Georgia State Advisory Panel for Special Education
Annual Report
2018-2019

Paul West, Chair
Jurée Hall, Vice Chair
Introduction

The Individual with Disabilities Education Act (IDEA) requires that each State establish and maintain an advisory panel for the purpose of advising the State special education staff regarding the education of eligible children with disabilities.

This panel, known as the State Advisory Panel (SAP) for Special Education, is comprised of parents, persons with disabilities, educators and administrators as well as representatives from public and private agencies.

The SAP advises the Georgia Department of Education (GaDOE) Division for Special Education Services and Supports on the unmet needs related to the education of children with disabilities within the State and provides feedback on any rules or regulations proposed by the State regarding special education. The SAP is a critical partner in the development of Georgia’s State Performance Plan (SPP) and the Annual Performance Report (APR). The Panel also advises the Division on the improvement activities that need to be developed and implemented in order to improve outcomes for students with disabilities. Each year, members review data on the improvement activities included in the SPP and the APR and make suggestions for updates to the appropriate activities and targets.

SAP Membership

The SAP maintained the regulatory requirement of a minimum of 51% of the Panel being parents of students with disabilities and/or individuals with disabilities. The membership included 30 parents of students with disabilities, two individuals with a disabilities, representatives from state and protection advocacy agencies.

16 appointed agency representatives. 2018-2019 Agency Representatives included:

Georgia Department of Education, Charter Schools

Summary of Public Comments

Public Comments were heard at each meeting held by SAP allowing panel members an opportunity to hear from constituents from around the state.

81 public comments were received in FY19 reflecting the following concerns related to services for students in Georgia.

- Need for better understanding of student’s disability
- Need more money, personnel and training to provide necessary services
- Need to challenge our students
- Need to develop better Individualized Education Programs
- Need to provide more training for case managers
- Need for more training of paraprofessionals
- Need for more assistance with remedial reading
- Focus on students’ needs not labels

Specific responses to the SAP Public Comment form revealed the following consensus:

Question 3: Services for students with disabilities can be improved by:

- Training for staff (teachers, paras, admin)
- Increase funding (salaries, to reduce class size, programs, resources)
- Accountability (IEP implementation monitoring)

Question 4: One great thing that seems to work well for students is:

- Parents who advocate for their children
- Caring staff [at schools]

Question 5: If I could change one thing for students with disabilities in public schools it would be:

- Increase opportunities for inclusion
- Increase or improve accessibility to resources for students
- Increase and or improve communication (parents and staff).
