FEDERAL PROGRAMS HANDBOOK
Information Applicable to All Federal Programs
The contents of this handbook were developed under a grant from the U.S. Department of Education. However, those contents do not necessarily represent the policy of the U.S. Department of Education, and you should not assume endorsement. This handbook is subject to change at any time given updates in federal or state legislation or guidance. LEAs are responsible for local program implementation. Any questions not addressed in the handbook should be directed to an assigned Georgia Department of Education (GaDOE) federal program specialist.

Federal Programs Overview

The purpose of Federal education program funding under the Every Student Succeeds Act (ESSA) is to provide LEAs and their schools with supplemental financial resources and assistance in order to ensure equitable access to a high quality education, regardless of student economic status or other equity factors. Under a variety of recent state-granted flexibility structures (waivers), all Georgia school LEAs have the opportunity to pursue flexibility in exchange for agreeing to measures that will ensure that all students receive an equitable and high-quality education from effective educators. Federal program funds in Georgia supplement and support the programs and strategies that help all students thrive through these existing LEA flexibility structures and systems.

While Federal funding comes to Georgia through a variety of funding sources with specific intents and purposes, LEAs and schools are required to coordinate their Federal funding allocations into their existing flexibility agreements in a manner that ensures that the intent and purpose of each Federal program is maintained. In support of LEA autonomy, Georgia LEAs may consolidate planning efforts (improvement planning, strategic plans and charter/strategic waiver applications) thereby allowing Georgia LEAs the benefit of carrying forward their existing flexibility structures and systems with the logical integration of Federal funding where and when its defined use is best suited.

With that said, LEA applications to the Georgia Department of Education (GaDOE) for Federal funding rely heavily on what has been defined by the LEAs through their flexibility agreements with the state. Flexibility options in Georgia include Strategic Waiver School Systems, Charter School Systems, and Status Quo School Systems. Each option sets a course for improvement for all students based on academic achievement targets to which the LEAs and schools are committed in exchange for greater flexibility under the law.

LEAs apply for their Federal funds through a consolidated application process to GaDOE. The application requires LEAs to identify the methods through which the intent and purpose(s) of each Federal program will be integrated into the LEAs’ existing academic achievement targets and efforts towards continuous improvement. Responses as to how the LEA will meet Federal program requirements, as defined in ESSA, are submitted in the consolidated application through the lens of the LEAs’ flexibility structure. Where very unique and targeted Federal funding streams exist, e.g., School improvement funds for Comprehensive and Targeted support, IDEA, homeless, migrant, and rural, LEAs must expand on the identified needs for these populations or schools within their Federal consolidated funding application. This may require LEAs and schools to delve more deeply into the root causes of the academic deficiencies of these schools and populations. Through its consolidated application, GaDOE supplies CNA tools to support this important aspect of the problem-solving process – examining progress. In summary, when existing targets do not allow for the inclusion of Federal funds, LEAs must define the needs as part of their consolidated application for Federal funding.
Chapter 1: A Common Framework for Improvement – Georgia’s Systems of Continuous Improvement

The GaDOE developed and adopted a common framework for supporting schools and LEAs called Georgia’s Systems for Continuous Improvement. The “Who” of the framework is the Whole Child, which is the center of the work. The “What” of the framework comprises five systems focused on Coherent Instruction, Professional Capacity, a Supportive Learning Environment, Effective Leadership, and Family and Community Engagement. The “How” of the framework is the continuous improvement/problem solving process: Identify Needs, Select Interventions, Plan, Implement, and Examine Progress. The GaDOE uses the following graphic to illustrate and communicate with teachers, leaders, parents and other stakeholders how the continuous improvement model focuses on the whole child. This model also helps GaDOE staff to focus on those components that improve the conditions for learning.

The GaDOE will align programs, initiatives, tools, and resources across the agency around this framework to keep the agency’s focus on the components that support the whole child. It is through this framework that LEAs will coordinate their Federal programs to complete the Consolidated LEA Improvement Plan (CLIP).
Chapter 2: Consolidated LEA Improvement Plan (CLIP)

Sec. 8305 of the Elementary and Secondary Education Act of 1965 (ESEA) as reauthorized by the Every Student Succeeds Act of 2015 (ESSA) states that a local educational agency receiving funds under more than one covered program may submit plans or applications to the State educational agency under those programs on a consolidated basis. The GaDOE has integrated the requirements for planning across all ESSA programs. The Consolidated LEA Improvement Plan (CLIP) eliminates the need for LEAs to submit separate plans for individual programs. The CLIP, reviewed annually, has two parts:

Part I – Approved LEA Consolidated Application (Plan)

Submission Options

LEAs may choose the pathway to complete the CLIP that best fits their needs:

Option I
Online SLDS Application:
1. Within Georgia’s Systems of Continuous Improvement, the LEA will access the State Longitudinal Data System (SLDS) and work through the Comprehensive Needs Assessment and District Improvement Plan. Embedded in this online application are the requirements needed for a portion of the CLIP.
2. The LEA will review and update the Parent and Family Engagement Policy, as required under Sec. 1112 of ESSA, and upload this within the SLDS.
3. The LEA will review and update the Foster Care Transportation Plan and upload this within the SLDS.
4. The LEA will review and update the Title I, Part C – Education of Migratory Children Identification and Recruitment Plan for LEAs receiving a direct allocation. This plan will also be uploaded within the SLDS.

OR
Option II

1. Within Georgia’s Systems of Continuous Improvement, the LEA will complete the Streamlined CLIP (S-CLIP) template and upload this on the planning tab within the SLDS application. Embedded in this document are the requirements needed for a portion of the CLIP.
2. The LEA will complete the Parent and Family Engagement Policy, as required under Sec. 1112 of ESSA, and upload on the planning tab within the SLDS.
3. The LEA will complete the Equity Action Plan and upload this within the SLDS.
4. The LEA will review and update the Foster Care Transportation Plan and upload this on the planning tab within the SLDS.
5. The LEA will review and update the Title I, Part C – Education of Migratory Children Identification and Recruitment Plan for LEAs receiving a direct allocation. This plan will also be uploaded within the SLDS.

Each LEA must submit all components of the CLIP to receive funding from the following federal programs:

- Title I, Part A – Improving the Academic Achievement of the Disadvantaged
- Title I, Part A – School Improvement 1003(a)
- Title I, Part A – School Improvement 1003(g)
- Title I, Part C – Education of Migratory Children
- Title I, Part A and Title I, Part D – Programs for Neglected and Delinquent Children
- Title II, Part A – Supporting Effective Instruction
- Title III, Part A – Language Instruction for English Learners and Immigrant Students
- Title IV, Part A – Student Support and Academic Enrichment
- Title V, Part B – Rural Education Achievement Programs (REAP)
- Individuals with Disabilities Education Act (IDEA) – Programs for Exceptional Students
- Title I, Part A and Title IX, Part A McKinney-Vento Education of for Homeless Children and Youth (EHCY)

LEAs must submit CLIP plans through the SLDS prior to submitting budgets. A review team will evaluate each plan for approval. Once an LEA plan has been approved, the LEA may submit its budgets.

Part II – Application Forms
## Assurances

Sec. 8306 of the Elementary and Secondary Education Act of 1965 (ESEA) as amended by the Every Student Success Act of 2015 (ESSA) requires that LEAs shall have on file with the State educational agency a single set of assurances, applicable to each program for which a plan or application is submitted. Each LEA will acknowledge general assurances addressing all federal programs and specific program assurances where an allocation is received. This acknowledgement occurs on the My GaDOE Portal annually (https://portal.doe.k12.ga.us/login.aspx). The Superintendent’s sign-off on the consolidated application denotes agreement to each assurance.

The assurances are as follows:

<table>
<thead>
<tr>
<th>General Assurances</th>
<th>As a condition of receiving the federal funds for which application is made in this Consolidated Application, the applicant’s local board of education (Applicant) assures the following:</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. each such program will be administered in accordance with all applicable statutes, regulations, program plans, and applications;</td>
<td></td>
</tr>
<tr>
<td>2. the control of funds provided under each such program and title to property acquired with program funds will be in a public agency or in a eligible private agency, institution, organization, or Indian tribe, if the law authorizing the program provides for assistance to those entities; and</td>
<td></td>
</tr>
<tr>
<td>3. the public agency, eligible private agency, institution, or organization, or the Indian tribe will administer the funds and property to the extent required by the authorizing statutes;</td>
<td></td>
</tr>
<tr>
<td>4. the applicant will adopt and use proper methods of administering each such program, including—</td>
<td></td>
</tr>
<tr>
<td>a. the enforcement of any obligations imposed by law on agencies, institutions, organizations, and other recipients responsible for carrying out each program; and</td>
<td></td>
</tr>
<tr>
<td>b. the correction of deficiencies in program operations that are identified through audits, monitoring, or evaluation;</td>
<td></td>
</tr>
<tr>
<td>c. ensuring interventions purchased with federal funds are evidence-based.</td>
<td></td>
</tr>
<tr>
<td>5. the applicant will cooperate in carrying out any evaluation of each such program conducted by or for the State educational agency, the Secretary, or other Federal officials;</td>
<td></td>
</tr>
<tr>
<td>6. the applicant will use such fiscal control and fund accounting procedures as will ensure proper disbursement of, and accounting for, Federal funds paid to the applicant under each such program; and</td>
<td></td>
</tr>
<tr>
<td>7. the applicant will—</td>
<td></td>
</tr>
<tr>
<td>a. submit such reports to the State educational agency (which shall make the reports available to the Governor) and the Secretary as the State educational agency and Secretary may require to enable the State educational agency and the Secretary to perform their duties under each such program; and</td>
<td></td>
</tr>
<tr>
<td>b. maintain such records, provide such information, and afford such access to the records as the State educational agency (after consultation with the Governor) or the Secretary may reasonably require to carry out the State educational agency’s or the Secretary’s duties; and</td>
<td></td>
</tr>
</tbody>
</table>
| Title I, Part A – Improving the Academic Achievement of the Disadvantaged | In General – Each local educational agency shall provide assurances that the local educational agency will;

- Participate, if selected, in the State National Assessment of Educational Progress in 4th and 8th grade reading and mathematics carried out under Section 411(b)(2) of the National Education Statistics Act of 1994;
- Inform eligible schools and parents of schoolwide program authority and the ability of such schools to consolidate funds from Federal, State, and local sources;
- Provide technical assistance and support to schoolwide programs;
- Work in consultation with schools as the schools develop the school’s schoolwide plans pursuant to Section 1114;
- Under Section 1115, provide an accelerated, high-quality curriculum minimizing the removal of children from the regular classroom during regular school hours for instruction provided under this part; and on an ongoing basis, review the progress of eligible children and revise the targeted assistance program under this section, if necessary, to provide additional assistance to enable such children to meet the challenging State academic standards.
- Provide services to eligible children attending private elementary schools and secondary schools in accordance with Section 1117, and timely and meaningful consultation with private school officials regarding such services;
- Develop, review, and revise an LEA homeless policy to remove barriers to the enrollment and retention of children and youth in homeless situations;
- Ensure that all teachers and paraprofessionals working in a program supported with funds under this part meet applicable State certification and licensure requirements, including any requirements for certification obtained through alternative routes to certification; and
- In the case of a local educational agency that chooses to use funds under this part to provide early childhood education services to low-income children below the age of compulsory school attendance, ensure that such services comply with the performance standards established under section 641A(a) of the Head Start Act (42 U.S.C. 9836a(a)).
- Take into account the experience of model programs for the educationally disadvantaged, and the findings of relevant effectiveness-based research indicating that services may be most effective if focused on students in the earliest grades at schools that receive funds under this part;
- Work in consultation with schools as the schools develop and implement their plans or activities under Sections 1118 and 1119;
- Coordinate and collaborate, to the extent feasible and necessary as determined by the local educational agency, with the State educational agency and other agencies providing services to children, youth, and families if a school requests assistance from the local educational agency in addressing major factors that have significantly affected student achievement at the school;
- Ensure, through incentives for voluntary transfers, the provision of professional development, recruitment programs, or other effective strategies, that low-income students and minority students are not taught at higher rates than other students by unqualified, out-of-field, or inexperienced teachers.
- Use the results of the student academic assessments required under Section 1111(b)(3), and other measures or indicators available to the agency, to review annually the progress of each school served by agency and receiving funds under this part to determine whether all of the schools are making the progress necessary to address low academic achievement and achievement gaps;

- before the application was submitted, the applicant afforded a reasonable opportunity for public comment on the application and considered such comment.

---

Unless otherwise noted, all references to ESSA in this document refer to the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA).
- Ensure that the results from the academic assessments required under Section 1111(b)(3) will be provided to parents and teachers as soon as is practicably possible after the test is taken, in an understandable and uniform format and, to the extent practicable, provided in a language that the parents can understand;
- Assist each school served by the agency and assisted under this part in developing or identifying examples of high-quality, effective curricula consistent with Section 1111(b)(8)(D);
- Include the use of the U. S. Department of Education’s Migrant Student Information Exchange (MSIX) website in new migrant student records transfer, enrollment and grade/course placement protocols; it will use the Title I, Part C - Migrant Education Program occupational survey for all students during new school year registration for returning students and new student registration during the school year;
- Ensure the annual assessment of English language proficiency in the four language domains of all English learners. [Section 1111 (b)(2)(G)];
- Shall notify the parents of each student attending any school receiving funds under this part that the parents may request information regarding the professional qualifications of the student’s classroom teacher(s); and
- Ensure that all initiatives funded with Title I, Part A are aligned with District's CLIP and/or school SWP/TA plans and that the district is employing only evidenced-based interventions or working to collect evidence of evidence-based effectiveness for all Title I funded interventions;
- Ensure that it will collaborate with the GaDOE to address participation of students with disabilities in the Georgia Alternate Assessment (GAA) and 1) review local policies, procedures, and practices to ensure these are in accordance with state GAA participation guidelines, and 2) review local GAA participation data and address any student subgroup disproportionality issues.
- Ensure it will annually submit a written equity plan that seeks to reduce identified equity gaps impacting poor and minority children.

**Title I, Part C – Education of Migratory Children**

The applicant agency assures the Georgia Department of Education that it will keep such records and provide such information to the state education agency (SEA) as may be required for fiscal audit, program review, and program evaluation, consistent with the responsibilities of the SEA under the Elementary and Secondary Education Act as reauthorized by the Every Student Succeeds Act (ESSA) of 2015.

- The applicant agency assures the Georgia Department of Education that:
  - in the planning and carrying out of services with funds received under this part, it will dedicate sufficient program funding, personnel, and resources to ensure the full and appropriate identification and recruitment (ID&R) of all children eligible for program support and services residing within the district, including pre-school children (age 3-5 yrs. old) and out-of-school youth (up to age 21) during the regular school year and summer, and that these activities will comply with the eligibility and ID & R requirements, including the use of the occupational survey during new school year registration for returning students and new student registration during the school year, as defined by the state and in sections 1115(b)(1)(A) and 1309;
  - the unique educational needs of migratory children, including pre-school migratory children and out-of-school youth to age 21, will be identified and addressed through a comprehensive plan for needs assessment and service delivery during the regular school year and summer that meets the requirements of Section 1306;
  - it will take steps to provide all migratory children with the opportunity to meet the same challenging state academic content standards and challenging state student academic achievement standards that all children are expected to meet;
it will provide for educational continuity through the timely transfer of pertinent school records, including information on health, when children move from one school to another;

it will include the use of the U. S. Department of Education’s Migrant Student Information Exchange (MSIX) website in new migrant student records transfer, enrollment and grade/course placement protocols;

the funds received under this part will be used only for programs and projects, including the acquisition of equipment, in accordance with section 1306(b)(1);

it will coordinate such programs and projects with similar programs and projects within the state and other states, as well as with other federal programs that can benefit migratory children and their families;

programs and projects will be carried out in a manner consistent with the objectives of sections 1114, except that the special educational needs of migratory children are met before using any funds under this part for school wide programs; subsections (b) and (d) of section 1115; section 1120; and subsections (b) and (c) of section 1120A; and part F;

in the planning and operation of the program, there will be appropriate consultation with parent advisory councils, in a format and language understandable to the parents, for programs of one school year in duration, and that all such programs and projects will be carried out, to the extent feasible, in a manner consistent with section 1118;

in the planning and carrying out of services, there will be adequate provision for addressing the unmet educational needs of pre-school migratory children (age 3-5 yrs old) and out-of-school youth (up to age 21) who have not graduated or received a GED;

the effectiveness of such programs and projects will be determined using both the SEA’s Title I, Part C Implementation Plan (IP) evaluation procedures and, where feasible, the same approaches and standards that will be used to assess the performance of students, schools, and LEAs under part A;

to the extent feasible, services will include – (1) advocacy and outreach activities for migratory children and their families, including informing such children and families of, or helping such children and families gain access to, other education, health, nutrition, and social services; (2) professional development programs, including mentoring, for teachers and other program personnel; (3) family literacy programs, including such programs that use models developed under Even Start; (4) the integration of information technology into educational and related programs; and (5) services to facilitate the transition of secondary school students to postsecondary education or employment;

all activities and services will abide by the General Education Provisions Act (GEPA).
3. Work with parents to secure parents’ assistance in improving the educational achievement of their children and youth, and preventing their children’s and youth’s further involvement in delinquent activities.
4. Work with children and youth with disabilities in order to meet an existing individualized education program and an assurance that the agency will notify the child’s or youth’s local school if the child or youth:
5. Is identified as in need of special education services while the child or youth is in the correctional facility or institution for neglected or delinquent children and youth; and
6. Intends to return to the local school.
7. Work with children and youth who dropped out of school before entering the correctional facility or institution for neglected or delinquent children and youth to encourage the children and youth to reenter school and attain a regular high school diploma once the term of the incarceration is completed or provide the child or youth with the skills necessary to gain employment, continue the education of the child or youth, or attain a regular high school diploma or its recognized equivalent if the child or youth does not intend to return to school.
8. Ensure that teachers and other qualified staff are trained to work with children and youth with disabilities and other students with special needs taking into consideration the unique needs of such students.
9. Coordinate with any programs operated under the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5601 et seq.) or other comparable programs, if applicable.
10. Ensure that an annual performance and fiscal report is submitted for each year grant funds are received.
11. Ensure that all data requests from the Georgia Department of Education and any entity acting on the behalf of the Georgia Department of Education are accurately and promptly reported.

Title II, Part A – Supporting Effective Instruction

- The Applicant assures that it will coordinate professional development activities authorized under this part with professional development activities provided through other Federal, State, and local programs. [ESSA Sec. 2102(b)(2)(F)]

Title II, Part A Grant Allocation Notification Compliance

The Applicant acknowledges receipt of the following requirements as included in the annual U.S. DEPARTMENT OF EDUCATION Grant Allocation Notification.

- Attachment 3 – The LEA assures compliance with single audit requirements. [2 CFR 200.512]
- Attachment 8 – The LEA assures compliance with the requirements for Trafficking in Persons with U.S. DEPARTMENT OF EDUCATION conditions. [2 CFR 75, 2 CFR 175.15.(b)]
- Attachment 9 – The LEA assures compliance with the Federal Funding Accountability and Transparency Act’s requirements for reporting awardee’s executive’s compensation.
- Attachment 10 – The LEA assures compliance with the Federal Funding Accountability and Transparency Act’s requirements for reporting subgrantee data.
- Attachment 11 – The LEA assures compliance with the special conditions for disclosing federal funding in public announcements [Division H, Title V, Sec. 505 of Public Law 113-76, Consolidated Appropriations Act, 2014]
- Attachment 12 – The LEA assures compliance with the prohibition of text messaging and email while driving during official federal grant business. [2009 White House Executive Order 13513]
- Attachment 13 - The LEA assures compliance with having a registered DUNS and TIN number with the SAME database.
- Attachment 14 - The LEA assures compliance with maintaining current information in SAM and keeping relevant records.
- Enclosure 3 - The LEA assures compliance with the 2014 U.S. DEPARTMENT OF EDUCATION Memorandum to Ed Grantees Regarding the Use of Grant Funds for Conferences and Meetings.

<th>School Improvement Grant 1003a</th>
<th>The superintendent certifies that each of the statements below concerning the use of funds allocated through the Title I, Part A, 1003(a) School Improvement Grants for FY18 are true and correct. Title I, Part A, 1003(a) School Improvement Grant funds will be used to support the following:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• Improved student achievement in the target areas and subgroups to be addressed regarding status as a Priority or Focus school.</td>
</tr>
</tbody>
</table>
• Costs directly associated with schools developing required school improvement plans; the school is awarded the funds and the principal with the leadership team will create the budget and justification of expenses with the support of a school effectiveness specialist.
• Specific content areas and/or subgroups to be addressed regarding status as a Priority or Focus school and the degree that a direct connection between the budget and the areas of need must be evident.
• For instruction or to support instruction.
• For personnel services and benefits that are non-recurring, since the funds are for a fifteen month period (July 1, 2017 through September 30, 2018).

Each LEA will provide technical assistance and support to Priority and Focus schools in the following areas:
• Needs assessment and root cause analysis in support of School Improvement Planning
• Allowable expenses related to Title I, Part A, 1003(a) School Improvement Grant funds
• Appropriate reporting of improvement activities by schools and engagement in provided professional learning trainings for LEA and school leadership

<td>18. The SIG schools will participate in the mandated GaDOE professional learning for School Improvement Grant schools.</td>
</tr>
</tbody>
</table>
19. The SIG schools will provide increased learning time as defined by the SIG guidance. The increased learning time will include a minimum of 60 additional hours added to the school year for all students.

20. The SIG schools will provide mechanisms for family and community engagement.

21. Relevant, ongoing, high-quality, job-embedded professional development for all staff, which may include common, collaborative, vertical planning time, will be provided in SIG schools.

22. The LEA will modify practices and policies that interfere with the implementation of the School Improvement Grant as directed by the SIG guidance.

23. The LEA will provide the principal operational flexibility in the areas of staffing, scheduling, and budget.

24. The LEA will monitor and evaluate SIG funded external providers/vendors to ensure quality performance.

25. The LEA will monitor the SIG school to determine whether the school is implementing the intervention model with fidelity, making progress on the leading indicators described in the SIG Final Requirements, and meeting annual goals established by the LEA for student achievement. The LEA will submit the required monitoring reports via Indistar©.

26. The Georgia Department of Education will assign a SIG 1003(g) School Effectiveness Specialist to provide technical assistance to the SIG school. The GaDOE SIG 1003(g) Program Manager will provide technical assistance to the LEA SIG Coordinator.

27. The LEA will collaborate with the GaDOE SIG 1003(g) Program Manager to support the reform efforts in the SIG school(s).

28. The LEA will monitor and evaluate the actions schools have taken, as outlined in the approved SIG application, to sustain the reforms after the funding period ends and that it will provide technical assistance to schools on how they can sustain progress in the absence of SIG funding.

*Optional for SIG schools implementing the Restart model of reform

---

**Title III, Part A – Language Instruction for English Learners and Immigrant Students**

- The LEA assures compliance with the standardized, statewide EL entrance and exit procedures and screens all students who may be English learners within 30 days of enrollment. [Sec. 3113(b)(2)]
- The LEA assures compliance with Sec. 1112(e) prior to, and throughout, each school year as of the date of application [Sec. 3116(b)(4)(A)];
- The LEA assures that it is not in violation of any State Law, including constitutional law, regarding the education of English learners, consistent with Sections 3125 and 3126 [Sec. 3116(b)(4)(B)].
- The LEA assures that it complies with the requirement in section 1111(b)(2)(B)(ix) regarding assessment of English learners in English [Sec. 3113(b)(3)(A)];
- The LEA assures that it annually assesses the English proficiency of all English learners participating in a program funded under this subpart, consistent with section 1111(b)(2)(G);
- The LEA assures that consultation took place with teachers, researchers, school administrators, and parents and family members, community members, public or private entities, and institutions of higher education, in developing and implementing its educational plan for English learners. [Sec. 3116(b)(4)(C)]
- The LEA assures that, if applicable, it will coordinate activities and share relevant data under its plan with local Head Start and Early Head Start
agencies, including migrant and seasonal head Start agencies, and other early childhood education providers. [Sec. 3116(b)(4)(D)]

- The LEA assures that all teachers in any Title III-funded language instruction educational program are fluent in English and any other language used for instruction, including having written and oral communications skills. [Sec. 3116(c)]
- The LEA consults with officials of private schools in a timely and meaningful manner to make available equitable Title III, Part A services to eligible English learners and immigrant children attending private schools located within the LEA’s geographical boundaries. [Sec. 9501]

Unless otherwise noted, all references to ESSA in this document refer to the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA).
3. Comply with the stricture against supplanting in Sec. 5232.
4. Keep necessary records and provide information to the Georgia Department of Education that are consistent with responsibilities and accountability requirements listed in Sec. 5224(a)(1-3).
5. Administer an assessment that is consistent with Sec. 1111(b)(3).
6. Will ensure that all data requests from the Georgia Department of Education and any entity acting on the behalf of the Georgia Department of Education are accurately and promptly reported.

IDEA – 611 and 619

This grant is specifically subject to the provisions of Individuals with Disabilities Education Improvement Act of 2004 (Act or IDEA). This grant is also subject to the Title I regulations in 34 C.F.R. Part 200 and the Education Department General Administrative Regulations (EDGAR) in 34 C.F.R. Parts 76 (Except for 76.650 – 76.662 (Participation of students enrolled in private schools)), 77, 81, 82, and 85 and the Uniform Administrative Requirements, Costs Principles and Audit Requirements for Federal Awards in 2 C.F.R. Part 200.

1. IDEA 611 and 619 Part B approves budgets for up to 15 months between July 1, 2018, and September 30, 2019. Funds may be encumbered for expenditures July 1, 2018, through September 30, 2019, once the budget is approved for the new grant period.

2. Completion reports are due 30 days after the end of the grant period. The grant period ends September 30, 2019. Completion reports are due October 30, 2019.

3. LEAs must establish internal control policies and procedures to procure, record and maintain custody of equipment and real property purchased with IDEA funds. The policies and procedures must include how the LEA will account for and maintain control of equipment and real property used at private schools.

5. LEAs must conduct and reconcile physical inventories of equipment purchased with IDEA funds at the central office, local schools, and private schools once every two years. The LEA must use, manage and dispose of equipment acquired under IDEA in accordance with federal and state laws and procedures.

6. LEAs must ensure that all children with disabilities have available to them a Free Appropriate Public Education as defined by IDEA.

7. LEAs must ensure that eligible private and home school children, have equitable participation in IDEA services and must spend the appropriate proportionate share amount which is calculated in the Consolidated Application.

8. LEAs must ensure that all teachers and paraprofessionals hired meet Professional Qualifications standards.

9. LEAs may not use IDEA funds to supplant or replace local or state funds. The LEA must use IDEA funds to supplement funds that would be made available from non-federal sources for the education of IDEA students.

