

Flashcard Activities

Your flashcards include 26 uppercase (capital) letters and 26 lowercase letters. These flashcards can be used for the following activities:

Letter fluency practice:

1. Choose 5-10 uppercase or lowercase letters.
2. Hold up one card at a time.
3. Your child should say the letter quickly (in 3 seconds).
4. If your child answers correctly, he or she keeps the card. If your child answers incorrectly, you keep the card.
5. When you finish showing the cards, count to see who has the most.
6. Make a list of letters your child is struggling to remember so you can practice them more.
7. As your child grows more confident with naming the letters, show a mixture of capital and lowercase letters.

Find the Letter Game

1. Place 5-10 uppercase (capital) letters face up on the table or on the floor.
2. Show your child a lowercase letter and have him/her identify the letter.
3. Your child should find the uppercase letter that matches the lowercase letter.
4. Make a list of letters your child struggles to identify so that you can practice these letters more.

Letter Memory Match Game

1. Choose 4-6 uppercase letters and the matching lowercase letters.
2. Place all of the letters face down on a table or on the floor.
3. Your child should choose two cards and turn them over. If the cards match (A and a, G and g), your child keeps them and turns over two more.
4. If your child is able to finish the game quickly with 4-6 letters, play with more letters!

Letter Hunt: Activity #2

1. Find various types of printed materials (magazines, newspapers, junk mail).
2. Pick a specific letter for your child to find.
3. Have your student circle or highlight the letters or they can cut out the letters and glue them to make a letter collage.
