

SYNOPSIS OF PROPOSED AMENDMENTS TO
RULE 160-4-3-.14
WORK-BASED LEARNING PROGRAMS

The Georgia Department of Education's (GaDOE) Career, Technical, and Agricultural Education (CTAE) division added Great Promise Partnership (GPP) as a fifth category within the Work-Based Learning Program. This resulted from the integration of Great Promise Partnership, formerly a non-profit organization, with GaDOE.

The rule is also being amended to update the eligibility requirement of students who may enrolled in a work-based learning program. Georgia law now permits any student aged 15 or over to participate in this program.
