Practice Activity #1

9

Say the Sum – 3rd grade

Numbers of Players: 2-4

Materials: Deck of Cards (Face cards are worth 10)

How to Play:

- **Deal the cards to each player until all have been dealt. The cards should be face down.**
- **Each player should now have a pile of cards, face down.**
- **The players flip over their top card at the same time and place them in the middle.**
- **The players must then find the sum of the 2 cards.**
- **The player to say the correct answer first gets to keep both cards.**
- **The game continues until each player's pile of cards is gone.**
- **The player with the most cards at the end of the game is the winner.**
- **You can play this game with 3 or 4 people. Instead of finding the sum of only 2 numbers, students will have to add three or four numbers together.**
