Strategic Problem of Practice

35% of our student population is considered at “high-risk” of not graduating due to tardiness to school. The late arrivals disrupt or prevent the necessary teaching and learning interactions in the classroom. As a result, tardiness has become a significant threat to the instructional core in our schools.
Theory of Action

If we:
- Engage all stakeholders in identifying barriers and supports needed in creating a collective sense of urgency aligned to students arriving to school on time,
- Develop a marketing campaign that articulates the importance of arriving to school on time,
- Develop comprehensive professional development and support for schools to meet the expectations regarding arriving to school on time,
- Develop a robust data tracking system to increase the capacity of the district and schools to monitor and provide timely feedback,
- Encourage recognition and celebration of adult and student behaviors that align with the vision of all students reporting to school on time,

Then:
- We will reduce the number of tardies to school by 25% and establish a culture where students and teachers understand the importance of arriving to school on time and teachers are able to provide uninterrupted instruction that results in increased student achievement.
What’s going on already?

Strategically placed Billboard Posters  
(based on school attendance and tardy data)

**Location 1:**

**3717 MERCER UNIVERSITY DRIVE NS/FW** - this billboard is located across the street from the “pink building” on Mercer University Drive- near the old Olive Garden and before you get to Kens Stereo Junction. When traveling towards downtown, it is on the left side of the street. This location should target specifically our families from Heritage, Union, Weaver, and Westside - along with any others traveling down Mercer University Drive. *(Will house the College and Career poster w/ Chef)*

**Location 2:**

**EISENHOWER PKWY.1 MI W/O KEY ST.NS/FE** - this billboard is located on Eisenhower Parkway on the right side of the street when you’re traveling towards CGTC. It is just past Academy Sports and right at the entrance of Anthony Homes. This location should target specifically our families from Veterans, Southfield, Hartley, Ballard, and Southwest. This is a busy road and there will be several other community members that would more than likely view this sign as it is on the way to local grocery, shopping, Sams Club, and WalMart. *(Will house our trumpet player, graduates, and culinary student poster)*

**Location 3:**

**SHURLING DR 100' W/O WALNUT CRK RD NS/FE** - this billboard is located on Shurling Drive. It is viewable when traveling in the East Macon part of town where our schools are located (when traveling up Shurling Drive towards Gray Hwy- the sign will be on the right hand side of the street). This sign is in the midst of our families that are zoned for two of our target schools - Martin Luther King, Jr. and Burdell-Hunt Elementary. You will also grasp families from Appling and Northeast. The sign is at the corner of Walnut Creek Road right at the neighborhood daycare center. This is a heavy populated residential area where a lot of our families frequent when traveling throughout the community. *(Will house Elementary/Middle School student poster)*

“Zone Walks” to explore what our walk zones look like and identify how the distance and environment may impact students who have to walk to school.

*Bibb County School District is dedicated to the safety of our students. This morning the Operations Team walked the streets of Brookdale Elementary School's neighborhood to experience how far students have to walk and what safety challenges they face, if any.

*We are working to conduct these walks in all of our area walk zones in order to identify any safety challenges and any other barriers our students may face.*
