

## Activity 4.2: T-chart

1. Create a T Chart as a graphic organizer.
2. On the left side of the T chart, describe two or three activities in your classroom or a classroom you observed that fostered student engagement.
3. On the right side of the T chart, corresponding with each activity, describe what students were doing that made you feel they were engaged.
4. Share your T chart insights and information with your PLC. Take notes to include any of the shared activities that you may want to use in your classroom and change any of yours based on ideas learned.
5. Now, watch the 4.2 videos of examples of activities that foster student engagement.
6. Add at least two more activities with descriptions from what you have learned today or the videos you have watched to your T Chart.
7. Use any of these activities as a lesson(s) you will include in your teaching
8. You may wish to invite the administrator that contributes to your teacher observations to come and view.
