FY21 DE1111 FORM

PRIVATE SCHOOL REPORT OF STUDENTS ENROLLED

Georgia law (O.C.G.A. § 20-2-690) provides, Within 30 days after the beginning of each school year, it shall be the duty of the administrator of each private school to provide to the school superintendent of each local public school district which has residents enrolled in the private school a list of the name, age, and residence of each resident so enrolled. At the end of each school month, it shall be the duty of the administrator of each private school to notify the school superintendent of each local public school district of the name, age, and residence of each student residing in the public school district who enrolls or terminates enrollment at the private school during the immediately preceding school month. Such records shall indicate when attendance has been suspended and the grounds for such suspension.

Data Collected by the DE1111 in November will be used to cross-reference K-12 enrollment information provided by private schools participating in Equitable Services Under Title II, Part A and Title IV, Part A of ESSA. By law ESSA allocations are determined on a per pupil basis and, in Georgia, are extracted from an official count taken the first Tuesday of October. DE1111 enrollment information submitted in November should reflect enrollment information collected on the first Tuesday of October.

FY21 DE1111 FORM

DE1111s are often completed by private school administrative staff and received by LEA administrative staff in Superintendent's Office.

LEA Data Collections Coordinators submit DE1111 information in November.

Coordinators can update contact information year-round.

Federal Programs staff use this data to help determine which private schools to invite for Title I, Part A.

Federal Programs staff should partner with their Data Collections Coordinators to ensure all parties have access to the required documents.
