) classroom data
- Georgia Pre-K work sampling data

B. Literacy Plan

Fulton County Schools does not have a documented literacy plan that can be attached to this grant. The literacy leadership through the English/Language Arts Department references research to determine best practice in literacy instruction. The foundational documents are the reports from the Carnegie Corporation: *Time to Act: An Agenda for Advancing Adolescent Literacy for College and Career Readiness, 2010*; *Writing Next: Effective Strategies to Improve Writing of Adolescents in Middle and High School Literacy, 2006*; *Reading Next: A Vision for Action and Research in Middle and High School Literacy, 2004*. For the primary grades, the work of Donald Graves, Lucy Calkins, Richard Allington, Ralph Fletcher, Fountas and Pinnell, and others, form the framework for literary instruction.

A balanced literacy approach through Writer's and Reader's Workshops (Shared Reading and Interactive Read Aloud, Mini Lesson, Teacher Modeling, Student Writing and Teacher Conferencing, and Sharing) has been the instructional focus of the English/Language Arts Department. Because the systemic approach to literacy was fragmented with varieties of writing and reading programs, we have adopted the workshop approach for K-12 Language Arts classes.

The CRCT is designed to measure how well students acquire the skills and knowledge described in the Georgia Performance Standards. The reading class is additional to the Language Arts class that every student takes. The middle school reading course is skills driven. The students perform poorly on comprehension, vocabulary, and fluency elements in reading. While certification satisfies minimum requirements to teach the course, the students often continue to receive instruction in traditional pedagogy that did not work the first several times. The younger students come to school with limited schema of reading readiness, such as reading left to right

and top to bottom, and their connections may never reach text to self or text to text connections. These poor readers need connections to reading other than verbal/linguistics; they need music and art and kinesthetic intelligence activation, not to mention the technology connections. Classes are encouraged to create Reader's Theater presentations so that students are often on their feet and addressing the listening/speaking/viewing standards.

To complement the work in the anthologies, students read novels assigned to each grade level. Unfortunately, very little choice is afforded the non-reader. Teachers are advised to teach one novel per semester: the first semester novel study is teacher directed; the second semester novel study is student driven through literature circles or other cooperative forms. The intent is to gradually release the responsibility of instruction from the teacher to the student.

C. Letter of Support – United Way of Metropolitan Atlanta

United Way of Metropolitan Atlanta

100 Edgewood Avenue, N.E.
Atlanta, Georgia 30303
404-527-7200

December 6, 2011

Dr. Robert Avossa
Superintendent
Fulton County Public Schools
786 Cleveland Avenue SW.
Atlanta, GA 30315

Dear Superintendent Dr. Robert Avossa:

I am writing to you as Vice President of Education at United Way of Metropolitan Atlanta to express our support for Fulton County's application for the Striving Readers Comprehensive Literacy Project. For more than 10 years, United Way of Metropolitan Atlanta has supported the early childhood community through Smart Start and invested in initiatives like Early Reading First, a USDOE grant program that sustain our education goals to see that children enter school ready to learn, avoid risky behaviors and graduate prepared for careers.

United Way has long been a leader in early care and education services to parents and children from birth to age five. Smart Start has successfully led the state's efforts to improve and enhance the well-being of Georgia's children and has collaboratively engaged other state agencies, parents, child care providers, local school systems, early childhood professional organizations, children's advocacy groups, the business and philanthropic community, higher education and other stakeholders to serve Georgia's children effectively and efficiently.

United Way has worked collaboratively with local, state and regional organizations in advancing programs, refining innovative ideas into best practice models and incorporating lessons learned from large scale grant-making. Relevant examples are in our early learning community-based partnership initiative and the coordination of the coalition of early childhood advocates and professionals who have implemented four U.S. Department of Education-funded Early Reading First grants.

United Way also has a reputation for thoughtfully and strategically convening stakeholders at state-wide and regional levels. One example is our convocation the Early Education Commission that researched best practices in early learning and the consequent impact on Georgia's economic development. Having identified best practices that result in solution-driven strategies that can be sustained over time, the Commission recommended the creation of the Georgia Early Education Alliance for Ready Students (GEEARS) to ensure that advocacy for early education work continues.

Over the past five years, United Way has invested more than 36 million dollars in local, state and federal funding in support of young children and their families. Included are:

- Grants to early childhood providers to provide scholarships to families to cover child care costs

United Way of Metropolitan Atlanta

100 Edgewood Avenue, N.E.
Atlanta, Georgia 30303
404.527.7200

- Technical assistance to child care centers and training of child care providers to secure and maintain national accreditation
- Intensive professional development of early childhood professionals focused on evidence-based practices so that children to have the necessary skills to enter kindergarten ready to learn
- Support services and resources for families that promote parent leadership, understanding of developmental milestones and prevention of child abuse and neglect
- High quality home visiting that matches interested parents with professionals who provide information and support during a child's first three years
- Partnerships that provide linkages to the K - 12 system and the early childhood community
- Opportunities for young children and their families to have quality educational and social experiences that support a successful transition to kindergarten
- Engaging the civic, business and social service community in supporting strategies and initiatives that improve outcomes for early education in Atlanta and throughout Georgia

United Way of Metropolitan Atlanta pledge our support by providing high quality professional learning opportunities based on scientifically based reading research for administrators, teachers, center directors, and family childcare providers. We appreciate this opportunity to partner with Fulton County Public Schools and we enthusiastically endorse the application for the Striving Readers Comprehensive Literacy Project.

Sincerely,

A handwritten signature in black ink that reads "Navella Jean Walker, Ph.D." The signature is written in a cursive style.

December 8, 2011

Dr. Robert Avossa
 Superintendent – Fulton County Schools
 786 Cleveland Ave., SW
 Atlanta, Georgia 30315

Dear Dr. Avossa:

It is an honor to provide this letter of support for Fulton County Schools' application for a Striving Readers grant. We are very pleased to be included as a partner in the application.

Sheltering Arms was established in 1888, and since 1990 the number of Sheltering Arms centers has almost doubled from 9 to 16, with an increase in daily capacity from 744 to more than 2,300 children, and services have been added to better address the needs of the family and the community. As a result, the budget has grown from \$3.5 million in 1991 to more than \$26 million today. The agency's programs include Early Head Start for infants and toddlers, Head Start for three and four year olds, the Georgia Pre-kindergarten Program for four year olds, and early childhood education with fees based on family size and income. Sheltering Arms programs are accredited by the National Association for the Education of Young Children (NAEYC), and have been recognized as a Head Start Program of Excellence, Head Start's highest level of recognition for high quality.

In 2004, Sheltering Arms conducted a \$15 million capital campaign to build four state-of-the-art Early Education and Family Center facilities in south Fulton County. Fulton County Schools was an important partner in this undertaking, providing land adjacent to elementary schools for three of the new facilities. This partnership has endured, and by partnering with Fulton County Schools we are able to provide an innovative model that 1) improves teacher retention and recruitment by providing affordable, convenient early childhood education, 2) improves school readiness in an area that has struggled with performance standards, and 3) develops improved school readiness strategies by tracking the performance of Sheltering Arms alumni in Fulton County elementary schools.

We appreciate this opportunity, and pledge to assist in every way possible to produce a nationally acclaimed Striving Readers initiative.

Sincerely,

Elaine P. Draeger
 President/CEO

The power of education begins here.™

E. Letter of Support – Woodruff Arts Center

December 13, 2011

Dr. Robert Avossa
Superintendent, Fulton County Schools
786 Cleveland Ave. SW
Atlanta, GA 30315

RE: Grant request on behalf of Fulton County Schools

Dear Dr. Avossa:

I am delighted to submit a letter in support of the application by the Fulton County Schools for continuing grant support from the Georgia Department of Education under the Striving Readers Program. The Woodruff Arts Center through its various artistic divisions is a major supporter of arts in education (arts integration) as well as a leading supporter of education in the arts. As a stated part of our mission we seek to provide excellence in both arts and education. We interact on and off our campus with children in Georgia schools over a half million times a year. In this effort we have an excellent, long standing and highly valued relationship with the Fulton County Schools.

What is truly remarkable is that our collection of visual arts (High Museum), dramatic arts (Alliance Theater), musical arts (Atlanta Symphony Orchestra) and our in school arts programming (Young Audiences) each support major educational programming aimed at literacy and language development. "I See Literacy," "Sound Learning," "GA Wolf Trap," "Arts4Learning" and "Collision Plus," are each examples of excellent arts integrated programming that address these challenges with positive results.

In addition, our education teams have worked with six Fulton County schools in some experimental research under the Wolf Trap Program that has shown measurable improvement in language development and writing skills. The partnership with the Kennedy Center currently supports programs in two Fulton County schools whereby each grade level has an opportunity to experience a featured work from our Center along with four classroom sessions focused on 21st Century skills through arts integration.

I am particularly pleased to support the application of our educational colleagues in the Fulton County School System – not only because they are long standing collaborators who share with us a commitment to address these challenges – but also because they are one of the few systems seeking to integrate arts as a key element in their proposal.

We consider ourselves lucky to have such partners in our shared effort to help increase student learning in literacy and outcomes in life through arts integration. Please know that their application has our unqualified support and endorsement. Please feel free to call with any questions you may have.

With kind regards,

Sincerely yours,

Joseph R. Bankoff
President & CEO
Woodruff Arts Center

J. Striving Reader Comprehensive Literacy Grant Specific Program Assurances

**** Please note: The Georgia Department of Education (GaDOE) considers the applicant to be the fiscal agent for the grant. Therefore, any grants awarded will be in the name of the fiscal agent.**

Fulton County Board of Education

Official Entity Name for Fiscal Agent/Sub-Grant Award Recipient

Instructions: The authorized signatory must initial the box adjacent to each assurance and must sign and date the document in blue ink to certify agreement to comply with each assurance. The fiscal agent must sign and date the document as well. These assurances will be in effect for FY12.

The Sub-grantee hereby assures that it will comply with the following:

Number	Initial Each Box Below in <u>Blue Ink</u>	Assurances
1.		The Sub-grantee assures that it has the necessary legal authority to apply for and receive a SRCL Grant.
2.		Sub-grantee certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.
7.		The SRCL projects will target students who attend Title I schools or schools eligible for Title I schoolwide programs and their families.
8.		The SRCL project will be administered in accordance with all applicable statutes, regulations, program plans, and applications.
9.		The Grantee will participate in all technical assistance/information-sharing opportunities and professional development activities provided through the STRIVING READER COMPREHENSIVE LITERACY GRANT Project Grant Program.
10.		All activities must be correlated with the development of STRIVING READER COMPREHENSIVE LITERACY GRANT goals for children birth through grade 12.
11.		The second year of funding is dependent upon successful program implementation and progress aligned with the components of the request for application submitted.

12.		Prior to any material change affecting the purpose, administration, organization, budget, or operation of the SRCL project, the Sub-grantee agrees to submit an appropriately amended application to GaDOE for approval.
13.		The Sub-grantee agrees to notify the GaDOE, in writing, of any change in the contact information provided in its application.
14.		The activities and services described in the application shall be administered by or under the supervision and control of the Sub-grantee. The Sub-grantee shall not assign or subcontract, in whole or in part, its rights or obligations without prior written consent of GaDOE. Any attempted assignment without said consent shall be void and of no effect.
15.		The Sub-grantee will use fiscal control and sound accounting procedures that will ensure proper disbursement of and account for Federal and state funds paid to the program to perform its duties.
16.		Funds shall be used only for financial obligations incurred during the grant period.
17.	N/A	The SRCL project funds will supplement, not supplant Federal, state, and other local funds that the applicant would otherwise receive.
18.		The Sub-grantee will, if applicable, have the required financial and compliance audits conducted in accordance with the Single Audit Act Amendments of 1966 and OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations.
19.		The fiscal agent will adopt and use proper methods of administering each program, including: (A) the enforcement of any obligations imposed on agencies, institutions, organizations, and other recipients responsible for carrying out each program; and (B) the timely correction of deficiencies in program operations that are identified through audits, monitoring, evaluation and/or technical assistance.
20.		The Sub-grantee will cooperate in carrying out any evaluation of each such program conducted by or for the Georgia Department of Education, the U.S. Department of Education, or other state or Federal officials.
21.		The Sub-grantee will submit reports to GaDOE as may reasonably be required. The Sub-grantee will maintain such fiscal and programmatic records and provide access to those records, as necessary, for those departments to perform their duties.
22.		The Sub-grantee will submit an annual summative evaluation report no later than June 30.
23.		The Sub-grantee agrees that GaDOE, or any of its duly authorized representatives, at any time during the term of this agreement, shall have access to, and the right to audit or examine any pertinent books, documents, papers, and records of the Sub-grantee related to the Sub-grantee's charges and performance under the SRCL sub-grant.

24.		The property (e.g., computers, equipment, classroom desks, tables, and pilferable items) purchased with the SRCL grant funds must be managed in accordance with EDGAR section 74.34 through 74.37 (for non-profit organizations) and with EDGAR section 80.32 and 80.33 (for school districts).
25.		The Sub-grantee certifies that it will abide by GaDOE's Conflict of Interest and Disclosure Policy. Applicants with a conflict of interest must submit a disclosure notice.
26.		The Sub-grantee will comply with the Family Education Rights and Privacy Act of 1974 (34 C.F.R. 99).
27.		Sub-grantee will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to Title VI of the Civil Rights Act of 1964, which prohibits discrimination on the basis of race, color, or national origin; Title IX of the Education Amendments of 1972, which prohibits discrimination on the basis of sex; Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination on the basis of handicaps; and the Age Discrimination Act of 1975, which prohibits discrimination on the basis of age, and the Americans with Disabilities Act of 1990, which prohibits discrimination on a basis of disability.
28.		In accordance with the Federal Drug-Free Workplace and Community Act Amendments of 1989 and the Drug-Free Workplace Act of 1988, the Sub-grantee understands that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance, marijuana, or dangerous drug is prohibited at geographic locations at which individuals are directly engaged in the performance of work pursuant to the 21 st CCLC grant.
29.		All technology purchases (software and hardware) will be approved by the LEA Technology Director for compatibility with current operating systems and building infrastructure. The Technology Director must ensure that any purchases for the building will be able to be implemented and sustained beyond the grant period.

