Federal Requirement to Supplement, Not Supplant

34 CFR §300.202 Use of amounts explains the appropriate use of IDEA, Part B funds for students with disabilities.

It states:

(a) General. Amounts provided to the LEA under Part B of the Act—

(1) Must be expended in accordance with the applicable provisions of this part;

(2) Must be used only to pay the **excess costs** of providing special education and related services to children with disabilities, consistent with paragraph (b) of this section; and

(3) Must be used to **supplement** State, local, and other Federal funds **and not to supplant** those funds.

Federal Requirement to Supplement, Not Supplant

In other words:

LEAs may not use IDEA,
Part B funds as the
primary source
for educating
students with disabilities.

IDEA MOE Overview

- LEAs must use/expend (using state and local funds) at least as much as they did in the comparison year on the education of children with disabilities.
- ***Two standards:***
 - Eligibility: Must budget and project at least as much as expended in the comparison year.
 - Compliance: Must actually expend at least as much as they expended in previous comparison year

True or False?

There are two standards for Maintenance of Effort. The Eligibility standard and Compliance standard.

Meeting the Eligibility Standard

LEA must intentionally
BUDGET appropriate
state and local
expenditures and follow
through with planned
expenditure amounts to
Maintain Effort.

The Methods of MOE Calculation

An LEA must maintain state and local expenditures for students with disabilities in **one** of four ways:

- local funds only;
- the combination of State and local funds;
- local funds only on a per capita basis; or
- the combination of State and local funds on a per capita basis.

Meeting the Eligibility Standard

Viewed through 3-Year Lens

- Required effort **Last Year Met**
 - This is the comparison year.
 - These amounts were recorded the last time the Compliance Standard was assessed.
 - From *finalized* totals reported on DE046
 - These are in the MOE Portal

Complete the calculation worksheet tab to determine FY20 and FY21 amounts. Per Pupil Amounts are automatically entered when enrollment information is entered. Finally, to calculate Local MOE, please see instructions in Calculation Worksheet Tab. You must meet in at least one method category each year to be compliant and eligible. If you do not meet, you will need to request exceptions and adjustments.									

Meeting the Eligibility Standard

Viewed through 3-Year Lens

- Reported effort **One Year Ago**
 - Effort for this year is compared to the comparison year required effort amount.
 - These amounts are reported on the MOE Worksheet by the LEA *after* fiscal year closeout, but *before* DE046 totals are finalized.

Meeting the Eligibility Standard

Viewed through 3-Year Lens

- **Current Year** Projected Effort
 - Effort for this year is compared to the effort reported for one year ago.
 - These amounts are projected by the LEA as a demonstration of the plan to maintain effort by budgeting as much or more funds as was spent one year ago.

Meeting the Eligibility Standard

The Eligibility standard is assessed **annually** at the time of budget submission.

The Eligibility standard is assessed by reviewing the MOE Eligibility Worksheet.

The MOE Eligibility worksheet compares three years of overall expenditures and per pupil expenditures.

LEA must upload a **completed**

Eligibility Worksheet as an attachment in the Consolidated Application

Meeting the Compliance Standard

Financial Review runs the Compliance Test after the DE046 submission deadline.

LEAs have four options to demonstrate meeting the MOE requirement:

Local funds
only

State and
Local funds

Local per pupil

State and
Local per pupil

Subsequent Years Rule

Enacted into law in the
2014 and 2015
Appropriations Acts.

Defines what level of effort
an LEA must meet in order
to maintain effort in the
year **after** an MOE failure:

**Level of effort that would
have been required in the
absence of that failure,
not the LEA's reduced
level of expenditures.**

Subsequent Years Rule Impact

To determine required level of effort, must look back to last year in which LEA maintained effort

But must look back to the last year in which it maintained effort **using the same method by which it is establishing compliance.**

WHAT DOES THAT MEAN?

In what year did you last meet
in each method?

Example #1

Fiscal Year	Actual Expenditure	Required Level of Effort	Met MOE?
2014-2015	\$100	\$100	YES
2015-2016	\$90 	\$100	NO

Ensuring MOE Compliance

- Collaborate with Finance director and other Key personnel
- Review Prior Fiscal year as baseline
- Consider **your** budget drivers
 - # of students served and the needs of students
 - # of employees
 - Contracted Labor Cost
 - Professional Development needs
 - New Initiatives – programs and other resources to support initiative
- Know what is being charged to Special Education
- Establish an actual to budget reporting mechanism
- Establish a process for systematically reviewing expenditures
- Review coding of expenditures

Oh No, I don't
meet!

