

Example of Assistive Technology or Low Vision Data Collection

Problem: (Student name) is having difficulty accessing desk work. Things we tried

Name	9/6/16	9/8/16	9/13/16	9/15/16	9/20/16	9/22/16	9/27/16	9/29/16	10/4/16
Large print 16	Worked hard/lot of eye fatigue	Worked hard/lots of eye fatigue	Worked hard/lots of eye fatigue						
Large print 24			Worked hard/lots of eye fatigue	Worked hard/lots of eye fatigue	Worked hard/lots of eye fatigue				
CCTV					No fatigue	Finish class work/ with support	Finish class work/ with support	Finish class work/ with support	Finish class work/ with minimal support

Name	10/6/16	10/11/16	10/13/16	10/18/16	10/20/16	10/25/16	10/27/16
Large print 16							
Large print 24							
CCTV	Finish class work/ with support	Finish class work/ with support	Finish class work/ with minimal support	Finish class work/ with minimal support	Finish class work/ independent	Finish class work/ independent	Finish class work/ independent

Problem: (Student name) is having difficulty accessing desk work.

Accommodation/Device tried: **Large print**

Outcome: 9/6/16 thru 9/13/16(3 trials): Student given worksheet in **font size 16**. Student moved within 2 inches from worksheet but said she could not see. She complained of eye fatigue

Outcome: 9/13/16 thru 9/20/16(3 trials): Student given worksheet in **font size 24**. Student continued having difficulty seeing worksheet. Complained of eye fatigue.

Accommodation/Device tried: **CCTV**

Outcome: 9/20/16 thru 9/29/16(4 trials): Student was able to complete a math assignment using the device with a lot of support. Did not complain of eye fatigue

Outcome: 10/4/16 thru 10/18/16(5 trials): Did not complain of eye fatigue when using the device. Student could complete a reading assignment with minimal support.

Outcome: 10/20/16 thru 10/27/16(3 trials): Was able to complete three pieces of class work independently over three trials with NO support.