My signature below certifies that I am the authorized signatory for the Fiscal Agent and official Sub-grantee, and that I have read, understand, and agree to abide by all assurances. I also understand that failure to abide by all assurances may result in loss or reduction of grant funding. **Please sign in blue ink.**

- Ms. Rich - Media
- Ms. Tankell – Kdg.
- Ms. C. Smith - Principal
- Ms. Bridges – 4th grade
- Ms. Gillen – 3rd grade
- Ms. Churchill – Gifted teacher
- Ms. Barrett – ESOL teacher
- Ms. Meeker – Curriculum Support Teacher

Minutes:

Catherine Smith informed the literacy team members about the cluster grant. She reviewed the grant guidelines and relayed other logistical information from her meeting with Barbara Beaverson. Ms. Smith shared information from the Woodruff Arts Center about partnership opportunities.

Ms. Smith asked team members to share needs and data from their grade level. The team brainstormed ideas to meet the needs of all learners in reading and language arts.

Ideas for improving literacy at E.C. West:

- Reading Renaissance
- reading lofts
- American Girl or other historical manipulatives
- iPod Touch for audio books or reviewing plays
- reading corners with furniture
- content area field trips
- Literacy games
- E-Readers
- WolfTrap
- Symphony Arts for 5th grade
- Website subscriptions (Reading a-z)
- Reader's theatre
- Extended classroom libraries

Each committee member took responsibility for one of the ideas to get more information. They are to bring the information and cost analysis to the next meeting.

Each team member was asked to take the ideas back to their grade level / area teams and discuss. They should email Ms. Smith if they have any other possibilities and be ready to condense the list when we meet again on December 1st.

Date: December 1, 2011

Literacy Team members in attendance:

Ms. Rich
Ms. Tankell
Ms. C. Smith
Ms. Bridges
Ms. Gillen
Ms. Churchill
Ms. Barrett

Minutes:

Barbara Beaverson and Kelly Hopkins met with us to pinpoint and review the grant. Suggestions for ways to improve the grant for our benefit were discussed by Barbara. Kelly took the vast majority of the notes throughout the meeting so that we would know the areas that we needed to work on. She typed notes via her laptop on our actual grant in order to make it easier for us to edit. Barbara pinpointed areas in need of content refinement and explanation.

As a team, we came up with suggestions for ways to spend the money. Suggestions that were considered were:

- Reading Renaissance
- reading lofts
- reading corners with furniture
- content area field trips
- E-Readers
- WolfTrap
- Symphony Arts for 5th grade
- Website subscriptions
- Reader's theatre
- Extended classroom libraries

Through data analysis of reading scores and teacher feedback, we decided to focus our grant on the following programs and resources.

- WolfTrap – The committee like the strong professional development component
- E-Readers – A way to interest students through modern technology
- Readers' Theatre – builds fluency and comprehension
- Extended classroom libraries – Provides a variety of literary experiences on multiple instructional levels. Addresses both literary and informational text.

It was strongly suggested that we give broad notations in the grant in order to give ourselves some room to work with when we purchase literacy items with the money. Another point that was made was that we needed to go back and give specific ranges on various literacy scores in our school that had not been mentioned in the grant thus far.

It was decided that we should formulate a survey to send home to the parents concerning technology access in the home. A survey would also need to be created for teachers and students at EC West in order to get feedback on current technology use and access in the home and classroom.

L. Literacy Needs Assessment Student Survey – E.C. West

1. Do you have access to books at home?

Grade	Total Responses	Yes	No
3 rd grade	53	45	8
4 th grade	90	78	12
5 th grade	98	78	20
TOTAL %	100%	84%	16%

2. Would you like to have more in and out of school experiences to support the books you are reading? (assemblies, field trips, visiting authors, etc.)

Grade	Total Responses	Yes	No
3 rd grade	53	53	0
4 th grade	90	83	7
5 th grade	98	92	6
TOTAL %	100%	95%	5%

3. Do you have access to computers and the Internet at home?

Grade	Total Responses	Yes	No
3 rd grade	53	49	4
4 th grade	90	69	21
5 th grade	98	79	19
TOTAL %	100%	82%	18%

4. Do you visit the public library?

Grade	Total Responses	Yes	No
3 rd grade	53	34	19
4 th grade	90	51	39
5 th grade	98	53	45
TOTAL %	100%	57%	43%

5. Would you like to have more resources to check out for reading at home?
(books, reading games, digital books on CD, etc.)

Grade	Total Responses	Yes	No
3 rd grade	53	43	10
4 th grade	90	76	14
5 th grade	98	84	14
TOTAL %	100%	84%	16%

X. Budget

A. District Budget Narrative

Assessments and Supplies

Fulton County Schools (FCS) requested funding includes costs for the purchase of required DIBELS Next assessment for all elementary schools, as well as supplies for four teachers per grade level at eight elementary schools. Additionally, funding is requested for required Scholastic Reading Inventory (SRI), as well as licenses, teacher kits, and product support plans.

Curriculum and Instructional Supplies

We request funding for instructional materials and supplies for each targeted Pre-K site with extended programming for 17 weeks, as well as for ESOL curriculum and other appropriate curricula. We also request funding for curriculum and instructional supplies to be used by one cohort of the Parent Leadership Institute for teenage parents at McClarin High School, in order to build the skills and capacity of parents to take greater leadership roles in the systems serving their children, including early learning programs and schools, and to make suggestions for revisions to the curriculum and training. Also, Bright from the Start has approved the use of several curricula in order to provide students with materials that promote oral language development, phonological awareness, and print awareness across all subject areas. Each Pre-K classroom and special needs Pre-K classroom would receive these materials.

Professional Development

We request funding for targeted teachers to have a full day of SRI Implementation training. Additionally, we request funding for targeted teachers to attend the Leadership Institute for Language and Literacy, a four-day series of workshops focused on leading language and literacy improvement through a variety of best practices. United Way Pre-K teachers will attend

two-day, five-hour professional learning opportunities based on their needs. We also request funding for professional learning opportunities for group daycare, family daycare homes, and selected childcare centers in the targeted feeder patterns that support the coordination and alignment of services from birth-5, and support the feeder patterns in these communities. The three-day, five-hour trainings for Fulton County Pre-K teachers will focus on implementing researched based instruction to foster language and literacy, support and extend Pre-K curriculum concepts, and integrate math and science concepts. Pre-K teachers will also attend professional learning for a total of five days at the Literacy Institute with the United Way to learn additional literacy strategies, as well as professional learning to develop skills in implementing the Bright from the Start curriculum. All requested professional development funding also includes benefits calculated at 27.7% for full-time employees and at 10% for teacher stipends for targeted teachers to attend content-specific professional learning.

Additionally, professional development funds will be utilized in a partnership with the Georgia Wolf Trap Literacy Program K-2, which has a professional learning focus. In GA Wolf Trap/Alliance Theatre, classroom teachers work with professional teaching artists to learn drama strategies that promote learning in literacy skills including speaking, listening, reading and writing. The program also builds drama skills in oral and non-verbal expression, creative and critical thinking, ensemble work and self-regulation. Targeted teachers will attend an on-site full-day orientation and instructional session presented by Alliance Theatre at the Woodruff Arts Center staff and Teaching artists, as well as a Summer Seminar. These costs include teacher registration fees and teacher stipends. Also, services provided include 12 classroom sessions with Teaching Artists, to include coaching, demonstration lessons and observations.

Subcontractors/Consultants

We request funding for one full-time equivalent Project Director to manage grant funds, and one Professional Assistant III. Both of these costs include benefits calculated at 27.7%.

Requested contractor funding also includes the cost of Pre-K lead teachers for an additional 21 days and Pre-K teacher assistants for an additional 16 days. The amount includes the daily rate for these teachers and 27.7% for benefits. Additionally, we request funding for Pre-K teachers to be supported by experienced literacy coaches from Bright from the Start throughout the school year.

The GA Wolf Trap Literacy Program K-2 costs include contract fees for Teaching Artists to hold five planning sessions with targeted teachers, documentation, assessment, and curriculum development for each classroom, supplies, including simple props, puppets, and story-telling objects for each classroom, and program administration fees, including training and supervision of Teaching Artists, site coordination, curriculum development, scheduling and data management, budget administration, workshop and seminar design, and other administrative tasks carried out by the Director and Assistant Director of the Institute for Educators and Teaching Artists. Teaching Artists are paid Social Security (Alliance Theatre) at .09%, based on residency, planning, and workshop fees.

Print Materials

We request funding for print materials through GA Wolf Trap, including books, scripts, and supplies for targeted Pre-K classrooms.

Events

We request funding for a parent/caregiver event offered each year through GA Wolf Trap, including a Teaching Artist fee per targeted classroom. We also request funding for targeted Pre-K classrooms to have Read Aloud Workshops.

Pupil Travel/Field Trip

We request funding for the annual field trip through GA Wolf Trap to an Alliance Theatre production for young people. These costs include ticket prices for students, a complimentary ticket for the teacher, and bus transportation per classroom. Targeted Pre-K classrooms will have the option to attend either a play at the Alliance Theatre, or a performance at the Teaching Museum.

Stipends/Additional Salary Money

We request funding for teacher stipends for required Georgia Department of Education Summer Training to implement the grant.

Travel

We request funding for teacher travel expenses for required Georgia Department of Education Summer Training to implement the grant.

B. School Budget Narrative

Technology and Software

E.C. West Elementary School requests funding for 12 classrooms to receive e-readers, along with covers and electronic books, to increase the class libraries in grades 3-5 and encourage small group instruction. Additionally, we request funding for computer-delivered language development software, developed specifically for EL students, to enhance vocabulary, phonemic awareness, letter sounds, sight words, reading comprehension, and reading fluency instruction. With this software, teachers also have the option of using the native language first to develop literacy skills before moving the students to all English. These costs include software licenses per student per year, and the software would need to be purchased annually.

All hardware and software purchased will comply with Fulton County Schools policies, procedures and guidelines. Hardware and software purchased that is considered non-standard to FCS must either be purchased with manufacturer warranty agreements that cover repair and maintenance, or the items budgeted must include funding for a consultant who will provide maintenance and support.

Literacy Centers

We request funding for interactive literacy centers to be used during small group instruction in all classes grades K-5, including special education, EL, and gifted classrooms. Interactive, engaging, small group literacy centers increase literacy proficiency and encourage small group, differentiated instruction.

Classroom Libraries

We also request funding for classroom libraries to be purchased for each of our 44 classes in grades K-5, including special education, EL, and gifted classrooms. Classroom libraries will

increase the quality of good literature in all content areas, and these books will also be used as take-home readers for our students who need more exposure to books.

Professional Development

We request funding for professional development through Metro RESA, which offers a PSC approved add-on Reading Endorsement for a total of 15 Professional Learning Units (PLUs) for each of the targeted teachers. The Metro RESA Reading Endorsement prepares educators to demonstrate competency at assessing students' literacy needs and planning appropriate for the needs of students. The Endorsement is divided into three courses consisting of five PLUs each. Completion of the three courses is required in order to add to the base certificate. Funds would also be used for required texts and supplemental materials for each teacher.

Additionally, professional development funds will be utilized in a partnership with the Woodruff Arts Center to provide the Georgia Wolf Trap Literacy Program K-2 and Reader's Theatre 3-5, which have a professional learning focus. In GA Wolf Trap/Alliance Theatre, classroom teachers work with professional teaching artists to learn drama strategies that promote learning in literacy skills including speaking, listening, reading and writing. The program also builds drama skills in oral and non-verbal expression, creative and critical thinking, ensemble work and self-regulation. Targeted teachers will attend an on-site full-day orientation and instructional session presented by Alliance Theatre at the Woodruff Arts Center staff and Teaching artists, as well as a Summer Seminar. These costs include teacher registration fees and teacher stipends. Also, services provided include 12 classroom sessions with Teaching Artists, demonstrating drama-based strategies that teach and reinforce literacy skills in listening, speaking and reading; this will ensure a job-embedded professional development approach.

Each 35 to 45-minute session (depending on grade level) includes a ten-minute writing and/or drawing reflection task. Professional learning activities with teachers include instruction in drama strategies, classroom demonstration, team teaching, coaching, video observation, reflection, documentation, and assessment.

In Reader's Theatre, an artist comes to the classroom and demonstrates for the teacher how theatre arts can be used to teach curriculum topics. The teacher ultimately learns how to develop Reader's Theatre activities on his or her own while the artist strengthens his or her knowledge of childhood educational theory. Each teacher who participates in the residency program receives curriculum materials consisting of texts on Reader's Theatre, children's literature, and DVD's of Reader's Theatre techniques. These costs also include an orientation for targeted teachers and a three-day Summer Institute that includes in-depth exploration of literacy skills through drama, an overview of the performance students will attend the following school year, and workshops with national consultants on topics related to best practice in Reader's Theatre. This is followed by a teacher/artist meeting to discuss the curriculum, learning objectives, special needs of individual children, and how the Reader's Theatre can complement the teacher's goals. Funding provides ten classroom sessions of 50 minutes; ten-minute teacher consultations and five artist/teacher planning meetings.

Professional development costs also include benefits calculated at 27.7% for full-time employees and at 10% for teacher stipends for targeted teachers to attend content-specific professional learning. Additionally, funding is requested for substitutes to effectively lead instruction while allowing targeted teachers to attend professional development.

Subcontractors/Consultants

The GA Wolf Trap Literacy Program K-2 costs include contract fees for Teaching Artists to hold five planning sessions with targeted teachers, documentation, assessment, and curriculum development for each classroom, supplies, including simple props, puppets, and story-telling objects for each classroom. The Reader's Theatre contract fees include supplies such as scripts and simple props objects per classroom. The Alliance Theatre costs incorporate program administration fees, including training and supervision of Teaching Artists, site coordination, curriculum development, scheduling and data management, budget administration, workshop and seminar design, and other administrative tasks carried out by the Director and Assistant Director of the Institute for Educators and Teaching Artists. Teaching Artists are paid Social Security (Alliance Theatre) at .09%, based on residency, planning, and workshop fees.

Print Materials

We request funding for print materials through GA Wolf Trap, as three or four children's books are provided to teachers per targeted classroom.

Events

We request funding for a parent/caregiver event offered each year through GA Wolf Trap and Reader's Theatre, including a Teaching Artist fee per targeted classroom.

Pupil Travel/Field Trip

We request funding for the annual field trip through GA Wolf Trap and Reader's Theatre to an Alliance Theatre production for young people. Grade four classrooms in the Reader's Theatre program also have the option of instead going to the "I See Literacy" tour at the High Museum of Art, at approximately the same fee. These costs include ticket prices for students, a complimentary ticket for the teacher, and bus transportation per classroom.

