School Completion Toolkit

To assist Local Educational Agencies (LEAs) in implementing their systemic plan, the state is providing a [School Completion Toolkit](#) with robust, evidence-based resources to meet the requirements of IDEA, ESSA and OSEP.

The purpose of the School Completion Toolkit is to provide districts with a roadmap of strategies, interventions, and resources to help students with and without disabilities graduate with a high school diploma.

Check and Connect Student Engagement Intervention

Check & Connect is an Evidence-based Intervention used with K-12 students who show early warning signs of disengagement with school and who are at risk of dropping out. At the core of Check & Connect is a trusting relationship between the student and a caring, trained mentor who advocates and challenges the student to keep education salient. Students are referred to Check & Connect when they show warning signs of disengaging from school, such as poor attendance, behavioral issues, and/or low grades.

Georgia Learning Resources System (GLRS) are trained trainers. Training is free. GLRS provides ongoing support to districts who are implementing Check & Connect.

Please contact your GLRS to schedule a training or to find out more information contact Susan Brozovic at sbrozovic@doe.k12.ga.us.
