

# Mathematics Standards Overview for Leaders

December 6, 2021 or January 11, 2022

10:00 AM - 12:00 PM

Georgia Mathematics Leaders are invited to participate in this professional learning to learn more about the recently adopted **K-12 Mathematics Standards for Georgia**. Leaders will have the opportunity to engage in discussions about the new standards, best practices for teaching and learning mathematics, and next steps to support the school and/or district with successful implementation. There will also be opportunities to network with other mathematics leaders from across the state!

[Register Here](#) - Reserve your spot today!

This session will provide opportunities to:

- explore and discuss specific big ideas from the new Georgia Mathematics Standards
- explore and discuss the importance of Mathematical Modeling, the Mathematical Practices, and Data & Statistical Reasoning
- explore and discuss K-12 mathematics pathways for success in post-secondary options, K-12 mathematics progressions, and high school course options
- network with other leaders from across the state
- reflect on and plan next steps for the school and/or district