LEA Narrative

Fulton County Schools (FCS) is the fourth largest school district in Georgia. During the 2011-12 school year, more than 93,000 students are attending classes in 58 elementary schools, 19 middle schools, 16 high schools and 7 charter schools. The racial composition of FCS students is 42% Black, 34% White, 12% Hispanic, 9% Asian, and 3% Multi-Racial. Forty-four percent of FCS students receive free and/or reduced meals. Many schools in the northern part of the district have less than 5% of their students eligible for free and/or reduced-meals while many schools in the southern part of the district have over 95% of their students eligible. Ten percent of FCS students are classified as students with disabilities (SWD) and 7% are classified as English Learners (EL). Overall, FCS is a high-achieving district; however, there are subgroups of FCS students who do not perform on level with their peers and schools that need additional strategies and supports to move their struggling students.

Current Literacy Priorities: Fulton County Schools follows the Georgia Performance Standards (GPS) to guide literacy instruction but will transition to Common Core Georgia Performance Standards in the 2012-2013 school year. The implementation of the GPS allowed the integration of reading and writing instruction—a paradigm shift for the schools. Common Core Standards will infuse even more rigor, complex texts, informational reading, and challenge for our teachers and students. Budget constraints prevented the adoption of new materials when GPS were implemented, but plans are underway to adopt a new set of Reading and English/Language Arts (ELA) materials for the school year 2012-2013. FCS solicited extensive input from teachers, parents, students and administrators via surveys, feedback from a district oversight team, and a pilot of two vendor finalists this school year. This process served not only the materials adoption but also established a basis on which to build our district's literacy plan.

See Appendix A for a comprehensive literacy needs assessment and Appendix B for the district's literacy plan.

Management Structure: Dr. Robert Avossa became Superintendent of the Fulton County Schools in June 2011. As Superintendent, he is responsible for the leadership, administration and management of 100 schools, 13,500 employees, and an \$819.5 million general fund budget. His cabinet members lead the following functional areas: instruction, operations, finance, human resources, organizational advancement and communications.

Past Instructional Initiatives: Prior to the adoption of GPS, the learning objectives for the State of Georgia were known as Quality Core Curriculum. With those objectives, much of the literacy approach rested on the teaching of reading with some writing. Materials often produced whole-class instruction with little consideration for the individual needs of the students.

Literacy Curriculum: Teachers have access to model lesson plans written by district master teachers and the English/Language Arts Department staff. The model units demonstrate a balanced approach to the teaching of standards. Instructional plans outline the standards addressed in each of the four nine weeks' units. Additionally, resources, strategies, and balanced assessments accompany each unit of study. A comprehensive scope and sequence outlines the standards and elements for each semester of the school year.

Literacy Assessments: FCS uses benchmark assessments called Checkpoints. The English/Language Arts Department produces four benchmark assessments per year in grades two through eleven which assess reading, language arts, and writing. Checkpoints assessments use a pre and post-test formula and are aligned to the Criterion-Referenced Competency Test (CRCT), Georgia's summative assessment that is administered in the spring. FCS schools administer a writing assessment every nine weeks that focuses on the studied genre. Schools create common

assessments and assess formatively; therefore, a balanced assessment approach continues to be the assessment model for the district.

Need for a Striving Reader Project: On average, students in Fulton County Schools perform better than students across the state; for example, while Georgia's graduation rate over the past three years has moved from 79% to 81%, FCS' rate has consistently been higher and increased from 84% to 86%. In 2011, a larger percentage of FCS students met or exceeded CRCT standards than students across the state—in *every* grade and *every* tested subject. Yet, these district averages mask the rather striking achievement gaps within the district. Graduation rates across high schools ranged from 52% to 98% in 2011. The percentage of students meeting standards on the 3rd grade CRCT Reading test ranged from a low of 74% to as high as 100% at many schools. As with so many schools and districts across the country, the high poverty schools in FCS tend to fall at the lower end of the performance spectrum. Schools with large groups of students with disabilities or English learners struggle to meet achievement standards, as well. A recent survey of FCS administrators, teachers and parents highlights concerns with our district's literacy efforts and Reading and ELA curriculum and instruction. More than 53% of administrators responding do not believe the current Reading and ELA materials provided by the district address the needs of all components of literacy and six out of ten believe that technology related to Reading and ELA is not used effectively to maximize student learning. More than 54% of parents do not believe their school offers adequate opportunities for parents to learn strategies to support their child's learning in the home. Clearly, the data point to a need for additional materials, professional development, parent outreach and supports to ensure quality literacy instruction in our schools. The Striving Reader grant will help FCS address these challenges.

Striving Reader Grant Partners: FCS needs strong partners to create the necessary building blocks for literacy reform. The district is partnering with United Way of Metropolitan Atlanta and Sheltering Arms to address the needs of children from birth through pre-kindergarten (Pre-K) and is partnering with the Woodruff Arts Center to provide teachers with innovative, engaging approaches to teach literacy to students. **United Way of Metropolitan Atlanta (UWMA)** has created and implemented innovative programs and outreach initiatives to improve the quality of early care and education for all children ages birth to five in Atlanta, Georgia. Smart Start, the early childhood division of UWMA, is nationally recognized for pioneering efforts as an Early Reading First grantee. The district's partnership with UWMA will leverage their success with Early Reading First to build capacity through professional development for teachers and assistants of targeted children from birth through five years old. See Appendix C for a letter of support from UWMA. **Sheltering Arms** is Georgia's oldest nonprofit early childhood education program, and one of its most respected. Its mission is to serve working families with high quality, affordable child care and education and comprehensive support services. Founded by Atlanta volunteers in 1888, Sheltering Arms now annually serves more than 3,600 children, ages six weeks to five years old, and their families in 16 centers. Sheltering Arms is a tax-exempt 501(c)3 organization and has been nationally recognized for the success of its school readiness program. FCS is excited to partner with Sheltering Arms to improve transitions from early learning to kindergarten classrooms in South Fulton County. See Appendix D for a letter of support from Sheltering Arms. FCS has been a long-time partner with the **Woodruff Arts Center**, the largest provider of Pre-K through 12th grade arts education in America. The Woodruff Arts Center recognizes the power and potential of engaging young people in the arts. Empowering teachers with arts learning strategies helps provide students with

the skills, knowledge, and creativity required for success in their education. A Striving Reader grant will strengthen the district's partnership with the Woodruff Arts Center and will provide teachers with effective literacy strategies. See Appendix E for Woodruff's letter of support.

I. Eligibility of Schools and Centers

A. Form A

a. Students in grades 3, 5, 8 not meeting standards, based on current CRCT data

The tables below provide a number of metrics relevant to the Striving Reader grant. For FCS Pre-K classrooms, we analyzed data from the Georgia Pre-K Work Sampling System (WSS), which assesses and documents children's skills, knowledge, behavior, and accomplishments as displayed across a wide variety of education domains and as manifested on multiple occasions.

FCS Pre-K Student Achievement

Targeted Elem Schools	Language & Literacy	Mathematical Thinking	Scientific Thinking	Social Studies	Personal/Social Dev't	Physical Dev't & Health	The Arts
Bethune	56%	48%	69%	53%	60%	77%	62%
Campbell	90%	89%	88%	91%	87%	92%	89%

Source: FCS Administrative Records 2010-2011, % of Students with "Proficient" Ratings by Domain via WSS

For each school level, we analyzed key demographic subgroup data. Targeted schools for the Striving Reader grant have much larger populations of economically disadvantaged students and most have larger populations of students with disabilities and/or English learners than the district. The mobility rate, a district indicator to measure student transiency, at each targeted

school is equal to or higher than the district average. In addition, CRCT Reading data clearly exhibit a need for increased literacy supports. Schools included in this grant have higher percentages of students not meeting standards on the 3rd, 5th and 8th grade CRCT Reading tests and much lower graduation rates than the district as a whole. Tables representing school level data for all 100 schools within the district are included in Appendix F.

Data Summary for Targeted Elementary Schools

Targeted Elementary Schools	% FRL	% SWD	% EL	Mobility Rate	Met AYP?	Grade 3 CRCT Reading		Grade 5 CRCT Reading

Data Summary for Targeted High Schools

Targeted High Schools	% FRL	% SWD	% EL	Mobility Rate	Met AYP?	Graduation Rate
Creekside	72%	9%	2%	51%	No – NI4	69%
McClarín	94%	3%	0%	121%	No – NI2	52%
<i>District High Schools</i>	35%	11%*	3%	34%	NA	86%

*Represents entire district, not just that particular school level. Source: Fulton County Schools Administrative Records and Georgia Department of Education; Data for 2010-11 school year.

FCS also reviewed student scores on the Iowa Tests of Basic Skills (ITBS)—a nationally norm referenced test that our district’s 3rd, 5th and 8th graders take annually. This past year, the district’s average percentile rank for 3rd grade Reading on the ITBS was a 60. Yet, the averages of the targeted schools ranged from a low of 31 to a high of 41—well below the district average. The same can be said of 5th grade Reading scores with targeted schools ranging from the 23rd percentile to the 42nd percentile while the district average was the 59th percentile. Finally, 8th graders in Bear Creek Middle School scored at the 31st percentile compared to the district average of the 57th percentile. With a national mean percentile rank of 50, it is obvious that the schools selected need additional supports to improve their students’ performance to compete with students across the country, as well as within our district. See Appendix G for a report on FCS’ ITBS 2010 results.

b. Needs Improvement Status in Reading / Language Arts under Title I, Part A

Appendix H includes a table reflecting the percentage of students in Title I targeted elementary, middle, and high schools that met/exceeded expectations on the Criterion-Referenced Competency Test (CRCT) and the Georgia High School Graduation Test (GHS GT) based on the state’s Annual Measurable Objectives (AMO). Based on the data, it reveals that the general student population continues to make gains in Reading and English/Language Arts and

appears to be on track to meet the annual measurable objectives in 2012 based on the present percentages. A major concern, however, is the student performance at the high school level. Intensive instruction will be necessary to ensure that all high school students are capable of meeting performance objectives.

c. Percentage of Children Counted for Allocations under Title I, Part A

Striving Reader Targeted School	Number of Students	%
Bear Creek MS	1073	100
Bethune ES	758	100
Campbell ES	803	100
Creekside HS <i>(no longer an eligible Title I school)</i>	n/a	n/a
Evoline C. West ES	726	100
Love T. Nolan ES	756	100
McClarín HS	107	31
Oakley ES	727	100
Palmetto ES	535	100

Source: Student Achievement Management System and Individual Schools

d. Rationale for SRCL Grant Selection

The FCS Striving Reader core grant committee is comprised of administrators representing the following departments: Curriculum, Assessment and Accountability, Title I, Exceptional Children, and Instructional Technology. Based on extensive discussion and review of multiple sources of data, committee members agreed on the following criteria for selecting schools to participate in the Striving Reader project: Reading and English/Language Arts assessment data demonstrating performance gaps, Title I classification, schools on the district’s intensive list (a framework designed to identify and support high-need schools), feeder patterns, concentration of students with disabilities, concentration of English learners, capacity to implement grant-funded activities, and a waiting list for Georgia Pre-K slots. Based on the selection criteria, the committee recommended and the cabinet approved targeting 4 early learning centers and 9 schools arranged in a feeder pattern in South Fulton County. Sheltering Arms runs 4 early

learning centers in South Fulton: East Point Center, Oakley Township Center, Stonewall Tell Center, and Welcome All Center. These centers feed 7 elementary schools: Bethune, Campbell, E.C. West, Love T. Nolan, Oakley, and Palmetto. These elementary schools feed Bear Creek Middle School, which feeds Creekside High School. McClarin High School is also included in the grant as an alternative school with an open campus and a day care center to support teen parents. Most of the elementary schools (all but Campbell) have struggled but managed to make AYP last year; however, Creekside, McClarin and Bear Creek have not made AYP in recent years. Creekside's graduation rate of 69% and McClarin's graduation rate of 52% are significantly below the district's graduation rate of 86% and reflect the socio-demographic challenges faced by students in South Fulton County. These statistics underscore the difficulties with transitions and vertical teaming. The data provide an important example of how poor literacy skills may be flagged through reading assessments during the early years but are masked in the content areas in middle and high school. Students may show early indicators of difficulty yet manage to get by in elementary school, but by the time they reach middle and high school, students experience the compounded interest of poor literacy skills and are no longer able to achieve minimum standards, much less reach higher goals of achievement. As can be seen from the tables in section I.A.a. above, all the elementary, middle and high schools targeted have demonstrable need for additional literacy supports to improve academic performance and to ensure students are graduating ready for college and careers. See Appendix I for a map of all 13 early learning centers and schools targeted for the district's Striving Reader grant.

II. Assurances: Compliance with FERPA, GPRA, GADOE Project Design

See Appendix J for Project Assurances.

III. Project Design

Sheltering Arms is a nonprofit corporation that provides early care, education, and comprehensive family support services through 16 Early Education and Family Centers with a total program capacity of 2,346 children and their families. In order to be user friendly for working parents, our centers are open 6:30 a.m. to 6:30 p.m., Monday through Friday, year round. Sheltering Arms is proud to partner with Fulton County Schools (FCS) to support 20 Pre-kindergarten (Pre-K) classrooms in four of our Early Education and Family Centers in South Fulton County. Many of our students who attend these centers will matriculate to kindergarten classes in targeted FCS Striving Reader elementary schools.

Mission, Services, Community

Founded in 1888, Sheltering Arms' mission is to nurture and educate children, strengthen families, and build communities by providing:

- High quality early care and education that prepares young children to succeed in school and that is accessible to all, regardless of family income;
- Comprehensive support services for families that promote healthy self-reliance;
- Professional development based on core competencies for early education and family services practitioners that improves the effectiveness of service delivery; and
- Community partnerships and collaborations that create a more synergistic and seamless system of supports for children and families.

A. Need

School History

Striving Reader will be implemented in four Sheltering Arms Early Education and Family Centers in south Fulton County. These centers were established in 2004 in collaboration with

Fulton County Schools, local communities, the philanthropic sector, and Head Start, when a \$15 million capital campaign enabled Sheltering Arms to build the four state-of-the-art South Fulton Early Education and Family Centers: East Point Center, Stonewall Tell Center, Oakley Township Center, Welcome All Center. The capacity at each center is 243 children, ages six weeks to five years, and their families. Our Pre-K classes have 22 students per classroom. Each of the centers has five Pre-K classrooms and a total of 110 students.

