Welcome to the Special Student Services Blog. My name is Juanita Pritchard. My job is to provide support for teachers of students with significant cognitive disabilities, students often classified as Moderate/Severe/Profound. I have been working with this type of student and their teachers for over 30 years. My passion is in helping students and teachers access the materials needed to meet their educational goals.

This blog will be my primary means of sharing information and materials during the school year. Please check this site often for information related to instructional materials, resources, and trainings.

Please register to receive automatic notification of updates or new information to this site.

THE STORY OF SUE

Chicago's Field Museum is celebrating a tenth anniversary.

Sue arrived at the museum in May, 2000.
Sue is a dinosaur, a Tyrannosaurus Rex (T.rex).
Sue's bones were discovered in 1990.

Sue's bones are on display in the museum.
Sue is the largest and best T.rex ever discovered.

A paleontologist found the bones in Hill City, South Dakota.

Finding all the bones took 17 days.
Over 200 bones were found.

*Sue was named for Sue Hendrickson, the paleontologist who found her.*

I am sure you will agree with me that the Energy Field Seminar was an outstanding educational endeavor. It provided not only an insight into the acquisition, production and transmission of energy, but also into the economic, social, and environmental implications. It was a distinct pleasure meeting you and having the opportunity to be a co-participant with you in the seminar activities. "How the President - National Science Teachers Association to Cybrary Man - Note: twenty educators from all across the United States representing all educational levels were chosen to participate in a one-day all-expense paid energy seminar in Arizona and New Mexico. Cybrary Man has written educational materials for the utility industry for over 30 years.

Our Georgia History

Today and everyday our prayers are with the men and women, our sons and daughters, who serve their country.

Lt. Col. Samuel Taylor U.S.M.C. (Ret.)

Our Georgia History

Features - Listing of Georgia Timeline

- Georgia History 181
  - Introduction and overview of the history of Georgia. This is the place to start your journey.
- American Indians
  - This section surveys the long history of the American Indians in present-day Georgia, from the prehistoric Mississippian cultures to the Creek and Cherokee Indians.
- Early Georgia
  - Cover the history of the state from first exploration in 1539, when the Cherokee were forced west on the Trail of Tears.
- Events
  - Includes each of the events in which Georgia played a role.

FUN FRIDAY: Teaching to tally

APRIL 20, 2002

by Karren Finley

In active learning, differentiated instruction, differentiating instruction, teach, visual learners

We teach tally marks. Mrs. Drey at 1st Grade Toolbox teaches them right at the beginning of the school year so that students get immediate practice in counting and skip-counting, grouping, and representing numbers. The fun part is not the teaching of the tally marks, however. The fun part is how she teaches them. Click over and see her colorful “tally story” manipulatives and consider what stories and materials you might create for your students. As Mrs. Drey points out, there are students who will not only love your stories, but need it to learn this skill.
