Professional Learning

A critical component of Georgia’s Systems of Continuous Improvement is Professional Capacity. Professional Capacity is a major system of the complex school organization that develops a quality staff to reduce the variance of quality in instruction throughout the school. Professional Learning, a component of Georgia’s Tiered System of Supports for Students, is directly aligned with Professional Capacity. Professional Learning is the means by which teachers, administrators, and other staff acquire, enhance, and refine the knowledge, skills, practices, and habits necessary to create and support learning for all students.

Essential Component: Professional Learning

District and school leadership provide a supportive environment for professional learning that supports the implementation of a Tiered System of Supports for Students. A supportive environment for professional learning helps to ensure highly qualified staff, quality core instruction, and implementation of evidence-based practices (EBPs).

Sample Performance Indicators

Performance indicators for district and schools include, but are not limited to:

- Allocates resources to attract, develop, and retain staff to support the implementation of a Tiered System of Supports for Students
- Delivers professional learning on the Multi-Tiered Prevention System
- Implements a comprehensive professional learning plan that consists of trainings, webinars, job-embedded coaching, and follow-up technical assistance
- Creates and monitors policies and procedures that facilitate the implementation of a Tiered System of Supports for Students
- Creates professional development schedules and protects designated time for professional learning
- Collects data to determine fidelity of implementation of professional learning and make adjustments, as needed
- Monitors collaborative planning that includes, but is not limited to data talks and opportunities to share and reflect on best practices and effectiveness of evidence-based practices

Professional Learning topics may include, but are not limited to:

- Assessments for data-based decision-making (see Assessment in Implementation Rubric)
- Data-based decision-making processes necessary to make informed decisions (see Data-Based Decision Making in Implementation Rubric)
- Planning and implementing a Multi-Level Prevention System (see Multi-Level Instruction in Implementation Rubric)
• Cultural and Linguistic Responsiveness (see Infrastructure and Support Mechanisms in Implementation Rubric)
• Effective Teaming Strategies (see Infrastructure and Support Mechanisms in Implementation Rubric)
• Implementing the problem-solving cycle (see School Improvement Process in Georgia’s Systems of Continuous Improvement Systems, Structures, and School Improvement Process.
• Effective Communication (see Infrastructure and Support Mechanisms in Implementation Rubric)

**Infrastructure and Support Mechanisms**—Knowledge, resources, and organizational structures necessary to operationalize all components of Georgia’s Tiered System of Supports for Students in a unified system to meet the established goals. (See Page 7 of Georgia’s Tiered System of Supports for Students Fidelity of Implementation Rubric.)