Teacher:Child Ratios		Configuration
Infants	1:4	2 infant classrooms
One-year-olds	1:4	2 one-year-old classrooms
Two-year-olds	1:6	2 two-year-old classrooms
Three-year-olds	1:9	5 three-year-old classrooms
Pre-K	1:11	5 Pre-K classrooms
Total		16 classrooms

South Fulton County has historically been home to predominantly poor, African American families. Although this area is not technically part of the inner city, it looks and functions like the traditional inner city community. It is what the Annie E. Casey Foundation calls an isolated, disinvested neighborhood in a major metropolitan area. The Foundation concludes that the extent of disparity between the “life starts” of some inner city children and the rest of our children amounts to an assault on our national confidence in the principle of equal opportunity. According to The Brookings Institution’s *Moving Beyond Sprawl: The Challenge for Metropolitan Atlanta*, high concentrations of single-mother households with children under 18 and families with very low median incomes are found in the southern neighborhoods of the City of Atlanta in south Fulton County. According to Census data, Fulton is one of two metropolitan Atlanta counties that are home to 37 percent of the region’s population, but 66 percent of the region’s poor people.

All Sheltering Arms centers are licensed by Bright from the Start: Georgia Department of Early Care and Learning and are accredited by the National Association for the Education of Young Children (NAEYC). In addition, Sheltering Arms is one of only 25 programs in the nation to have earned the Program of Excellence Award, Head Start's highest honor for quality.

Administrative and Teacher Leadership Team

The Center Management Teams at the each of the four Sheltering Arms centers consist of:

- Program Director – mid-management position, liaison between Center Management Team and Executive Leadership Team at headquarters; requires a Master's degree;
- Center Director - responsible for the direction and supervision of all center staff in accordance with established policies, guidelines, and curriculum and the operation of a quality program; requires a minimum of a Bachelor's degree; Master's preferred;
- Child and Family Specialist - assures that requirements are met in the areas of prevention and early intervention, disabilities, individualization, parent involvement, family support, eligibility, recruitment, selection, enrollment, attendance, and community partnerships; acts as a liaison between the teaching staff, and the center management team; requires a minimum of a Bachelor's degree;
- Family Support Coordinators (3) - informs, involves and inspires mothers and fathers in a way that supports their child in entering school ready to learn; helps them to nurture and financially provide for their children; links them to community resources and supports their personal goals;
- Curriculum Specialist – ensures quality education standards; acts as a role model in regard to teaching techniques, discipline and professional growth and development; acts as a liaison

between teaching staff and center management; requires a minimum of a Bachelor's degree; Master's preferred.

Instructional Initiatives

This year Sheltering Arms has begun using The Creative Curriculum, which balances teacher-directed and child-initiated learning, with an emphasis on responding to children's learning styles and building on their strengths and interests. This curriculum applies the latest theory and research on best practices in teaching and learning and the content standards developed by states and professional organizations. It clearly defines the teacher's vital role in connecting content, teaching, and learning for preschool children. It features goals and objectives linked directly to its valid and reliable assessment instrument, Teaching Strategies GOLD. The Creative Curriculum is a comprehensive curriculum with a clear organizational structure and a particular focus on interest areas. Child development theory and scientific research are the foundation of The Creative Curriculum: Abraham Maslow – Basic needs and learning; Erik Erikson – The emotions and learning; Jean Piaget – Logical thinking and reasoning; Lev Vygotsky – Social interaction and learning; Howard Gardner – Multiple intelligences; and Sara Smilansky – Play and learning. The Creative Curriculum draws on other research that demonstrates that language is the foundation for ongoing literacy support (Strickland & Shanahan, 2004) and involves learning about the structure and sequence of speech sounds, vocabulary, grammar, and the rules for engaging in appropriate and effective conversation (Berk, 2003). It also helps educators support the literacy and language development of children from low-income families. Taken as a whole, The Creative Curriculum's literacy-related resources empower teachers and parents with the latest research-based strategies so that language and literacy learning is integrated into everyday interactions with children while intentionally teaching critical literacy skills. These

resources tap into the importance of how to properly implement materials, from the teaching guides to special cards that discuss books and teach vital literacy and language concepts.

Need for a Striving Reader Project

A Striving Reader grant award will enable Sheltering Arms to extend the hours of Pre-K classrooms during the school year and offer Pre-K classes during the summer to better support our students as they transition to kindergarten. Also, the grant will provide our teachers critical professional development and will enable us to update technology in our classrooms.

a. School Literacy Team (5 points)

Literacy Team Structure

Our literacy team will be formed to guide the Striving Reader project and will include members of the Sheltering Arms Center Management Teams as well as community stakeholders, including representatives from Fulton County Schools, United Way, and the Georgia Department of Early Care and Learning. Montreal Bell, Coordinator of Early Childhood Services, will represent Fulton County Schools on our literacy team. We have a longstanding working relationship with United Way of Metropolitan Atlanta's Early Learning Department. Kartrina Mitchell, Senior Director of Education, and Sakinah Harris, Director of Early Reading First, will both represent United Way. The Georgia Department of Early Care and Learning (Bright from the Start) has been supportive of this application, providing guidance and data, and since Sheltering Arms operates a large, high quality Pre-K Program, we have an excellent relationship with the Department's staff. Deanna Echols Hibbard, Pre-K Consultant and Assessment Coordinator, will represent Bright from the Start. We anticipate that the literacy teams will meet at least quarterly. The Sheltering Arms Georgia Training Institute has an Advisory Council whose members have considerable academic and research expertise and who stand ready to

provide guidance to the Striving Reader project as well. The literacy team will include teaching staff through the Child and Family Specialists, the Curriculum Specialists, and the Instructional Lead Teachers, who work closely with teaching staff. In addition, the Curriculum Specialists and the Instructional Lead Teachers have just become certified Mentor Coaches, and this training will be invaluable in ensuring inclusiveness. See Appendix K for letters of support from our Pre-K faculty at each of the four centers included in the grant.

b. Needs Assessment (Analysis and Identification of Student and Teacher Data 5 points)

Student Data

Center	% Free & Reduced Lunch	% AA	% Hispanic	% Asian	% White	% Multi-Racial	% Spec. Needs
East Point	86%	94%	2%	1%	1%	1%	8%
Oakley Township	72%	96%	1%	1%	1%	1%	9%
Welcome All	71%	96%	1%	1%	1%	1%	4%
Stonewall Tell	85%	87%	12%	0	1%	0	9%

Based on our needs assessment process, multiple factors indicate a pressing need for a Striving Reader project at Sheltering Arms:

- The high number of children from low- and moderate- income homes and from single parent homes (57%), important indicators of children needing focused instruction on language and literacy. The Georgia Department of Early Care and Learning’s annual Report Cards on early learning centers note that the following percentages of Sheltering Arms children fall into their “at risk” category: Oakley Township Center – 82%, Stonewall Tell Center – 65%, Welcome All Center – 67%, and East Point Center – 71%. Research shows that poverty

issues affect development, and that children from low-income families face the most difficulty learning to read in the primary grades.

- Based on 2009-2010 data from the Department of Early Care and Learning Work Sampling System, the latest year for which data are available, 46.5% of Sheltering Arms children were 'in process' and 52.2% were 'proficient' in language and literacy outcomes. The average proficient score for all Fulton County Schools' Pre-K students in language and literacy was 80%.

Teacher Professional Learning Needs

The Georgia Training Institute gathers ongoing data through surveys concerning Sheltering Arms staff professional development needs. Based on findings, our teachers need professional development to help them better understand how to work with teachable moments, ensure that children are involved with language as part of their everyday experience, be less directive, and ask the kinds of questions that stimulate critical thinking and encourage more conversation and observation on the part of children.

Sheltering Arms continues to remain ahead of the staff development requirements as set forth in the Sections 644(a) and 653 of the Head Start Act as well as those required by the Georgia Department of Early Care and Learning and NAEYC: 31 % of teachers have a Child Development Associate Credential CDA, 46% have an Associate degree or technical school diploma, and 23% have a Bachelor of Arts, Bachelor of Science or higher degree. Approximately 40% of teachers are enrolled in postsecondary school in order to advance their education credentials. A detailed list of teacher participation in professional learning communities and other professional development is included in section III.B.e.

Teacher Retention Data

School Year	Percentage of Teachers Retained
2009-10	85.8%
2008-09	91.6%

It is noteworthy that the average national rate of early learning teacher retention is 68%.

Sheltering Arms has obtained a \$2 million grant from The Goizueta Foundation to address teacher retention issues, and the Board is currently raising \$1 million for the same purpose.

Curriculum Needs

Sheltering Arms' use of The Creative Curriculum will be the foundation of our Striving Reader project. However, in order to increase the effectiveness of language and literacy instruction in our Pre-K program, we propose extending the program from a nine-month, 6 ½ hour day program to a 12-month, 12 hour day program. A foundation grant has enabled this extension at another Sheltering Arms center, and instead of losing over 55% of Pre-K students during the summer between Pre-K and transition into kindergarten, the center was able to keep 98% of students throughout the summer. The South Fulton centers currently lose 45% of their Pre-K children during the summer, and the Family Support Coordinators report that all of these children leave due to the families' inability to pay summer fees. Approximately 35% of Pre-K children leave at the end of the 6 ½ hour day for the same reason. Ensuring that the Pre-K children stay for a longer day and throughout the summer will ensure sufficient time and opportunities to improve language and literacy instruction.

Technology Needs

The Creative Curriculum has numerous language and literacy objectives that involve the educational use of computers and software by children. The computer systems currently in place are clone-based PC's that are more than four years old and often out of service. We are therefore

requesting that the Striving Reader project contribute a prorated share of replacement costs for the Pre-K classroom computers.

Family Engagement Needs

Our students begin school with less prior knowledge, verbal abilities, phonological sensitivity, familiarity with the basic purposes and mechanisms of reading, and letter knowledge than students from more affluent families (National Early Literacy Panel, 2008; Snow, Burns, & Griffin, 1998). Our less affluent students have not been exposed to as many reading hours as children from middle-class families and have smaller vocabularies by first grade. The findings show that a child from a low-income family has been exposed to about 25 hours of one-to-one reading while the average child from a middle-class family has logged more than 1,000 hours (Berk, 2006; Neuman 2003). The size of their vocabulary also is one-fourth the size of their middle-class peers (Berk, 2006). For these children in particular, the importance of incorporating purposeful and intentional language and literacy experiences into each preschool day cannot be underestimated and is an essential task for any high-quality early childhood program.

c. Needs Assessment Process (5 points)

The Center Management Team members are constantly reviewing data to address student needs, primarily Work Sampling System data. Teachers rate student progress every 4-6 weeks to determine their level of proficiency in each domain. Review of Work Sampling data revealed few student artifacts (work samples, notes, photos and matrices) in several areas of language and literacy. Additionally, the absence of quality artifacts in mathematics, science and social studies have shown the struggle that teachers have in developing quality learning activities in language and literacy.

Additional evidence of need is found in the teachers' lesson plans. Each week, teachers are expected to use assessment data to plan quality whole group language and literacy activities, small group learning activities based on the content standards and students' needs, and rotate center materials to address different developmental levels of the children and meet their needs as they progress throughout the year. Review of teachers' lesson plans revealed the need to provide additional professional learning in the area of language and literacy instruction. Implementing the literacy plan proposed in this grant will provide a multitude of quality language and literacy experiences for our Pre-K children.

d. Areas of Concern (5 points)

Based on the needs assessment, we have identified three areas of concern. All three are impacted by the Language and Literacy Development learning standards for Georgia Pre-K students as described in the 'What' document.

- Lack of high-quality, extended-day and summer Pre-K programming: there are no affordable after-school and summer options for our students. The extended-day program is complementary to the core program and provides a seamless and consistent experience for the children. It is offered before the core day program begins, continues at the end of the day, and is delivered by teams of qualified early childhood educators. The same teaching teams work together. The extended-day program offers an approach to pedagogy and planning that is consistent with the approach taken in the core day program and makes use of shared resources and shared common spaces to create a seamless system of care and education for children and families. During the summer, low income students generally lose about 2 months of reading achievement. In a 2006 study conducted by Kenneth B. Robin, Ellen C. Frede, & W. Steven Barnett, data suggest that children who attended an extended-

day, extended-year preschool program experienced greater improvement in test scores compared to peers who attended half-day programs. Because of limited budgets, we have not been able to address extending Pre-K classroom time; we need to stem the learning loss.

- Lack of standards-based literacy professional development for our teachers: Teaching practices at Sheltering Arms need substantial improvement. The agency struggles to ensure that the training teachers receive is transformed into practice, as evidenced by Work Sampling System scores. The South Fulton centers have not benefited from enhanced language and literacy initiatives, and we see Striving Reader as an opportunity to continue the arc of improvement.
- Lack of technology to engage our students: Our students are live in a digitally-connected world. When they enter kindergarten, they will be exposed to computer labs and educational technology strategies. We want to provide a more engaging, digitally rich environment for our Pre-K students.

e. Root Cause Analysis (5 points)

All three of our areas of concern are related to prevailing social issues which directly affect our constituency such as: low income levels, single parent households, increased school drop-out rate, high crime rates, limited in affordable housing, and high infant mortality. When compared to their more affluent peers, children from low-income families often begin kindergarten with fewer phonological awareness skills, smaller receptive and expressive vocabularies, less knowledge of the purposes and conventions of print, and less knowledge of letters and their sounds (Snow, Burns, & Griffin, 1998). These root causes highlight why it is imperative that Sheltering Arms provides a high-quality learning environment.

B. Quality of Project Design

a. Project Goals and Objectives (5 points)

Based on our needs assessment data, Sheltering Arms has developed the following four goals to support our literacy plan. Successful implementation of our literacy objectives will enable us to achieve all four goals for each cohort of Pre-K students during the five year grant period.

Goal	Objective
1. 90% of children will meet or exceed The Creative Curriculum's language and literacy objectives for development and learning	<ul style="list-style-type: none"> ● Pre-K teachers will be trained to effectively implement curriculum materials by United Way Literacy Coaches. ● Teachers will work with Georgia Wolf Trap teaching artists to develop appropriate language and literacy activities. ● The Pre-K day will be extended to promote student learning. ● Pre-K classes will be offered over the summer to stem literacy losses. ● Our computer lab will be upgraded to provide a digital rich environment for our students.
2. Striving Reader classrooms will meet or exceed the national average for CLASS	
3. Work Sampling System language and literacy outcomes will improve from 46.5% of Sheltering Arms children 'in process' and 52.2% 'proficient' in language and literacy outcomes to 35% of children 'in process' and 65% 'proficient'	
4. 90% of children will participate in before/after care and the summer program	

Sheltering Arms has multiple practices in place that we are leveraging to achieve grant goals including CLASS and our standards-based Creative Curriculum. Both of these practices are funded with other resources. Classroom Assessment Scoring System (CLASS) is a research-based observation tool used to help teachers and schools improve the effectiveness of classroom interactions. Data from CLASS observations are used to support teachers' unique professional

development needs, set school-wide goals, and shape system-wide reform at the local, state, and national levels. Based on research from the University of Virginia's Curry School of Education and studied in thousands of classrooms nationwide, the CLASS tool focuses on effective teaching, helps teachers recognize and understand the power of their interactions with students, aligns with professional development tools, and works across age levels and subjects.

