SCHEDULE YOUR

ONSITE SCREENING APPOINTMENTS NOW

DON'T MISS OUT

Hundreds of SHBP worksite locations throughout Georgia will offer SHBP-sponsored onsite biometric screening events between **February and September 2017** to help you learn key numbers that evaluate your current health and help pinpoint health issues. Appointments are booking now.

WHAT ARE THE BENEFITS

During the screening, a health professional will collect health-related measurements, including height and weight. A sample of your blood will be collected to determine your cholesterol and glucose levels, triglycerides and other factors that can lead to lifestyle-related health complications.

The screening does not test for illicit drugs, HIV/AIDS or hepatitis. The results are not shared with your employer.

•   You get a personalized report highlighting your screening results.
•   You get a detailed explanation of what your numbers may mean and the healthy target ranges.
•   You will learn about areas for improvement and recommendations if needed.
•   Participation helps you earn well-being incentive rewards to help offset eligible pharmacy and medical expenses.

For a list of complete details on Biometric screening locations, please visit **bewellshbp.com/biometric-screenings**.