10. IDEA permits, and in some instances, requires school districts to use a portion of funds provided under Part B of the IDEA for the purpose of CEIS. Federal regulations specify (1) how and on whom CEIS funds may be spent; (2) the reporting requirements for school districts providing CEIS; (3) the
requirement for using CEIS funds by a district that is identified as having significant disproportionality; and (4) the relationship of CEIS to maintenance of effort requirements. Any district may opt to use up to, but not exceeding, 15 percent of the total amount of its 611 and 619 Part B IDEA funds for CEIS. However, whenever a district is determined by the State, based on the district’s numerical data, to have significant disproportionality in the identification, placement and/or discipline of children with disabilities, the district must use the maximum amount of 15 percent for CEIS to help address issues of disproportionality. CEIS must be provided to students particularly, but not exclusively, in those race/ethnic groups that were significantly impacted.

11. LEAs must ensure that appropriate documentation is maintained for auditing and monitoring purposes.

12. LEAs receiving funds under IDEA must agree to participate in evaluation studies conducted by the US ED, the Department, or entities acting on behalf of either agency for data reporting in accordance with the ESEA. In addition, it is the responsibility of the LEA to ensure the accuracy and timeliness of any data submitted from the LEA. The LEA should have policies and procedures on data collection, verification, reporting and publishing to ensure adequate controls are in place.

13. LEAs have the responsibility of implementing IDEA in accordance with the LEA’s approved consolidated application and applicable federal and state regulations. In addition, the program guidance (non-regulatory Draft Guidance), fiduciary guidance (2 C.F.R. Part 200), Education Department General Administrative Regulations (EDGAR), and General Education Provision Act (GEPA) are available on the US ED Web site at www.ed.gov.

14. LEAs must permit the Georgia Department of Education (Department) and auditors to have access to the LEA’s records and financial statements as necessary for the Department to meet the requirements of 2 C.F.R. Part 200.331.

15. As part of the IDEA, Part B application approval process, applicants must comply with 34 CFR 300.203, Maintenance of Effort. The U.S. Department of Education determines compliance with this requirement by comparing actual state and local special education expenditures for the most recent fiscal year to actual expenditures made in the year effort was last met.

16. In accordance with 2 C.F.R. Part 200.415(a), LEAs are required to assure that expenditures are proper and in accordance with the terms and conditions of the federal award and approved project budgets, the annual and final fiscal reports or vouchers requesting payment under the agreements must include a certification, signed by an official who is authorized to legally bind the non-federal entity, which reads as follows: knowledge and belief that the report is true, complete, and accurate, and the expenditures, disbursements and cash receipts are for the purposes and objectives set forth in the terms and conditions of the federal award.

17. In accordance with 34 C.F.R. Part 300.202(a)(2), amounts provided to the LEA under IDEA Part B must be used only to pay the excess costs of providing special education and related services to children with disabilities. Excess costs are those that are in excess of the average annual per-student expenditure in an LEA during the preceding school year for an elementary school or secondary school student, as may be appropriate. LEAs are required to submit expenditures for Excess Cost Calculation annually to demonstrate compliance with this Federal regulation.
GEPA Assurance

The purpose of this assurance is to comply with the requirements of the General Education Provisions Act (GEPA), Section 427, enacted as part of the Improving America's Schools Act of 1994 (Public Law (P.L.) 103-382).

Requirement
Section 427 of the United States Department of Education's General Education Provisions Act (GEPA) requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take in order to ensure equitable access to, and participation in, its federally-assisted programs for students, teachers, and other program beneficiaries with special needs.

Local education agencies (LEAs) or other eligible applicants that apply for federal funding through the Consolidated LEA Improvement Plan (CLIP) application must provide this description in their application. The Georgia Department of Education (GaDOE) is responsible for ensuring that the LEA or other local entity has submitted a sufficient section 427 statement.

Developing a Response
GEPA allows applicants discretion in developing and describing the activities that are occurring to meet this requirement. The statute highlights six types of barriers that may impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, LEAs should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in the Federally-funded project or activity.

Format
The description(s) provided in the CLIP application need not be lengthy. Applicants may provide a clear and succinct description of how the LEA will address the barriers, as applicable to the LEA’s local context, which may impede equitable access or participation in the LEA’s federal programs. Examples of GEPA statements are available here.

The LEA may use information it has obtained through its comprehensive needs assessment process or its District Improvement Plan (DIP) to develop its statement in response to the GEPA requirement. The root causes identified in the DIP combined with the associated use of federal funds may be appropriate, based on the LEA’s local context, to satisfy the GEPA requirement. Examples of this approach are illustrated below.

- The LEA or school may have identified a lack of cultural competency in instruction, specifically in regard to the social, emotional, and academic success of its English learners, as a root cause of low student achievement. If the LEA then utilizes its federal funds to provide professional development opportunities for teachers by addressing culturally responsive instructional practices, a description of how this activity will be
implemented would address a barrier to equitable participation based on national origin, thereby satisfying the GEPA requirement.

- The LEA or school may identify the disproportionate use of exclusionary discipline practices (removing or excluding students from the classroom), specifically in regard to black, Hispanic, or Native American students, as a root cause of low student achievement. If the LEA then utilizes its federal funds to reduce the use of discipline practices that remove students from the classroom, a description of how this activity will be implemented would address a barrier to equitable participation for students of color, thereby satisfying the GEPA requirement.

- The LEA or school may identify a lack of student participation in advanced placement STEM courses, specifically in regard to female students, as a root cause of low student achievement. If the LEA is then utilizing its federal funds to increase outreach efforts to female students to encourage enrollment and participation in advanced placement STEM courses, a description of how this activity will be implemented would address a barrier to equitable participation for students based on gender, thereby satisfying the GEPA requirement.

Note: While the LEA’s statement of non-discrimination is supportive of the intent of the GEPA statement, it should not be submitted as the LEA’s description to satisfy the GEPA requirement.

**Submitting to GaDOE**

The GEPA response is submitted to GaDOE on the fiscal year consolidated application. On the GEPA tab, there is a space for the LEA to provide their statement. The Superintendent will submit this to GaDOE by October 1. GaDOE will check to ensure a GEPA statement is provided by the LEA each fiscal year.

**Prayer Certification**

Sec. 8524 of the Elementary and Secondary Education Act of 1965 (ESEA) as amended by the Every Student Success Act of 2015 (ESSA) requires that, as a condition of receiving ESEA funds, a sub-grantee or sub-recipient must certify in writing to its state educational agency (SEA) that it has no policy that prevents, or otherwise denies, participation in constitutionally protected prayer in public schools as set forth in the law. Each fiscal year, the Superintendent will review and complete this certification on the My GaDOE Portal (https://portal.doe.k12.ga.us/login.aspx) by October 1. An LEA is any district, charter school, agency, or program receiving a federal allocation.
**Budgets**

- Budget by each program: LEAs must submit a program budget for each applicable program in the consolidated application each fiscal year. The budget must be approved by the appropriate program manager before funds are available through Georgia’s Grants Accounting Online Report System (GAORS). Budgets should be submitted as soon as the LEA CLIP is approved and no later than October 1. This will ensure the LEA implements its supplemental support services for children when the school year begins. Amendments to original budgets are accepted throughout the year.

- Budget summary: LEAs will be able to view a budget report that compiles budgeted items by function and object across all programs. This feature will enable LEAs to view all funds that are budgeted for professional learning, teacher salaries, travel, instructional materials, etc.

**Program-Specific Worksheets**

Some programs require data unique to their legislation and the Consolidated Application houses these data requirements. For example, Title I, Part A requires rank order of schools based on poverty percentages. This requirement is not required by other programs.

**Surveys and Attachments**

Some programs require surveys and other data collections unique to their legislation and the Consolidated Application houses these surveys and data collections. For example, Title I, Part A requires documentation of rezoning and opening/closing of schools.

**Chapter 3: Allocations for Federal Programs**

The U.S. Department of Education (USED) provides official formula-based allocations to states by July 1 of each year for the majority of federal programs. Once received by GaDOE, each federal program follows its specific procedures to determine allocations to LEAs in Georgia. These specific procedures are found in each program’s handbook (located on our website). The Division of Federal Programs presents these allocations to the State Board of Education as soon as they are available, typically in July and August, for review and approval. Once approved, each program will create official grant award notices (GANs) and load a copy to the general attachments tab on the consolidated application in the MyGaDOE portal.

To support LEAs with planning efforts before official formula-based allocations are received from USED, the Division of Federal Programs will create an estimated allocation spreadsheet that includes all LEAs and programs for which preliminary estimates are feasible. These estimates are based on preliminary allocation information posted by USED during the months leading up to final allocations in July or August. LEAs are encouraged, but not required, to use these estimates. The spreadsheet with estimated allocations will be posted [here](#) by May 1 of each year.

**Federal Program Statutes**

Unless otherwise noted, all references to ESSA in this document refer to the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA).
Federal grants are subject to Federal laws and any additional requirements specified in state laws. The following statutes are the most commonly applicable to federal programs in Georgia.

- *Individuals with Disabilities Education Act* (IDEA)
- The Official Code of Georgia (OCGA) - Title 20 Education, SBOE rules, GaPSC rules

**Federal Program Regulations**

Regulations further detail the requirements of the laws. Regulations supporting the statutes governing federal programs may be found [here](#).

**Federal Program Guidance**

Non-regulatory guidance usually serves to outline and describe the goals of the statute or regulations for which it was developed. State Education agencies (SEAs) and Local Education Agencies (LEAs) that adhere to non-regulatory guidance are more likely to achieve the goals of the grant and comply with relevant laws and regulations. The following guidance supports the statutes and regulations governing key federal programs.

- ESSA Early Learning Guidance, 2016
- ESSA Fiscal Changes and Equitable Services Guidance, 2016
- ESSA Title IV, Part A Guidance, 2016
- ESSA English Learners and Title III Guidance, 2016 and Addendum 2019
- ESSA Schoolwide Guidance, 2016
- ESSA Title I, Part C Guidance, 2017
- ESSA Using Evidence to Strengthen Education Investments Guidance, 2016
- Education for Homeless Children and Youths Program, Updated August 2018
- Ensuring Educational Stability for Children in Foster Care, June 23, 2016
INTERNAL CONTROLS

Code of Federal Regulations

LEAs must operate their federal grants in accordance with the Code of Federal Regulations.

LEAs must establish and maintain effective fiscal control and fund accounting procedures (internal controls) over the Federal award that provide reasonable assurance that the LEA is compliantly managing the Federal award. Internal controls can be defined as a process, implemented by an LEA designed to provide reasonable assurance regarding the achievement of objectives in the following categories: effectiveness and efficiency in operations, reliability of reporting for internal and external use, and compliance with applicable laws and regulations (2 CFR §200.61). The goal of internal controls is to reduce fraud, waste and abuse in the use of Federal funds. LEAs must adequately safeguard all assets and assure that they are used solely for authorized purposes.

Some internal controls are captured in LEA board policies and some are informal and maintained in the LEA’s Federal programs division written procedures. Written processes and procedures governing the LEA implementation of federal grants should be reviewed routinely and revised as needed. If, in the course of monitoring and audits, a revision of internal controls is required, LEAs must take prompt action.

Written procedures for financial management should include information addressing:

- LEA accounting system(s)
- How budgets are loaded onto the system
- Process for comparing budgets to expenditures
- Process for drawing down funds
- Process and authorizations for budget revisions
- Period of performance and when obligations are made
- Process for carryover
- Process for completing the completion reports
- Incorporate state agency requirements, if applicable

</tbody>
</table>
**Time and Effort Flexibility**

Upon legal consultation, in 2017-2018, GaDOE is allowing increased flexibility with time and effort as follows:

- **Type 1: Period Certification**
  - Single Cost Objective
  - May be completed twice a year OR once a year as detailed in LEA’s written procedures
  - Supporting documentation is still required
  - Signed after the fact by employee or supervisor with knowledge of the work performed
  - May be completed by for an individual or group (both forms available on GaDOE Website)

- **Type 2: Personnel Activity Report (PAR) also known as time logs**
  - Multiple Cost Objectives
  - Can be submitted to the supervisor quarterly or monthly as detailed in LEA’s written procedures

Flexibility for time and effort must be addressed in the LEA’s internal controls

**Methods of Procurement**

The LEA must use one of the following methods of procurement:

1. **Procurement by micro-purchases.** Procurement by micro-purchase is the acquisition of supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold (§200.67 Micro-purchase) of $10,000.00, but this threshold is periodically adjusted for inflation. LEAs should calculate the aggregate dollar amount for each purchase order of supplies or services. To the extent practicable, the non-Federal
entity must distribute micro-purchases equitably among qualified suppliers. Micro-purchases may be awarded without soliciting competitive quotations if the non-Federal entity considers the price to be reasonable.

1. As the LEA monitors purchases by program, there are times when multiple program funds could be combined for a single purchase, professional learning for example. The LEA should remember that the total amount of the purchase, not each program’s contribution, dictates the procurement procedures to follow.

2. **Procurement by small purchase procedures.** Small purchase procedures (§200.320) are those relatively simple and informal procurement methods for securing services, supplies, or other property that do not cost more than the simplified acquisition threshold (§200.88) of $250,000.00. If small purchase procedures are used, price or rate quotations must be obtained from an adequate number (at least 2) of qualified sources.

3. **Procurement by sealed bids** (formal advertising) for purchases greater than $250,000.00. Bids are publicly solicited, and a firm fixed price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming to all the material terms and conditions of the invitation for bids, is the lowest in price (§200.319).
   a. In order for sealed bidding to be feasible, the following conditions should be present:
      i. A complete, adequate, and realistic specification or purchase description is available;
      ii. Two or more responsible bidders are willing and able to compete effectively for the business; and
      iii. The procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.
   b. If sealed bids are used, the following requirements apply:
      i. Bids must be solicited from an adequate number of known suppliers, providing them sufficient response time prior to the date set for opening the bids, for local, and tribal governments, the invitation for bids must be publicly advertised;
      ii. The invitation for bids, which will include any specifications and pertinent attachments, must define the items or services in order for the bidder to properly respond;
      iii. All bids will be opened at the time and place prescribed in the invitation for bids, and for local and tribal governments, the bids must be opened publicly;
      iv. A firm fixed price contract award will be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs must be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of; and
      v. Any or all bids may be rejected if there is a sound documented reason.

4. **Procurement by competitive proposals** (§200.319). The technique of competitive proposals is normally conducted with more than one source submitting an offer, and either a fixed price or cost-reimbursement type contract is awarded. It is generally used when conditions are not appropriate for the use of sealed bids. If this method is used, the following requirements apply:
c. Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical;
d. Proposals must be solicited from an adequate number of qualified sources;
e. The non-Federal entity must have a written method for conducting technical evaluations of the proposals received and for selecting recipients;
f. Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered; and
g. The non-Federal entity may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors’ qualifications are evaluated, and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

5. **Procurement by noncompetitive proposals.** Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source and may be used only when one or more of the following circumstances apply:
h. The item is available only from a single source;
i. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;
j. The Federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the non-Federal entity; or
k. After solicitation of a number of sources, competition is determined inadequate.

**Statewide Contracts – Georgia Department of Administrative Services**

To the extent that a need exists for purchasing contracted services or equipment with federal funds, local educational agencies (LEAs) may utilize Georgia’s statewide contracts for the procurement of services in the same capacity as state agencies and universities. The use of statewide contracts may benefit LEA federal programs in that these contracts can, oftentimes, fill a need for specialized supplemental supports such as interpreting and translation services, to name two relevant examples. In exercising this option for the procurement of services, LEAs will follow the ordering instructions listed on the individual contract information sheets. LEAs should follow their own internal processes for using these statewide contracts as administered by the Georgia Department of Administrative Services (DOAS).

These statewide contracts developed by DOAS adhere to the Code of Federal Regulations (CFR) 200 Procurement Standards for states. However, LEAs are still responsible for ensuring that all federal regulations for LEAs are followed when utilizing these contracts:

- If utilizing a statewide contract for a Federal purchase between $10,000 and $250,000, a statewide contract should suffice without additional quotes.
- If using a statewide sole source contract, the district should either attempt to get additional quotes or document that the provider is a sole source for their individual needs.
• If utilizing a statewide contract for a purchase in excess of $250,000, the district must ensure all federal requirements are met. Each LEA should ensure their local procurement policy is updated to include the procedures the LEA will follow when using these statewide contracts.

**Additional Internal Controls**

While the internal controls mentioned in this chart are not required to be in writing, the LEA must still adhere to these requirements. Addressing the topics in writing may reduce the risk of not adhering to the requirements. (Following this chart is additional information on several internal controls topics.)

Period of Performance Flexibility (2 CFR §200.77, 200.309, 200.403(g); 34 CFR §76.707)

The intent of federal funds is to benefit students, teachers, and school leaders in that fiscal year through the grant period as indicated on the Grant Award Notice (GAN). Regarding purchases that cross grant periods (software, computers, equipment), GaDOE is providing flexibility as follows:

- Purchases may extend beyond one year to take advantage of cost reductions, IF the students, teachers and school leaders in the current fiscal year receive benefit from the purchase.
- Leases and licenses – If instructional software subscriptions are purchased after January, the LEA will need to provide explanation within the budget description indicating how students in the current fiscal year will benefit from the purchase. Professional learning and/or recruitment software and/or licensing do not require an explanation within the budget description.
- PL Registration – To maximize cost efficiency, LEAs may take advantage of early bird professional development registration where early bird registration occurs in the original grant period and the actual professional development occurs in the carryover period. Supporting documentation should be kept on file.

In general, and to reduce risk of non-compliance, GaDOE strongly advises that LEAs align all purchases to the original grant period as much as possible. GaDOE recognizes that each purchase is circumstantial and encourages LEAs to carefully plan purchases weighing all options and maximizing benefits to LEA students and staffs as good stewards of taxpayer dollars.

Suspension and Debarment (2 CFR §200.213)

- Non-federal entities when using federal funds are subject to the non-procurement debarment and suspension regulations implementing Executive Orders 12549 and 12689, 2 CFR part 180.
- These regulations restrict awards, sub-awards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs or activities.
- 2 CFR §180.220 Procurement contracts included as covered transactions:
  - Any vendor whose contract(s) (purchase orders) or subcontract(s) is expected to equal or exceed $25,000 across federal programs during the federal programs’ budget period must be checked against the System for Award Management (SAM) for suspension or debarment (includes contracted tutors)
  - Evidence of the verification can be in the form of a date/time stamped print screen, or other digital method that is readily available
    - Website for checking status: System for Award Management (SAM)
    - When micro and small procurements are made with vendors, the LEA shall check the vendor for suspension and debarment when cumulative vendor purchases equal or exceed $25,000
      - Checking at the $25,000 threshold should suffice throughout the federal programs’ budget period (LEAs may check prior to
reaching the $25,000 threshold at their discretion) (2 CFR 180.320)

- If a vendor becomes suspended/debarred after checking SAM, the LEA may choose to continue to use the vendor if the LEA was using the vendor before the vendor was excluded (2 CFR 180.315)
  - When sealed bids or competitive proposals are made with vendors (over $250,000), the LEA must check SAM twice (FAR 9.405(d)(1) and (4))
    - After opening of bids or receipt of proposals
    - Immediately prior to awarding the vendor

Website for checking status: **System for Award Management (SAM)**

![SAM Website](image)

**BUDGET MANAGEMENT**

Local Educational Agencies (LEAs) accepting federal funds must implement procedures to ensure appropriate fiscal management of funds. GaDOE’s processes and procedures are based on the fiscal regulations and guidance provide by the U. S. Department of Education through the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (known as the Uniform Grants Guidance or UGG) and EDGAR.

LEAs must be aware of and implement these regulations and guidance:

**Fiscal Regulations**

**EDGAR:** Education Department Guidance and Regulations

- 34 CFR Part 76 *State-Administered Programs*
- 34 CFR Part 77 *Definitions that Apply to Department Regulations*
- 34 CGR Part 81 *The General Education Provisions Act*
- 2 CFR Part 200 *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards*
- 2 CFR Part 3474 *U.S. Department of Education Acceptance of Uniform Administrative Requirements*

**Fiscal Guidance**

Budget Planning

When planning for budgeting for all federal programs, the LEA must:

- adhere to the LEA’s approved Consolidated LEA Improvement Plan (CLIP)
- coordinate funds to meet the goals and needs of the LEA
- include all supporting program documents (job descriptions, class size reduction worksheets, class size reduction documentation, private school documents, etc.)
- account for the expense of all funds in the year in which they are allocated

The following graphic represents how LEAs work through budget planning:

**Identified needs are the core of the budget development and approval process for all federal programs.**
Creating Budgets

Local Educational Agencies (LEAs) accepting federal funds must implement procedures to ensure appropriate fiscal management of funds. The Georgia Department of Education’s (The GaDOE’s) indirect cost calculation, chart of accounts, and Grants Accounting Online Reporting System (GAORS) used to draw down funds and report when all funds have been expended (completion report) are resources to assist LEAs with fiscal management.

Chart of Accounts

Local units of administration (LUAs) are required by Georgia law [O.C.G.A. 20-2-167 (b) (1)] to comply with uniform regulations established by the State Board of Education relative to the statewide uniform computerized budget and accounting system. Rule 160-5-2-.23, of the Georgia Board of Education incorporates the LUA Manual by reference. Additionally, this manual provides guidance to LUA fiscal personnel and serves as a useful training and reference source for LUA employees.

The annually updated LUA Chart of Accounts and corresponding guidance can be found on GaDOE Website. For budgeting and reporting purposes, LEAs must use the LUA Chart of Accounts or have a corresponding crosswalk. Not all LUA Chart of Accounts function and object codes are available when budgeting. As a rule, parameters for use of function and object code combinations are determined by the objectives and allowable activities of a program.

When reading an annual, quarterly or monthly detailed expenditure report, coordinators can identify the fund source and intended expense by looking at the coding

EXAMPLE: 414-1784-2210-116
- 414 (FUND: Government Funds),
- 1784 (PROGRAM: Title II, Part A),
- 2213 (FUNCTION: Instructional Staff Training),
- 116 (OBJECT: Stipends)

Professional Development

In 2017, Georgia’s Governor Deal signed HB 139 which addressed transparency of financial information in LEAs: The Department of Education shall make available on its website the following school site budget and expenditure information for each school unless specifically made confidential by law: (3) The cost of all professional development, including training, materials, and tuition provided for instructional staff on an annual basis. (OCGA 20-14-46(a)(3)). In an effort to support LEAs working toward these requirements, GaDOE added an additional function code to allow LEAs to separate and report the impact and purpose of professional development.

2210 – Improvement of Instructional Services
- Activities which are designed primarily for assisting instructional staff in planning, developing, and evaluating the process of providing challenging learning experiences for students.
• Activities that aid teachers in developing the curriculum, preparing and using special curriculum materials, and understanding the various techniques that motivate students.
• Technology activities and services for the purpose of supporting instruction. Includes costs associated with technology personnel, systems planning and analysis, systems application development, network support services, and other technology-related costs that relate to the support of instructional activities.
• Any other activities or services supporting the instructional staff

2213 – Instructional Staff Training

• Instructional Staff Training - Activities associated with the professional development and training of instructional personnel to impact students.
• In-service training (including mentor teachers), workshops, conferences, demonstrations, courses for college credit (tuition reimbursement), and other activities related to the ongoing growth and development of instructional personnel
• Training that supports the use of technology for instruction should be included in this code
• The incremental costs associated with providing substitute teachers in the classroom (while regular teachers attend training) should be captured in this function code
• Training by internal and external vendors
• Stipends for off contract work
• Travel costs for workshops and conferences that are instructionally focused

Is the professional development cost for instructional staff?

- YES
  - Code costs to Function 2213
- NO
  - Code costs to same functional category as employee’s salary

Unless otherwise noted, all references to ESSA in this document refer to the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA).
**Completion Reports**

The GaDOE requires each LEA receiving Federal grant funds to submit a completion report no later than 30 days after the initial 15-month period of availability ends. Therefore, completion reports are due on October 30. Completion reports may be accessed online through the Grants Accounting Online Reporting System (GAORS).

A completion report defines the total amount of the original grant award and the total amount of funds that were expended by an LEA during the initial 15-month period of availability. Grants Accounting uses completion reports to determine the amount of unexpended funds and the amount of funds available for carryover for each LEA.

Federal program administrators within each LEA should work with their Finance Directors/Contacts to ensure that completion reports are submitted in a timely manner.
**Draw Downs**

Local educational agencies (LEAs) that participate in Federal Programs with the Georgia Department of Education (GaDOE) will draw down Federal funds on a reimbursement basis for all allowable expenditures incurred in their respective participating Federal Program(s). An incurred expenditure will be defined as an expenditure for goods and/or services that the LEA has received, even if no payment was made. This will include goods and services received such as salaries, consumed utilities, rent, and supplies.

The Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (also known as the Uniform Administrative Requirements, 2 CFR Part 200, or UAR) requires all Federal programs to have written procedures to implement the requirements for payments of Federal funds (2 CFR 200.302). These procedures include how GaDOE will draw down funds from the Federal Government and how GaDOE will make these funds available to LEAs to draw down each month. Therefore, it is the responsibility of GaDOE to establish the procedures as to how LEAs will receive their Federal funds.

The payments section of the UAR (2 CFR 200.305) allows for two methods of Federal fund disbursements to Federal program participants: advance payments and reimbursements.

Advance payments to a non-Federal entity must be limited to the minimum amounts needed and be timed to be in accordance with the actual, immediate cash requirements of the non-Federal entity in carrying out the purpose of the approved program or project. The timing and amount of advance payments must be as close as is administratively feasible to the actual disbursements by the non-Federal entity for direct program or project costs and the proportionate share of any allowable indirect costs.¹

If the requirements for advance payments above cannot be met, then reimbursement is the preferred method. Additionally, at any time, GaDOE, per § 200.305(b)(3), can require LEAs to request payments by reimbursement.

It is the procedure in Grants Accounting, due to system limitations in the Grants Accounting Online Reporting System (GAORS), that LEAs are limited to one drawdown each month (15 payments for Federal grants) during the grant period. The cut off for monthly drawdowns will be each Thursday at 3 PM, with funds disbursed to the LEA the subsequent Thursday. Therefore, since GaDOE cannot guarantee the timing and amount of the advance payments will be as close as administratively feasible to the actual payment of the advance (usually 3 days) with one drawdown per month, it is the procedure of GaDOE that all disbursements to LEAs will be reimbursement for all allowable incurred Federal program expenditures.

---

¹ Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards § 200.305(b)(1)
Incurred expenditures and paid expenditures are not the same thing. For example, an LEA would have incurred an allowable program expenditure when they ordered and received computers, but they may not have paid the invoice. The obligation to pay was established when the LEA contracted to purchase the computers and payment was due when received. When the expense is incurred and equipment received, the LEA can seek reimbursement as part of its monthly drawdown in the GAORS. The LEA does not have to wait until final payment is made on the invoice. However, LEAs must meet all cash management requirements and should have a local policy in place to ensure cash is not held more than 3 days after receipt of the Federal funds drawdown. LEAs must also ensure that equipment/supplies are purchased and received during the period of performance (2 CFR 200.77) of the grant award.