The Creative Curriculum is composed of resources that support early childhood educators through every step of the process of teaching literacy to young children. The curriculum, which includes five volumes, teaching guides, and related resources, translates and applies the latest research into hands-on daily routines. The new teaching guides and *Intentional Teaching Cards* provide specific, focused, small- and large- group instructional opportunities.

The Creative Curriculum Literacy Objectives for Development and Learning

1. Demonstrates phonological awareness: a. Notices and discriminates rhyme, b. Notices and discriminates alliteration, c. Notices and discriminates smaller and smaller units of sound;
2. Demonstrates knowledge of the alphabet: a. Identifies and names letters, b. Uses letter–sound knowledge;
3. Demonstrates knowledge of print and its uses: a. Uses and appreciates books b. Uses print concepts;
4. Comprehends and responds to books and other texts: a. Interacts during read-alouds and book conversations, b. Uses emergent reading skills, c. Retells stories;
5. Demonstrates emergent writing skills: a. Writes name, b. Writes to convey meaning.

The Creative Curriculum Language Objectives for Development and Learning

1. Listens to and understands increasingly complex language: a. Comprehends language, b. Follows directions;

2. Uses language to express thoughts and needs: a. Uses an expanding expressive vocabulary, b. Speaks clearly, c. Uses conventional grammar, d. Tells about another time or place;
3. Uses appropriate conversational and other communication skills: a. Engages in conversations
b. Uses social rules of language.

b. Scientific, Evidence-Based Literacy Plan (10 points)

The table below summarizes our plan to implement the literacy strategies to achieve project goals.

Implementation Team	Literacy Strategies
Amy Hobart, Director of Early Care and Education, Sally Campbell, Director of Children's Program	<ul style="list-style-type: none"> • Develop Pre-K calendar to extend the school day and add a summer program • Communicate plans to schools • Order curriculum materials (not funded by grant) • Set up curriculum and trainings with grant partners United Way and Woodruff Arts Center • Collaborate with partners and school administrators to plan additional training strategies and determine training needs
Curriculum Specialist, Center Director, Lead Teacher	<ul style="list-style-type: none"> • Review weekly lesson plans • Review Work Sampling Data • Provide teacher support to implement literacy strategies • Provide feedback to teachers about ratings • Develop and determine training needs
Program Coordinator, Center Director, Curriculum Specialist	<ul style="list-style-type: none"> • Monitor and observe teachers to determine success of program implementation • Communicate training needs and program successes with program coordinators
Pre-K teachers	<ul style="list-style-type: none"> • Assess student progress • Plan appropriate language and literacy instruction • Implement strategies learned at trainings
Sheltering Arms Georgia Training Institute staff	<ul style="list-style-type: none"> • Provide teacher support to implement literacy strategies • Develop and determine training needs
Child and Family Specialist and Family Support Coordinators	<ul style="list-style-type: none"> • Work with families and community agencies to communicate and promote language and literacy at home.

Pre-K Daily Schedule

6:30 – 8:00	Arrival – Hellos – Choice Activities/Journal Writing
8:00 – 8:15	Breakfast, Brush Teeth, Nutrition & Health
8:15 – 8:35	Group Meeting – Morning Welcome – Opening Activities Book #1
8:35 – 8:45	Music with Movement and Creativity
8:45 – 9:00	Small Group (may involve literacy)
9:00 – 9:15	Story time/Read Aloud Book #2
9:15 – 10:00	Outside Play 15 minutes of planned physical activities and/or games for child choice
10:00 – 10:15	Transition Activity
10:15 – 10:30	Large Group Literacy
10:30 – 11:45	Center Time/Child Choice in Interest Areas 11:30 – 11:45 Clean-up
11:45 – 12:00	Story time/Read Aloud Book #3
12:00 – 12:30	Lunch Self-serve, family style, conversations, health & nutrition
12:30 – 12:45	Phonological Awareness
12:45 – 1:45	Nap/Rest and Quiet Activities Quiet activities available for non-sleepers
1:45 – 2:15	Other Instructional Activities (may involve literacy)
2:15 – 2:30	Group Meeting - Closing
2:30 – 2:45	Snack
2:45 – 4:00	Center Time/Child Choice in Interest Areas 3:45 – 4:00 Clean-up
4:00 – 4:15	Story Time/Read Aloud
4:15 – 5:00	Outside Play 15 minutes of planned physical activities and/or games for child choice
5:00 – 6:30	Child Choice Time

Plan for Tiered Literacy Instruction

We base our tiered literacy instructional plan on the Response to Intervention (RTI) framework and the Pre-K Content Standards, along with the Center for the Study of Social Emotional Learning, Teaching Pyramid.

Step 1: Teachers observe the child for a 2-week period, documenting the developmental or behavioral concerns. Teachers consult with the Curriculum Specialist. The Curriculum Specialist will notify the Family Support Coordinator of the concern to also share relevant information about the child and family.

Step 2: Within 3 working days, the Curriculum Specialist observes the child and documents the observation. The teacher reviews results to date on the Work Sampling Online assessment. The teacher completes the Ages & Stages Questionnaire: Social Emotional (ASQ: SE) if needed.

Step 3: Within 3 working days, the Curriculum Specialist reviews all documentation with the Management Team (Director, Child & Family Specialist, and Family Support Coordinator). When all team members are in agreement that additional support is needed, the In-House Referral Form will be completed and submitted along to the Early Intervention Specialist.

Step 4: Within 3 working days, the Early Interventionist conducts an observation of the child. Following the observation, the Early Interventionist will meet with the Management Team and classroom teacher(s) to develop a plan to support the child.

Step 5: The teachers will implement the plan for 2-weeks in the classroom. The Curriculum Specialist will conduct regular observations of the classroom to document progress and provide support and feedback to the teachers during the 2-week period.

Step 6: Following the 2-week period, the Early Interventionist will meet again with the Management Team and classroom teachers to discuss any changes in the child's behavior. If

there has been no improvement, the Early Interventionist will look into additional supports for the child. The Family Support Coordinator will schedule a meeting with the parents to discuss the information that was collected and get the parents' input.

Our Striving Reader grant does not conflict with any other initiatives currently being implemented at the four centers.

c. Strategies and Materials to Support Literacy Plan (existing and proposed) to Include Technology (5 points)

Current Resources / Activities

One of our most important literacy strategies that we have already implemented is Operation StoryBook. The goal of Operation StoryBook is to encourage all children to learn and love to read. For children, Operation StoryBook emphasizes that reading is fun. For parents, the program emphasizes that reading is critical to their child's future success. Operation StoryBook includes:

- Curriculum that includes lesson plans based on children's books and stories, helping children to explore themes and cultures in some of the books they will take home.
- The Children's StoryBook Club: The goal is that all Sheltering Arms children receive a new book every month for their home libraries.
- A daylong Read-A-Thon event in every center during September. VIPs, volunteer readers and professional storytellers participate.
- Literacy enrichment activities, including field trips to art and cultural venues and libraries, special performances by storytellers, puppeteers, and other performers, and one-on-one reading help from volunteers through Jumpstart and other programs.

Other resources available in our Pre-K classrooms include books on tape, classroom libraries, literacy props, flannel board stories, CDs for Music with Movement. Shared Resources include language and literacy websites for teaching ideas, language and literacy websites for children, computer lab. Library resources are books, CDs, and books on tape.

d. Project Procedures and Supports (5 points)

As highlighted in our Pre-K daily schedule included in section III.B.b., we offer students a variety of literacy instruction as we follow our standards-based curriculum. Examples of specific, literacy-focused activities include picture cards that are used to help students learn routines and procedures. Circle Time/Morning Message Board/Story Time/Music with Movement/Second Step – all provide students with oral language development strategies to communicate ideas and feelings with each other. Music with Movement provides students with another way of expressing language. Phonological awareness activities are planned to support student proficiency in content standards. During story time, students participate in quality literature activities that promote a love of reading and expression. Large group literacy activities are planned to teach reading and writing skills. With journals, teachers support students as they work to develop their writing skills.

e. Professional Learning Strategies Identified on the Basis of Documented Needs (5 points)

At Sheltering Arms, ongoing professional learning is critical. The table below highlights the professional learning activities that all (100%) of our Pre-K staff received.

East Point Center	Oakley Township Center	Stonewall Tell Center	Welcome All Center
Ages & Stages Questionnaire	Ages & Stages Questionnaire	CLASS Overview: Understanding the CLASS Framework	Ages and Stages Screening: Using the ASQ Questionnaire

East Point Center	Oakley Township Center	Stonewall Tell Center	Welcome All Center

What's New in Pre-K 2010-2011			Stronger Together: Affirming Diversity

The Sheltering Arms Board of Directors established the Georgia Training Institute (GTI) in 2006 as a way of leveraging the organization's expertise and resources to improve outcomes for Georgia's preschool children, their families, and their communities through high quality professional development. In GTI's approach, early childhood education caregivers and family development professionals expand their knowledge of child and family development, enhance

their teaching abilities, and refine their skills to build strength-based family support services, preparing children for success in school.

As a result of the documented need for additional professional development in language in literacy, Sheltering Arms has worked diligently to obtain professional development resources for our teachers and staff. These resources have been universally well received, and anecdotal feedback tells us that our teacher and staff feel that language and literacy training improves teaching strategies and child outcomes. Three examples include Early Reading First, Early Learning Mentor Coach program, and Atlanta Speech School Partnership.

Early Reading First: Between 2006 and 2010 Sheltering Arms partnered with United Way's Early Learning Department to provide the federally funded Early Reading First (ERF) program in seven of our centers. ERF incorporated the use of a literacy-focused, research-based curriculum, Opening the World of Learning (OWL). To provide the foundation for future reading and school success, ERF program goals were: (1) Improve children's *oral language skills* (expressive and receptive language and vocabulary development); (2) Build *children's alphabet knowledge* (letter recognition); (3) Develop children's *phonological awareness* (rhyming, blending segmenting); (4) Increase children's *print awareness*; (5) Implement and maintain an SBRR, language and print-rich preschool environment to provide abundant opportunities for children to use print and practice literacy skills; and (6) Increase preschool teacher knowledge and use of SBRR to systematically address early literacy skills essential to future reading success including print awareness, alphabet knowledge, phonological awareness, and oral language. Professional development methods included intensive in-class coaching, study groups, training institutes and seminars, and model classroom observation. Under the leadership of United Way's Early Literacy Coaches, teachers became more skilled in gathering high-quality

data from progress monitoring tools and in using that data to inform instruction. Key assessment tools included the Peabody Picture Vocabulary Test, Third Edition (PPVT-III); Phonological Awareness and Literacy Screening (PALS) Pre-K; the Work Sampling System (WSS); OWL curriculum-embedded assessment; and the Early Language and Literacy Classroom Observation (ELLCO).

Early Learning Mentor Coach grant: Over the past 17 months, this federally funded grant in partnership with Quality Assist provided highly skilled mentor coaching that created a bridge between training and classroom practice to ensure teaching practices improved. Quality Assist is a highly respected training and technical assistance firm providing innovative solutions and proven approaches that raise the quality of early childhood care and education. With their support, Sheltering Arms implemented an Early Learning Mentor Coach Program to enhance its current professional development system. According to a comprehensive review on effective professional development, the National Staff Development Council (2009) identified four primary features associated with positive outcomes. Professional development produces meaningful results when it is: intensive, ongoing, and connected to practice; focused on specific curriculum content; supported by strong relationships; and aligned with larger system improvement priorities and goals. The Sheltering Arms Early Mentor Coach Program was a multi-dimensional approach that incorporated all of these features as well as: classroom, teacher and child assessments, classroom-based mentor coaching, monthly study groups for teachers, and a specialized training series for teachers. The program supported key staff in developing the knowledge and skills needed to effectively mentor coach and provided intensive mentor coaching support in 22 selected classrooms; created an agency-wide system for mentor coaching that now addresses ongoing professional development needs; and trained and certified 22

Curriculum Specialists and Instructional Lead Teachers to provide mentor coaching in all Sheltering Arms classrooms. The program also increased the quality of classrooms as measured by the Classroom Assessment Scoring System (CLASS: Pianta, LaParo, Harmre, 2008) domain – Instructional Support; increased scores in the *Infant and Toddler Components* of the *Assessment Profile for Early Childhood Programs*; and aligned the new mentor coach system with larger program improvements.

Atlanta Speech School Partnership: Sheltering Arms formalized our partnership with the Rollins Center for Language and Learning in 2011 by establishing a language and literacy professional development model project at our East Lake Early Education and Family Center. The Atlanta Speech School's Rollins Center for Language & Learning provides research-based, professional development in teaching language and literacy to teachers and school leaders working with children from birth through eighth grade. This project will put in place a personal coaching/intensive training/ eLearning model that will become systemic and sustainable by finding a balance between these learning modalities that is fully effective and that can be replicated. The following professional learning sessions/topics align evidence-based practices with the current curricular program at the East Lake Center. Training is being delivered through a blended delivery model, including "live" training sessions as well as eLearning sessions developed on Rollins' *Read Right from the Start-Pre-K* Project. This includes training on oral language development, early literacy development, assessment/use of data, and an integrated approach to language/literacy instruction. Following the training sessions, a Rollins facilitator will provide on-site support through coaching and mentoring. A typical coaching cycle involves demonstration teaching, co-teaching, observation and feedback. The Rollins facilitator also

provides embedded professional learning based on needs identified by teachers and staff and will also provide consult on an “as needed” basis

Even though we offer some high-quality professional development, our needs are significant. To offer teachers new and creative literacy approaches, with grant funding we will implement the Woodruff Art Center’s Georgia Wolf Trap program. In this program, classroom teachers work with professional teaching artists on a monthly basis to learn drama strategies that promote learning in literacy skills including speaking, listening, reading and writing. This research based program builds drama skills in oral and non-verbal expression, creative and critical thinking, ensemble work and self-regulation. Professional learning activities with teachers include instruction in drama strategies, classroom demonstration, team teaching, coaching, video observation, reflection, documentation and assessment and how to adapt lessons to Inclusive learning environments. A Parent Caregiver workshop will focus on Interactive Read Aloud as a strategy in support of the Home and Family Connection. Unit content is based on high quality children’s literature selected by the teacher and the teaching artist, with relevance to curriculum standards and children’s’ lives. Lessons are based on the Core Curriculum in Language Arts and the Georgia Performance Standards in Theatre for each grade level, using the “backwards design” template. The Alliance Theater Program incorporates best practices from early childhood education including thinking routines, brain-based learning and differentiation. Lessons can be adapted for specific populations such as special needs students. Language and literacy development skills are addressed through drama strategies including Listening and Comprehension, Phonological Awareness, Vocabulary Development, Expressive Language, Pre-reading and Pre- writing. Parent and caregiver workshop will focus on teaching Interactive Read Aloud.

