Friday, April 3, 2020

Directors,

Over 400 educators tuned in for the technical assistance webinar today. Thank you for your continued commitment to student success. I ask that we continue to keep our students, teachers, families, and leaders first during this challenging time of crisis and uncertainty.

We are currently working on guidance to support questions to the following topics and will share as soon as this information is available.

- Georgia Learning Resources System (GLRS)
- Comprehensive Coordinated Early Intervening Service/Coordinated Early Intervening Services

You may access the recording link below. We will update the FAQs with additional questions shared during our time together. Be safe and know that we are in this together!