Salaries are paid each month in arrears. Therefore, at the end of each month the LEA has incurred a salary expense for that month. It is our recommendation that LEAs seeking salary reimbursements should submit their drawdown the third Thursday of each month. This would make their funds available the subsequent Thursday in time to meet the end of the month’s payroll. If this methodology is used, the LEA will have to develop a reconciliation process to ensure any differences from the amount requested and the actual amount paid at the end of the month are corrected the subsequent month. It is the expectation that any differences are insignificant in amount and will not create a cash management issue. However, if the excess cannot be corrected in the subsequent month, the LEA should notify their proper Federal programs specialist and/or GaDOE Grants Accounting Office to determine the appropriate refund of excess funds drawn down.

Monthly drawdowns (or DE0147) in the GAORS system is an electronic payment process. The LEA will request the amount to be reimbursed and upon approval from grants accounting they will receive their money the subsequent Thursday. A monthly drawdown is limited to 20% of the approved budget balance. Monthly requests for amounts more than the 20% require a comment/explanation before approval is granted. LEAs should drawdown funds as needed, however, no more than one drawdown per month. It is the recommendation of GaDOE that a best practice for an LEA is to include in their drawdown procedures and practices a copy (paper or electronic) of the complete expenditure detail report that directly relates to each DE0147 drawdown request.

Each LEA is required to document their procedures for cash management compliance of Federal programs. (2 CFR 200.302) The procedures must document the internal controls in place to ensure there is appropriate review and authorization of the cash drawdown by someone other than the individual requesting the drawdown. It is the recommendation of GaDOE that the Federal program administrator reviews and approves all drawdown requests prior to the finance officer submitting the request in GAORS. This is necessary to ensure that funds are spent in accordance with the budget as approved by GaDOE program manager. If funds are not drawn down appropriately for approved budgeted expenditures or if the drawdowns are not based on actual expenditures already incurred, the LEA could be required to return the funds to GaDOE.

The UAR section on required certifications (2 CFR § 200.415) states that on all completion reports and vouchers requesting payment (DE0147), the following legally binding certification must be included:
By signing this report, I certify to the best of my knowledge and belief that the report is true, complete, and accurate, and the expenditures, disbursements and cash receipts are for the purposes and objectives set forth in the terms and conditions of the Federal award. I am aware that any false, fictitious, or fraudulent information, or the omission of any material fact, may subject me to criminal, civil or administrative penalties for fraud, false statements, false claims or otherwise. (U.S. Code Title 18, Sec. 1001 and Title 31, Secs. 3729-3730 and 3801-3812).

The language is incorporated into GaDOE completion reports and drawdown forms, as well.

All LEA Federal programs are on a four-year monitoring cycle. Part of this monitoring is to review actual expenditures and cash drawdowns to ensure funds were appropriately spent and purchases were allowable. If an LEA is placed on High Risk by either the Federal Programs staff or by GaDOE Department of Audits, they will be monitored that fiscal year.

If an LEA is found to have spent funds inappropriately or has drawn down more money than they have spent, then funds will be refunded to GaDOE. Furthermore, if the LEA is found to have earned interest over $500 due to excess drawdowns of funds during the period of performance, then the LEA must comply with 2 CFR Part 200.305(b)(9) and remit the additional interest earned. The GaDOE also reserves the right to take further corrective action as necessary, including a more restrictive reimbursement method of submitting invoices prior to being reimbursed.

**Monitoring of Draw Downs**

Federal law is clear that the purpose of ESSA funds is to identify needs, plan interventions and implement resulting plans in order to have the greatest impact possible on students and staff in the most immediate time frame available. LEAs must follow federal regulations and state guidance regarding the drawdown of funds. In the absence of federal regulations that explicitly identify an exact timeframe for LEA drawdowns, GaDOE has established general guidance encouraging LEAs to drawdown funds throughout the grant year, noting that LEAs should only drawdown in accordance with their approved budget(s) and actual expenditures. In alignment with 2 CFR 200.302(b)(4) requiring subrecipients to maintain effective control and accountability for all funds, assuring that they are used solely for authorized purposes, it is the expectation of the GaDOE that funds that are expensed are drawdown in a timely manner and adhere to compliant LEA drawdown procedures. A delay in accessing funds will be considered when determining whether LEAs maintain effective fiscal control.

To ensure that its LEAs are appropriately drawing down available federal grant funds through the first 15 months of the 27-month period of availability, GaDOE monitors the drawdown of the funds.

Through the first 15 months, the generally anticipated rate of draw for LEAs running full-year federal program funded supports and services is as follows:
Unless otherwise noted, all references to ESSA in this document refer to the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA).

GaDOE program staff and/or the federal programs director will contact the LEA program contacts and/or superintendent during the year when these thresholds are not met.

In many instances, an LEA will have a rationale for not drawing down funds in a timely manner that aligns with the approved program budget and plan. This could include that a program’s intents and purposes may cause a district to not offer any, or offer only limited supports early in the fiscal year. Or, the LEA may regularly experience high and low periods of grant-funded activity, and this is fine. This information is directly identifiable in the subgrantee’s plan and approved budget.

At the completion of the first 15 months, GaDOE permits LEAs to carryover allowable unused funds to the LEA for continued use during the remainder of the 27-month period of availability. GaDOE will monitor to ensure that the LEA is drawing down these older funds prior to accessing newer funds. Each federal program’s carryover allowances are explained on page 58.

### Restricted Indirect Costs

The Georgia Department of Education (Department) calculates restricted indirect-cost rates for Local Educational Agencies (LEAs) each fiscal year based on requirements established by the U.S. Department of Education. Restricted indirect-cost rates are posted on GaDOE’s Website and are sent to LEAs. The restricted indirect cost rates are found on GaDOE’s Website.

LEAs may only apply the indirect costs rates on expenditures which are determined on an LEA by LEA basis. Indirect costs can be budgeted on the whole grant but should only be drawn down after appropriately applied. Completion reports should show indirect costs applied appropriately. If completed correctly in one year, the indirect costs can then apply to carryover in the following year.

#### Calculation of Restricted Indirect Costs Budgeted

If the LEA decides to apply an indirect-cost rate, it is strongly recommended that the LEA work with the LEA’s business office in the calculation of the dollar amount.

Remember:
- The indirect cost rate is calculated for a fiscal year and must be applied to actual expenditures each fiscal year.
- Equipment purchases must be deducted before applying the indirect-cost rate.
- The indirect costs must be removed from the balance before the indirect rate can be applied (this prevents paying indirect costs on indirect costs).
- LEAs must have a state-negotiated indirect-cost rate.
To apply the indirect cost rate by fiscal year, the LEA will initially budget for indirect cost using the most current rate available. For example, the FY20 grant award period is July 2019 – September 2020. The FY20 indirect cost rate will be applied to the period of July 2019 – June 2020. However, because the FY21 indirect cost rate will not be available until later in the grant period, the initial budget of the indirect costs will apply the FY20 rate to the entire grant award amount.

The following is an example of how indirect costs are initially calculated.

Grant Amount: $10,000  
Equipment Purchases under Object Codes 730 and 734: $1,500  
State-Negotiated Indirect-Cost Rate for Your LEA: 2.16%

\[
\begin{align*}
$10,000.00 & - $1,500.00 = $8,500.00 \text{ (subtract equipment purchases)} \\
$ 8,500.00 / (1 + .0216) & = $8,320.28 \text{ (pull out indirect costs)} \\
$ 8,320 \times .0216 & = $179.72 \text{ (calculate indirect costs)} \\
$ 179 & \text{ (round down to nearest dollar)}
\end{align*}
\]

Once the FY21 state-negotiated indirect cost rate is available, the LEA must consider whether the budget for indirect cost must be amended. The following scenarios could apply:

- If the FY21 rate is greater than the FY20 rate, the LEA can continue to apply the lower FY20 rate and no budget amendment will be necessary.
- If the FY21 rate is less than the FY20 rate, the LEA has three options:
  - Amend the entire budget to apply the lesser rate to the entire grant period;
  - Amend the budget to apply the lesser rate to the budgeted expenditures that are anticipated to be incurred in the July-September period of the grant; or
  - Amend the budget to apply the FY20 rate only to those expenditures that are anticipated to be incurred in the July-June period of the grant (and only apply the rate to actual expenditures incurred in FY20).
Worksheet for your calculations (example)

1. Enter the amount of your total federal funds for a specific program (including funds transferred in/out and carryover). $25,000

2. Enter cost of budgeted equipment purchase (object codes 730, 734), any terminal leave payments, and the cost of any subawards in excess of $25,000 budgeted for the grant period. $0

3. Difference in #1 and #2 $25,000

4. Get your approved current indirect-cost rate from your business office. Enter rate as a decimal (example 2.16% = 0.0216) 2.16

5. Add “1” to the indirect-cost rate (1.0216). 1.0216

6. Divide the dollar total in Step 3 by the number in Step 5 (1.0216). $24,471.41

7. Multiply the dollar total in Step 6 by the indirect-cost rate in Step 4 .0216

8. The maximum amount you can charge to indirect costs is the amount shown here: $528.58

Calculation of Restricted Indirect Costs Budgeted Applied to Actual Expenditures

The approved indirect cost rates calculated are valid from July 1 through June 30 of the applicable fiscal year of approval. Indirect costs are recovered only to the extent of direct costs incurred. The indirect cost rate is applied to the direct cost amount expended, not to the grant award allotted.

Once the indirect cost budget is determined, the LEA must consider how to apply the indirect cost rate to actual expenditures incurred. When applying the indirect cost rate, the LEA must consider that the amount budgeted is the maximum amount that may be applied. The LEA must also consider the fiscal year in which the expenditures are incurred, as the indirect cost rates are applicable to a 12-month fiscal year period and not the complete 15-month grant award period.

To apply the indirect cost rate, the applicable fiscal year rate should be considered for the period in which expenditures are incurred. It should be noted that the expenditures are not necessarily incurred in the same period in which the cash is paid for the expenditures. For example, the summer accruals for salaries and benefits to satisfy the contract period for 10-month employees are expenditures incurred prior to June 30th, although the cash paid for the salaries and benefits outflows in July and August.

The indirect cost rate changes each July, unless the district chooses to apply the lower rate that was established the previous fiscal year.
Administrative Costs

Administrative cost (or set-aside) amounts are set in statute for Titles III, Part A and Title IV, Part A. Other Federal Programs are granted authority to set reasonable and necessary thresholds on administrative costs paid within the grants in order to facilitate the utilization of grant funds for the true intent and purpose of the various grants - improving student achievement. The percentages listed below represent the maximum set aside amounts allowed by program as set by the Georgia Department of Education. Any administrative costs above these thresholds would require written approval from the specific program manager at GaDOE.

Consolidation of Administrative Funds for ESSA – LEA Consolidation

General Authority

The Elementary and Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA), allows a local educational agency (LEA) flexibility to consolidate funds for administration of one or more ESSA programs, upon approval of the Georgia Department of Education (GaDOE). The authority for the consolidation of funds for local administration is found in ESSA Sec. 8201 and Sec. 8203.

Benefits

Consolidating federal administrative funds may provide LEAs with greater flexibility in the administration of federal ESSA programs by allowing them to charge administrative costs to an administrative pool instead of assigning specific costs to specific programs. As long as the cost is an allowable administrative activity under any one of the programs that have been consolidated, it may be charged to the administrative cost pool. An LEA would not have to keep separate records, by individual program, to account for costs related to administering the programs included in the consolidation. The consolidated funds would be treated as a single cost objective and the LEA would not have to maintain personnel activity reports but rather do annual or semi-annual certifications for employees whose job duties and responsibilities are allowable under the consolidated administrative funds requirements.

Conditions

An LEA must have the approval of the GaDOE, through procedures and limitations established by the GaDOE in collaboration with LEAs, to consolidate administrative funds each school year:

1. The LEA will send an email to federalprograms@doe.k12.ga.us by August 1 indicating their intent to consolidate administrative funds.
2. The LEA will complete the Consolidation of ESSA Administrative Funds – LEA Level, School Year 20XX – 20XX form and indicate the specific ESSA programs that it will consolidate.
3. The LEA will attach the fully completed form to the Attachments tab in the Consolidate Application on the MyGaDOE portal for the appropriate fiscal year.
4. The LEA will complete a Consolidated Federal Administrative Funds budget within the Consolidated Application portal. The GaDOE’s approval of this budget will serve as the overall approval of the request.

When consolidating and using funds for the administration of one or more programs under ESSA, the LEA may not exceed the percentage established by statute or the GaDOE for allowable administrative costs.
An LEA that consolidates administrative funds may not use any other funds from the programs included in the consolidation for administration for that fiscal year.

An LEA must maintain records to show: (1) the amount of administrative funds from each ESSA program for the grant year that the LEA consolidates administrative activities; (2) that the amount consolidated does not exceed any statutory or regulatory cap on administrative funds; (3) that funds were obligated within the period of availability; and (4) that the activities for which the funds were used were allowable under section 8203.

**Uses of Consolidated LEA Administrative Funds (Section 8203)**

The local uses of these consolidated federal funds are essentially the same as the state’s uses of its consolidated administrative funds. The statute states that an LEA that elects to consolidate administrative funds may use those funds for the administration of the programs and for uses at the LEA and school levels that are “comparable to those available to the state.”

Allowable administrative costs, which may include both direct and indirect administrative costs, include the following:

- Salaries and wages of staff involved in the administration of any of the consolidated programs (such as federal program coordinators and federal program directors)
- Planning for the use of the federal program funds (such as costs associated with federal program budget development)
- Monitoring and evaluation of federal program activities (such as salaries and wages of federal program monitors and internal program auditors, and costs associated with reviewing and defining Consolidated LEA Improvement Plan (CLIP) program goals, objectives, and performance)
- Indirect costs, calculated using the LEA’s indirect cost rate, related to processing federal program funds (such as costs associated with federal funds accounting, human resources, and information technology)

From ESSA Section 8201 – although the uses below refer to state activities, the same may be inferred for additional LEA activities, as noted in Section 8203(d)(1).

(2) ADDITIONAL USES. —A State educational agency may also use funds available under this section for administrative activities designed to enhance the effective and coordinated use of funds under programs included in the consolidation under subsection (a), such as—

(A) the coordination of those programs with other Federal and non-Federal programs;
(B) the establishment and operation of peer-review mechanisms under this Act;
(C) the administration of this title;
(D) the dissemination of information regarding model programs and practices;
(E) technical assistance under any program under this Act;
(F) State-level activities designed to carry out this title;
(G) training personnel engaged in audit and other monitoring activities;
(H) implementation of the Cooperative Audit Resolution and Oversight Initiative of the Department; and
(I) implementation of fiscal support teams that provide technical fiscal support assistance, which shall include evaluating fiscal, administrative, and staffing functions, and any other key operational function.

**Eligible Programs**
The ESSA programs listed in the table below may be included in the consolidation of administrative funds. The table also shows the maximum percentages of each LEA’s total allocation that may be used for administrative costs. Maximum percentages were either defined in ESSA statute or were defined in consultation with LEAs.

**Exhibit A**

<table>
<thead>
<tr>
<th>ESSA Program</th>
<th>Maximum Percentage for Administration</th>
</tr>
</thead>
<tbody>
<tr>
<td>Title I, Part A - Basic Programs</td>
<td>≤0%</td>
</tr>
<tr>
<td>Title I, Part C – Education of Migratory Children</td>
<td>≤0%</td>
</tr>
<tr>
<td>Title I, Part D - Subpart 2, Neglected &amp; Delinquent (N&amp;D)</td>
<td>≤0%</td>
</tr>
<tr>
<td>Title II, Part A - Supporting Effective Instruction</td>
<td>≤0%</td>
</tr>
<tr>
<td>Title III, Part A – Language Instruction for English Learners (EL)</td>
<td>≤2%</td>
</tr>
<tr>
<td>Title III, Part A – Immigrant Students</td>
<td>≤2%</td>
</tr>
<tr>
<td>Title IV, Part A – Student Support and Academic Enrichment (SSAE)</td>
<td>≤2%</td>
</tr>
<tr>
<td>Title IV, Part B - 21st Century Community Learning Centers (CCLC)</td>
<td>≤10%</td>
</tr>
<tr>
<td>Title V, Part B – Rural and Low-Income Schools (RLIS)</td>
<td>≤0%</td>
</tr>
</tbody>
</table>

Please note that if an LEA exercises its option to transfer funds between allowable programs, the maximum percentage applies to the combined funds under the program to which funds were transferred. For example, if an LEA transfers Title IV, Part A funds to Title III, Part A – EL, the 2% maximum percentage for Title III, Part A – EL applies to the combined Title IV, Part A and Title III, Part A – EL funds.

Generally, state and local administrative funds may not be consolidated with the federal administrative funds; however, there is an exception in statute that if the state and local funds are used only for activities authorized in section 8201(b)(2)(I) (see allowable use of funds above), those funds may be combined with the federal administrative consolidated funds and treated as a single cost objective. State/local funds for the previously mentioned exception will not be allowed in the administrative consolidation at this time, due to the restrictive limitations and need for defining, with greater clarity, the activities that can be targeted with those funds. The use of state/local funds for activities authorized in the consolidation will be considered in future periods.
Documentation Required

The GaDOE is required to uphold its administrative responsibilities by ensuring that federal grant subrecipients comply with applicable statutes and regulations, including the rules that apply to the LEAs’ consolidation of federal administrative funds. If an LEA is audited or monitored, it must provide adequate documentation to demonstrate that it complies with all applicable requirements. LEAs must maintain documentation that shows:

- The amount of administrative funds from each program for the grant year that the LEA consolidates funds for administrative activities
- That the amount consolidated from each program does not exceed the established or required statutory or regulatory cap
- That funds were obligated within the period of availability
- The activities for which funds were used were allowable under any of the consolidated programs

An LEA can fulfill the first two requirements listed above when it completes and submits to the GaDOE the Consolidation of ESSA Administrative Funds – LEA Level form. To fulfill the third and fourth requirements, an LEA must comply with basic accounting requirements for availability of funds and allowability of costs. Please utilize existing guidance and resources for each of the programs included in the administrative consolidation for additional information regarding availability and allowability of funds and costs.

Budgeting

An LEA begins budgeting for consolidated administration by deciding which eligible federal programs to include in its administrative cost pool. Next, the LEA determines the total cost for administering the programs to be consolidated for the school year. The process used to determine administrative needs should not change simply because an LEA is consolidating administrative funds. It should incorporate results from the Consolidated LEA Improvement Plan (CLIP). The process should be part of creating an overall annual budget for the LEA that takes into account both required programmatic activities and administrative needs. Simply taking the full amount available, up to the designated cap for consolidation, is not appropriate planning. LEAs must always ensure that no amount exceeds the maximum percentage for administrative costs given in statute or defined by GaDOE. Budgets must only include administrative activities that are allowable under any one of the programs being consolidated for administrative purposes, and the costs must be reasonable and necessary. The budget must contain all necessary components, and may generally include administrative costs for staffing, supplies, technology, professional development, and travel costs needed to manage the programs.

The following table shows an example of an LEA’s estimated budget of administrative costs for the federal programs included in its administrative cost pool for a school year.
**Exhibit B**

</tbody>
</table>

This budget estimate is the basis for determining how much money from each eligible program the LEA will consolidate in the administrative cost pool to meet its estimated administrative needs. Again, it is critical to ensure that no cap limitations are exceeded, that all reasonable and necessary requirements are met, and that parallel program (non-administrative) budgets continue to contain sufficient funds to effectively operate or carry out required programmatic activities.

Please note that the administrative costs budgeted in the consolidation are funded with federal funds only. Therefore, no indirect costs can be utilized as a revenue source within this budget. The budget will only include direct federal program resources. Indirect costs will continue to be budgeted based on the approved rate that is applied to each federal program’s budget. Each federal program’s budget will include the consolidated costs. The indirect cost rate is allowed to be applied to the amount of consolidated costs in each individual federal program’s budget. Consolidating the administrative costs should have no impact on the amount of indirect costs your district is allowed to budget to each individual federal program.

**General Accounting Information for Local Finance Personnel**

If an LEA consolidates administrative funds in an administrative cost pool, it must use that pool to pay for administrative costs for all programs that contribute to the pool. It may not use program (non-administrative) funds to pay for any administrative costs for the contributing programs. For example, if Title III contributes to the administrative pool, there should be no expenditures in the individual Title III program fund for administrative costs.

The accounting methodology for the LEA’s consolidated federal administrative funds will work just like the schoolwide consolidation for federal funds, only utilizing Fund
400 – Federal Consolidated Initiatives. For the federal administrative funds, an LEA will consolidate a portion of each federal programs’ budget into Fund 400, using a unique expenditure object code to identify the portion that will be consolidated. Each portion of the funds going into the consolidation makes up part of a whole and becomes a percentage of the whole consolidation. Funds will always be expended among the contributing funds according to the percentage contributed.

To separately identify the administrative consolidation from a schoolwide consolidation, the GaDOE created the following account:

Object Code – 882 – Federal Administrative Consolidation – Used to allocate costs between the participating federal program funds and Fund 400 in support of consolidated administrative costs for federal programs. 882 will be used in conjunction with Function 2230 for an LEA to report the portion of a federal program’s budget that is allocated to the administrative consolidation fund. LEAs will also utilize the expenditure object 882 to move total expenditures out of Fund 400 back to each participating federal program on a monthly or annual basis. Because only federal funds are initially consolidated, and all activity is administrative in nature, the entries to disaggregate the data are fairly simplistic for the administrative consolidation program. The budget will be maintained with one functional category, 2230- Federal Grant Administration, and one facility code, 8010 – Central Office.

Once the amount of available and needed resources has been identified, the LEA will develop a budget. The budget for the administrative consolidation fund will include budgeted expenditures by function-program-object code. All activity will be budgeted such as salaries, travel, professional development, supplies, equipment. Once the budget is developed, the budget is recorded in a budget template. The template will help facilitate the detail to enter into the Consolidated Application portal. The budget is entered into the accounting/budgeting software using Fund 400, Program Code 8882 – Federal Program Administrative Consolidation, Function 2230, Object Code 882.

In the contributing federal program, use object code 882 to report the amount the grant is contributing into the consolidation. For example, if the LEA plans to consolidate $50,000 of Title I-A funds for federal administrative costs, the budget for Title I-A will include the following line item:

402-1750-2230-882  $50,000 in the consolidation fund (Fund 400), object code 882 will include a credit balance, to show how much has been sent back to each of the contributing funds. For example, the budget for Fund 400 will include the detail of HOW the $50,000 allocated from the Title I program will be spent. To offset the total amount of expenditures, the district will record a credit to 882 in Fund 400. This allows the detail of the budget to be presented in the appropriate fund (administrative versus individual federal programs) but the total dollar amount of expenditures will not be overstated. The budget for the Fund 400 consolidated will include the following line items:

400-8882-2230-190  $42,000
400-8882-2230-200  $2,000

Georgia Department of Education
April 8, 2020 • Page 49 of 153

Unless otherwise noted, all references to ESSA in this document refer to the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA).
Fund 400 should have an overall zero balance (i.e., no remaining fund balance budgeted). Additionally, the total of expenditures coded to 882, summed for all funds, should have a zero balance as well. An example of a budget template for the administration consolidation program is as follows:

**Exhibit C**

<table>

</tbody>
</table>

**Total Fund 400 Administrative Budgeted Expenditures:** $0.00 $0.00 $0.00

Please note that the total amount budgeted in the Federal Administrative Consolidated Budget is ZERO. This is for reporting purposes in the Consolidated Application. The $284,000 negative (or credit) balance that is budgeted to object code 882 is budgeted in each participating federal program. Exhibit D is an example of the allocations of each participating federal grant:

**Exhibit D**

<table>

<td></td>
<td>$14,000.00</td>
<td>4.93%</td>
</tr>
</tbody>
</table>

**Total Budgeted Resources:** $284,000.00 $0.00 $284,000.00 100.00%

The allocated resources from each federal program is based on the need of that program, not to exceed the maximum percentage allowed of the overall allocation for each participating federal program. In order to determine the amount needed to budget from each federal funding source, the LEA is required to determine the need of the
administrative function. Exhibit E is an example of the possible activities that may be expected to be funded in the consolidated administrative fund:

**Exhibit E**

<table>
<thead>
<tr>
<th>Direct Administrative Costs</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Salaries (one federal programs director)</td>
<td>$75,000.00</td>
</tr>

<tr>
<td>Training Conferences</td>
<td>$1,000.00</td>
</tr>
<tr>
<td><strong>Total needs to be budgeted</strong></td>
<td><strong>$284,000.00</strong></td>
</tr>
</tbody>
</table>

The needs of the LEA are what drives the budget of each federal funding source (Exhibit D). The amount allocated by each participating federal fund will be included in the budget submitted in the Consolidated Application. The next page includes an example of the Title I-A budget. You will note that the amount that is budgeted for the Consolidated Administrative Fund ($154,000) is included in the budget, utilizing just one line. The detail of how that budgeted expenditure will be spent is included in the Consolidated Administrative Fund Budget (Exhibit C).
Note that the only amounts budgeted in Title I-A for administrative costs are budgeted to the function 2230, object 882 for the consolidated administrative costs. The amounts budgeted in the Exhibit above for Title I-A equal the total resources allocated in Exhibit D from Title I-A. Also note that the amount of administrative costs do not exceed 10% of the overall budget for the Title I-A program.

---

Unless otherwise noted, all references to ESSA in this document refer to the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA).
**Recording Monthly Operations**

All transactions for the consolidation of federal administrative funds will be recorded in Fund 400 – Federal Consolidated Initiatives. At the end of each month, a monthly journal entry is processed by the LEA’s finance office to allocate the expenditures to the grants that have contributed to the consolidation. The percentages budgeted by each participating federal funding source are applied to determine the amount to allocate to each.

The entry is as follows:
- **Fund 400:**
  - Debit Cash – 0101
  - Credit Expenditure –8882-2230-882

Each participating Federal Program:
- **Debit Expenditure – XXXX-2230-882**
- **Credit Cash – 0101**

Upon completion of the monthly entry, Fund 400 will have a zero balance. An LEA will have the option to make the entry at the end of the fiscal year, prior to fiscal year end close, although it is recommended that the journal entry to disaggregate the funds is recorded each time a cash drawdown is made for the federal programs. This ensures the funds are easily reconciled to the cash drawdowns. In either case, whether the entry is posted monthly or at year-end, the LEA will maintain the monthly expenditure allocation worksheet to support the cash drawdown requests and ensure there are no cash management issues. An example of a monthly allocation worksheet is below:
Applying the Budgeted Percentages for Federal Cash Management

It is recommended that an LEA apply the most recent budget amendment to the year-to-date expenditures each time a federal cash drawdown is requested. For example, an LEA may have an initial consolidated administration budget that applies 50% of the overall budget to Title I-A. After a few months, the budget is amended and the overall budget increases to 75% of Title I-A in the consolidated budget. If the 75% budget amendment is not applied to the year-to-date expenditures, and only applied to the month’s moving forward after the amendment, the year-end allocation for Title I-A will not agree to the 75%. This is a result of the budget being an annual estimate but applied on a monthly or quarterly basis for cash drawdown requests. An LEA should ensure the budgeted amount of federal dollars for each federal program consolidated are closely monitored throughout the year, to ensure the funds are spent and the carryover thresholds are met.

