

Mathematics Standards Overview for Counselors

October 13, 2021 or October 28, 2021

10:00 AM - 12:00 PM

Georgia School Counselors are invited to participate in this professional learning session to learn more about the recently adopted K-12 Mathematics Standards for Georgia. School counselors will have the opportunity to engage in discussions about the new standards, mathematics course requirements and options for high school students. This will also provide opportunities for counselors to network with other school leaders from across the state!

[Register Here](#) - Reserve your spot today!

This session will provide opportunities to:

- explore and discuss specific big ideas from Georgia's new K-12 Mathematics Standards
- explore and discuss mathematics course requirements and options for high school students
- explore and discuss the importance of Mathematical Modeling, the Mathematical Practices, and Data & Statistical Reasoning
- network with other school counselors from across the state
- reflect on and plan next steps for the school and/or district
