Co-Assessing Student Performance

Co-assessing student performance occurs when the co-teachers collaboratively evaluate, grade and reflect upon the results of assessments.

Co-assessing Non-negotiables:
- Assessment decisions should be made jointly by both the general educator and the special educator.
- Assessment is more than a grade in a grade book.
- There is no one right way to assess students. They are different learners, and they will require different modes of assessment.
- Co-teachers must define what student improvement and learning means to them in the co-taught classroom.
- Co-teachers must adopt, “They are our kids, and we will assess them together”.
- Co-teachers should conduct formative assessments with feedback provided frequently.
- Compromise will frequently be necessary by both teachers.

Co-Assessing: Promoting Content Mastery for Student Success

Co-assessing co-teaching performance occurs when teachers reflect on the progress and process, offering one another feedback on teaching styles, content, activities, and other items pertinent to improving the teaching situation.