To implement, the LEA will apply the most current budgeted allocation percentages to the year-to-date expenditures, then deduct the prior month’s actual cash drawdown requests to determine the current cash drawdown request. This will require manual calculations on an external calculation sheet but will ensure there are not additional federal funds at the end of the fiscal year that have not been spent and are not allowable for carryover.

Setting up Accounts Receivables for Federal Programs

After the salaries/benefits accruals are posted in Fund 400, the LEA will have to determine, based on the approved budget, the proportionate share of federal grant funds that are earned and available. All grant funds that are earned as of June 30th but not yet received should be posted as an Accounts Receivable (debit Receivable, credit Revenue). The Receivable should be posted in each Federal program based on the amount of expenditures that will be allocated to each federal fund.

The fund balance for Fund 400 and the federal programs should be zero after the allocation entry and the receivable is posted.

The districts will need to ensure the receivable is posted based on each school’s allocated expenditures that include the salary and benefit payables and also considers the centralized, non-consolidated needs.

Setting up Salaries/Benefits Payables for Federal Programs

The procedure below is assuming that the district is posting journal entries to reclassify the expenditures out of Fund 400 and into the appropriate Federal funding sources.

Note: This procedure may vary contingent upon the type of accounting software in use by the district.

06/30/XXXX Set up salary/benefit accruals to various expenditure accounts in Fund 400 using procedure appropriate for the type of software in use. This should result in debits to the expenditure accounts with an offsetting credit to Balance Sheet account 0422-Salaries and Benefits Payable.
06/30/XXXX Post the same journal entry as always to move expenditures from Fund 400 to Fund 402, Fund 4XX, etc. using expenditure accounts 8882-2230-882, etc. with an offsetting entry to Cash 0101. The journal entry should include accrued as well as actual expenditures. The remaining balances in Balance Sheet accounts 0101-Cash and 0422-Salaries and Benefits Payable in Fund 400 will offset each other. Balances will be reported in these accounts in Fund 400 on the DE46 Financial at fiscal year-end. No balance should be reported in Balance Sheet account 0799 in this fund. The Fund Balance of Fund 400 should remain zero at fiscal year-end.

07/XX/XXXX July payroll is processed. Salaries/Benefits Expenditures are paid out of Fund 400 that results in debits to the expenditure accounts and a credit to Cash 0101 in the new fiscal year. If actual expenditures are the same as the July accrued expenditures as of 06/30/XX, then cash will net to zero. There will still be a balance in 0422-Salaries and Benefits Payable at this time.

07/31/XXXX Post a journal entry to close out July salaries/benefits that were accrued in Fund 400 as of 6/30/XX. Debit 0422 and credit the regular expenditure accounts (not the 8882-2230-882, etc.) for the July accrued expenditure amounts. This closes out the balance in 0422-Salaries and Benefits Payable and leaves only the difference between the actual and the accrued expenditures in the current year expenditure accounts. Note: PC Genesis sites will just need to cancel the prior year salary accrual claims for July.

07/31/XXXX Post the same journal entry as always to move expenditures from Fund 400 to Fund 402, Fund 4XX, etc. using expenditure accounts 2230-882, etc. with the offsetting entry to Cash 0101. This will clear out the remaining expenditure balances that are the difference between actual and accrued expenditures for the prior year. This will not be necessary if actual expenditures are the same as the accrued expenditures.

08/XX/XXXX August payroll is processed. Salaries/Benefits are paid out of Fund 400 that results in debits to the expenditure accounts and a credit to Cash 0101 in the new fiscal year. If actual expenditures are the same as the August accrued expenditures as of 06/30/XX, then cash will net to zero. There will still be a balance in 0422-Salaries and Benefits Payable at this time.

08/31/XXXX Post a journal entry to close out August salaries/benefits that were accrued in Fund 400 as of 6/30/XX. Debit 0422 and credit the regular expenditure accounts (not the 8882-2230-882, etc.) for the August accrued expenditure amounts. This closes out the balance in 0422-Salaries and Benefits Payable and leaves only the difference between the actual expenditures and the accrued expenditures in the current year expenditure accounts. Note: PC Genesis sites will just need to cancel prior year salary accrual claims for August.

08/31/XXXX Post the same journal entry as always to move expenditures from Fund 400 to Fund 402, Fund 4XX, etc. using expenditure accounts 2230-882, etc. with the offsetting entry to Cash 0101. This will clear out the remaining expenditure balances that are the difference between actual and accrued expenditures for the prior year. This
will not be necessary if August actual expenditures are the same as the accrued expenditures.

09/30/XXXX Continue with the same procedure as always to move current monthly expenditures from Fund 400 to Fund 402, Fund XXX etc. using 2230-882, etc. expenditure account and continue for subsequent months of the new fiscal year.

Q&A

1. **At the end of the fiscal year, how will carryover for each federal program be determined?**

At the end of the fiscal year, the total expenditures recorded in the Consolidated Fund 400 will be allocated, based on the budgeted percentages, back to each participating federal program. The allocation will be in total only, utilizing object code 882. There will not be a balance in Fund 400 that will have to be considered when calculating carryover. The LEA will prepare the completion report for each federal program, recording the total amount of administrative funds expended (not budgeted) for each federal program plus the non-consolidated expenditures that were recorded to the federal program throughout the fiscal year. The carryover calculation will be based on the total amount expended in each federal program, whether consolidated or not, as reported on the completion report.

2. **How do you calculate indirect costs to charge to each Federal program?**

Indirect costs are charged to each federal program by applying the indirect cost rate to eligible expenditures incurred. To calculate the amount of indirect costs to transfer to the General Fund, the LEA will total all expenditures incurred in the non-consolidated fund, less equipment expenditures (coded to objects 7XX). The application will occur AFTER the entry to reallocate expenditures back to each federal funding source. So, the indirect cost rate will be applied to the expenditure balance in object code 882. In other words, the indirect cost rate will be applied to all expenditures charged to a federal program, including the percentage of consolidated expenditures allocated to the federal program and recorded to object 882.

The Consolidated Administrative fund will only be consolidating federal funds and is only for those costs directly related to the Federal programs. Therefore, the LEA cannot fund the activities charged to the Consolidated Administrative fund with indirect costs. The indirect costs incurred can be transferred to the General Fund and utilized for other indirect costs such as accounting, utilities and other maintenance costs.

The percentage limitations on the total Administrative Costs still apply to each individual Federal Program. The amount of Administrative Costs that can be reported in each individual program to functions 2300 and 2230 are limited by each federal grant. Exhibit A on page 46 of this Handbook includes the administrative percentage limitations for each federal grant. If the LEA is planning to utilize the indirect cost recovery process, the amount that can be consolidated in the Administration Consolidation will be reduced by the budgeted
percentage amount allotted for indirect cost recovery. After the disaggregation of Administrative costs to each federal funding source, the total administration expenditures reported to 2300 and 2230 must not be greater than the limitations set by Federal regulations.

3. **Must an LEA include its administrative funds under equitable services for private school children in the Consolidated Administrative fund?**

Yes, if an LEA is consolidating an ESSA program’s administrative funds, it should not maintain any administrative funds for equitable services administration separate from the Consolidated Administrative fund. LEAs are reminded that they must ensure that the overall percentage of program funds, including those for equitable services, allocated for consolidated administrative costs remains at or below the established cap for the program.
**Budget Amendments**

Local Educational Agencies (LEAs) must submit budgets for their Federal funds within the LEA consolidated application. The original budgets may be submitted when the CLIP is approved. Funds cannot be accessed through Georgia’s Grants Accounting Online Reporting System (GAORS) until an LEA budget is approved by the Georgia Department of Education (Department).

Due to the high bar for supplanting in Title III law, Title III requires an amendment to be submitted for any change requested to an approved budget. For all other programs, LEAs must submit budget amendments for any award changes (reduction or increase) or any changes on original approved budgets that exceed 25-percent in any function code using the LEA consolidated application approved process. Federal program administrators are encouraged to contact GaDOE’s Federal program staff for specific details in submitting budget amendments.

After the LEA submits a completion report, GaDOE calculates official carryover funds. LEAs are notified regarding the exact amount of carryover funds and must submit a budget amendment using the approved process. The GaDOE must approve the amended budget/consolidated application before funds are expended.

**Carryover Funds**

Local Educational Agencies (LEAs) are permitted to carry over federal funds not expended within the fiscal year awarded to the next fiscal year. While the law permits LEAs to carry over funds for the full 27-month period of availability, LEAs are expected to expend the fiscal year allocation within that fiscal year, i.e., the first 15 months. An approved original budget is required before carryover funds can be applied. The table below provides carryover procedures and requirements for each federal program. (CFR §76.709-710; Sec. 412(b) of the General Education Provisions Act (GEPA), 20 U.S.C. 1225(b).)

Transferability of Funds Between Federal Programs

Under the ESEA, SEAs and LEAs may transfer funds they receive by formula under certain programs to other programs to better address State and local needs. The ESSA amended the transferability authority by changing the programs from and to which an SEA or LEA may transfer funds and removing limits on the amount of funds that may be transferred. This guidance addresses those changes.

What is transferability?
Transferability is a flexibility authority that permits State educational agencies (SEAs) and local educational agencies (LEAs) to transfer a portion of the funding they receive by formula under certain Federal programs to their allocations under other programs so they can address more effectively their unique needs.

(GUIDANCE ON THE TRANSFERABILITY AUTHORITY June 8, 2004)

Why is transferability important?
Transferability provides SEAs and LEAs with unprecedented flexibility in targeting Federal resources to meet the needs of all children. It can be a powerful tool in assisting States and districts in pursuing their own strategies for raising student achievement. It facilitates the development and implementation of integrated approaches for addressing local educational needs and priorities.

(GUIDANCE ON THE TRANSFERABILITY AUTHORITY June 8, 2004)

Programs from Which an LEA May Transfer Funds

- Title II, Part A – Supporting effective instruction
- Title IV, Part A – Student support and academic enrichment grants

An LEA may not transfer funds it receives under any other ESEA program. [ESEA section 5103(b)(2)]

(NON-REGULATORY GUIDANCE: FISCAL CHANGES AND EQUITABLE SERVICES REQUIREMENTS UNDER THE ELEMENTARY AND SECONDARY EDUCATION ACT OF 1965 (ESEA), AS AMENDED BY THE EVERY STUDENT SUCCEEDS ACT (ESSA) November 21, 2016)

Programs to Which an LEA May Transfer Funds

- Title I, Part A – Improving basic programs operated by LEAs
- Title I, Part C – Education of migratory children
- Title I, Part D – Prevention and intervention programs for children and youth who are neglected, delinquent, or at-risk
- Title II, Part A – Supporting effective instruction
- Title III, Part A – State grants for English language acquisition and language enhancement
- Title IV, Part A – Student support and academic enrichment grants
- Title V, Part B – Rural education

(ESEA section 5103(b))

(NON-REGULATORY GUIDANCE: FISCAL CHANGES AND EQUITABLE SERVICES REQUIREMENTS UNDER THE ELEMENTARY AND SECONDARY EDUCATION ACT OF 1965 (ESEA), AS AMENDED BY THE EVERY STUDENT SUCCEEDS ACT (ESSA) November 21, 2016)
Is there a limit on the amount of funds an LEA may transfer under IIA and IVA?
No. An LEA may transfer all or a portion of funds it receives under IIA and IVA. (NON-REGULATORY GUIDANCE: FISCAL CHANGES AND EQUITABLE SERVICES REQUIREMENTS UNDER THE ELEMENTARY AND SECONDARY EDUCATION ACT OF 1965 (ESEA), AS AMENDED BY THE EVERY STUDENT SUCCEEDS ACT (ESSA) November 21, 2016)

What are the responsibilities of an SEA or LEA for the provision of equitable services to private school children and teachers with respect to funds being transferred?
Excluding Title I, Part D and Title V, Part B, each program covered by the transferability authority is subject to the equitable services requirements under Title I or VIII, which may not be waived. (ESEA section 8401(c)(5).) Before an SEA or LEA may transfer funds from a program subject to equitable services requirements, it must engage in timely and meaningful consultation with appropriate private school officials. (ESEA section 5103(e)(2).) With respect to the transferred funds, the SEA or LEA must provide private school students and teachers equitable services under the program(s) to which, and from which, the funds are transferred, based on the total amount of funds available to each program after the transfer. (NON-REGULATORY GUIDANCE: FISCAL CHANGES AND EQUITABLE SERVICES REQUIREMENTS UNDER THE ELEMENTARY AND SECONDARY EDUCATION ACT OF 1965 (ESEA), AS AMENDED BY THE EVERY STUDENT SUCCEEDS ACT (ESSA) November 21, 2016)

May an SEA or LEA transfer only those funds that are to be used for equitable services to private school students or teachers?
No. An SEA or LEA may not transfer funds to a particular program solely to provide equitable services for private school students or teachers. Rather, an SEA or LEA, after consulting with appropriate private school officials, must provide equitable services to private school students and teachers based on the rules of each program and the total amount of funds available to each program after a transfer. (See ESEA section 5103(e).) (NON-REGULATORY GUIDANCE: FISCAL CHANGES AND EQUITABLE SERVICES REQUIREMENTS UNDER THE ELEMENTARY AND SECONDARY EDUCATION ACT OF 1965 (ESEA), AS AMENDED BY THE EVERY STUDENT SUCCEEDS ACT (ESSA) November 21, 2016)

Regarding transferability of funds: Can LEAs calculate the nonpublic share first in Titles II or IV and then do transfers out of those programs into each other or into Title I? In other words, can LEAs leave just the nonpublic share in its original program while transferring out all other LEA funds?
LEAs must calculate equitable service shares based on the total amount of funds available under a program after a transfer. Just as an LEA may not transfer funds to a particular program solely to provide equitable services, it may not retain funds solely for this purpose. Section 5103(e)(1) of the ESEA, as amended by ESSA, is clear that funds transferred under this section are subject to each of the rules and requirements applicable to the funds under the provision to which the transferred funds are transferred. Thus, if an LEA chooses to transfer 100% of its Title IV, Part A funds to Title I, it may not provide equitable services under Title IV, Part A. Please keep in mind that an LEA must consult with private school officials prior to any transfer; however, the final decision about whether to transfer funds remains with the LEA. (NON-REGULATORY GUIDANCE: FISCAL CHANGES AND EQUITABLE SERVICES REQUIREMENTS UNDER THE ELEMENTARY AND SECONDARY EDUCATION ACT OF 1965 (ESEA), AS AMENDED BY THE EVERY STUDENT SUCCEEDS ACT (ESSA) November 21, 2016)
May an LEA transfer Title IV, Part A funds into Title III to get the LEA above the $10,000 minimum grant required for Title III?

Title III, Part A funding is based on an LEA’s number of English Learners (ELs). A local educational agency (LEA) may not transfer funds from other programs into Title III, Part A with the purpose of meeting the $10,000 threshold. However, an LEA that would not otherwise qualify for a subgrant under section 3114(b) of the ESEA because it does not qualify for an award of at least $10,000 may submit a joint application with one or more other LEAs in order to qualify. More information on the consortium requirements for Title III can be found in A-15 of the September 2016 English Learner guidance available [here](#).

**Guidelines on Transferability**

- An LEA does not have to apply for transferability authority; it already has that authority (ESSA Sec. 5103(b)).
- The funds transferred into other eligible ESSA programs are subject to all rules and regulations of that ESSA Program.
- Equitable services requirements are not waived, and timely and meaningful consultation must occur prior to transferring funds from one program into another program.
- LEAs should think about how the transfer of funds will impact any of their required set-asides and Title I 85% drawdown requirement.
- The assigned GaDOE specialist who works with the LEA must be notified in writing (email) regarding the LEA’s intent to transfer eligible funds to or from other eligible ESSA programs 30 days in advance of submitting the budget for approval. This is for notification NOT approval.
- The LEA must notify in writing (email) GaDOE’s Grants Accounting Department regarding the LEA’s intent to transfer funds to or from other eligible ESSA programs prior to the transfer. This is for notification, NOT approval. Send the notification 30 days in advance to Regina Hailey ([rhailey@doe.k12.ga.us](mailto:rhailey@doe.k12.ga.us)) and Della Kilpatrick ([dkilpatr@doe.k12.ga.us](mailto:dkilpatr@doe.k12.ga.us)) and copy the managers of the programs involved. For documentation purposes, LEAs must also attach the email to the current year consolidated application attachment tab.
- Since the transferred amount is not brought into the Grants Accounting Online Report System (GAORS), the amount transferred to another program will have to be drawn down from the originating program. LEAs must draw down funds from the originating program first.
- The LEA will track the drawdowns at the local level.
- In the budget, include all funds except those to be transferred. When transferring:
  - From Program to Program (other eligible ESSA program). Repeat for each eligible ESSA program to which the LEA is transferring funds
  - Function 5000, Object 930, Amount

Unless otherwise noted, all references to ESSA in this document refer to the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA).
FISCAL REQUIREMENTS

The Elementary and Secondary Education Act of 1965 (ESEA), as reauthorized by the Every Student Succeeds Act of 2015 (ESSA), provides several key fiscal requirements that are applicable to federal funds.

- Local Educational Agencies (LEAs) must maintain the financial effort previously provided with state and local funds and to Title I, Part A schools.
- LEAs may not use federal funds to supplant or replace state or local funds.
- LEAs must provide services to Title I, Part A schools that are comparable to those of non-Title I, Part A schools.

Maintenance of Effort (MOE)

Under Sec. 8521 of ESSA, a local educational agency may receive funds under a covered program for any fiscal year only if the Georgia Department of Education (Department) finds that either the combined fiscal effort per student or the aggregate expenditures of the agency and the State with respect to the provision of free public education by the agency for the preceding fiscal year was not less than 90 percent of the combined fiscal effort or aggregate expenditures for the second preceding fiscal year, subject to the requirements of subsection (b).

(b) REDUCTION IN CASE OF FAILURE TO MEET.— (1) IN GENERAL.—The State educational agency shall reduce the amount of the allocation of funds under a covered program in any fiscal year in the exact proportion by which a local educational agency fails to meet the requirement of subsection (a) of this section by falling below 90 percent of both the combined fiscal effort per student and aggregate expenditures (using the measure most favorable to the local agency), if such local educational agency has also failed to meet such requirement (as determined using the measure most favorable to the local agency) for 1 or more of the 5 immediately preceding fiscal years.

Covered Programs:

- Title I, Part A;
- Title I, Part, D;
- Title II, Part A;
- Title III, Part A;
- Title V, Part B;
- Title IX, Part A--McKinney-Vento Act.

How does GaDOE test for MOE?

- The GaDOE will test aggregate expenditures of state and local funds to determine if the MOE standard is met. If GaDOE determines that the LEA has met MOE based on aggregate expenditures of state and local funds, no further calculations are required.
- If the LEA does not meet MOE based on aggregate expenditures of state and local funds, the LEA may test combined state and local funds per FTE using the worksheet in this section.
- MOE for the Individual with Disabilities Education Act (IDEA) is calculated through other means. Additional details are available here.
The U.S. Department of Education may waive the MOE requirements if it has determined that a waiver would be equitable due to exceptional or uncontrollable circumstances, such as natural disasters or a significant decline in the amount of local funds of the LEA. The following worksheet may be used for calculating MOE using combined state and local funds per FTE.

**RESOURCE:** An electronic copy of this worksheet may be found at: [http://www.gadoe.org/School-Improvement/Federal-Programs/Pages/Title-I-Worksheets.aspx](http://www.gadoe.org/School-Improvement/Federal-Programs/Pages/Title-I-Worksheets.aspx)

Unless otherwise noted, all references to ESSA in this document refer to the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA).
### Maintenance of Effort (MOE) for IDEA

Under 34 CFR 300 of the Individuals with Disabilities Act, a local educational agency must budget and expend, for the education of children with disabilities, at least the same amount from one of the following sources: state and local aggregate, state and local per pupil, local aggregate, or local per pupil.

The Georgia Department of Education monitors two standards: MOE Eligibility and MOE Compliance.

**MOE Eligibility:**
To be eligible to receive IDEA funds, each LEA must complete the MOE Eligibility form along with IDEA budget submission, in which the LEA budgets to expend, at least the same amount in one of the four sources: state and local aggregate, state and local per pupil, local aggregate, or local per pupil. The eligibility standard must be met in order for IDEA 611 and 619 grants to be approved.

**MOE Compliance:**
Each LEA must expend, for the education of children with disabilities, at least the same amount from each of the following sources: state and local aggregate, state and local per pupil, local aggregate, or local per pupil. The compliance test will be conducted annually when financial reports have been verified. The MOE compliance results will be located in the Consolidated Application under "Special Ed MOE".

**MOE Exceptions and Adjustments:**
If an LEA does not meet eligibility or compliance, the LEA may request allowable exceptions or adjustments to be processed.

There are five allowable exceptions by which an LEA may reduce its level of expenditures:
- (a) The voluntary departure, by retirement or otherwise, or departure for just cause, of special education or related services personnel;
- (b) A decrease in the enrollment of children with disabilities;
- (c) The termination of the obligation of the agency to provide a program of special education to a particular child with a disability that is an exceptionally costly program because the child has left the jurisdiction, aged out of special education, or no longer needs the program of special education;
- (d) The termination of costly expenditures for long-term purchases, such as the acquisition of equipment or the construction of school facilities; (this requires prior approval from SEA); and
- (e) The assumption of cost by the high cost fund operated by the SEA under §300.704(c).

There is one adjustment that can be made to an LEAs effort:
When an LEA’s IDEA Part B 611 allocation increases from the previous year, the LEA may be eligible to reduce the amount required to meet the LEA MOE eligibility and compliance standards by up to 50% of the amount of the increase, if
it meets other requirements. This is sometimes called LEA MOE Adjustment or LEA MOE Reduction. The amount of funds expended by an LEA for early intervening services under 34 CFR §300.226 shall count toward the maximum amount of expenditures that the LEA may reduce under 34 CFR §300.205(a).

To reduce effort with exceptions or adjustments, the LEA must complete the Exceptions Requirement form, or the MOE Adjustment form. Both forms are located on our website and must be processed and approved with supporting evidence.

Consequence of MOE Failure:
Eligibility Standard: If an LEA fails to budget for the education of children with disabilities, at least as much as the LEA expended for that purpose from the same source, in the most recent year for which information is available, the LEA is not eligible for a federal Part B subgrant in the fiscal year for which the LEA is budgeting. This includes IDEA 611 and 619 grants.

Compliance Standard:
If an LEA fails to maintain its level of expenditures for the education of children with disabilities, the Georgia Department of Education must return to the U.S. Department of Education, using non-Federal funds, an amount equal to the amount by which the LEA failed to maintain its level of expenditures or the amount of the LEA’s Part B subgrant, whichever is lower. The Georgia Department of Education will require the LEA to pay this amount using non-federal funds which will be remitted to the U.S. Department of Education. IDEA 611 and 619 grants may not be available to the LEA until the funds have been remitted to the Georgia Department of Education.

**Supplement, Not Supplant under ESSA**
The ESSA includes significant changes to supplement, not supplant (SNS) requirements for Title I, Part A. The Georgia Department of Education (GaDOE) is coordinating with its LEAs to meet the requirements of the statute in Sec. 1118 of ESSA through the implementation of the Resource Allocation Methodology/Plan (RAM/P). The United States Department of Education (Department) has also issued additional Non-Regulatory Guidance on Title I, Part A’s SNS in June of 2019, which is incorporated within this section.

**Supplement, Not Supplant for Title I, Part A (Sec. 1118)**
Sec. 1118(b) (1) IN GENERAL.—A State educational agency or local educational agency shall use Federal funds received under Title I, Part A to supplement the funds that would, in the absence of such Federal funds, be made available from State and local sources for the education of students participating in programs assisted under Title I, and not to supplant such funds.

• (2) COMPLIANCE.—To demonstrate compliance with paragraph (1), a local educational agency shall demonstrate that the methodology used to allocate State and local funds to each school receiving assistance under Title I ensures
that such school receives all of the State and local funds it would otherwise receive if it were not receiving assistance under Title I.

- (3) SPECIAL RULE.—No local educational agency shall be required to—(A) identify that an individual cost or service supported under Title I, Part A is supplemental; or (B) provide services under Title I through a particular instructional method or in a particular instructional setting in order to demonstrate such agency’s compliance with paragraph (1).

- (4) PROHIBITION. —Nothing in this section shall be construed to authorize or permit the Secretary to prescribe the specific methodology a local educational agency uses to allocate State and local funds to each school receiving assistance under Title I, Part A.

- (5) TIMELINE.—A local educational agency—(A) shall meet the compliance requirement under paragraph (2) not later than 2 years after the date of enactment of the Every Student Succeeds Act; and (B) may demonstrate compliance with the requirement under paragraph (1) before the end of such 2-year period using the method such local educational agency used on the day before the date of enactment of the Every Student Succeeds Act. This section refers to the Resource Allocation Methodology/Plan (RAM/P) that LEAs complete and load to the My GaDOE Portal.

This section refers to the Resource Allocation Methodology/Plan (RAM/P) that LEAs complete and load to the My GaDOE Portal in the General Attachment Tab by July 1st of each year. If an LEA makes a revision to their RAM/P after July 1, the LEA must upload the revised RAM/P to the General Attachment Tab and notify their Title I Area Specialist.

Under ESSA section 8306(a)(6)(B) and 34 C.F.R. §§ 76.730-76.731, an LEA must keep records to demonstrate implementation of its RAM/P and to show compliance with program requirements to facilitate effective audits and/or cross-functional monitoring visits.

An LEA can no longer be required to identify that any individual cost or service supported with Title I, Part A funds is supplemental. Under ESSA, an LEA’s allocation of State and local funds to schools is examined as a whole to ensure that Title I, Part A funds supplement, and do not supplant, State and local funds. Therefore, an LEA must show that its methodology (RAM/P) to allocate State and local funds to schools results in each Title I school receiving all of the State and local funds it would otherwise receive if it were not receiving Title I, Part A funds. In other words, an LEA’s RAM/P must be “Title I neutral” in that it allocates State and local funds to schools without regard of Title I status.

An LEA need not have a RAM/P to comply with ESSA section 1118(b)(2) if it has—

a. One school;
b. Only Title I schools; or
c. A grade span that contains only: a single school, non-Title I schools, or Title I schools (i.e., no methodology is required for this grade span).
However, except for scenario “a” above, the GaDOE recommends the development of a RAM/P by all LEAs to efficiently monitor equitable funding at all schools and to facilitate the use of alternate comparability compliance. Although such an LEA need not have a RAM/P to comply with ESSA section 1118(b)(2), it does not relieve the LEA of its requirement under ESSA section 1118(b)(1) and elsewhere to operate consistent with all Federal, State and local requirements and to provide free public education, including for schools and grade spans meeting the conditions described above.

**Please Note:** If your LEA is consolidating funds (Fund 150), the LEA must still develop and implement a RAM/P even if any of the above scenarios exist. A RAM/P will help define which staff will receive Training & Experience (T&E) funding from the state when funds are consolidated.