In addition to the high-quality, standards-based professional development offered by the Woodruff Arts Center, we will also work with United Way to provide professional development for Center Management Teams, Lead Teachers, and Teachers at the four Sheltering Arms South Fulton Centers. For more than 10 years, United Way has supported the early childhood community and invested in innovative programs and outreach initiatives to improve the quality of early care and education for children ages birth to five. Over the past five years, United Way has worked collaboratively with partners to improve the quality of early care programs and providers and develop, strengthen, and grow literacy programs by providing:

- technical assistance to child care centers and training of child care providers to secure and maintain national accreditation,
- intensive professional development of early childhood professionals focused on evidence-based practices so that children to have the necessary skills to enter kindergarten ready to learn, and
- partnerships that provide linkages to the K - 12 system and the early childhood community.

Their experience and expertise as a four-time Early Reading First grantee uniquely positions them to provide professional development that meets the needs of the early childhood professionals, builds on best practices and lessons learned and are grounded in scientifically-based reading research (SBRR).

United Way's Leadership Institute for Language and Literacy is a four-day series of workshops focused on leading language and literacy improvement through a variety of best practices. The goal of the Institute is to increase knowledge and use of scientifically based reading research among leadership to systematically foster the development of early literacy skills essential to future reading success. Administrators will focus on developing and

implementing a Literacy Action Plan. They will develop transition teams to address the early education and school connection. The four day, five hour sessions will be offered to Fulton County district level staff, Sheltering Arms Center Directors and Curriculum Specialist, local Family Childcare provider leadership, and local childcare centers.

Further, United Way will provide two-day, five hour professional learning opportunities for Pre-K teachers. Based on the needs of the teachers, the professional learning topics may include but is not limited to:

- exploring the complexities of language development including comprehension, vocabulary and phonological awareness;
- assessing current practices and environments that support language and literacy development and learn explicit and implicit strategies for positive child outcomes;
- exploring the concept of classroom climate and ways teachers can strengthen the language environment;
- utilizing data to inform instruction;
- examining strategies for building partnerships with families in support of children's language and literacy skills;
- furthering teachers' skills in teaching new vocabulary;
- introducing phonological awareness skills and providing teachers with strategies and activities for use in the classroom;
- examining the stages of children's writing development, the literacy skills related to concepts about print and strategies for supporting children's early writing.

f. Assessment / Data Analysis Plan (5 points)

The Work Sampling System provides observational assessment to systematically document children's skills, knowledge, behavior, and academic accomplishments in seven domains. This reliable program enables continual progress monitoring from multiple sources, documented through developmental guidelines, checklists, and portfolios. Ongoing assessment is summarized three times per year (fall, winter, spring) for each child in an easy-to-read report that families can understand and administrators can readily use.

Bright from the Start Pre-K Operating Guidelines require teachers to use Georgia's Pre-K Child Assessment Tool (Work Sampling). Baseline GKIDS scores will be analyzed at the beginning of the 2013-14 school year. The percentage of proficient ratings scored by children who participated in the Striving Reader Grant will be compared to the children who did not participate to determine the impact of the resources provided by the grant.

New Teachers will receive online and face-to-face Work Sampling Online training as required by Bright from the Start. Fulton County Schools Pre-K Program Specialists will form Professional Learning Communities to give Pre-K Teachers a forum to discuss student documentation. This will help increase inner-rater reliability on the Developmental Checklist.

Assessment data is shared with parents during the three parent conferences per year for each child: in the fall, winter and spring. All Pre-K teachers have received training from the Georgia Department of Early Care and Learning in how to share assessment data with parents.

IV. Experience of the Applicant (10 points)

A. LEA Initiatives

Fulton County Schools has a strong track record of effectively implementing large, competitive grants at the federal, state, and private foundation level. Examples are included in the table below.

Competitive Grant Title	Funded Amount	Audit Findings
Smaller Learning Communities grant	\$5.2M	No audit findings
Readiness & Emergency Management for Schools grant	\$608,355	No audit findings
Teaching American History grant	\$989,801	No audit findings
Carol M. White Physical Education grant	\$1.5M	No audit findings
Mathematics and Science Partnership grant	\$440,356	No audit findings
Strategic Data Project grant	\$500,000	No audit findings

At the federal level, in 2008, Fulton County Schools received a \$5.2 million Smaller Learning Communities grant from the U.S. Department of Education to develop career-focused academies in four high-need high schools, including the targeted Creekside High School. The initiative has been successful; participating schools have seen increased student proficiency on the state tests, increased graduation rates, and increased enrollment in postsecondary education the year following graduation. Other competitive, federal grant awards include a \$608,355 Readiness and Emergency Management for Schools grant in 2009, a \$1 million Teaching American History grant in 2008, and a \$1.5 million Carol M. White Physical Education Program grant in 2004. At the state level, FCS has received multiple Mathematics and Science Partnership Program grants from the Georgia Department of Education – the current grant valued at \$440,356. Further, Fulton County Schools received a Strategic Data Project grant valued at approximately \$500,000 from the Center for Education Policy Research at Harvard University. The Strategic Data Project, funded by the Bill & Melinda Gates Foundation, is a national education initiative to help school district and state leaders increase student achievement and attainment through data-informed decision-making.

B. Initiatives Implemented Without Outside Funding Support

FCS has developed and implemented numerous education programs designed to increase student achievement using general operating funds. These programs attend to the delivery of student-focused instruction, ongoing assessment, use of data, and continuous improvement. Our

benchmark assessment program, known as Checkpoints, assesses student mastery of the Georgia Performance Standards (GPS) in a pre-test/post-test format each semester. Teachers and principals have easy access to Checkpoints data for formative instructional planning, as well as placement of students within the on-level, advanced or accelerated curriculum through an online Student Achievement Management System (SAMS). Teachers access SAMS to support instructional practices through pacing guides, units, lesson plans and instructional resources for all curricular areas and grade levels. The utilization of these formative assessments and the analysis of student-specific data have enabled teachers to implement differentiated learning strategies to improve student achievement. Since initial implementation of the GPS, tools such as Checkpoints and SAMS have helped the district demonstrate steady gains in the percentage of students meeting and exceeding state standards in all grades and subjects.

C. Capacity to Coordinate Resources

As demonstrated through our history with successful implementation of multiple federal, state and private grants and internal initiatives, FCS staff and faculty have the capacity and expertise to successfully implement large, complex initiatives. FCS will implement the proposed Striving Reader project on time and within budget. The FCS management team has extensive experience working across departments and schools as well as with external partners to achieve project goals. Staff members from partnering organizations, i.e., United Way, Sheltering Arms, and the Woodruff Arts Center, all have experience implementing complex projects that are time and budget constrained.

D. Sustainability of Initiatives Implemented by the LEA

FCS is committed to the Striving Reader project and values the need to provide high-quality literacy support to targeted schools. Dr. Robert Avossa, the superintendent, has made this

initiative a district priority. Establishing the grant committee and conducting needs assessments have provided a solid foundation for FCS' Striving Reader grant and have allowed district and school leaders to plan with the end in mind. That is, the district and targeted schools have established long-term goals and incorporated sustainability considerations into their literacy plans. FCS will sustain programming beyond the grant period by securing funding from a variety of sources. FCS general operating funds will be used to support literacy investments. Title II, Part A funds will help support professional development in literacy. Grant funding from local and national philanthropic organizations will be pursued to sustain the literacy interventions over time. Prospective funders who have a philanthropic focus on supporting literacy initiatives include: Laura Bush 21st Century Librarian Program, National Endowment for the Humanities, The Libri Foundation, The Braitmayer Foundation, The Malone Family Foundation, etc. The local business community also will be solicited for corporate contributions to support literacy interventions, e.g., Dollar General, Verizon, AT&T, Target, Wal-Mart, Sylvan Dell Publishing, Houghton Mifflin Harcourt, Barnes and Noble, ING, Sun Trust, etc.

V. Resources (10 points)

A. Coordination with Existing Programs and Family Literacy Services

The district has the capacity to implement with fidelity a large, complex grant like the Striving Reader Comprehensive Literacy Project and align resources to complement existing funding streams. FCS is not included in the state's Race to the Top grant, nor does it receive any School Improvement Grant funding. Thus, FCS is currently not implementing any district-wide, federally-funded reform initiatives that might absorb limited capacity within schools. The targeted schools are willing and excited about implementing a Striving Reader grant. The table

below summarizes select state and federal funding received by the district and allocated to the targeted schools and centers.

Resources Available	Title I Funds	Title II Funds	Bright From the Start Funds
<i>Fulton County Schools</i>	\$20,685,036	\$2,330,577	\$5,650,000
Bear Creek MS	\$287,040	n/a	n/a
Bethune ES	\$197,440	n/a	\$98,530
Campbell ES	\$248,320	n/a	\$59,806
Creekside HS	n/a	n/a	n/a
E.C. West ES	\$162,134	n/a	\$158,336
Love T. Nolan ES	\$200,640	n/a	\$109,071
McClarín HS	\$76,480	n/a	n/a
Oakley ES	\$196,160	n/a	\$59,806
Palmetto ES	\$132,160	n/a	\$109,071
Sheltering Arms (4 centers)	n/a	n/a	\$473,308

Title I is a federally funded program designed to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging state academic standards and state academic assessments. The district's Title I Office provides Title I schools with extensive technical assistance on the appropriate use of funds to comply with federal funding rules and regulations to ensure that funds supplement and not supplant existing resources. Title I funding will complement Striving Reader investments in literacy. **Title II** funding is held at the district level and supports all schools; individual schools do not receive a Title II allocation. The purpose of Title II, Part A is to increase the academic achievement of all students by helping schools and districts improve teacher and principal quality and ensuring that all teachers are highly qualified. Priorities for the district's Title II, Part A funding include: moving all non-highly qualified teachers to highly qualified status within an appropriate timeframe, assisting special education teachers with gaining the content knowledge necessary to add content concentrations to their certificates,

revising procedures for selecting and retaining professionally certified and highly qualified teachers, and supporting professional development activities aimed at building teacher and principal effectiveness. The purpose of Title II, Part D is to improve student academic achievement through the use of technology in elementary schools and secondary schools. Title II, Part D formula grants for 2010–2011 created a scaffold upon which the Striving Reader Grant can continue to build. Besides having basic literacy skills, today's students also need technology skills for communicating, investigating, accessing and using information, computing, thinking critically about messages inherent in new media, and understanding and evaluating data. Georgia Department of Early Care and Learning (**Bright from the Start**) is responsible for meeting the child care and early education needs of Georgia's children and their families. Currently, FCS' Pre-K program provides 6.5 hours of instructional time, five days per week, and 160 days per year for eligible children. The school district receives state lottery funding through Bright from the Start to pay for classroom teachers, equipment, materials, and supplies to support its Pre-K program. The portion of the Pre-K grant funds that are allocated to the school level budgets are for teacher and teacher assistant salaries, substitutes, and benefits. The district also allocates funds to school budgets for instructional materials and supplies, field trips and postage. The remaining Pre-K grant funds are kept at the district level for distribution to schools as needed and for support of students, parent involvement, teachers, and classrooms. Bright from the Start funding for the Sheltering Arms early learning centers covers teacher and assistant salaries and benefits, instructional materials and supplies, and other non-instructional costs.

Federal funding from Title I and II as well as state funding from Bright from the Start will complement investments made with Striving Reader funds to ensure alignment with student needs. FCS will incorporate Striving Reader plans and funds into its annual planning and review

process in order to ensure funds are used to supplement, not supplant, Federal, state or local funds and to ensure alignment of resources. As schools submit their School Improvement Plans coupled with their Title I and Title II Plans to their Area Superintendents and to the Assistant Superintendent for Curriculum and Support for review, close attention will be paid to the alignment of identified student needs, instructional strategies to address the needs, timelines for implementation and monitoring, and budgets, to ensure that all resources are focused and converge to support student achievement in the area of literacy and will not be used to supplant public funds. Area Superintendents provide feedback to schools on drafts and must sign-off on the final versions of the school plans.

VI. Management Plan and Key Personnel (10 points)

Administrators, faculty members and program staff from FCS, United Way, Sheltering Arms and Woodruff Arts Center have the capacity and expertise to successfully implement our Striving Reader grant. Qualifications for key personnel are laid out below.

A. Management Plan and Key Personnel Responsible for Grant Implementation

The FCS management team has extensive experience working across departments and with external partners to achieve project goals and thus will implement the proposed project on time and within budget. Faculty from partnering institutions all have experience implementing complex projects that are time and budget constrained. The following individuals are qualified for their role and committed to improving literacy in targeted schools and early learning centers. The full time equivalent (FTE) for Fulton County Schools' staff to implement the grant is included in parentheses.

Dr. Robert Avossa – FCS Superintendent (0.025 FTE) – will be ultimately responsible for grant implementation. Dr. Avossa will keep the Fulton County Board of Education briefed on grant

progress and results and will allocate the necessary resources to ensure fidelity of implementation. Dr. Avossa received his Ph.D. from Wingate University.

Dr. Linda Anderson – FCS Deputy Superintendent Instruction (0.05 FTE) will chair the Striving Reader Governing Board and provide strategic oversight for grant implementation. Dr. Anderson reports directly to the Superintendent; she received her Ph.D. in Educational Leadership from Mercer University.

Amy Krause – FCS Assistant Superintendent Curriculum and Support (0.10 FTE) will be accountable for the Striving Reader grant and will supervise the Striving Reader Project Director to integrate proposed strategies and supports with other system processes to ensure alignment. Ms. Krause has served as the district's liaison on several literacy initiatives including Reading Recovery with Georgia State University and Reading First with the Georgia Department of Education. As a former reading specialist in the state of Alabama, Ms. Krause understands the components of a balanced literacy approach. Ms. Krause holds a Specialist degree in Educational Leadership and a Master of Arts in Education with a concentration in Early Childhood and also Administration and Instructional Supervision.

Dr. Vic Shandor – Instructional Area Superintendent (0.1 FTE) is the Instructional Area Superintendent for the Creekside cluster of schools—the main feeder pattern in this grant. He will serve on the Striving Reader Governing Board and will ensure vertical alignment of curriculum and professional learning across Striving Reader schools. In his capacity as a member of the FCS Executive Leadership team, Dr. Shandor will communicate best practices to schools across the district to support sustainability of Striving Reader strategies. Dr. Shandor holds a Master's degree in Special Education and an Ed.D. in Educational Leadership.