I didn't meet. Now what?

**The LEA must
revisit the
following:**

Exceptions

Exceptions to Maintenance of Effort Form

Georgia Department of Education	Exception to the Maintenance of Effort Compliance Requirement	Division for Special Education Services and Supports
---------------------------------	---	--

Name of District:	Phone:
Name of Person completing the form:	Signature:
E-mail address:	Date:

As part of the IDEA, Part B application approval process, applicants must comply with 34 CFR 300.203, Maintenance of Effort. The U.S. Department of Education determines compliance with this requirement by comparing actual state and local special education expenditures for the most recent fiscal year to actual expenditures made in the preceding fiscal year.

The IDEA 2004 and its fiscal regulation 34 CFR 300.204 Exception to Maintenance of Effort allows for the following exceptions to maintenance of effort:

- The voluntary departure, by retirement or otherwise, or departure for just cause, of special education personnel or related service personnel;
- A decrease in the enrollment of children with disabilities;
- The termination of the obligation of an LEA, consistent with this part, to provide a program of special education to a particular child with a disability that is an exceptionally costly program, as determined by the state educational agency, because the child –
 - has left the jurisdiction of the LEA;
 - has reached the age at which the obligation of the LEA to provide a free appropriate public education to the child has terminated;
 - no longer needs such program of special education;
- The termination of costly expenditures for long-term purchases, such as the acquisition of equipment or construction of school facilities;
- The assumption of cost by the high cost fund operated by the SEA under §300.704(c).

NOTE: When determining maintenance of effort, the Georgia Department of Education checks the amount of state and local special education expenditures and then the per pupil amount. Compliance MOE expenditure reports for the current year are compared to the last year's maintained effort expenditures (in each of the four methods). The district can use the above allowable exceptions to reduce the MOE amount. If a district is required to pay back funds, non-federal funds must be used.

It is Fiscally Responsible to take Early Exceptions!

MOE Adjustment (§300.205)

- If the IDEA allocation increases, the LEA, if it meets certain conditions, may reduce its MOE level up to 50 percent of the increase in the allocation.
- Conditions
 - Providing FAPE
 - Has not been identified with a Significant Disproportionality

MOE Adjustment Form

Use of IDEA Funds to Adjust Local Fiscal Effort in Certain Years (34 CFR § 300.205 Maintenance of Effort (MOE))

IDEA 2004 allows an LEA to treat up to 50% of the increase only in IDEA funds from the previous year to reduce local MOE expenditures. If an LEA decides to use these funds, it must use the form below to calculate the maximum available to be used.

NOTE: The LEA must use an amount of local funds equal to the reduction in expenditures to carry out activities that could be supported with funds under ESEA regardless of whether the LEA is using funds under ESEA for those activities. However, if the LEA is unable to establish and maintain programs of FAPE or the state performance targets are at issue than GaDOE shall prohibit this reduction. The amount of funds used in Early Intervening Services shall count toward the maximum amount of expenditures that the LEA may reduce their local fiscal effort (see Maintenance of Effort and Early Intervening Services in Appendix D of the federal regulations). *

1. Initial IDEA 611 allocation for current year:	\$ _____
2. Initial IDEA 611 allocation for previous year:	\$ _____
3. Difference (line 1 – line 2) if >0:	\$ _____
4. Line 3 X 50%:	_____ X .50
4a. Maximum 50% reduction of local MOE	\$ _____
5. Maximum available for use in CEIS:	\$ _____ *
*If disproportionate, LEA is required to use 15% maximum for CEIS of IDEA 611 and Preschool 619 funds	
6. Amount committed to Optional CEIS	\$ _____
7. Difference of Optional CEIS and Maximum CEIS (Line 5 – Line 6) that could be used for local MOE reduction	\$ _____

Narrative on the use of these funds in an ESEA related activity is required.

Regular education operation of schools in ESEA approved activities for the same amount.

Must track these expenditures to ensure full 50% reduction of local MOE.

Documentation Requirements

For adjustment:

- MOE adjustment form must be submitted and approved
- LEA is responsible for maintaining **all** documentation
- All MOE forms are located on our website:
