Postsecondary Transition:
<ul style="list-style-type: none"> Students who will continue their education in a Program of Study at one of the University System of Georgia institutions should prepare to take the ACT or SAT for admissions. Tests for admissions may vary from institution to institution. Contact the selected institution for specific testing information. Additional admissions information can be found at Staying On Course. (www.usg.edu/student_affairs/documents/Staying_on_Course.pdf) Students who will continue their education in a Program of Study at one of the Technical College System of Georgia institutions should prepare to take the COMPASS test for admissions. Students who will continue their education and training in the US Military should take the ASVAB assessment. Students should utilize electronic college and career databases to select the most appropriate postsecondary opportunities to match their selected career field, including registered apprenticeships. Students can earn both high school and postsecondary credit while in high school. Georgia has multiple dual enrollment programs, including ACCEL, Dual Hope, Move On When Ready and Articulation.

Possible Student Assessment Opportunities:
Students completing a pathway are eligible to take a Credentialing/End of Pathway Assessment (EOPA) upon successful completion of the three required courses in the pathway. For specific assessment information, refer to http://www.gadoe.org/Curriculum-Instruction-and-Assessment/CTAE/Pages/CTAE-Georgia-Assessments.aspx

World Languages Pathway
<p>Interpreters and translators convert information from one language to another. Interpreters work in spoken or sign language, translators in written language. Interpreters work in settings such as schools, hospitals, courtrooms, and conference centers. Many translators work from home. Both interpreters and translators who are self-employed frequently have variable schedules.</p> <p>Although interpreters and translators typically need a bachelor's degree, the most important requirement is that they be fluent in English and at least one other language. Many complete job-specific training programs.</p> <p>Employment of interpreters and translators is expected to grow 42 percent from 2010 to 2020, much faster than the average for all occupations (nationally). Nationally, Interpreters and Translators are considered to have a "bright outlook" because jobs will grow rapidly in the next several years. Employment growth will be driven by broadening international ties and by large increases in the number of non-English-speaking people in the United States. Job opportunities should be best for those who have professional certification.</p> <p>Proficiency in a World Language adds a competitive advantage in all career fields. Employees who possess the ability to communicate effectively with global partners are considered vital to all business currently doing business abroad or who wish to expand internationally. It should be noted that world language proficiency at the advanced level can increase an employee's salary by 20% or more.</p> <p>Specific occupations might include interpreters and translators in the health and medical field, the legal field, judiciary field, entertainment and film field, literary translators, sign language interpreters, guide or escort interpreters, and conference interpreters.</p>