Larry Wallace – FCS Striving Reader Project Director (1.0 FTE) will coordinate the Striving Reader project and manage the grant budget. Mr. Wallace will serve as a bridge among the schools and the functional areas involved. Externally, he will liaise with project partners on an operational level and will work collectively with partners to ensure their services are integrated into the project design. Mr. Wallace has most recently served as Project Director for the district's \$5.2 million Smaller Learning Communities grant. He has extensive experience managing complex projects, involving multiple partners, with significant reporting requirements. Mr. Wallace holds a Master of Arts in Education with a concentration in Instructional Technology and a Specialist in Education with a concentration in Educational Leadership.

Katrina Mitchell – UWMA Senior Director, Education will serve on the Striving Reader Governing Board. Ms. Mitchell is responsible for coordinating all professional learning for Sheltering Arms faculty and FCS Pre-K teachers in targeted elementary schools.

Amy Hobart – Sheltering Arms Director of Early Care and Education will sit on the Governing Board and act as liaison for the Sheltering Arms Striving Reader component. Ms. Hobart designs and delivers training to enhance the effectiveness of the Sheltering Arms teaching and family support staff based on national competency goals and indicators in early education, and provides program-level consultation and training to build the capacity of the center management teams in developmentally appropriate practice.

Carol Jones – Woodruff Arts Center, Alliance Theatre - Director of Institute for Educators and Teaching Artists will serve on the Striving Reader Governing Board and is responsible for coordinating all professional learning for teachers participating in the Alliance Theatre's literacy-based programs Pre-K – 2 Georgia Wolf Trap Early Learning Through the Arts, Reader's Theatre, and Collision Plus.

B. Commitment to Implementation Plan

The individuals named in the table below support the district’s Striving Reader grant proposals and are committed to implementing grant strategies and activities with fidelity. The Instructional Area Superintendents are champions of the Striving Reader grant because it provides more focused attention to targeted schools’ literacy needs.

Site/District	Individual Responsible	Supervisor
<i>Site-Level Coordinators - Fulton County Schools</i>		
Bear Creek MS	Darron Franklin – Principal	Vic Shandor – Instructional Area Superintendent
Bethune ES	Zina Rhodes – Principal	Iris Moran – Instructional Area Superintendent
Campbell ES	Denine Cadet - Principal	Vic Shandor – Instructional Area Superintendent
Creekside HS	Earnest Killum – Principal	Vic Shandor – Instructional Area Superintendent
Evoline C. West ES	Catherine Smith – Principal	Vic Shandor – Instructional Area Superintendent
Love T. Nolan ES	Chandra Lemons – Principal	Iris Moran – Instructional Area Superintendent
McClarín HS	Anita Lee – Principal	Susan Dorenkamp – Instructional Area Superintendent
Oakley ES	Vonnie Thompson - Principal	Vic Shandor – Instructional Area Superintendent
Palmetto ES	Carlene Millen - Principal	Vic Shandor – Instructional Area Superintendent
<i>Site-Level Coordinators - Sheltering Arms</i>		
East Point Center	Kathy Bolling – Acting Director	Bernice Paschal – Program Coordinator
Oakley Township Center	Ron McNair – Center Director	Bernice Paschal – Program Coordinator
Stonewall Tell Center	Rosalyn Williams – Center Director	Lee Shaw – Program Coordinator
Welcome All Center	Linda Rhea – Center Director	Bernice Paschal – Program Coordinator
Professional Learning Coordinator	Lisa McDermott - Facilitator	Karen Cox – Executive Director, Professional Learning
Instructional Technology Coordinator	Mindy Ramon - IT Training Support Coordinator	Kathy Politis – Director, Instructional Technology
Literacy Assessment Coordinator	Mary Rulo – Support Specialist, ELA	Sherrie Moss – Director, ELA
Purchasing	Professional Assistant	Larry Wallace – Striving Reader Project Director

VII. Sustainability Plan (10 points)

Fulton County Schools' Striving Reader grant can serve as a blueprint that can be scaled and replicated to build principal, early learning site director and teacher capacity to improve literacy achievement for all of our students from birth through 12th grade. Our targeted schools and Sheltering Arms' early learning centers will become demonstration sites for how to systemically align multiple funding sources to improve literacy across all content areas. The district will create the Striving Reader Governing Board comprised of key personnel from the central office, targeted schools, United Way, Sheltering Arms, and the Woodruff Arts Center. The governing board, chaired by Dr. Anderson, will meet biannually to review program data, assess results, monitor progress toward goals and sustain program outcomes over time. Board members will serve as ambassadors to share best practices at local and state literacy forums. Through the district's experience with other large-scale initiatives, it has developed a healthy appetite for data analysis and program improvement. For example, annual evaluations of the Smaller Learning Communities grant have pushed participating schools to reconsider certain approaches and develop new strategies to not only meet grant objectives, but to ensure grant activities become embedded in schools' strategic plans beyond the life of the grant. These lessons learned will be carried over to the implementation of the Striving Reader grant.

A. Expanding the Lessons Learned with other Schools and New Teachers

A goal of the Striving Reader grant is to identify best practices at participating schools and share those strategies with schools throughout the district to ensure sustainability. At the district level, the communication of best practices will be the responsibility of the Instructional Area Superintendent (Dr. Vic Shandor) and the Project Director. Participating schools will share lessons learned at the district's annual Best Practices Conference for teachers, instructional staff

and school leaders. In addition, participating schools will be expected to share their experiences with all schools and divisions within the district through technical assistance workshops, school site visits, and administrative staff meetings. For example, teachers of English learners in Striving Reader schools can demonstrate through lesson plans how they scaffold instruction by using best practices for EL when developing oral language, reading skills, and writing.

B. Extending the Assessment Protocol Beyond the Grant Period

Beyond the life of the grant, the Dynamic Indicator of Basic Early Literacy Skills (DIBELS Next) and Scholastic Reading Inventory (SRI) can be used to provide essential data for all students. Not only does DIBELS Next provide a fluency measure, it also assesses early phonemic awareness and first sound fluency of an individual student. The SRI provides benchmark assessments for the identification of students' reading skills; SRI guides teachers to differentiate and offer intervention strategies for struggling students. Students receive a Lexile score based on the comprehension of a text which has an equivalent reading level. Once a student masters one level, the program gives another reading passage at a higher level. Media centers categorize books by their Lexile levels; therefore, SRI helps match the reader to the appropriate text for 75% reading accuracy rate. An accuracy rate ensures that appropriate challenge is built in, but the level of frustration for the student will be low. The grant-sponsored professional development for DIBELS Next and SRI will ensure that all staff in targeted schools will be trained in the use of these assessments.

C. Extending the Professional Learning Practices beyond the Grant Period to New Staff

UWMA will provide Sheltering Arms early learning teachers and FCS Pre-K teachers with the skills and knowledge to enhance the early language, literacy, and pre-reading development of young children, particularly those from low income families, through strategies and professional

development that are grounded in scientifically-based reading research and family literacy. The professional development plan systematically addresses early literacy skills essential to future reading success by providing seminars, field trips to model classrooms, study groups, in-classroom coaching, summer institute and local and national conferences. The success of UWMA's programs can be measured by the quality of the classroom environment, child outcomes that assess the main skills predictive of reading success, the use of valid assessment instruments, and the professional learning opportunities provided to teachers. Aspects of the Striving Reader professional learning practices delivered by United Way that will be continued beyond the grant period include: enhancing classroom learning environments, providing teachers with new ways to help children improve their language, providing coaching and early literacy training for teachers to help them fully integrate literacy throughout their classrooms, engaging families in their child's early reading experiences to reinforce these skills at home.

As Striving Reader schools bring on new staff in future years, literacy training will be provided as part of new teacher development. Curriculum contacts (High School Department Chairs, Middle School Coordinators, and Elementary Curriculum Support Teachers) will provide opportunities for new teachers to learn grant-funded strategies, such as those learned through the partnership with the Woodruff Arts Center, and use resources during the first two years of induction as a part of each school's new teacher support program. These programs support the new teacher's transition into the school. An assigned mentor teacher will work with new staff as they begin to plan and implement instructional strategies that support the school's literacy plan.

D. Sustaining Technology beyond the Grant Period

On November 8, 2011 Fulton County voters extended a one-penny sales tax to upgrade technology in classrooms and build new schools. The SPLOST (Special Purpose Local Option

Sales Tax) education tax is expected to raise \$912 million for Fulton County school improvements over its five-year lifetime. The SPLOST proposal calls for technology enhancements, particularly in the areas of wireless, mobile learning devices for student use, updated video and audio recording tools, improved and expanded distance learning for students, virtual space for digital student work, interactive classroom websites with curriculum resources and assignments, updated equipment for technology and career-oriented classes, teacher/student communication and collaboration tools, and online professional learning resources for staff. The district's technology plan will help sustain the Striving Reader investments made in educational technology.

VIII. Evaluation – Assurance of Compliance with GADOE Requirements

Fulton County Schools will adhere to all OMB, EDGAR, GPRA, GADOE Performance Measures, and grant evaluation requirements. The district will prepare, according to GADOE requirements, an annual evaluation report by June 30th each year to document progress towards achieving grant goals.

- K. Letter of Support – Sheltering Arms Pre-K Faculty

A. Comprehensive Literacy Needs Assessment

The district does not have a single needs assessment document that reflects all of the data collection and analysis that was performed for this grant. The core grant committee from the central office plus the faculty and administrators in the targeted schools and centers reviewed a variety of data sources as part of the needs assessment process including:

- Criterion-Referenced Competency Tests (CRCT) performance data for elementary and middle school students
- End of Course Tests (EOCT) performance data for high school students
- 3rd, 5th, and 8th grade Writing Assessments
- Graduation data for high school students
- Iowa Tests of Basic Skills (ITBS) for 3rd, 5th, and 8th graders
- Checkpoints formative assessment data
- Title I Plans
- School Improvement Plans
- Intensive School Plans
- Socio-economic data
- AYP data
- Mobility data
- Attendance data
- Discipline data
- Pre-K waiting lists
- Preschool Special Education (PSE) classroom data
- Georgia Pre-K work sampling data

B. Literacy Plan

Fulton County Schools does not have a documented literacy plan that can be attached to this grant. The literacy leadership through the English/Language Arts Department references research to determine best practice in literacy instruction. The foundational documents are the reports from the Carnegie Corporation: *Time to Act: An Agenda for Advancing Adolescent Literacy for College and Career Readiness, 2010*; *Writing Next: Effective Strategies to Improve Writing of Adolescents in Middle and High School Literacy, 2006*; *Reading Next: A Vision for Action and Research in Middle and High School Literacy, 2004*. For the primary grades, the work of Donald Graves, Lucy Calkins, Richard Allington, Ralph Fletcher, Fountas and Pinnell, and others, form the framework for literary instruction.

A balanced literacy approach through Writer's and Reader's Workshops (Shared Reading and Interactive Read Aloud, Mini Lesson, Teacher Modeling, Student Writing and Teacher Conferencing, and Sharing) has been the instructional focus of the English/Language Arts Department. Because the systemic approach to literacy was fragmented with varieties of writing and reading programs, we have adopted the workshop approach for K-12 Language Arts classes.

The CRCT is designed to measure how well students acquire the skills and knowledge described in the Georgia Performance Standards. The reading class is additional to the Language Arts class that every student takes. The middle school reading course is skills driven. The students perform poorly on comprehension, vocabulary, and fluency elements in reading. While certification satisfies minimum requirements to teach the course, the students often continue to receive instruction in traditional pedagogy that did not work the first several times. The younger students come to school with limited schema of reading readiness, such as reading left to right and top to bottom, and their connections may never reach text to self or text to text connections.

These poor readers need connections to reading other than verbal/linguistics; they need music and art and kinesthetic intelligence activation, not to mention the technology connections.

Classes are encouraged to create Reader's Theater presentations so that students are often on their feet and addressing the listening/speaking/viewing standards.

To complement the work in the anthologies, students read novels assigned to each grade level. Unfortunately, very little choice is afforded the non-reader. Teachers are advised to teach one novel per semester: the first semester novel study is teacher directed; the second semester novel study is student driven through literature circles or other cooperative forms. The intent is to gradually release the responsibility of instruction from the teacher to the student.

December 6, 2011

Dr. Robert Avossa
Superintendent
Fulton County Public Schools
786 Cleveland Avenue SW.
Atlanta, GA 30315

Dear Superintendent Dr. Robert Avossa:

I am writing to you as Vice President of Education at United Way of Metropolitan Atlanta to express our support for Fulton County's application for the Striving Readers Comprehensive Literacy Project. For more than 10 years, United Way of Metropolitan Atlanta has supported the early childhood community through Smart Start and invested in initiatives like Early Reading First, a USDOE grant program that sustain our education goals to see that children enter school ready to learn, avoid risky behaviors and graduate prepared for careers.

United Way has long been a leader in early care and education services to parents and children from birth to age five. Smart Start has successfully led the state's efforts to improve and enhance the well-being of Georgia's children and has collaboratively engaged other state agencies, parents, child care providers, local school systems, early childhood professional organizations, children's advocacy groups, the business and philanthropic community, higher education and other stakeholders to serve Georgia's children effectively and efficiently.

United Way has worked collaboratively with local, state and regional organizations in advancing programs, refining innovative ideas into best practice models and incorporating lessons learned from large scale grant-making. Relevant examples are in our early learning community-based partnership initiative and the coordination of the coalition of early childhood advocates and professionals who have implemented four U.S. Department of Education-funded Early Reading First grants.

United Way also has a reputation for thoughtfully and strategically convening stakeholders at state-wide and regional levels. One example is our convocation the Early Education Commission that researched best practices in early learning and the consequent impact on Georgia's economic development. Having identified best practices that result in solution-driven strategies that can be sustained over time, the Commission recommended the creation of the Georgia Early Education Alliance for Ready Students (GEEARS) to ensure that advocacy for early education work continues.

Over the past five years, United Way has invested more than 36 million dollars in local, state and federal funding in support of young children and their families. Included are:

- Grants to early childhood providers to provide scholarships to families to cover child care costs

United Way of Metropolitan Atlanta

100 Edgewood Avenue, N.E.
Atlanta, Georgia 30303
404.527.7200

- Technical assistance to child care centers and training of child care providers to secure and maintain national accreditation
- Intensive professional development of early childhood professionals focused on evidence-based practices so that children to have the necessary skills to enter kindergarten ready to learn
- Support services and resources for families that promote parent leadership, understanding of developmental milestones and prevention of child abuse and neglect
- High quality home visiting that matches interested parents with professionals who provide information and support during a child's first three years
- Partnerships that provide linkages to the K - 12 system and the early childhood community
- Opportunities for young children and their families to have quality educational and social experiences that support a successful transition to kindergarten
- Engaging the civic, business and social service community in supporting strategies and initiatives that improve outcomes for early education in Atlanta and throughout Georgia

United Way of Metropolitan Atlanta pledge our support by providing high quality professional learning opportunities based on scientifically based reading research for administrators, teachers, center directors, and family childcare providers. We appreciate this opportunity to partner with Fulton County Public Schools and we enthusiastically endorse the application for the Striving Readers Comprehensive Literacy Project.

Sincerely,

A handwritten signature in black ink that reads "Navella Jean Walker, Ph.D." in a cursive script.

December 8, 2011

Dr. Robert Avossa
Superintendent – Fulton County Schools
786 Cleveland Ave., SW
Atlanta, Georgia 30315

Dear Dr. Avossa:

It is an honor to provide this letter of support for Fulton County Schools' application for a Striving Readers grant. We are very pleased to be included as a partner in the application.

Sheltering Arms was established in 1888, and since 1990 the number of Sheltering Arms centers has almost doubled from 9 to 16, with an increase in daily capacity from 744 to more than 2,300 children, and services have been added to better address the needs of the family and the community. As a result, the budget has grown from \$3.5 million in 1991 to more than \$26 million today. The agency's programs include Early Head Start for infants and toddlers, Head Start for three and four year olds, the Georgia Pre-kindergarten Program for four year olds, and early childhood education with fees based on family size and income. Sheltering Arms programs are accredited by the National Association for the Education of Young Children (NAEYC), and have been recognized as a Head Start Program of Excellence, Head Start's highest level of recognition for high quality.

In 2004, Sheltering Arms conducted a \$15 million capital campaign to build four state-of-the-art Early Education and Family Center facilities in south Fulton County. Fulton County Schools was an important partner in this undertaking, providing land adjacent to elementary schools for three of the new facilities. This partnership has endured, and by partnering with Fulton County Schools we are able to provide an innovative model that 1) improves teacher retention and recruitment by providing affordable, convenient early childhood education, 2) improves school readiness in an area that has struggled with performance standards, and 3) develops improved school readiness strategies by tracking the performance of Sheltering Arms alumni in Fulton County elementary schools.

We appreciate this opportunity, and pledge to assist in every way possible to produce a nationally acclaimed Striving Readers initiative.

Sincerely,

Elaine P. Draeger
President/CEO

E. Letter of Support – Woodruff Arts Center

December 13, 2011

Dr. Robert Avossa
Superintendent, Fulton County Schools
786 Cleveland Ave. SW
Atlanta, GA 30315

RE: Grant request on behalf of Fulton County Schools

Dear Dr. Avossa:

I am delighted to submit a letter in support of the application by the Fulton County Schools for continuing grant support from the Georgia Department of Education under the Striving Readers Program. The Woodruff Arts Center through its various artistic divisions is a major supporter of arts in education (arts integration) as well as a leading supporter of education in the arts. As a stated part of our mission we seek to provide excellence in both arts and education. We interact on and off our campus with children in Georgia schools over a half million times a year. In this effort we have an excellent, long standing and highly valued relationship with the Fulton County Schools.

What is truly remarkable is that our collection of visual arts (High Museum), dramatic arts (Alliance Theater), musical arts (Atlanta Symphony Orchestra) and our in school arts programming (Young Audiences) each support major educational programming aimed at literacy and language development. "I See Literacy," "Sound Learning," "GA Wolf Trap," "Arts4Learning" and "Collision Plus," are each examples of excellent arts integrated programming that address these challenges with positive results.

In addition, our education teams have worked with six Fulton County schools in some experimental research under the Wolf Trap Program that has shown measurable improvement in language development and writing skills. The partnership with the Kennedy Center currently supports programs in two Fulton County schools whereby each grade level has an opportunity to experience a featured work from our Center along with four classroom sessions focused on 21st Century skills through arts integration.

Page 2

I am particularly pleased to support the application of our educational colleagues in the Fulton County School System – not only because they are long standing collaborators who share with us a commitment to address these challenges – but also because they are one of the few systems seeking to integrate arts as a key element in their proposal.

We consider ourselves lucky to have such partners in our shared effort to help increase student learning in literacy and outcomes in life through arts integration. Please know that their application has our unqualified support and endorsement. Please feel free to call with any questions you may have.

With kind regards,

Sincerely yours,

Joseph R. Bankoff
President & CEO
Woodruff Arts Center

J. Striving Reader Comprehensive Literacy Grant Specific Program Assurances

**** Please note: The Georgia Department of Education (GaDOE) considers the applicant to be the fiscal agent for the grant. Therefore, any grants awarded will be in the name of the fiscal agent.**

Fulton County Board of Education

Official Entity Name for Fiscal Agent/Sub-Grant Award Recipient

Instructions: The authorized signatory must initial the box adjacent to each assurance and must sign and date the document in blue ink to certify agreement to comply with each assurance. The fiscal agent must sign and date the document as well. These assurances will be in effect for FY12.

The Sub-grantee hereby assures that it will comply with the following:

Number	Initial Each Box Below in <u>Blue Ink</u>	Assurances
1.		The Sub-grantee assures that it has the necessary legal authority to apply for and receive a SRCL Grant.
2.		Sub-grantee certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.
7.		The SRCL projects will target students who attend Title I schools or schools eligible for Title I schoolwide programs and their families.
8.		The SRCL project will be administered in accordance with all applicable statutes, regulations, program plans, and applications.
9.		The Grantee will participate in all technical assistance/information-sharing opportunities and professional development activities provided through the STRIVING READER COMPREHENSIVE LITERACY GRANT Project Grant Program.
10.		All activities must be correlated with the development of STRIVING READER COMPREHENSIVE LITERACY GRANT goals for children birth through grade 12.
11.		The second year of funding is dependent upon successful program implementation and progress aligned with the components of the request for application submitted.

12.		Prior to any material change affecting the purpose, administration, organization, budget, or operation of the SRCL project, the Sub-grantee agrees to submit an appropriately amended application to GaDOE for approval.
13.		The Sub-grantee agrees to notify the GaDOE, in writing, of any change in the contact information provided in its application.
14.		The activities and services described in the application shall be administered by or under the supervision and control of the Sub-grantee. The Sub-grantee shall not assign or subcontract, in whole or in part, its rights or obligations without prior written consent of GaDOE. Any attempted assignment without said consent shall be void and of no effect.
15.		The Sub-grantee will use fiscal control and sound accounting procedures that will ensure proper disbursement of and account for Federal and state funds paid to the program to perform its duties.
16.		Funds shall be used only for financial obligations incurred during the grant period.
17.	N/A	The SRCL project funds will supplement, not supplant Federal, state, and other local funds that the applicant would otherwise receive.
18.		The Sub-grantee will, if applicable, have the required financial and compliance audits conducted in accordance with the Single Audit Act Amendments of 1966 and OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations.
19.		The fiscal agent will adopt and use proper methods of administering each program, including: (A) the enforcement of any obligations imposed on agencies, institutions, organizations, and other recipients responsible for carrying out each program; and (B) the timely correction of deficiencies in program operations that are identified through audits, monitoring, evaluation and/or technical assistance.
20.		The Sub-grantee will cooperate in carrying out any evaluation of each such program conducted by or for the Georgia Department of Education, the U.S. Department of Education, or other state or Federal officials.
21.		The Sub-grantee will submit reports to GaDOE as may reasonably be required. The Sub-grantee will maintain such fiscal and programmatic records and provide access to those records, as necessary, for those departments to perform their duties.
22.		The Sub-grantee will submit an annual summative evaluation report no later than June 30.
23.		The Sub-grantee agrees that GaDOE, or any of its duly authorized representatives, at any time during the term of this agreement, shall have access to, and the right to audit or examine any pertinent books, documents, papers, and records of the Sub-grantee related to the Sub-grantee's charges and performance under the SRCL sub-grant.

24.		The property (e.g., computers, equipment, classroom desks, tables, and pilferable items) purchased with the SRCL grant funds must be managed in accordance with EDGAR section 74.34 through 74.37 (for non-profit organizations) and with EDGAR section 80.32 and 80.33 (for school districts).
25.		The Sub-grantee certifies that it will abide by GaDOE's Conflict of Interest and Disclosure Policy. Applicants with a conflict of interest must submit a disclosure notice.
26.		The Sub-grantee will comply with the Family Education Rights and Privacy Act of 1974 (34 C.F.R. 99).
27.		Sub-grantee will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to Title VI of the Civil Rights Act of 1964, which prohibits discrimination on the basis of race, color, or national origin; Title IX of the Education Amendments of 1972, which prohibits discrimination on the basis of sex; Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination on the basis of handicaps; and the Age Discrimination Act of 1975, which prohibits discrimination on the basis of age, and the Americans with Disabilities Act of 1990, which prohibits discrimination on a basis of disability.
28.		In accordance with the Federal Drug-Free Workplace and Community Act Amendments of 1989 and the Drug-Free Workplace Act of 1988, the Sub-grantee understands that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance, marijuana, or dangerous drug is prohibited at geographic locations at which individuals are directly engaged in the performance of work pursuant to the 21 st CCLC grant.
29.		All technology purchases (software and hardware) will be approved by the LEA Technology Director for compatibility with current operating systems and building infrastructure. The Technology Director must ensure that any purchases for the building will be able to be implemented and sustained beyond the grant period.

My signature below certifies that I am the authorized signatory for the Fiscal Agent and official Sub-grantee, and that I have read, understand, and agree to abide by all assurances. I also understand that failure to abide by all assurances may result in loss or reduction of grant funding.

X. Budget

A. District Budget Narrative

Assessments and Supplies

Fulton County Schools (FCS) requested funding includes costs for the purchase of required DIBELS Next assessment for all elementary schools, as well as supplies for four teachers per grade level at eight elementary schools. Additionally, funding is requested for required Scholastic Reading Inventory (SRI), as well as licenses, teacher kits, and product support plans.

Curriculum and Instructional Supplies

We request funding for instructional materials and supplies for each targeted Pre-K site with extended programming for 17 weeks, as well as for ESOL curriculum and other appropriate curricula. We also request funding for curriculum and instructional supplies to be used by one cohort of the Parent Leadership Institute for teenage parents at McClarin High School, in order to build the skills and capacity of parents to take greater leadership roles in the systems serving their children, including early learning programs and schools, and to make suggestions for revisions to the curriculum and training. Also, Bright from the Start has approved the use of several curricula in order to provide students with materials that promote oral language development, phonological awareness, and print awareness across all subject areas. Each Pre-K classroom and special needs Pre-K classroom would receive these materials.

Professional Development

We request funding for targeted teachers to have a full day of SRI Implementation training. Additionally, we request funding for targeted teachers to attend the Leadership Institute for Language and Literacy, a four-day series of workshops focused on leading language and literacy improvement through a variety of best practices. United Way Pre-K teachers will attend

two-day, five-hour professional learning opportunities based on their needs. We also request funding for professional learning opportunities for group daycare, family daycare homes, and selected childcare centers in the targeted feeder patterns that support the coordination and alignment of services from birth-5, and support the feeder patterns in these communities. The three-day, five-hour trainings for Fulton County Pre-K teachers will focus on implementing researched based instruction to foster language and literacy, support and extend Pre-K curriculum concepts, and integrate math and science concepts. Pre-K teachers will also attend professional learning for a total of five days at the Literacy Institute with the United Way to learn additional literacy strategies, as well as professional learning to develop skills in implementing the Bright from the Start curriculum. All requested professional development funding also includes benefits calculated at 27.7% for full-time employees and at 10% for teacher stipends for targeted teachers to attend content-specific professional learning.

Additionally, professional development funds will be utilized in a partnership with the Georgia Wolf Trap Literacy Program K-2, which has a professional learning focus. In GA Wolf Trap/Alliance Theatre, classroom teachers work with professional teaching artists to learn drama strategies that promote learning in literacy skills including speaking, listening, reading and writing. The program also builds drama skills in oral and non-verbal expression, creative and critical thinking, ensemble work and self-regulation. Targeted teachers will attend an on-site full-day orientation and instructional session presented by Alliance Theatre at the Woodruff Arts Center staff and Teaching artists, as well as a Summer Seminar. These costs include teacher registration fees and teacher stipends. Also, services provided include 12 classroom sessions with Teaching Artists, to include coaching, demonstration lessons and observations.

Subcontractors/Consultants

We request funding for one full-time equivalent Project Director to manage grant funds, and one Professional Assistant III. Both of these costs include benefits calculated at 27.7%.

Requested contractor funding also includes the cost of Pre-K lead teachers for an additional 21 days and Pre-K teacher assistants for an additional 16 days. The amount includes the daily rate for these teachers and 27.7% for benefits. Additionally, we request funding for Pre-K teachers to be supported by experienced literacy coaches from Bright from the Start throughout the school year.

The GA Wolf Trap Literacy Program K-2 costs include contract fees for Teaching Artists to hold five planning sessions with targeted teachers, documentation, assessment, and curriculum development for each classroom, supplies, including simple props, puppets, and story-telling objects for each classroom, and program administration fees, including training and supervision of Teaching Artists, site coordination, curriculum development, scheduling and data management, budget administration, workshop and seminar design, and other administrative tasks carried out by the Director and Assistant Director of the Institute for Educators and Teaching Artists. Teaching Artists are paid Social Security (Alliance Theatre) at .09%, based on residency, planning, and workshop fees.

Print Materials

We request funding for print materials through GA Wolf Trap, including books, scripts, and supplies for targeted Pre-K classrooms.

Events

We request funding for a parent/caregiver event offered each year through GA Wolf Trap, including a Teaching Artist fee per targeted classroom. We also request funding for targeted Pre-K classrooms to have Read Aloud Workshops.

Pupil Travel/Field Trip

We request funding for the annual field trip through GA Wolf Trap to an Alliance Theatre production for young people. These costs include ticket prices for students, a complimentary ticket for the teacher, and bus transportation per classroom. Targeted Pre-K classrooms will have the option to attend either a play at the Alliance Theatre, or a performance at the Teaching Museum.

Stipends/Additional Salary Money

We request funding for teacher stipends for required Georgia Department of Education Summer Training to implement the grant.

Travel

We request funding for teacher travel expenses for required Georgia Department of Education Summer Training to implement the grant.