**LEAs with Charter Schools:**
An LEA may, at its choosing, allocate State and local funds to charter schools within the LEA using a separate methodology through which it allocates State and local funds to non-charter schools, consistent with any/all applicable State charter school laws.

Consistent with the statute, if an LEA is required by law to provide funding to schools for a specific purpose, the LEA must provide such funds to Title I schools on the same basis as it provides such funds to non-Title I schools, subject to application of the “exclusion” provision. This includes funds needed to provide services that are required by law for students with disabilities and English learners. See, e.g., ESSA Sec. 1114(a)(2)(B)

**Exclusion of Non-Federal Funds from Supplanting Determinations**
An LEA may exclude from supplanting determinations supplemental non-Federal funds expended in any school for programs that meet the intent and purposes of Title I, Part A. A program meets the intent and purposes of Title I, Part A if it either -

- Is implemented in a school with at least 40 percent poverty;
- Is designed to promote schoolwide reform and upgrade the entire educational operation of the school; is designed to meet the educational needs of all students in the school, particularly those who are not meeting State standards; and
- Uses the State’s assessment system to review the effectiveness of the program;

OR

- Serves only students who are failing, or most at risk of failing, to meet State standards;
- Provides supplementary services to participating students designed to improve their achievement; and
- Uses the State’s assessment system to review the effectiveness of the program.

34 C.F.R. § 200.79(b)

In other words, if the services would be allowable under Title I, Part A - that is, they are designed to promote schoolwide reform in a school with at least 40 percent poverty or to improve the achievement of students who are failing, or most at risk of failing, to meet State standards - they would not violate the supplanting prohibition, even if they are funded
with supplemental non-Federal funds in non-Title I schools and Title I, Part A funds in Title I schools.

Examples of the Exclusion Provision in a Schoolwide Program School

- An LEA offers after-school tutoring for any student who scores below proficient on the State's mathematics assessment. Paying for eligible students in a schoolwide program school with Title I, Part A funds and eligible students in a non-Title I school with supplemental local funds would not violate the schoolwide program supplement not supplant requirement. This is true even though the schoolwide program school would not receive its share of the supplemental local funds to provide tutoring to eligible students. Rather, the local funds to provide tutoring in the non-Title I school would qualify for the exclusion because they are supplemental and benefit students who, by virtue of being non-proficient in mathematics, are failing to meet the State's mathematics standards.

- An LEA would not violate the supplement not supplant requirement if it uses Title I, Part A funds to implement interventions consistent with the turnaround principles in its comprehensive support and improvement Title I schools and uses supplemental non-Federal funds to provide the same interventions in its non-Title I comprehensive support and improvement schools.

This exclusion provision applies even if the activity is required by State or local law. For example:

- A state law requires all third-grade students to meet the state’s proficient achievement standard in reading/language arts in order to be promoted to fourth grade. Any student who is not proficient at the start of third grade must be provided 90 minutes of supplemental services designed to improve his/her reading proficiency. An LEA would not violate the schoolwide program supplement not supplant requirement if it uses Title I, Part A funds to implement the required-by-law reading services in a schoolwide programs school and uses supplemental non-federal funds to provide the same services in its non-Title I schools. Non-federal funds are supplemental and benefit only students who are failing to meet the state’s reading/language arts standards. This is true even though the schoolwide program school would not receive its share of non-federal funds to meet the state law requirement. This example is distinguishable from the second example under “a word of caution” above because the required-by-law services are supplemental and targeted at only at-risk students. i.e., those for whom Title I is intended – rather than all students.

**Supplement, Not Supplant for Other Programs**

- Title I, Part C Sec. 1307
  - (2) UNADDRESSSED NEEDS.—Funds provided under this part shall be used to address the needs of migratory children that are not addressed by services available from other Federal or non-Federal programs, except that migratory children who are eligible to receive services under part A may receive those services through funds provided under that
part, or through funds under this part that remain after the agency addresses the needs described in paragraph (1).

- **Title II, Part A Sec. 2301**
  Funds made available under this title shall be used to supplement, and not supplant, non-Federal funds that would otherwise be used for activities authorized under this title. To clarify, Title II, Part A funds may be used only to supplement educational program activities provided with state and local funds. The LEA may not use Title II, Part A funds to pay for activities that, in the absence of these funds, would be provided with state and local funds. Title II, Part A funds may be used to fund only the professional development activities that supplement those mandated locally or by the state and can supplement those discretionary professional development activities that the LEA would fund in the absence of other local and/or state funding sources.
  - When determining whether or not an expenditure would create a presumption of supplanting, the LEA should consider these questions:
    - Is the program or activity that the LEA wants to fund required under state, local, or another federal law? If it is, then it is supplanting.
    - Were state or local funds used in the past year to pay for the program or activity? If they were, it is supplanting.
      - These presumptions are rebuttable if the LEA can demonstrate that it would not have provided the services in question with non-Federal funds had the Federal funds not been available.

- **Title III, Part A Sec. 3115**
  - “Federal funds made available under this subpart shall be used to supplement the level of Federal, State, and local public funds that, in the absence of such availability, would have been expended for programs for English learners and Immigrant children and youth and in no case to supplant such Federal, State, and local public funds.”

- **Title IV, Part A Sec. 4110**
  - Funds made available under this subpart shall be used to supplement, and not supplant, non-Federal funds that would otherwise be used for activities authorized under this subpart.

- **Title V, Part B Sec. 5232**
  - Funds made available under subpart 1 or subpart 2 shall be used to supplement, and not supplant, any other Federal, State, or local education funds

- **IDEA 34 CFR 300.20**
  - Must be used to supplement State, local, and other Federal funds and not to supplant those funds.
Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 C.F.R. Part 200) presumes supplanting has occurred if federal funds are used to provide services that (not applicable to Title I, Part A):

- were required to be made available under other federal, state, or local laws;
- were provided with non-federal funds in prior years;
- were provided to federal program eligible children, if those same services are provided with non-federal funds to non-federal program eligible children.

An LEA may rebut a supplanting determination if it can demonstrate it would not have provided services had the federal funds not been available. An LEA should maintain documentation, including but not limited to:

- fiscal or programmatic documentation to confirm that, in the absence of Title I, Part A funds, the LEA would have eliminated services in question.
- state or local legislative action.
- budget histories.

Precipitous Decline: Documenting the LEA is Supplementing and Not Supplanting Funds

Occasionally, an LEA may experience a precipitous significant decline in its financial resources that could impact the ability to maintain federal supplement, not supplant requirements.

- **Title I, Part A:** The LEAs Resource Allocation Methodology/Plan (RAM/P) details how the LEA distributes non-federal resources to schools. An LEA experiencing a precipitous decline in financial resources would reflect this decrease in their RAM/P.
- **Other Federal Programs (except IDEA):** Review existing documents such as the LEA’s past fiscal year and current fiscal annual state budgets and local revenues. The LEA’s finance department should consult with GaDOE if it is faced with precipitous decline. On a program level, if it appears that there is a question as to whether or not the LEA is supplanting in a case of precipitous decline, GaDOE recommends that LEAs write a narrative explaining how funds will be used to supplement the current fiscal year budget that has been reduced since the previous year. Place these items, along with other supporting documentation, in a file that would be available in the event of an audit. Coordinators should discuss the local circumstances with their federal program specialist to determine if supplementing with the specific federal fund is viable in the event of fund reductions from other sources.
- **IDEA:** The GaDOE conducts tests for LEA MOE and LEA Excess Cost. These are the supplanting tests for IDEA.

**Comparability**

To ensure that funds made available under ESSA (Sec. 1118(c)) are used to provide services that are in addition to the regular services normally provided by a local educational agency (LEA) for participating children, the LEA must provide services in its Title I schools with state and local funds that are at least comparable to services provided in its non-Title I schools. This requirement is critical to the success of Title I, Part A because it ensures that the federal investment has an impact on the at-risk students the program is
designed to serve—something that would not occur if federal dollars replaced state and local resources that would otherwise be made available to these at-risk students. At the school building level, comparability requires an LEA to ensure that each Title I school receives its fair share of resources from state and local funds. In other words, an LEA may not discriminate (either intentionally or unintentionally) against its Title I schools when distributing resources funded from state and local sources simply because these schools receive federal funds. For more details on comparability, please visit the Title I, Part A handbook found [here](#).

**IDEA Excess Cost**
Excess costs are those costs for the education of an elementary school or secondary school student with a disability that are in excess of the average annual per student expenditure in an LEA during the preceding school year for an elementary school or secondary school student, as may be appropriate. An LEA must spend at least the average annual per student expenditure (APPE) on the education of an elementary school or secondary school child with a disability before funds under Part B of the Act are used to pay the excess costs of providing special education and related services.

LEAs must complete the Excess Cost Calculation in the Consolidated Application annually. This is one way the Georgia Department of Education monitors for supplanting of IDEA funds. Excess Cost Results are calculated after expenditures have been processed. This calculation shows the LEA expended the APPE on elementary or secondary children with disabilities before IDEA funds were used. Once an LEA enters results, the LEA must also project to spend at least the APPE on elementary or secondary children with disabilities before IDEA funds were used. This is known as the Base Calculation. The Excess Cost Results and Excess Cost Base calculations are entered into the portal in the Consolidated Application as a two-step submission process. LEAs should refer to the LEA Excess Cost Submission Handbook for further guidance. This handbook is located on the Georgia Department of Education Website under the Special Education Services and Supports webpage. LEAs may also contact the Georgia Department of Education’s Special Education Services and Supports office to request a copy of the handbook.
Chapter 5: Equitable Services for Private Schools

Under the Elementary and Secondary Education Act (ESEA), as reauthorized by the Every Student Succeeds Act (ESSA), there are a number of programs that require the equitable participation of private school students, teachers, principals and other school leaders. The ESSA requires LEAs to provide services to private school students, teachers, principals and other school leaders that are equitable to those provided to students, teachers, principals and other school leaders in the LEA.

Participating programs include:

- Title I, Part A - Improving the Academic Achievement of the Disadvantaged
- Title I, Part C - Education of Migratory Children
- Title II, Part A - Supporting Effective Instruction
- Title III, Part A – Language Instruction for English Learners and Immigrant Students
- Title IV, Part A - Student Support and Academic Enrichment Grant
- Title IV, Part B - 21st Century Community Learning Centers

The following guidance provides information to LEAs about private school participation and the resources that are available in determining appropriate use federal funds.

This chapter includes the following sections:

Private Schools: Provision of Equitable Services
Private Schools: Notification Requirements
Private Schools: Consultation and Planning
Private Schools: Determining Allocations
Private Schools: Carryover
Private Schools: Eligible Activities
Private Schools: Program Implementation
Private Schools: Record Keeping
Private Schools: Complaints
Private Schools: Role of the Ombudsman
Private Schools: Applicable Federal Guidance
Private Schools: Equitable Services for Private Schools for the IDEA
Private Schools: Provision of Equitable Services

*ESSA Sec. 8501; Title I Services to Eligible Private School Children (2003), Title IX, Part E Non-Regulatory Guidance 2009, Title VIII Fiscal Changes (2016)); ESSA Secs. 1117(a)(3)(B)*

Private School Eligibility for Participation in Equitable Services
Elementary and secondary private schools, including those in religiously affiliated schools, with non-profit status are eligible to participate in many ESSA programs. Private schools must provide the collaborating public LEA with W-9 information upon request.

- Under Georgia law (§20-2-690), private schools must notify LEAs within 30 days of the beginning of the school year of the enrollment of students who reside in the LEA. This is captured through the use of the [GaDOE DE1111 form](#). An LEA staff member is often responsible for the upkeep of this data, including the submission of the private school information to GaDOE Data Collections during the fall data collections window.

- LEAs must notify private schools within their geographic boundaries who appear on GaDOE Data Collections Private School List. LEAs are responsible for including private schools not on the list when contacted or when made aware of the opening of a private school within geographic boundaries. New private schools should contact local LEAs and the [GaDOE Ombudsman](#).

The following sections provide additional information for eligibility and notification procedures for each federal program.

**Title I, Part A – Improving the Academic Achievement of the Disadvantaged**
Title I, Part A eligibility is based on the enrollment of students in a private school (regardless of its location) who reside in Title I attendance zones. For Title I, Part A, private school students eligible for equitable services are those who reside in a participating Title I public school attendance area and who are failing, or are most at risk of failing, to meet challenging student academic achievement standards (same as targeted assistance school Sec. 1115(c) criteria). LEAs must notify private schools outside geographic boundaries if students reside within the LEA’s attendance zone, who appear on GaDOE Data Collections Private School List. LEAs are responsible for including private schools not on the list when contacted or when made aware of the opening of a private school within geographic boundaries or a private school outside geographic boundaries if students reside within the LEA’s attendance zone. New private schools should contact local LEAs and GaDOE Ombudsman to ensure the new private school is invited to participate in equitable services.

**Title I, Part C – Education of Migratory Children (MEP)**
Children who attend private school are eligible to receive MEP services if they: 1) meet the statutory and regulatory definition of a migrant child; 2) meet the priority for services criteria in Sec. 1304(d); and 3) have unique needs of migratory children identified through the State’s comprehensive needs assessment and service delivery plan.
Title II, Part A – Supporting Effective Instruction
Under the Title II, Part A Program private school teachers, principals, and other school leaders are eligible to participate in all LEA Uses of Funds outlined in Sec. 2103 with the exception of Use of Funds D - reducing class size to a level that is evidence-based. In general, this grant focuses on professional learning and the recruitment and retention of highly effective teachers and leaders, particularly in low-income schools with high percentages of ineffective teachers and high percentages of students who do not meet challenging state academic standards. This grant emphasizes the need to ensure that minority and low-income students greater access to effective teachers, principals and other school leaders.

Title III, Part A – Language Instruction for English Learners and Immigrant Students
Under the Title III, Part A program, students identified as English learners as well as teachers, principals and other school leaders are eligible to participate in Title III-funded initiatives. The use of funds must be to improve the English language proficiency of identified English learners, educators’ professional knowledge related to working with English learners in their classroom and/or engagement with parents and families of English learners in the private school. Funds may also be directed toward costs related to the assessment of the quality of Title III services rendered to the private school(s).

Title IV, Part A – Student Support and Academic Enrichment
Under the Title IV, Part A program, all private school children, their teachers, and other educational personnel serving those children, are eligible to participate in grant-funded supports and activities under the Title IV, Part A Student Support and Academic Enrichment Grant. The use of funds must be to address the purpose of the Title IV, Part A Grant, which is to expand well-rounded educational opportunities for students, to promote safe and healthy students, and to support the effective use of technology to better engage students and expand their access to and use of technology as a learning tool.

Title IV, Part B – 21st Century Community Learning Centers (CCLC)
Equitable participation of non-public and private school students applies to eligible students who attend non-public and private schools that reside within the attendance area of the targeted school identified by the eligible organization submitting a grant application. The purpose of the 21st CCLC program is to assist and support students academically by providing them with academic enrichment activities and a broad array of other activities during non-school hours or periods when school is not in session.

Private Schools: Notification Requirements

ESSA Sec. 8501(a)(4)(C); Fiscal Changes (2016)

Federal Programs Notification Guidelines
Requirements for private school notification vary across ESSA programs. LEAs may invite private schools to participate using one letter or may invite by individual program. While this decision is at the LEA’s discretion, Federal Programs staff encourage LEA federal
program coordinators to work in collaboration. LEAs should be reminded that different programs may invite different schools.

LEAs must use GaDOE consultation templates and upload as requested.

</tr>
</tbody>
</table>

Sample letters and required templates are available [online](#). Mail receipts should be kept verifying invitation. Notification, at a minimum, should include: LEA name, program for which the private school is being invited to participate, the current date, the fiscal year for which the private school is being invited to participate, the name and contact information of someone in the LEA that can assist the private school.

**Title I, Part A – Improving the Academic Achievement of the Disadvantaged**

Title I, Part A of ESSA requires that public LEAs annually contact appropriate officials of all private schools, including those outside the geographic boundaries if students reside within the LEA’s attendance zone to determine if they want to participate in equitable services with Title I, Part A, regardless of whether or not those officials have recently indicated any interest in program participation. A current list of Private Schools is housed on GaDOE’s website and will be used during monitoring to check for compliance. This website can be accessed [here](#).

**Title I, Part C – Education of Migratory Children (MEP)**

The agency that operates the local MEP project must comply with notifying the private school on the notification requirements.

**Title II, Part A – Supporting Effective Instruction**

Title II, Part A and Title VIII of ESSA require that public LEAs contact appropriate officials of all private schools within the geographic boundaries of the LEA annually to determine if they want to participate in the Supporting Effective Instruction program,
regardless of whether or not those officials have recently indicated any interest in program participation. A current list of Private Schools is housed on GaDOE’s website and will be used during monitoring to check for compliance. This website can be accessed here.

Title III, Part A – Language Instruction for English Learners and Immigrant Students
Title III, Part A and Title VIII of ESSA require that public LEAs annually contact appropriate officials of all private schools within the geographic boundaries of the LEA to determine if they want to participate in the Language Instruction for English Learners and Immigrant Students program, regardless of previous participation decisions made by those private school officials.

Title IV, Part A – Student Support and Academic Enrichment
Title IV, Part A and Title VIII of ESSA require that public LEAs contact appropriate officials of all private schools within the geographic boundaries of the LEA annually to determine if they want to participate in the Title IV, Part A Student Support and Academic Enrichment Grant program, regardless of whether or not those officials have previously indicated any interest in program participation. A current list of Private Schools is housed on GaDOE’s website and will be used during monitoring to check for compliance. This website can be accessed here.

Title IV, Part B – 21st Century Community Learning Centers (CCLC)
A public school or other public or private entity that is awarded a 21st CCLC sub grant must provide equitable services to eligible private, non-public school students and their families. Equitable participation of non-public and private school students applies to non-public and private schools that reside within the attendance area of the targeted school identified by the eligible organization submitting a grant application. Sub grantees must conduct timely and meaningful consultation with private and non-public school officials during the design and development of the 21st CCLC program on issues such as how the children's needs will be identified and what services will be offered.

Private Schools: Consultation and Planning

ESSA Sec. 8501(c)); ESSA 1117(b)(3); EDGAR 76.652

Federal Programs Consultation
As part of the Consolidated LEA Improvement Plan (CLIP) submission process, LEA superintendents sign off on assurances affirming that they will comply with ESSA Sec. 8501, participation of private schools’ requirement.

Change to Existing Requirement: Consultation
The goal of consultation is agreement between the LEA and appropriate private school officials on how to provide equitable and effective programs for eligible private school children. (ESEA Secs. 1117(b)(1) and 8501(c)(1), (5).)

New Requirement: Transmitting Agreement on Consultation to the Ombudsman

Georgia Department of Education
April 8, 2020 • Page 77 of 153

Unless otherwise noted, all references to ESSA in this document refer to the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA).
The results of agreement following consultation must be transmitted to the SEA’s equitable services ombudsman. *(ESSA Sec. 1117)(b)(1).*

To ensure timely and meaningful consultation, an LEA must consult with appropriate private school officials during the design and development of the proposed programs. Meaningful consultation provides ample time and a genuine opportunity for all parties to express their views, to have their views seriously considered, and to discuss viable options for ensuring equitable participation of eligible private school students, teachers, and other education personnel, and families. It is important that attention be given to the timing of the consultation so that decisions that affect the opportunities of eligible private schools to participate in Federal Programs are made only after discussions have taken place. The quality of the consultative process will likely have an effect on the quality of services to private school. Consultation shall continue throughout the implementation and assessment of activities.

To meet its general record-keeping responsibility, an LEA should document that representatives of private schools were informed of:

1. how the children’s needs will be identified;
2. what services will be offered;
3. how, where, and by whom the services will be provided;
4. how the services will be assessed and how the results of the assessment will be used to improve those services;
5. the size and scope of the equitable services to be provided to the eligible private school children, teachers, and other educational personnel, the amount of funds available for those services, and how that amount is determined;
6. how and when the agency, consortium, or entity will make decisions about the delivery of services, including a thorough consideration and analysis of the views of the private school officials on the provision of services through potential third-party providers; and
7. whether the agency, consortium, or entity shall provide services directly or through a separate government agency, consortium, or entity, or through a third-party contractor;
8. administrative costs;
9. the method/sources of poverty data used; *(Title I only)*
10. when services will be provided *(Title I only)*; and
11. whether to provide equitable services to eligible private school children—

   a. by creating a pool or pools of funds with all of the funds allocated under subsection (a)(4)(C) based on all the children from low-income families in a participating school attendance area who attend private schools; or
   b. in the agency’s participating school attendance area who attend private schools with the proportion of funds allocated under subsection (a)(4)(C) based on the number of children from low-income families who attend private schools. *(ESSA 8501(c)).*

GaDOE federal programs staff also encourage LEAs to consult with private school officials and provide guidance and/ or copies of applicable policies/ written procedures, such as...
travel, stipends, and source documentation/record keeping required to determine allowability and ensure compliance. The ESSA requires LEAs to provide services to private school students, teachers, principals and other school leaders that are equitable to those provided to students, teachers, principals and other school leaders in the LEA. In addition, 2 CFR §200.403 requires costs to be uniformly consistent with policies and procedures. (8501(c))

Private Schools: Determining Allocations

Fiscal Changes (2016)

Determining Allocations
Each federal program under ESSA has unique guidance for determining allocations. Allocations are calculated using formulas provided by USED and using data provided by USED and private schools. When calculating the proportionate share of federal funding to serve private school students, their families, and teachers the SEA will base that share on the total allocation the LEA receives prior to reserving any funds for specific public school uses. The State Educational Agency (SEA) receives the federal funding and disperses it to the LEAs and informs the private school officials of the amount of funding available to serve their students, their parents and their teachers in each of the programs.

GADOE will also inform private school officials about how their proportionate share of funding was calculated. This information is posted on the Ombudsman’s website.

Change to Existing Requirement: Allocating Funds for Equitable Services
Expenditures for equitable services to eligible private school children, teachers and other educational personnel, and families must be equal to the proportion of funds allocated to participating public school attendance areas based on the number of children from low-income families who reside in those attendance areas and attend private schools. An LEA must determine the proportionate share of Title I funds available for equitable services based on the total amount of Title I funds received by the LEA prior to any allowable expenditures or transfers of funds. (See ESEA Sec. 1117(a)(4)(A).)

In Georgia, private schools are asked to annually provide enrollment and poverty data as of the October date the LEA reports FTE data. From the proportionate share of federal funds available to provide equitable services, an LEA may reserve an amount that is reasonable and necessary to administer equitable services. An LEA determines this amount separately from the funds needed to administer the federal program for students in public schools. The LEA should discuss administrative costs for implementing equitable services during consultation with appropriate private school officials. Administrative costs vary from program to program. Administrative costs can be calculated for the different federal programs and there is an administrative cap for each program.

For program specific administrative costs, see below:
<table>
<thead>
<tr>
<th>ESSA Program</th>
<th>Maximum Percentage for Administration</th>
</tr>
</thead>
<tbody>
<tr>
<td>Title I, Part A – Improving the Academic Achievement of the Disadvantaged</td>
<td>≤ 10%</td>
</tr>

<td>≤ 10%</td>
</tr>
</tbody>
</table>

LEAs should ensure that administrative costs are reasonable and necessary for effective program implementation. Any administrative costs exceeding the amount listed above should be discussed with program specialists and a justification may be requested to document how the amount is reasonable and necessary.

**Notification of Allocations (ESEA sections 1117(a)(4)(C) and 8501(a)(4)(C))**

**New Requirement: Notice of Allocation**
An SEA must provide notice in a timely manner to appropriate private school officials in the State of the allocation of funds for educational services and other benefits under each ESEA program that an LEA has determined are available for eligible private school children, teachers and other educational personnel, and families. (*ESEA sections 1117(a)(4)(C) and 8501(a)(4)(C).*)

Allocations and the methodology used to determine the allocations are posted to the State Ombudsman’s website.

**Title I, Part A – Improving the Academic Achievement of the Disadvantaged**
Under the Elementary and Secondary Education Act of 1965 (ESEA) as amended by the Every Student Succeeds Act (ESSA) Sec. 1117(4)(A)(ii), the proportional share of Title I, Part A funds for private schools shall be determined based on the total amount of Title I, Part A funds received by the Local Educational Agency (LEA) prior to any allowable expenditures or transfers by the LEA. The steps to determine the Proportionate Share formula are calculated as follows:

- The LEA determines the participating public attendance school areas of Title I schools only.
- The LEA determines the number of children from low-income families residing in each participating area (Title I schools) who attend public and private schools.
- The LEA determines proportion of children from low-income families residing in each participating area (Title I schools) who attends private schools.
- The LEA applies the private school proportion to the LEA’s total Title I allocation to determine the equitable services proportionate shared.

An example of the above Title I, Part A calculation is below:
Step 1: An LEA named All Georgia School System has a total of ten schools, but only six are Title I schools, which are comprised of three elementary, two middle, and one high school. These six Title I schools are the participating public attendance school areas in Title I funds.

Step 2: The total student enrollment for these six Title I schools is 4,278 and their total number of students from low-income families is 3,251. The All Georgia School System has four private schools participating in the LEA’s Title I funds. These four private schools have a total of 36 students who reside within the six Title I schools’ attendance zones. Of these 36 students attending private schools, only 12 of the students are from low-income families. Therefore, the total count of students from low-income families is 3,263 (3,251 from the LEA’s Title I schools, plus 12 from the private schools who reside in Title I schools’ attendance zones).

Step 3: The private school proportionate share is determined by dividing the total private school students from low-income families (12) by the total students from low-income families at the private schools and the LEA (3,263). Therefore, 12/3,263 equals .0037 rounded to four decimal places.

Step 4: If the All Georgia School System received a Title I, Part A allocation totaling $4,080,250, the four private schools’ proportionate share would be $15,097 ($4,080,250 x .0037). The LEA would have $15,097 to provide equitable services of eligible private school students who reside in the LEA’s attendance areas.

Georgia Department of Education
April 8, 2020 • Page 81 of 153

Unless otherwise noted, all references to ESSA in this document refer to the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA).
Title I, Part C – Education of Migratory Children

For LEAs receiving a Title I, Part C allocation, equitable services for private schools are calculated on a per pupil basis based on program eligibility as determined by GaDOE. Once a migrant child is identified in a private school, the LEA calculates the amount to be set aside per eligible migrant student which is equitable to the per pupil amount in the LEA (total LEA allocation divided by number of LEA and private school migrant children).

Title II, Part A – Supporting Effective Instruction

Title II, Part A allocations are determined on a per pupil basis. First, during consultation, LEAs and private schools determine the amount to be set aside for administrative costs in support of the LEA and private schools. The remainder of the grant is subject to per pupil. Fiscal Changes Guidance (2016) contains a sample chart outlining how allocations may be determined. In Georgia, Title II, Part A asks LEAs to ensure that administrative costs are reasonable and necessary to effective program implementation. Any administrative costs exceeding 10% should be discussed with Title II, Part A program specialists and a justification may be requested to document how the amount is reasonable and necessary.

SEA population numbers account for both public and private school students and come to the state from U.S. DEPARTMENT OF EDUCATION who uses the Census Bureau Small Area Income and Poverty Estimate (SAIPE) report. Public school enrollment numbers come from the October FTE in the year of consultation prior to the provision of services and from the private school enrollment on the same date. This ensures consistent use of official data and reduces the chances that students will be duplicated in enrollment numbers provided by public and private schools.

Title III, Part A – Language Instruction for English Learners and Immigrant Students

Title III, Part A allocations are determined based on the prior year’s reported number of identified English learners in each private school in an LEA. The private school per pupil English learner allotment is equal to the LEA’s per pupil English learner allotment.

Title IV, Part A – Student Support and Academic Enrichment

Sec. 8501(a)(4) of ESEA, as amended by ESSA, requires that expenditures for educational services and other benefits for eligible private school children, their teachers, and other educational personnel serving those children, under Title IV, Part A, be equal to expenditures for the public school program, taking into account the number and educational needs of the children to be served.

Georgia determines the amount required for Title IV, Part A equitable services to participating private schools based on the relative enrollment of private and public school students, on the assumption that these numbers also accurately reflect the relative needs of students and teachers in the public and private schools. It is permissible for LEAs to use additional factors relating to need, and not base equal expenditures only on the relative enrollments. LEAs electing to use additional factors should do so through consultation with the private schools participating in the grant and inform GaDOE of upward revisions to amounts, if applicable.
Title IV, Part B – 21st Century Community Learning Centers (CCLC)

Any public or private organization is eligible to apply for a 21st CCLC sub-grant. Applicants may request funds ranging from $50,000 to $350,000 per year based on need and proposed services to the target population. Based upon the identified needs of the community to be served, applicants are required to complete a Funding Request Worksheet, which calculates the amount of funding requested according to the number of students being served, the number of hours per week that the program will operate and the number of weeks per year of program operations.

Private Schools: Carryover

Sec. 8501(a)(4)(B); Title VIII Fiscal Changes (2016) N-6, N-7

New Requirement: Obligation of Funds

Funds allocated to an LEA for educational services and other benefits to eligible private school children, teachers and other educational personnel, and families must be obligated in the fiscal year in which the funds are received by the LEA. (ESEA sections 1117(a)(4)(B) and 8501(a)(4)(B).)

However, there may be extenuating circumstances in which an LEA is unable to obligate all funds within this timeframe in a responsible manner. Under these circumstances, the funds may remain available for the provision of equitable services under the respective program during the subsequent school year. In determining how such carryover funds will be used, the LEA must consult with appropriate private school officials.

Private Schools: Eligible Activities

Title I, Part A Sec. XXX; Title I, Part C Sec. XXX; Title II, Part A Sec. 2103(b)(3); Title IV, Part A Sec. XXX, Title IV, Part B Sec. 4205(a); Title VIII, Sec. 8501; 34 CFR §76.52, 658

Eligible Activities

As with any activity that the LEA carries out for public schools, activities supported with ESSA funds that benefit private school teachers must meet the requirements of the statute. Activities must benefit the specific (not general) needs of the students enrolled in the private school and not the needs of the school itself. The needs should be identified during the consultation process and monitored during ongoing consultation that coincides with implementation.

Activities - Activities should comply with the individual program requirements and meet definitions of evidence-based and professional development as outlined in Title VIII, Part A.

Title I, Part A – Improving the Academic Achievement of the Disadvantaged

After timely and meaningful consultation with appropriate private school officials, the LEA must provide such children, on an equitable basis and individually or in combination, as requested by the officials to best meet the needs of such children, special educational
services, instructional services (including evaluations to determine the progress being made in meeting such students’ academic needs). The activities may include: counseling, mentoring, one-on-one tutoring, or other benefits such as dual or concurrent enrollment, educational radio and television, computer equipment and materials, other technology, and mobile educational services and equipment that address their needs; The LEA must also ensure that teachers and families of the children participate, on an equitable basis, in services and activities developed pursuant to Sec. 1116.

Such educational services or other benefits, including materials and equipment, shall be secular, neutral, and nonideological. Services must benefit eligible students, their teachers, and families and not the private school (34 CFR Sec. 76.658).

**Title I, Part C – Education of Migratory Children**

The SEA and local operating agency activities with the classroom teachers of eligible migrant students, or other strategies

**Title II, Part A – Supporting Effective Instruction**

LEAs providing private school equitable services may do so in accordance with all allowable Use of Funds except class size reduction (see Fiscal Changes, 2016 P-3). Title II, Part A focuses on professional development, recruitment and retention.

**Title III, Part A – Language Instruction for English Learners and Immigrant Students**

LEAs providing private school equitable services to English learners and/or their educators may do so in accordance with all allowable Use of Funds. Title III, Part A requires services to be in support of English learners’ development of English proficiency, ESOL-related professional learning opportunities and/or school engagement with parents of English learners.

**Title IV, Part A – Student Support and Academic Enrichment**

LEAs providing private school equitable services under Title IV, Part A must do so in accordance with all allowable use of funds. The use of funds must be to address the purpose of the Title IV, Part A Grant, which is to expand well-rounded educational opportunities for students, to promote safe and healthy students, and to support the effective use of technology to better engage students and expand their access to and use of technology as a learning tool. In applying percentage/portion requirements for the use of funds, the services provided to private schools should be considered within the whole of the LEA’s overall use of funds and not applied separately to the funds used for private school services.

**Title IV, Part B – 21st Century Community Learning Centers (CCLC)**

The purpose of the 21st CCLC program is to assist and support students academically by providing them with academic enrichment activities and a broad array of other activities during non-school hours or periods when school is not in session. 21st CCLC grantees providing private school equitable services to eligible students may do so in accordance with all allowable use of funds. Each eligible organization receiving an award may use the funds to carry out a broad array of before- and after-school, summer, weekend, and/or holiday activities that advance overall student achievement, and support student success.

Unless otherwise noted, all references to ESSA in this document refer to the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA).
Equitable participation of non-public and private school students applies to eligible students who attend non-public and private schools that reside within the attendance area of the targeted school identified by the eligible organization submitting a grant application.

**Private Schools: Program Implementation**

*Title VIII, Sec. 8501; Title I Services to Eligible Private School Children (2003); Title IX, Part E Uniform Provisions (2009), Fiscal Changes (2016)*

The LEA must maintain control over the planning, designing, and implementation of the equitable services.

- LEAs providing equitable services retains control of the funds used to provide equitable services. In addition, they must be provided either by an employee of the LEA or by third-party contract.
- The control of funds and title to materials, equipment, and property purchased with such funds, shall be in a public agency (LEA) and a public agency (LEA) shall administer such funds, materials, equipment, and property.
- The LEA is required to remove any equipment and supplies purchased for the equitable services at the private school, if the LEA no longer needs these items to provide services (34 CFR 66.661).
- All employment, contracts, and services shall be under the control and supervision of the LEA.

LEAs are not allowed to reimburse the private schools. The LEA may only obligate and expend federal funds on behalf of private schools.

- The LEA must purchase materials or procure services on behalf of the private school.
- LEAs may use federal funds to reimburse an individual private school teacher or principal for professional development that the LEA has pre-approved and that meets the reasonable and necessary cost principles of 2 CFR Part 200 and is in compliance with the program statute.
- LEAs must not reimburse for unallowable activities.

Educational services or other benefits including materials and equipment shall be secular, neutral and ideological. In some scenarios private schools and LEAs may determine that the proration of costs is necessary to meet this requirement.

**Private Schools: Record Keeping**

*Title VIII, Sec. 8501; 34 CFR §76.532*

LEAs who serve private schools expend funds on behalf of the private school, thus all private school expenditures must also comply with LEA procurement procedures. LEAs entering into contracts on behalf of private schools must adhere to LEA procedures and have the primary responsibility for maintaining documentation.
While an LEA may not overburden a private school in paperwork, as the agency fiscally responsible for the management of funds, an LEA may require the private school to submit enough documentation to determine that the expense is allowable, reasonable, defensible and necessary in accordance with any and all federal requirements. This may include, but is not limited to, a participant’s name and position, an agenda and receipts.

Each LEA shall maintain in the agency’s records and provide to the SEA involved a written affirmation signed by officials of each participating private school that the meaningful consultation required by this section has occurred. The written affirmation shall provide the option for private school officials to indicate such officials’ belief that timely and meaningful consultation has not occurred or that the program design is not equitable with respect to eligible private school children. If such officials do not provide such affirmation within a reasonable period of time, the LEA shall forward the documentation that such consultation has, or attempts at such consultation have, taken place to the SEA.

**Private Schools: Complaints**

*Fiscal Changes (2016)*

**Change to Existing Requirement: Complaint Process for Participation of Private School Children – Time Limit**

The timeframe that an SEA has for responding to a complaint from parents, teachers, or other individuals concerning violations of ESEA Sec. 8501 regarding the participation by private school children and teachers is 45 days. In addition, the Secretary must investigate and resolve an appeal of an SEA’s resolution of a complaint within 90 days. *(ESEA Sec. 8503.)*

If the private school official wishes to file a complaint related to equitable services for Title I and/or Title VIII, the official shall provide the basis of the noncompliance by completing and submitting the *Complaint Form* found on GaDOE’s *State Ombudsman’s* website. The private school official must provide the basis of the LEA’s noncompliance. Also, the LEA must forward the appropriate documentation to the Ombudsman in response to the complaint. The Ombudsman will provide a written resolution to a complaint within 45 days *(Sec. 8503(a)).*

**Title I, Part A – Improving the Academic Achievement of the Disadvantaged**

A private school official shall have right to file a complaint with to the SEA asserting that the LEA did not:
- engage in consultation that was meaningful and timely,
- give due consideration to the views of the private school official, or
- make a decision that treats the private school students equitably as required by ESSA

In addition, any dispute involving the poverty data on private school students may be appealed to the State. *(Secs. 1117(c)(2) and 8503).*
New Requirement: Compliance – State Services
An SEA must provide equitable services directly or through contracts with public or private agencies, organizations, or institutions, if appropriate private school officials have —
Requested that the SEA provide such services directly; and
Demonstrated that an LEA has not met applicable equitable services requirements in accordance with the procedures for making such a request, as prescribed by the SEA. (ESEA sections 1117(b)(6)(C) and 8501(c)(6)(C).)

Private Schools: Role of the Ombudsman

ESEA sections 1117(a)(3)(B) and 8501(a)(3)(B)

New Requirement: Ombudsman
To help ensure equitable services and other benefits for eligible private school children, teachers and other educational personnel, and families, an SEA must designate an ombudsman to monitor and enforce ESEA equitable services requirements under both Title I and Title VIII. (ESEA sections 1117(a)(3)(B) and 8501(a)(3)(B).)

New Requirement: Transmitting Agreement on Consultation to the Ombudsman
The results of agreement following consultation must be transmitted to the SEA’s equitable services ombudsman. (ESEA Sec. 1117)(b)(1).)

Excerpts from the U.S. Department of Education’s Non-Regulatory Guidance: Fiscal Changes and Equitable Services Requirements under the Elementary and Secondary Education of 1965 (ESEA) as Amended by the Every Student Succeeds Act (ESSA):

N-1. What are the roles and responsibilities of an ombudsman?
An ombudsman should serve as an SEA’s primary point of contact for addressing questions and concerns from private school officials and LEAs regarding the provision of equitable services under Titles I and VIII. In addition, the ombudsman is required to monitor and enforce the equitable services requirements under Titles I and VIII and, thus, should have a significant role in the State’s monitoring process. Furthermore, the ombudsman should ensure that private school officials know how to contact the ombudsman. The following are examples of activities the ombudsman could undertake in fulfilling the roles and responsibilities of the position:

- Serve as a general resource regarding equitable services requirements for both LEAs and private school officials, which may include conducting initial outreach to define the contours of the ombudsman’s responsibilities.
- Develop, in partnership with other relevant SEA staff, monitoring protocols applicable to the provision of equitable services and participate in a sample of any monitoring activity.
- Provide technical assistance regarding equitable services requirements for SEA staff administering applicable programs, LEA staff, and private school officials.
Establish a process for receiving documentation of agreement from LEAs consistent with the consultation requirement that the results of such agreement shall be transmitted to the ombudsman. (ESEA Sec. 1117(b)(1).)

Participate in the State’s Title I Committee of Practitioners (ESEA Sec. 1603(b)) and, as applicable, nonpublic schools working group.

**N-2. What specific responsibilities does an ombudsman have with respect to monitoring and enforcement?**

The primary responsibilities of an ombudsman are to monitor and enforce the equitable services requirements in Titles I and VIII. Accordingly, an ombudsman should work with SEA staff administering Title I and programs covered under Title VIII to develop monitoring protocols applicable to the provision of equitable services under each program. To ensure that monitoring protocols are being followed, the ombudsman should take an active role in the monitoring process, particularly with respect to the resolution of any findings regarding equitable services requirements under Titles I and VIII. The ombudsman also should serve as the primary point of contact for responding to and resolving any complaints regarding equitable services that the SEA receives under its ESEA complaint procedures.

**Private Schools: Applicable Federal Guidance**

- 2003 Title I Services to Eligible Private School Children
- 2009 Title IX, Part E Uniform Provisions, Subpart 1—Private Schools
- 2016 Non-Regulatory Guidance: Fiscal Changes and Equitable Services Requirements Under the Elementary and Secondary Education Act of 1965 (ESEA), as Amended by the Every Student Succeeds Act (ESSA)

**Equitable Services for Private Schools for the IDEA**

LEAs have an obligation to provide parentally placed private school children with disabilities or home school children with disabilities an opportunity for equitable participation in the services funded with Federal Part B funds that the LEA has determined, after consultation, to make available to parentally placed private school children with disabilities.

The amount of Part B funds available for these services is based on the proportionate share calculation. Each LEA must complete the "Proportionate Share" tab in the Consolidated Application with IDEA Flowthrough (IDEA 611 Grant) budget approval to determine the amount of proportionate share funds required. This formula will calculate the amount for the IDEA 611 and 619 grants. Each LEA must include the proportionate share required amount as a line item in the budget for budget approval.

Unspent proportionate share funds must be carried over, budgeted, and expended in the next fiscal year. In rare circumstances a waiver could be granted for unspent proportionate share funds. A high burden of proof would need to be submitted to the Georgia Department of Education in order for a waiver to be granted. To request a waiver for unspent proportionate share funds to be carried over, the LEA must submit a request in writing...
(which may include email) to the Special Education Services and Supports Budget Unit of the Georgia Department of Education for Processing.

**Timely and Meaningful Consultation:**
A timely and meaningful consultation must occur before any decisions are made that will affect the participation of parentally placed children in Part B programs. Decisions about services may not be made in advance. A unilateral offer of services by the LEA without discussion is not adequate consultation and does not meet the basic requirements of the consultation process. The LEA is responsible for making final decisions about all aspects of the services to be provided to parentally placed private school children with disabilities or home school children with disabilities.

Attendants to the consultation should include: Representatives of private elementary and secondary schools in the LEA’s jurisdiction; parents or parent representatives of those students with disabilities (SWD) in the private schools; and, parents or representatives of eligible home schooled SWD.

When conducting the timely and meaningful consultation process, the LEA must cover the following items during the meeting:

1. The child-find process for private schools – how private school students can participate equitably and how parents, teachers, and private school officials will be informed of the child find process and procedures. Remember: LEA must locate, identify and evaluate all children suspected of having a disability within their jurisdiction – activities should be similar to and completed within comparable time period of students in the public schools.
2. What the proportionate share amount is and how it was calculated.
3. The consultation process itself and how it will operate throughout the school year so eligible students can participate in special education and related services. Services must be comparable in quality, not quantity.
4. How, where and by whom proportionate share funds will be allocated, including a description of the types and amounts of services that will be provided. The LEA must make the final decisions with respect to the services to be provided (even if there are insufficient funds to serve all SWD) after receiving views from the participants.
5. How the LEA, if it disagrees with the views of the private schools on services, will provide a written explanation of why it chose not to follow the views of the private schools.

If there is a disagreement the LEA must provide to the private school officials or home school parent or guardian, a written explanation of the reasons why the LEA chose not to accept the recommendations of the private school officials.

For documentation purposes, it is not enough to simply have a record of attendance. Each participant must be given an affirmation form to sign indicating that the five essential points were discussed and private school views were considered. If the private school or

Georgia Department of Education
April 8, 2020 • Page 89 of 153

Unless otherwise noted, all references to ESSA in this document refer to the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA).
home school representative refuses to sign an affirmation form, it should be maintained with a note to that effect.
Chapter 6: Inventory Management for Federal Programs

The Elementary and Secondary Education Assistance Act of 1965 (ESEA) reauthorized by the Every Student Succeeds Act of 2015 (ESSA) requires, among other things, that Local Educational Agencies (LEAs) implement and maintain financial management systems that substantially comply with federal systems management requirements. These requirements, detailed in 2 C.F.R., Part 200.62—Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (2 C.F.R., Part 200) states that LEAs shall provide: “effective control over and accountability for all funds, property, and other assets. Recipients shall adequately safeguard all assets and assure they are used solely for authorized purposes”.

To assist in reviews of financial management systems under the requirements of 2 C.F.R., Part 200, the Georgia Department of Education (GaDOE) Federal Programs Division is issuing guidelines to Local Educational Agencies (LEAs) to:

(1) assist LEAs in implementing and monitoring their federal programs inventory system;
(2) to assist monitors and auditors in reviewing the systems to determine if the LEA’s inventory system is in substantial compliance with 2 C.F.R. Part 200 – Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards and ESEA non-regulatory guidance.

Authoritative Guidance

2 C.F.R., Part 200 – Uniform Administrative Requirement, Cost Principals, and Audit Requirements for Federal Awards establishes principles for determining costs applicable to grants, contracts, and other agreements with educational institutions. The principles deal with the subject of cost determination and make no attempt to identify the circumstances or dictate the extent of agency and institutional participation in the financing of a project. The principles are designed to provide that the Federal Government bear its fair share of total costs, determined in accordance with generally accepted accounting principles, except where restricted or prohibited by law. Agencies are not expected to place additional restrictions on individual items of cost. Provision for profit or other increment above cost is outside the scope of this Circular.

General Education Provisions Act (GEPA) Sec. 443(a) requires each recipient of federal funds to keep records which fully disclose the amount and disposition of the funds, the total costs of the activity for which the funds are used…and such other records as will facilitate an effective financial or programmatic audit.

Applicability

The provisions of the sections of these guidelines shall be applied by LEAs as recipients of a federal grant awards. LEAs shall apply the provisions of 2 C.F.R. Part 200, to sub recipients performing substantive work under the federal grant allocations that are passed through or awarded by the primary recipient (LEA).
Functions of an Inventory Review

The inventory review requirements ensure that LEAs meet federal guidance for controlling and accounting for inventory in accordance with each federal grant’s laws and policies. The procedures and processes of an inventory have the following functions:

- Serves as a needs determination to assists LEAs in determining if additional materials and supplies need to be purchased to implement the LEA’s federal programs.
- Surveys the property in storage to determine if it is being (a) held for disposition, (b) in the process of production for disposition, or (c) to be consumed/utilized in the implementation of the LEA’s federal programs.
- Tracks the property undergoing repair. Procedures include a process for repair and a work-in-process tracking system.
- Provides an inventory disposition process for the loaning and issuing of equipment, as well as the disposal process.
- Provides policies and standard procedures for program planning and monitoring of equipment use.

Inventory Definitions

Equipment

According to 2 C.F.R. Part 200.33, equipment is defined as an article of nonexpendable, tangible personal property (including information technology systems) having a useful life of more than one year and an acquisition cost which equals or exceeds the lesser of the capitalization level established by the non-profit organization for financial statement purposes, or $5,000. (See also 2 C.F.R. Part 200.12 Capital assets, 2 C.F.R. Part 200.20 Computing devices, 2 C.F.R. Part 200.48 General purpose equipment, 2 C.F.R. Part 200.58 Information technology systems, 2 C.F.R. Part 200.89 Special purpose equipment, and 2 C.F.R. Part 200.94 Supplies.)

LEAs must develop and maintain controls to ensure that all property with federal funds is purchased in accordance with the LEA’s procurement procedures and that adequate controls are maintained to safeguard all equipment purchased. Therefore, an inventory shall be maintained for all tangible property with a useful life of one year, regardless of the acquisition cost. LEAs are not required to track consumable items, but are required to maintain an inventory of items such as computers, DVD players, projectors, cell phones, etc.

The 2 C.F.R. Part 200 establishes principles and standards for determining costs for federal awards carried out through grants, cost reimbursement contracts, and other agreements with state and local governments and federally recognized Indian tribal governments (governmental units).

Supplies

Supplies are addressed in 2 C.F.R. § 200.94. Supplies are any tangible personal other than those described in § 200.33 Equipment. A computing device is a supply if the acquisition cost is less than the lesser of the capitalization level established by the non-federal entity.
for financial statement purposes or $5,000, regardless of the length of its useful life. Supplies are generally considered consumable items. These items would generally have a shorter life span than equipment which is kept for recurring use. Therefore, supplies do not have to be recorded in an inventory management system. See also 2 C.F.R. Part § 200.20 Computing devices and 2 C.F.R. Part § 200.33 Equipment.

Even though supplies are not required to be part of the inventory management system, LEAs should have adequate internal control procedures that include a process for labeling and locating property, including supplies, purchased with federal funds. The information maintained about supplies purchased with federal funds will provide documentation to prove all costs are necessary, reasonable and allocable.

Pilferable (Walkable) Items
A January 2010 audit report by the Office of Inspector General (OIG) on the State of Pennsylvania’s Philadelphia Title I programs indicated that a large number of what was termed as pilferable items were not included on any inventory report. Pilferable items are defined as those items that may be easily be lost or stolen. There has been significant advancement in technology and many technology items are now available for well under $5,000 per unit cost. Because of the OIG 2010 Philadelphia Audit Report, items considered to be pilferable items and purchased with federal funds must now be included on any inventory report. Pilferable items include, but not limited to: cell phones, iPads, tablets, iPods, graphing calculators, software, projectors, cameras, camcorders, DVD players, computer equipment, and televisions.

Note: Any equipment paid for under a contract for services is the property of the district’s federal program office. The equipment will become the property of the district’s federal program office at the dissolution of the contracted services.

Acquisition Cost
The acquisition cost of an item of purchased equipment means the net invoice unit price of the equipment, including the cost of modifications, attachments, accessories, or auxiliary apparatus necessary to make the equipment usable for the purpose for which it was acquired. In addition, freight charges, installation charges, and other charges directly related to placing the equipment in use may be reimbursed.

Current Fair Market Value
Current fair market value is determined by obtaining two signed bids from potential purchasers or two appraisals from authorized appraisers for the purpose of disposing of or transferring equipment. When the equipment is being traded in for like or similar equipment used in the same program for the same purpose, the trade in value constitutes the current fair market value of the traded in equipment.

Procedures for Maintaining an Inventory of Equipment
The Standards for Financial and Program Management section of 2 C.F.R. Part 200 states that effective control and accountability must be maintained for all grant and sub-grant cash, real and

Georgia Department of Education
April 8, 2020 • Page 93 of 153

Unless otherwise noted, all references to ESSA in this document refer to the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA).
personal property, and other assets. Grantees and sub-grantees must adequately safeguard all such property and must assure that it is used solely for authorized purpose. Such internal control provides reasonable assurance of the effectiveness and efficiency of the program, reliability of reporting and compliance with applicable laws and regulations.

Inventory items purchased with federal funds are divided into the following categories: real property, equipment, pilferable items and supplies. All equipment, that is, any nonexpendable, tangible property having a useful shelf life of more than one year must be included on an inventory. This includes pilferable items, equipment that is considered small items easily lost or stolen. Even though supplies, consumable items, with a shelf life less than a year, are not required to appear on an inventory there should be adequate internal control procedures ensure the supplies purchased with federal funds are used for the intend of the program.

The maintaining of an inventory of equipment is an essential component of internal control. The components of inventory management include procedures for equipment use, equipment management requirements, equipment disposition and supplies disposition. These components are further defined by written procedures for the following areas:

- Acquisition of equipment
- Method for entering information into the LEAs inventory management system
- On-site use of equipment
- Physical inventory
- Equipment disposition
- Supplies disposition
- Lose, damage or theft of equipment
- Equipment use for Title I, Part A targeted assistance programs
- Equipment use for private schools

**Requisition of Equipment**

Inventory management procedures begin with a process of determining the need and use of the equipment. All equipment purchased with federal funds must be in accordance with the regulations of the funding source. In other words, procedures must be in place to ensure all activities, including the purchase of equipment, paid for with federal funds are necessary, reasonable, allocable, and allowable. Once purchased, the equipment must continue to be used for that or a related purpose.

The requisition for purchase of equipment should follow the LEAs internal control procedures. Procedures should be in place to ensure prior approval of all purchases and provide specifications for receiving the equipment and issuing the equipment to the proper locations.

**Entry of Information into Inventory Management System**

Once equipment has been received the LEA must have a procedure in place for the entry of information into the LEAs inventory management system. The federal programs director/s and school principal are responsible for the management and inventory of such equipment. The inventory must be available for review and evaluation. A copy of the inventory should be kept at both the LEA office and at the school level. The inventory can be kept electronically so that it is easily assessable at both the LEA and school level.
The written procedures should include the following requirements for equipment items purchased with federal funds:

1. All equipment should be properly tagged and labeled for inventory tracking. The label should mark the equipment with appropriate federal program name and include the fiscal year of purchase and property of the respective LEA.
2. The school shall retain such property in a program as long as there is need for such property to accomplish the purpose of the program for which it was purchased.
3. The inventory must be current and available for review and audit. 2 C.F.R. 200.311, 2 CFR 200.313 and 2 C.F.R. 200.439 states the following information must be included in the recipient’s inventory records:
   - A description of the equipment.
   - A serial number, model number, or other identification number.
   - The funding source (including the FAIN) and percentage (who holds title) under which the equipment was acquired. Note: Equipment purchased with federal funds shall be identified to indicate federal ownership by specific federal program (e.g., items purchased with Title I Part A monies must be marked as Title I, Part A with grant award year.) FAIN numbers are located on the Grant Award Notice (GAN) document in the upper right box #2.
   - The source of property (vendor).
   - The acquisition date and unit cost.
   - The present location of the equipment.
   - Indication of the use of the equipment. For example, instruction, professional learning, parent and family engagement, administration, etc.
   - The condition of the equipment.
   - The date the information was added to the inventory.
   - Who holds title to the equipment? If funds from more than one program was used to purchase the equipment then each program should be listed as the title, and if possible, notation of percentage should be listed.
   - All pertinent information on the final transfer, replacement, or disposition of the equipment (including the date of disposal and sale price of the equipment).
4. Inventory must be updated as equipment items are purged or new purchases are made.
5. Equipment items purchased with federal funds are to be identified and physically marked as noted above.
6. Adequate safeguards must be in place related to the loss, damage, or theft of the equipment. Any loss, damage, or theft should be investigated and fully documented.
7. Adequate maintenance procedures should be implemented to keep the equipment in good condition.

**Off-site Use of Equipment**

The LEA shall develop written procedures for ensuring an effective tracking system for all equipment used off site. These procedures should include the process for requesting the use of and signing out equipment utilized off site. A sample form is provided in this manual that includes documentation of the date the equipment was taken off-site, use of the equipment, person
responsible for the equipment use, date the equipment was returned and the condition of the equipment on return.

**Physical Inventory**

A physical inventory of equipment purchased with federal funds shall be taken and the results reconciled with the equipment records at least once every two years in accordance with 2 C.F.R. Part 200.313 (d)(2). Any differences between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the difference. The recipient shall, in connection with the inventory, verify the existence, current utilization, continued need for the equipment and condition of the equipment. Documentation shall be maintained of the date and the person conducting the physical inventory. Adequate maintenance procedures shall be implemented to keep the equipment in good condition.

**Procedures for Disposition of Equipment**

The LEA should establish procedures for determining the lifecycle of the equipment, as well as, a depreciation methodology. When original or replacement equipment acquired with federal funds is no longer needed for the original project or program, the equipment may be retained, sold or disposed, if it is not needed in any other federally funded project or program. The LEA will need to ensure that records are kept and made available for monitors and auditors as to where the equipment was transferred.

The following are the procedures to eliminate any equipment item from the inventory:

1. Equipment items with an acquisition cost/current per unit fair market (an explanation is provided in the Definitions section) value of less than $5,000 and are more than three years old may be retained, sold or disposed, with no further obligation to GaDOE. The disposition of such items should be so noted on the equipment inventory maintained by the LEA.

2. Equipment items with an acquisition cost of $5,000 or more may be retained or sold and the awarding agency (GaDOE) shall have a right to an amount calculated by multiplying the current market value or proceeds from sale by the awarding agency (GaDOE’s) share of the equipment.

   a. If the current per unit fair market value is $5,000 or more, the equipment may be retained or sold and the awarding agency (Department) shall have a right to an amount calculated by

---

**Miscellaneous**

When acquiring replacement equipment, the recipient may use the equipment to be replaced as a trade in or sell the equipment and use the proceeds to offset the cost of the replacement equipment, subject to the approval of the state or the awarding federal agency. If the equipment is sold, then the proceeds must be handled as stated earlier in the Disposition Section of this manual.

If an item of equipment has been damaged, destroyed, lost, or stolen, an official investigation by the proper authority should be conducted and fully documented. A copy of this report must be kept on file in the district office and the schools’ administrative office, usually the principal’s office.

Permission to dispose items from inventory will be granted, in writing, following review and approval of the inventory report by the district's federal program office. A specific grant recipient is responsible for replacing destroyed, lost, or stolen equipment and repairing damaged equipment.
multiplying the current market value or proceeds from the sale by the state’s share of the equipment. However, the entity is permitted to deduct and retain from the state’s share $500 or 10-percent of the sales proceeds, whichever is less, for the entity’s selling and handling expenses.

Note: The GaDOE does not require this of Georgia’s Title I LEAs. To date, GaDOE has not required this action of LEAs for the sale of Title I property in an LEA. However, this procedure is outlined in 2 C.F.R. Part 200.313 (d)(5)(e)(1-4) and allows a state to require this process from their LEAs.

b. The disposition of such items should be so noted on the equipment inventory maintained by the recipient. The recipient should include the date of disposal and sales price or the method used to determine current fair market value if the recipient compensates the state.

Procedures for Disposition of Supplies

Procedures should be in place for the disposition of supplies if there is a residual inventory of unused supplies exceeding $5,000 in total aggregate fair market value upon termination or completion of the award, and if the supplies are not needed for any other federally sponsored programs or projects, the grantee of sub-grantee shall compensate the awarding agency for its share.

Loss, Damage or Theft of Equipment

2 C.F.R. Part 200.313 (d)(3) requires that a control system be developed by recipients of federal funds to ensure that there are adequate safeguards to prevent loss, damage, or theft of the property, including real property, equipment, and pilferable items. These procedures should include:

- Adequate safeguards to prevent loss, damage, or theft of the equipment. Some possible control features could include:
  - Locks or security camera (for particularly valuable or vulnerable items)
  - Access controls to warehouses to limit entry by unauthorized personnel
  - Use of logs or sign-in sheets for certain items of property; for example, iPads, laptops, cameras, projectors
- Procedures for promptly entering items received into the inventory management system
- Process for investigation of any loss, damage and/or theft of equipment. Any loss, damage and/or theft of equipment purchased with federal funds should be reported to the LEA level federal program staff.
- Documentation of notification of loss, damage or theft of equipment. Two sample report forms are provided in this manual.
Equipment Use for Participating Private Schools

Funds from several federal programs may be used to purchase materials and equipment to meet the needs of participating (students eligible to receive services) private school students.

It is important to remember that although the equipment may be used by the private school, the LEA purchasing the equipment retains title and must continue to account for the equipment in its inventory management system. GaDOE shall require all LEAs serving private school children to implement adequate procedures and internal controls to account for the location, custody, and security of materials, equipment, and property purchased with federal funds for private school use. These procedures must include the proper labeling of materials and equipment purchased with federal funds, policies and procedures to ensure that private school officials do not use these materials and equipment with ineligible children, and disposal procedures.

The LEA shall maintain an inventory of all materials, equipment, and property purchased with federal funds for use with eligible students at private schools. The inventory shall contain the same requirements for any equipment purchased with federal funds. These requirements are:

- A description of the equipment.
- A serial number, model number, or other identification number.
- The funding source (including FAIN) and percentage under which the equipment was acquired. Note: Equipment purchased with federal funds shall be identified to indicate federal ownership by specific federal program (e.g., items purchased with Title I Part A monies must be marked as Title I, Part A with grant award year.)
- The source of property (vendor).
- The acquisition date and unit cost.
- The present location of the equipment (school, classroom, etc.).
- Indication of the use of the equipment—instruction, professional learning, parent and family engagement, administration, etc.
- The condition of the equipment.
- The date the information was added to the inventory.
- Who holds title to the equipment?
- All pertinent information on the final transfer, replacement, or disposition of the equipment (including the date of disposal and sale price of the equipment).

1. Inventory must be updated as equipment items are purged or new purchases are made.
2. Equipment items purchased with federal funds are to be identified and physically marked as noted above.
3. Adequate safeguards must be in place related to the loss, damage, or theft of the equipment. Any loss, damage, or theft should be investigated and fully documented.
4. Adequate maintenance procedures should be implemented to keep the equipment in good condition.
5. A physical inventory of equipment items must be taken and the results reconciled with the inventory records at least once every two years.

The LEA would follow the same disposition plan for the equipment purchased for participating private school students as with any equipment purchased with federal funds in the public school.
Monitoring of Equipment and Inventory

LEAs receiving federal funds are responsible for managing the day-to-day operations of the grant and its supported activities to ensure that the requirements of the grant are met. The monitoring includes the purchasing, use and disposal of property. These federal regulations and requirements also require the state educational agency (SEA) to monitor the implementation of program requirements and expenditures of federal funds.

The audit requirements of 2 C.F.R. Part 220.501 state that A non-federal entity that expends $750,000 or more during the non-Federal entity's fiscal year in federal awards must have a single audit conducted in accordance with §200.514 Scope of audit except when it elects to have a program-specific audit conducted in accordance with paragraph (c) of this section.

Below are persistent inventory findings from A-133 Single Audits, U.S. DEPARTMENT OF EDUCATION Program monitoring, Office of Inspector General (OIG) and Department Cross-Functional Monitoring are listed below.

- Purchasing unneeded supplies or equipment
- Purchasing goods at inflated prices

Sample Forms

As stated throughout this manual, the LEA must establish written procedures for purchasing and monitoring of equipment use to ensure compliance with federal regulations. Many LEAs have purchased programs to assist with inventory requirements. While this is a local decision, it is the responsibility of the federal programs director/COORDINATOR, within the LEA, to ensure that the inventory procedures and forms include the required components.

The enclosed sample documents are merely that, examples of what various forms may look like. The following forms may be as guidelines in the development of local procedures.
## Sample Inventory

Chapter 7: Monitoring of Federal Programs

The Elementary and Secondary Education Act of 1965 (ESEA), as reauthorized by the Every Student Succeeds Act of 2015 (ESSA), requires the state educational agency (SEA) to monitor the implementation of program requirements and the expenditure of federal funds. Georgia’s monitoring process consists of five major components:

1. **Program Requirements** – LEAs must submit for approval the Consolidated LEA Improvement Plan (CLIP) through the consolidated application process. Federal Programs staff review each CLIP to ensure that the plan contains allowable activities for use and budgeting of federal funds. Once the CLIP has been approved, the LEA submits a budget reflecting the approved CLIP activities for review and approval by the Federal Programs staff assigned to the LEA. The LEA updates its CLIP under ESSA, as needed, to reflect changes, and it submits the updated CLIP to the SEA for review and approval. Updates to the CLIP are typically performed on an annual basis in Georgia.

2. **Monitoring of Expenditures** – LEAs must submit for approval an annual set of budgets through the consolidated application process. Federal Programs staff review each approved CLIP and program budget to ensure that expenditures are appropriate under program-specific federal guidelines and Uniform Grants guidelines before approving the budget. Once budgets are approved, Federal Programs staff track funds drawn down by LEAs for expenditures to ensure that LEAs are likely to meet the drawdown of funds timelines.

3. **Single Audit** under 2 C.F.R. Part 200.50(b) – An audit is a formal or official examination of records and accounts with the intention to verify that proper accounts have been utilized, proper procedures have been followed, and attending documentation has been maintained. If an auditor is unable to verify a program’s accounts, procedures, and documentation, the LEA will be notified in writing, either by first class mail or by electronic mail, of an exception or audit finding(s). The Division of Federal Programs will follow procedures as outlined in the *Subrecipient Audit Resolution Guide* for resolving any LEA audit findings through a single audit process.

4. **On-Site Monitoring** – An SEA on-site cross-functional monitoring team visits an LEA to review the criteria included in the LEA monitoring rubric. LEAs are monitored, at a minimum, on a four-year cycle. Approximately one-fourth of the LEAs are monitored on-site each year. As part of the process for determining which LEAs are to be monitored, the Division of Federal Programs conducts a risk assessment using a combination of elements as defined by Department.

Depending on the implementation of the program at the LEA, the following federal programs may be included on the on-site cross-functional monitoring team visit:

- Title I, Part A – Improving the Academic Achievement of the Disadvantaged
- Title I, Part A – Academic Achievement Awards
- Title I Part A – School Improvement Grants – State Reservations – 1003(a)
The results of the cross-functional monitoring team visit are reported through the e-monitoring reporting site within the My GaDOE Portal. Each of the federal programs included in this monitoring process has its own corridor within the e-monitoring reporting site. The Title I Area Specialists serve as overall team leads for the cross-functional monitoring teams. Each federal program that has staff assigned to a team will designate one program staff member as the program’s team lead. The program team lead is responsible for entering the data and writing the finding and corrective actions for the specific program, as needed. If there is a federal program that is applicable to the LEA and staff limitations make it unfeasible for a staff member to be present the day of the on-site monitoring, the program will have a desktop monitoring where the documents are uploaded through a secure online site for review by the program staff.

5. **Self-Monitoring** – The LEA self-monitoring process is an outgrowth of the on-site monitoring process of the cross-functional team. It is designed to provide LEAs the support and guidance needed to maintain ongoing high standards for compliance and program delivery by conducting a self-monitoring of compliance with federal law for each fiscal year that the LEA does not participate in the cross-functional on-site team monitoring process. LEAs not receiving an on-site visit may complete and submit the Self-Monitoring Checklist within the reporting site in the My GaDOE Portal (§ 200.328(a)).

### On-Site Cross-Functional Monitoring (CFM) Team Process

#### Selection of LEAs for Monitoring

- LEAs are monitored on a **four-year cycle**. Approximately one-fourth of the LEAs are monitored each year. As part of the annual review process in determining which LEAs are to be monitored, the Division of Federal Programs conducts a risk assessment using a combination of elements defined by GaDOE. An LEA’s risk assessment rating is determined by using both its risk rating, based on a set of established High-Risk Elements developed by the Division of Federal Programs and a risk rating from GaDOE’s Financial Review Division.
• During the summer of each year, the Division of Federal Programs completes a risk assessment to determine if an LEA falls into the high-risk category. The results of the risk assessment determine which LEAs may be added to the regular CFM cycle for that year. The SEA has the responsibility to monitor high-risk LEAs (§ 200.331(b)(1-4)). The Division of Federal Programs defines high-risk as:
  o LEAs showing evidence of serious or chronic compliance problems
  o LEAs with financial monitoring/audit findings; and/or LEAs with a high number of complaints from parents and other stakeholders about program implementation.
  o Other elements that may cause an LEA to be determined high-risk include size of allocation and new federal programs for fiscal management personnel in the LEA.
  o High-risk does not necessarily mean an LEA is not meeting the requirements of the program, federal regulations, or administrative procedures. It does mean that an LEA may be at a higher risk of having program elements that could cause it to not meet requirements associated with federal rules, regulations, and administrative procedures.
  o The Division of Federal Programs conducts a risk assessment for the following programs:
    ▪ Title I, Part A – Improving the Academic Achievement of the Disadvantaged
    ▪ Title II, Part A – Supporting Effective Instruction
    ▪ Title III, Part A – Language Instruction for English Learners, Immigrant Students
    ▪ Title IV, Part A – Student Support and Academic Enrichment
    ▪ Title IV, Part B – 21st Century Community Learning Centers
    ▪ Title I, Part C – Education of Migratory Children
    ▪ Title V, Part B – Rural Education Achievement Program (REAP)
    ▪ Title IX, Part A – McKinney-Vento Education for Homeless Children and Youth
    ▪ Individuals with Disabilities Education Act (IDEA)

1. On-Site Cross-Functional Monitoring Team

Each on-site cross-functional monitoring team consists of several team members. The specific makeup of particular teams is determined by the programs being implemented in an LEA. Each cross-functional monitoring team consists of representatives from programs being monitored, some of whom may conduct the monitoring via a desk-top review. The following federal programs may be included on the on-site cross-functional monitoring team visit:
  • Title I, Part A – Improving the Academic Achievement of the Disadvantaged
  • Title I, Part A – Parent and Family Engagement
  • Title I Part A – School Improvement Grants – 1003(a)
  • Title I, Part A – School Improvement Grants – 1003(g)
• Title I, Part D – Programs for Neglected and Delinquent Children
• Title I, Part C – Education of Migratory Children
• Title II, Part A – Supporting Effective Instruction
• Title III, Part A – Language Instruction for English Learners and Immigrant Students
• Title IV, Part A – Student Support and Academic Enrichment
• Title IV, Part B – 21st Century Community Learning Centers
• Title V, Part B – Rural Education Achievement Program (REAP)
• Title IX, Part A – McKinney-Vento education for Homeless Children and Youth
• The Individuals with Disabilities Education Act (IDEA)

2. Preparation Prior to On-Site Visit

• LEA Training
  o Once the LEAs to be monitored for the current year have been identified, each LEA’s superintendent is notified and provided with the current year’s monitoring document. The LEA is also notified of the training opportunities provided by GaDOE. This training is made available to all LEA staff members who will be involved in the on-site or desk-top cross-functional monitoring team visit.
  o Other opportunities available to all LEAs concerning the monitoring process include presentations at the annual Georgia Compensatory Educational Leaders (GCEL) conference, the annual Federal Programs Conference and other webinars during the year.
  o Prior to the monitoring date, Federal Programs’ staff may provide small group and/or individual technical assistance meetings (face-to-face or online) to provide support and assistance for preparation for an on-site monitoring. On-site visits are scheduled as requested by the LEA; however, on-site technical assistance cannot be provided within two weeks of the cross-functional monitoring team visit.
  o Federal Programs’ staff are always available via phone and email to answer questions the LEAs have concerning preparation for their on-site or desk-top visits.

• On-Site Monitoring Visit
  o The on-site visit typically lasts one to two days. During the visit, the team reviews documentation and interviews the LEA staff and other stakeholders. After the on-site visit is completed, the team members follow up with additional contact if necessary. Desk-top reviews performed by program staff in coordination with the on-site review team follow the same steps for document review; however, the review is performed off-site and may not include interviews with the LEA staff and other stakeholders.
3. Feedback and Follow-Up to On-Site Visit

- Monitoring Report:
  - The GaDOE provides a monitoring report, via the My GaDOE Portal, to the LEA within 30 business days of the on-site visit. An automated email is sent to the LEA superintendent and LEA staff notifying them that the report is available in the LEA monitoring application on the My GaDOE Portal. The report contains recommendations, findings, and required corrective actions that provide an analysis of the implementation of the programs monitored.

- LEA Corrective Action (if applicable):
  - The LEA has 30 business days to respond to any required corrective actions.
  - The LEA must clearly label and attach all documentation that is required by the corrective action.
  - If the corrective action requires written procedures, these procedures must be attached as a separate document rather than stated in the corrective action response text box.
  - The program team lead monitors the implementation of the timeline for the LEA’s approved corrective action and recommends an appropriate alternative if strategies are not implemented in a timely manner.
  - Any LEA failing to correct deficiencies, as outlined in its approved written corrective action timeline, could be subject to a delay of funds, at the discretion of GaDOE, until corrections are made.

- LEA Response to Monitoring Feedback:
  - The areas in which the indicators are “met” require no further action. The areas that are “met with recommendations” require no further action but may warrant updates to current practices. Only the indicators that are marked as “did not meet” require a corrective action.

- Department Response to LEA’s Corrective Action
  - Once the LEA superintendent has signed off on the corrective action, the team lead for the specific program reviews the LEA’s corrective action documentation. If no further information is needed, the team lead will sign off that the corrective action is complete, indicating that the LEA is now in compliance. The LEA’s corrective action is then reviewed by the specific federal program manager and program director. If at any time through this review process it is determined that additional information is needed from the LEA, the corrective action is sent back to the LEA for revision, and the review process continues until the corrective action is complete.
  - Once all the findings have been cleared through the corrective action process, the program manager and director will sign off that the corrective action is complete. The LEA superintendent will receive notification of the sign-off via automated email.

- Report Analysis:
  - The GaDOE maintains a database of all on-site visit reports by monitoring cycle. Summary analyses of the findings, recommendations, and commendations from the reports provide a more complete picture of implementation and inform efforts to provide leadership activities and technical assistance to the LEAs.
The cross-functional monitoring document is available [here](#).

**LEA Self-Monitoring Procedures**

The Elementary and Secondary Education Act of 1965 (ESEA), as reauthorized by the Every Student Succeeds Act of 2015 (ESSA), requires the state educational agency (SEA) to monitor the implementation of program requirements and the expenditure of federal funds (CFR 200.328(a)). Monitoring and providing guidance and technical support for federal programs at the local level to ensure their compliance with regulations, as well as to assure the quality of the program and the instructional delivery being utilized with at-risk populations, is a primary focus for the Federal Programs Division.

Georgia’s procedures for on-site visits specify that LEAs participate in an on-site monitoring process on a four-year cycle. Approximately one-fourth of LEAs are monitored on-site each year. The self-monitoring process is a companion to the on-site monitoring program. It is designed to provide LEAs the support and guidance needed to maintain ongoing high standards for compliance and program delivery by conducting a self-monitoring of compliance with federal law throughout the period that the local program does not participate in the Federal Programs Division on-site monitoring process. Each LEA not monitored as part of the annual cross-functional monitoring cycle is strongly encouraged to complete and submit the self-monitoring report. A best practice is to complete this along with year-end completion report activities (i.e., October – December). LEAs choosing to use this application should notify the Division of Federal Programs, so the application can be activated ([federalprograms@doe.k12.ga.us](mailto:federalprograms@doe.k12.ga.us)).

**Steps for Completing the Self-Monitoring Process**

1. The LEA team reviews the applicable year’s self-monitoring indicators. (The self-monitoring indicators are the same indicators used in cross-functional monitoring for that fiscal year and are found [here](#).)
2. The LEA team reviews its documentation for each indicator. Overarching indicators are reviewed by all program staff together.
3. The LEA will access the self-monitoring application on the My GaDOE Portal.
4. The LEA team determines which rating reflects its performance in the fiscal year: district successfully implementing, district resolving, district requesting assistance, or NA, and marks each criterion accordingly.
5. The LEA may record narrative and upload documentation to support its ratings.
6. The Federal Programs staff assigned to the LEA will review the self-monitoring report to determine which, if any, LEAs may need an on-site visit, phone conference, or virtual meeting for additional technical assistance.
7. LEAs may request technical assistance by contacting the appropriate Federal Programs staff any time during the self-monitoring process.
Local Educational Agency (LEA) Audit Resolutions

The U.S. Office of Management and Budget (OMB) Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 C.F.R. Part 200, §200.521 makes GaDOE (as a pass-through entity) responsible for making the management decision for audit findings that relate to federal awards it makes to subrecipients (i.e., LEAs). Specifically, §200.521(d) states that GaDOE, as the “pass-through entity responsible for issuing a management decision must do so within six months of acceptance of the audit report.”

A single audit or program-specific audit is required, in accordance with the Single Audit Act, of subrecipients that expend $750,000 or more in federal awards in a fiscal year. A single audit has two main objectives:

a. Audit of the entity’s financial statements and expenditures of federal awards
b. Compliance requirement audit of federal awards. Only federal awards considered major programs are audited. A major program is defined in the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards §200.518. The compliance requirements audited are summarized in the compliance supplement, Appendix XI to Part 200 of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards.

When GaDOE receives an audit report with federal award findings, these findings will be assigned to the appropriate program manager for investigation. The program manager, or his or her designee, will review the findings to determine what corrective action needs to be taken by the sub-recipient and if any action needs to be taken by GaDOE to address the findings. Findings may include questioned costs, instances of non-compliance, or material weaknesses in internal controls. Regardless of the type of finding, the corrective action must be taken on the part of the sub-recipient and it is the responsibility of GaDOE to ensure that the finding is addressed with a corrective action plan. Federal award findings will be considered open by GaDOE Financial Review Office until the appropriate program has completed their review of the finding. LEAs are expected to work with GaDOE program staff to ensure timely resolution to identified findings resulting from the single audit.
Chapter 8: Records Retention

Local Educational Agencies (LEAs) receiving federal funds are required to maintain records in accordance with the 2 C.F.R. Part 200 – Uniform Administrative Requirements, Cost Principles and audit Requirements for Federal Awards. In addition, LEAs must comply with local records retention policies.

LEA records maintained in accordance with 2 C.F.R. Part 200 will be considered in compliance with federal requirements for records retention. 2 C.F.R. Part 200 sections appropriate for records retention are provided below. However, LEAs should consult the complete document for regulations on administering federal programs. The complete document is available here.

Title 34 Code of Federal Regulations Parts 76

§ 76.730 – Records Related to Grant Funds of EDGAR.
- A state and subgrantee shall keep records that fully show:
  - The amount of funds;
  - How funds were used;
  - Total cost of the project;
  - Share of the cost provided from other sources; and
  - Other records to facilitate an effective audit.

Note: There are references throughout the new reporting requirements on financial management in 2 C.F.R. Part 200.302 (performance reporting)

§ 76.731 – Records Related to Compliance
- A state and subgrantee shall keep records to show its compliance with the program requirements.

The Federal Freedom of Information Act (5 U.S.C. 552) does not apply to records unless required by federal, state, or local law; grantees and subgrantees are not required to permit public access to their records. (Approved by the Office of Management and Budget under control number 1880-0517) (Authority: 20 U.S.C. 3474; Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards [2 C.F.R Part 200], [53 FR 8071 and 8087, Mar. 11, 1988, as amended at 53 FR 8072, Mar. 11, 1988; 53 FR 49143, Dec. 6, 1988; 64 FR 50392, Sept. 16, 1999])
Chapter 9: Selecting Evidence-Based Interventions

Purpose

The purpose of this chapter is to support Local Educational Agencies (LEAs) in successfully choosing and implementing evidence-based practices, strategies, and interventions (collectively referred to as “interventions”) that improve outcomes for students. Using, generating, and sharing evidence about effective interventions to support students gives stakeholders an important tool to improve student learning.

Alignment to Georgia’s Systems of Continuous Improvement

Through its approved state plan under the Every Student Succeeds Act (ESSA), the Georgia Department of Education (GaDOE) adopted Georgia’s Systems of Continuous Improvement framework to align work, foster collaboration, and create a common language and approach for improvement. This framework is provided to districts and schools as an optional improvement framework.

All districts and schools should have some systematic framework; this is one option. The GaDOE recognizes and respects that districts and schools have developed/adopted their own robust continuous improvement frameworks. All effective improvement frameworks utilize evidence-based interventions throughout.

The identification and implementation of evidence-based interventions are an integral part of Georgia’s Systems of Continuous Improvement. The center of this framework is the Whole Child.

The ‘Why’ of improvement is to ensure that all students in Georgia graduate ready to learn, ready to live, and ready to lead. The Whole Child alludes to this holistic perspective on the shared goal for education in Georgia.

The ‘What’ of improvement includes five systems:
- Coherent Instruction
- Professional Capacity
- Supportive Learning Environment
- Family and Community Engagement
- Effective Leadership
The ‘How’ of the improvement contains the components of a problem-solving cycle:

- Identify Needs
- Select Interventions
- Plan Implementation
- Implement Plan
- Examine Progress

Working together, the shared goal, cycle, and systems form an aligned and coherent improvement process that can address unique strengths and needs of each district and school while also increasing the achievement of Georgia’s students.

In Georgia’s ESSA State Plan, the GaDOE made the commitment to develop and implement a “toolbox” for LEAs and schools with effective practices, processes, and supports that are mapped onto the Systems of Continuous Improvement framework. While currently in its infancy, this toolbox will eventually become a robust repository of aligned programs, initiatives, tools, and resources managed by the GaDOE to support the framework. Evidence-based practices and interventions will be included.

**Supporting Resources**

- [LEA Inventory of Current Practice](#) (West Ed)
The Shift to Evidence-Based Interventions

Broadly, evidence-based interventions are those which have research evidence supporting their success.

Georgia’s efforts to improve student outcomes relies on evidence-based interventions. This effort represents a timely shift from the federal requirements of No Child Left Behind (NCLB) to the state-developed ESSA plan for Georgia. NCLB focused strictly on ‘scientifically based research’ (i.e., quasi-experimental and randomized-controlled experimental) in order to drive federal funds to support activities with proven results; however, since 2001 educational research has expanded to many more methodological designs. Thus, the ESSA provides broader categories of evidence and recognizes additional interventions that show promising evidence. Additionally, the ESSA includes more specific definitions and expectations for each category.

The definition of “evidence-based” is given in section 8101(21) of the ESEA, as amended by the ESSA (United States Congress, 2015). The ESSA delineates “evidence-based” actions according to four categories that reflect strength of evidence:

EVIDENCE-BASED. —
(A) IN GENERAL. —Except as provided in subparagraph (B), the term ‘evidence-based’, when used with respect to a State, local educational agency, or school activity, means an activity, strategy, or intervention that—
(i) demonstrates a statistically significant effect on improving student outcomes or other relevant outcomes based on—

(I) strong evidence from at least 1 well-designed and well-implemented experimental study;
(II) moderate evidence from at least 1 well-designed and well-implemented quasi-experimental study; or
(III) promising evidence from at least 1 well-designed and well-implemented correlational study with statistical controls for selection bias; or
(ii) (I) demonstrates a rationale based on high-quality research findings or positive evaluation that such activity, strategy, or intervention is likely to improve student outcomes or other relevant outcomes; and
(II) includes ongoing efforts to examine the effects of such activity, strategy, or intervention.

(B) DEFINITION FOR SPECIFIC ACTIVITIES FUNDED UNDER THIS ACT. —When used with respect to interventions or improvement activities or strategies funded under section 1003, the term ‘evidence-based’ means a State, local educational agency, or school activity, strategy, or intervention that meets the requirements of subclause (I), (II), or (III) of subparagraph (A)(i).

The fourth category above, demonstrates a rationale, is supported by (a) high-quality research; or (b) a positive evaluation that the intervention is likely to improve student outcomes; or (c) other relevant outcomes that are undergoing evaluation and supported by a logic model.
The ESSA and U.S. Department of Education (ED) regulations require districts and schools to spend federal funds in support of evidence-based interventions:

<table>
<thead>
<tr>
<th>Federal Funding Source</th>
<th>Level of Evidence Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>Title I, Part A 1003 SIG funds</td>
<td>Interventions applied under Title I, Part A Section 1003 (School Improvement) are required to have strong, moderate, or promising evidence to support them.</td>
</tr>
<tr>
<td>IDEA*</td>
<td>Interventions can fall into any of the four categories.</td>
</tr>
<tr>
<td>All other federal programs under Titles I–V; Homeless Education</td>
<td>Interventions can fall into any of the four categories.</td>
</tr>
<tr>
<td>Federal programs being consolidated with other federal, state, and local funds in a Title I school level schoolwide program</td>
<td>Federal funds consolidated in this manner at the school level lose their identity and, therefore, interventions will not require documentation of an evidence-based intervention.</td>
</tr>
</tbody>
</table>

*Also applies to entities that LEAs support with federal funds (N&D residential facilities with schools onsite, GNETS, private school equitable services, etc.)

Alignment to the LEA Consolidated Application

Evidence-based interventions are integral to the LEA Consolidated Application in that Georgia’s Systems of Continuous Improvement provide the framework for the consolidated LEA improvement plan (CLIP) and the accompanying program budgets. The LEA Consolidated Application follows the continuous improvement model by incorporating the following elements:

- identification of local needs;
- goals and related actions (selection of evidence-based interventions);
- implementation processes (planning, budgeting, implementing);
- examining progress for effectiveness; and
- how the LEA effort will be coordinated among the federal programs.

Supporting Resources

- LEA Consolidated Application (GaDOE)

Georgia’s Systems of Continuous Improvement’s Problem-Solving Cycle

Step 1 | Identify Needs

Through Georgia’s Systems for Continuous Improvement process, districts and schools consult with a wide-range of education stakeholders (e.g., families, students, educators, early learning and post-secondary education, including P-20 and community partners). This is a good opportunity for districts and schools to engage with advisory councils, P-20 partners, and/or governance teams. Together, they can examine relevant data for the system to bolster strengths and identify the most pressing needs.

Georgia’s state ESSA plan references and reinforces the need to be responsive to the community and to recognize the value of effective professional educators. Engaging the community and educators in a meaningful way is a key component in ensuring broad-based support of evidence-based interventions.

When identifying needs, leaders and stakeholders should consider a broad view of data, including both summative and formative results, local and state data sets, academic and non-academic factors, equity gaps and equity data, as well as qualitative and qualitative information (ex: interviews, surveys, focus groups). Support for the Whole Child requires multiple data sets to paint a holistic picture of local strengths and true root causes that create barriers to student achievement.

Strategic priorities should be identified to address local challenges. Only a few system-wide priorities should be taken on by a system at one time, no more than four or five. These priorities should bolster local strengths and respond to the root causes for local challenges. The GaDOE has aligned the CLIP, District Improvement Plans, and School Improvement Plans. This aligned
process ensures that all local teams analyze local data, identify strengths and root causes, set priorities, and develop implementation plans to address those priorities. This alignment empowers districts and schools to leverage federal funds to support identified needs in a more streamlined and effective way.

Questions to Consider

- Which stakeholders can help identify local strengths, needs, and/or root causes?
- Are we engaging with stakeholders in a meaningful and timely manner?
- How do we build trust with stakeholders so that authentic conversations can be held, and true root causes identified?
- Are all subgroups of students performing at the optimal level?
- What data sources are needed to best understand our local context?
- What data gaps exist? How do we fill those gaps?
- What systems are in place to support success? What system changes are needed?

Step 2 | Select Interventions

Once local strengths and needs are identified, evidence-based interventions should be selected to meet those needs. The ESSA and ED regulations/guidance lay out four categories of interventions:

<table>
<thead>
<tr>
<th>Types of Evidence-based Interventions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Strong Evidence</td>
</tr>
<tr>
<td>Moderate Evidence</td>
</tr>
<tr>
<td>Promising Evidence</td>
</tr>
<tr>
<td>Demonstrates a Rationale</td>
</tr>
<tr>
<td>Supported by at least one randomized study</td>
</tr>
<tr>
<td>Supported by at least one quasi-experimental study</td>
</tr>
<tr>
<td>Supported by at least one correlational study</td>
</tr>
<tr>
<td>Supported by programs with a rationale based on high-quality research or a positive evaluation that are likely to improve student or other relevant outcomes and that are undergoing evaluation; supported by a logic model</td>
</tr>
</tbody>
</table>

Several online databases have been developed to assist LEAs with identifying evidence-based interventions. Below is a list of common databases:

- **Evidence for ESSA** from the Center for Research and Reform in Education at Johns Hopkins University, in collaboration with a distinguished Technical Work Group focuses on math and reading programs.
- **Best Evidence Encyclopedia** provides summaries of scientific reviews produced by many authors and organizations, as well as links to the full texts of each review on a variety of programs available for students in grades K-12.
- **Child Trends** provides program evaluations and research syntheses on child development topics, including language and learning in early childhood and for parents and families, and addresses issues affecting disadvantaged students, such as poverty and inequality.
- **The Doing What Works Library (DWW)** aims to connect research to action, to help educators implement research-based practices more effectively. The library resources are based on the research recommendations from particular IES practice guides.
- **The National Center for Education Evaluation (NCEE) and Regional Assistance** is one of four centers in the Institute of Education Sciences (IES). IES/NCEE aims to provide quick
and easy access to evidence-based information to help educators and policy makers make informed decisions about education programs.

- **Results First Clearinghouse Database** includes numerous searchable databases and provides ratings.
- The **What Works Clearinghouse** reviews the existing research on different *programs, products, practices, and policies* in education with the *goal* of providing educators with the information they need to make evidence-based decisions. WWC focuses on the results from *high-quality research* to answer the question “What works in education?”

Ask a Regional Educational Laboratory is a free reference desk service for LEAs and schools; provides references and summaries of research tailored for topics requested.

*Note: This is not an exhaustive list. LEAs can utilize other reputable databases and identify other practices that are supported by studies/research.*

**Fostering Innovation**

Georgia is unique in that school districts are provided with flexibility from state mandates in exchange for greater accountability through performance contracts. This flexibility affords districts the opportunity to innovate and develop practices to increase student achievement.

The ESSA allows for this innovation by demonstrating a rationale. Districts and schools are allowed to utilize federal funds – except for 1003 SIG funding – to support practices that are not proven but based on a strong rationale via a logic model and data set that can be tracked to show gains over time.

**Questions to Consider**

- What evidence support the identified interventions?
- If 1003 funds are used, do the interventions meet the strong, moderate, or promising evidence federal thresholds for being evidence-based?
- Are you using research to select your intervention instead of preselecting an intervention and looking for evidence to justify?
- If an intervention is identified as “Demonstrating Rationale,” what is your logic model and what data points will you use to track its effectiveness?

Georgia’s Systems of Continuous Improvement’s Problem-Solving Cycle
Steps 3 & 4 | Plan Implementation & Implement Plan

Just because an intervention is supported by research does not mean it will automatically impact achievement at the local district or school level. Implementing interventions with fidelity is critical.

To achieve this, develop a team to plan and carry out the implementation:

- Identify roles and responsibilities of those implementing the intervention;
- Develop a team who will understand deeply the intervention and of best ways to implement it;
- Develop the implementation timeline;
- Identify resources and supports needed for the implementation of the intervention; and
- Develop a set of information to be regularly reviewed to track the implementation.

Carry out the plan to implement the promising solutions, making real-time adjustments where/when needed:

- Collect information to monitor the quality of supports being provided for the intervention;
- Consider what additional information is needed to determine if intervention is working;
- Assess the degree to which the implementation plan is being followed;
- Identify ways to break down barriers; and
- Build capacity of others to facilitate the improvement process now and in the future.

Questions to Consider

- Do interventions selected align to identified local needs and strategic priorities?
- Have goals for successful implementation been established?
- Do stakeholders understand the purpose of the intervention and what you are trying to achieve? Is there buy-in?
- What will good implementation look like?
- Are action steps clearly defined?
- How will implementation be locally monitored?
- Do staff have the training, support, and resources to be successful?
- What’s the local communication plan and feedback loop?

- National Implementation Research Network AI Hub (SISEP)

Georgia’s Systems of Continuous Improvement’s Problem-Solving Cycle

Step 5 | Examine Progress

Determine whether the implementation of the promising solutions is meeting the originally identified needs of the school:

- Determine if the staff can formally study the effects of the intervention to share with others in the field;
- Monitor implementation and progress against defined goals;
- Assess the degree to which the implementation plan is being followed;
- Identify and track progress and performance;
- Develop a plan for how knowledge about the intervention will be shared with others; and
- Use the evidence to determine whether the intervention should continue as is, be modified, or be discontinued.

Questions to Consider

- What data will we use to track trends to see if specific interventions are working?
- How often will progress be measured or examined?
- What barriers are impeding the success of intervention? How can those be addressed?
- How will successful interventions be supported and sustain? How do you build capacity?
- How will you modify or discontinue a struggling intervention?

Utilizing Higher Education Institutions

Georgia’s P-20 Collaboratives exist to strengthen the partnership between higher education and K-12 education. These regional groups meet regularly and can provide a conduit to support the selection, implementation and action research of evidence-based practices.

Specifically, P-20s focus on fostering:

- **Research-practitioner partnerships**: Study practices by collecting and analyzing data during the implementation of evidence-based interventions.
- **Professional learning**: Unite theory, research, and practice through collaborative professional learning communities that come together to review ideas about how to improve schools and student learning opportunities.

Questions to Consider

- *How can local institutes of higher education be involved in the selection and support of evidence-based practices?*
- *How can ESSA be an opportunity to form stronger partnerships with higher education?*
- *How can professors be invited into the district to provide direct support to teachers and leaders?*
- *How can the connection between theory and practice be strengthened?*

Frequently Asked Questions

Requirements for Federal Programs | ESSA & IDEA

1.) When will the GaDOE review the evidence-base of our interventions?

With support and input from its Federal Programs Workgroup, new tools and resources to document LEAs’ evidence-based interventions will continue to be developed by the GaDOE within the State Longitudinal Data System (SLDS) and the Consolidated Applications. Until the GaDOE builds these supports, which should be established and operational for FY20, LEAs should anticipate their required evidence-based interventions to be documented for review during FY19 in the following ways:

- In the Consolidated Application, the general assurances that each LEA acknowledges will include a specific reference to the required use of evidence-based interventions.
- LEAs must specify in the budget line item description whether the strategy/intervention is supported by a strong, moderate, or promising evidence base or demonstrates a rationale that is documented by a logic model on file with the LEA. This requirement applies to these budget function codes: 1000, 2100, 2210, 2213, 2400, 2900.
- Documentation of the evidence base of interventions must be on file at the LEA and will be reviewed during the cross-functional monitoring process. The GaDOE has provided an optional set of templates that LEAs may use to collect and maintain their evidence-base documentation (see ‘Supporting Resources’ below).
- In reviewing the evidence base of an intervention, the GaDOE federal programs will consistently look to the LEAs’ reference and support for the evidence base through the following sources:
  - ESSA Definition of Evidence-Based
  - Program Specific Non-Regulatory Guidance
  - US ED Non-Regulatory Guidance: Strengthening Education Investments

2.) Must all purchases with federal funds be evidence-based?

Yes, both the ESSA and the IDEA state that interventions supported with federal funds must be evidence-based. The earlier chart, presented again here, shares the level of evidence required by program.

<table>
<thead>
<tr>
<th>Federal Funding Source</th>
<th>Level of Evidence Required</th>
</tr>
</thead>
<tbody>
<tr>

<td>Interventions can fall into any of the four categories.</td>
</tr>
<tr>
<td>All other federal programs under Titles I–V; Homeless Education</td>
<td>Interventions can fall into any of the four categories.</td>
</tr>
<tr>
<td>---------------------------------------------------------------</td>
<td>----------------------------------------------------------</td>
</tr>
<tr>
<td>Federal programs being <strong>consolidated</strong> with other federal, state, and local funds in a Title I <strong>school level</strong> schoolwide program</td>
<td>Federal funds consolidated in this manner at the school level lose their identity and, therefore, interventions will not <em>require</em> documentation of an evidence-based intervention.</td>
</tr>
</tbody>
</table>

*Also applies to entities that LEAs support with federal funds (N&D residential facilities with schools onsite, GNETS, private school equitable services, etc.)*

The GaDOE also realizes that certain expenditures do not require an evidence base (program administration, recruitment, personnel benefits, etc.).

Establishing an evidence-based Intervention often applies to strategies and interventions (software, class size reduction, reading programs, instructional coaches, professional learning, etc.).

**3.) Is a logic model required for each intervention selected for implementation that does not have a strong, moderate, or promising evidence-base?**

Yes, and the GaDOE has provided sample logic model templates that LEAs may use to guide and document their decision-making and intervention implementation plans for this level of intervention.

A logic model is a well-specified conceptual framework that identifies key components of the proposed process, product, strategy, or practice (i.e., the active ingredients that are hypothesized to be critical to achieving the relevant outcomes) and describes the relationships among the key components and outcomes, theoretically and operationally.

Chapter 10: Federal Funding for Translation and Interpretation Services

In 2011, staff from the Office for Civil Rights (OCR), Title I Part A and Title III Part A at the U.S. Department of Education (USDE) shared guidance with regards to the use of Title I and Title III funds for translation and interpretation services. (Please see the 2011 Translation/Interpretation Webinar PPT on the USDE Resources Website) This guidance has been updated by staff at the Georgia Department of Education (“GaDOE”) Titles I, III, and Special Education Departments and a summary is provided below.

Supplement, Not Supplant

Under the ESSA, Title III Part A §3115(g) describes the “supplement, not supplant” provision applying to the use of Title III Part A funds. In practice, this means that a supplanting violation occurs when a district uses Title III-A funds to provide services that are required under other Federal, State and local laws. Thus, when budgeting for expenditures of Title III monies, it is important to first consider whether the activities proposed are already required to be performed under another law. If such is the case, the non-supplanting provision dictates that Title III-A funds may not be spent in support of that activity.

Litmus Test – Prior to expending Title III-A funds on an activity or service, consider: “Is this an activity/service required by the Office for Civil Rights? Is this an IDEA requirement? Is this a Title I requirement?” If the response to any of these questions is “yes,” then Title III Part A funds should not fund this activity/service.

Details regarding several OCR, IDEA and Title I translation/interpretation requirements follow.

Fundamental Office for Civil Rights Translation/Interpretation Requirements

The OCR branch of the USDE is a law enforcement entity that ensures non-discriminatory and equal access for national-origin and language-minority students to education. The OCR does not provide grants or funding for its mandates, but school districts are bound by its requirements nonetheless. Due to the Supplement, Not Supplant provision, using Title III Part A funds to fulfill OCR mandates is not permissible.

In order to comply with Title VI of the Civil Rights Act of 1964, OCR has stated that, in addition to communications regarding a student’s language assistance services, “school districts have the responsibility to adequately notify national origin-minority group parents of school activities which are called to the attention of other parents. In order to be adequate, such notice may have to be provided in a language other than English.” In practice, this is interpreted to mean that school districts have the responsibility to adequately notify limited English proficiency parents of school activities which are called to the attention of other parents, and in order to be adequate, this may require translation or interpretation.” OCR
considers four factors when reviewing school districts’ programs and services for English Learners (ELs):

1. The number or proportion of ELs eligible to be served or likely to be encountered by the district;
2. The frequency with which ELs and their parents come in contact with the district;
3. The nature and importance of the program, activity, or service provided by the district to people's lives; and
4. The resources available to the district and costs.

In practice, this is interpreted to mean:

1. The more ELs in a district’s language group, the greater the need for services to be provided in that language;
2. The more frequent the contact with ELs, the more frequent the need for services;
3. The more important the communication, the more critical that the communication be understood; and
4. Small programs with small budgets may not be able to provide the same level and expense of services as large programs with larger budgets.

**IDEA Translation/Interpretation Requirements**

Services that are provided above and beyond the basic OCR requirements may be allowable expenditures under other Federal programs. For example, the Individuals with Disabilities Education Act (IDEA) lists several situations in which translation or interpretation might be required in order to communicate with limited English proficient parents. In the relevant sections of 34 C.F.R. it states:

- Assessments and other evaluation materials used to assess a child must be provided and administered in the child’s **native language**, unless it is clearly not feasible to do so. [§300.304 (c)(1)(ii)]
- All parents of a child with a disability are to be provided with written notice before the school proposes to initiate or change the identification, evaluation, or educational placement of the child. This written notice must be provided in the **native language** of the parent, unless it is clearly not feasible to do so. If the native language is not a written language, the school must ensure that the notice is translated orally. [§300.503 (c)]
- In general, parents are strongly encouraged to attend IEP team meetings. The school must take whatever action is necessary to ensure that the parent understands the proceedings of the IEP Team meeting, including **arranging for an interpreter** if needed. [§300.322]
- When consent is sought (for accepting special education services, etc.) the parent must be fully informed of all information relevant to the activity for which consent is sought, in his or her **native language**, or other mode of communication. [§300.9]
- The GaDOE must inform parents about their right to confidentiality of personally identifiable information. This notice must be given in the **native languages** of the

Georgia Department of Education
April 8, 2020 ● Page 127 of 153

Unless otherwise noted, all references to ESSA in this document refer to the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA).
various population groups in the State. [§300.612]

**Title I Translation/Interpretation Requirements**

In addition, Title I of the Elementary and Secondary Education Act of 1965 (ESEA) outlines that the following information must be provided “to the extent practicable, in a language parents can understand” [§1112 (e)(4)]

- Information regarding achievement [§1111(b)(2)(B)(x)]
- Annual state and local educational agency report cards [§1111(h)(1)(B)(ii)]
- Parents’ Right to Know [§1112 (e)(1)(A)]
- Information in the school’s Title I plan [§1114]
- If the school is identified for “school improvement,” information on what this means, the reasons for the identification, what the school district and state are doing to address the problems identified, how parents can become involved to help, and an explanation of the parents’ right to transfer their child to another school [§1111]
- Information related to school and parent programs, meetings, and other activities and notification of the district’s parent and family engagement policy [§1116]
- Meaningful consultation with parents of children participating in on the planning and implementation of family engagement programs, activities, and procedures [§1116]
- The reasons a child has been identified as an English Learner and is in need of a language instruction educational program, the child’s level of English proficiency and academic achievement, information about the various language program options (methods of instruction used, how the programs differ, how the programs will help their child learn English, etc.), specific exit requirements for the program, and information about a parent’s right to decline to enroll their child in such a program. [§1112(e)(3)(A)]

**Title III-A Allowable Translation/Interpretation Services**

Title III Part A funds may be used for translation and interpretation services that support the specific parent outreach and training activities found in Title III, §3115(c)(3)(A), (d)(6), or (e)(A) but not those required by the Office for Civil Rights under Title VI of the Civil Rights Act (Lau) or other Federal programs, including IDEA and Title I of the ESEA. For example, translation of communications, outreach and trainings that are provided solely to parents of Title III-served ELs regarding the Title III-specific language program is permissible. Also permissible are translation and interpretation services in support of outreach programs and events for the purposes of fulfilling Title III, §3115(c)(3) – to enhance and supplement the Title III-A language instruction educational program.
Note: Translators and interpreters funded with Title III monies and split-funded district parent liaisons providing translation/interpretation services must indicate on time and effort logs the Title III activities for which their services were required.

Example Scenarios:

1. Your district’s Title III-A plan includes components allowed under §3115(d)(6)(B), in which family literacy services are provided in order to assist parents in becoming active participants in the language education of their EL children. Communication concerning these services, and perhaps the services themselves, will be translated or interpreted to the parents of Title III-served students. Payment for these interpretation/translation services for such parents is permissible under Title III law, as these are not OCR or other federally-required services.

2. Your district is planning parent-teacher conferences and has translated the invitation in various languages and will provide interpreters at the conferences for parents who require them. Payment for this translation/interpretation is not permissible under Title III law because Title VI of the Civil Rights Act already requires that parents who have limited English skills receive information from the school in a language that they can understand. (See http://www2.ed.gov/about/offices/list/ocr/eolep/index.html)

3. Your district holds an annual meeting for parents of high school juniors to educate them about the college application process. As this meeting is held for all parents, not solely parents of Title III-served students, it would be a violation of non-English speaking parents’ rights should interpreters not be provided. Thus, interpretation for this event is an OCR requirement and cannot be supported with Title III funds.

4. Your schools hold special meetings for EL parents concerning the WIDA ACCESS 2.0 assessment and its results. This meeting is not applicable to all parents in the school, solely to those of students in the ESOL language program; therefore, it would not be appropriate to use Title III-A funds to provide interpreters and translation services for this event, as explaining assessments to parents is a locally-funded responsibility. If, on the other hand, Title I funds provide support for a supplemental language instructional program, Title I funds could possibly be used in support of ESOL services as this translating is pursuant to Title I [§1112(e)(3)(A)].

Appendix D: Transferability

Under the ESEA, SEAs and LEAs may transfer funds they receive by formula under certain programs to other programs to better address State and local needs. The ESSA amended the transferability authority by changing the programs from and to which an SEA or LEA may transfer funds and removing limits on the amount of funds that may be transferred. This guidance addresses those changes.

What is transferability?

Transferability is a flexibility authority that permits State educational agencies (SEAs) and local educational agencies (LEAs) to transfer a portion of the funding they receive by formula under certain Federal programs to their allocations under other programs so they can address more effectively their unique needs.

(GUIDANCE ON THE TRANSFERABILITY AUTHORITY June 8, 2004)

Why is transferability important?

Transferability provides SEAs and LEAs with unprecedented flexibility in targeting Federal resources to meet the needs of all children. It can be a powerful tool in assisting States and districts in pursuing their own strategies for raising student achievement. It facilitates the development and implementation of integrated approaches for addressing local educational needs and priorities.

(GUIDANCE ON THE TRANSFERABILITY AUTHORITY June 8, 2004)

Programs from Which an LEA May Transfer Funds

- Title II, Part A – Supporting effective instruction
- Title IV, Part A – Student support and academic enrichment grants (ESEA section 5103(b)(2). ) An LEA may not transfer funds it receives under any other ESEA program.
  (ESEA section 5103(b)(2))

An LEA may not transfer funds it receives under any other ESEA program.

(NON-REGULATORY GUIDANCE: FISCAL CHANGES AND EQUITABLE SERVICES REQUIREMENTS UNDER THE ELEMENTARY AND SECONDARY EDUCATION ACT OF 1965 (ESEA), AS AMENDED BY THE EVERY STUDENT SUCCEEDS ACT (ESSA) November 21, 2016)

Programs to Which an LEA May Transfer Funds

- Title I, Part A – Improving basic programs operated by LEAs
- Title I, Part C – Education of migratory children
- Title I, Part D – Prevention and intervention programs for children and youth who are neglected, delinquent, or at-risk
- Title II, Part A – Supporting effective instruction
- Title III, Part A – State grants for English language acquisition and language enhancement
- Title IV, Part A – Student support and academic enrichment grants
• Title V, Part B – Rural education
(ESEA section 5103(b))

Is there a limit on the amount of funds an LEA may transfer under IIA and IVA?
No. An LEA may transfer all or a portion of funds it receives under IIA and IVA.

What are the responsibilities of an SEA or LEA for the provision of equitable services to private school children and teachers with respect to funds being transferred?
Excluding Title I, Part D and Title V, Part B, each program covered by the transferability authority is subject to the equitable services requirements under Title I or VIII, which may not be waived. (ESEA section 8401(c)(5).) Before an SEA or LEA may transfer funds from a program subject to equitable services requirements, it must engage in timely and meaningful consultation with appropriate private school officials. (ESEA section 5103(e)(2).) With respect to the transferred funds, the SEA or LEA must provide private school students and teachers equitable services under the program(s) to which, and from which, the funds are transferred, based on the total amount of funds available to each program after the transfer.

May an SEA or LEA transfer only those funds that are to be used for equitable services to private school students or teachers?
No. An SEA or LEA may not transfer funds to a particular program solely to provide equitable services for private school students or teachers. Rather, an SEA or LEA, after consulting with appropriate private school officials, must provide equitable services to private school students and teachers based on the rules of each program and the total amount of funds available to each program after a transfer. (See ESEA section 5103(e).)

Regarding transferability of funds: Can LEAs calculate the nonpublic share first in Titles II or IV and then do transfers out of those programs into each other or into Title I? In other words, can LEAs leave just the nonpublic share in its original program while transferring out all other LEA funds?
LEAs must calculate equitable service shares based on the total amount of funds available under a program after a transfer. Just as an LEA may not transfer funds to a particular program solely to provide equitable services, it may not retain funds solely for this purpose. Section 5103(e)(1) of the ESEA, as amended by ESSA, is clear that funds transferred under this section are subject to each of the rules and requirements applicable to the funds under the provision to which the transferred funds are transferred. Thus, if an LEA chooses to transfer 100% of its Title IV, Part A...
funds to Title I, it may not provide equitable services under Title IV, Part A. Please keep in mind that an LEA must consult with private school officials prior to any transfer; however, the final decision about whether to transfer funds remains with the LEA.

May an LEA transfer Title IV, Part A funds into Title III to get the LEA above the $10,000 minimum grant required for Title III?

In response to your question, as Title III, Part A funding is based on an LEA’s number of English Learners (ELs), a local educational agency (LEA) may not transfer funds from other programs into Title III, Part A with the purpose of meeting the $10,000 threshold. However, an LEA that would not otherwise qualify for a subgrant under section 3114(b) of the ESEA because it does not qualify for an award of at least $10,000 may submit a joint application with one or more other LEAs in order to qualify. More information on the consortium requirements for Title III can be found in A-15 of the September 2016 English Learner guidance (available here: https://www2.ed.gov/policy/elsec/leg/essa/essatitleiiiguidenglishlearners92016.pdf and pasted below).

QUESTIONS AND ANSWERS FROM THE TITLE IV, PART A STATE COORDINATORS’ MEETING on January 9-10, 2018

Guidelines on Transferability of Funds from the Overarching Federal Programs Handbook

- An LEA does not have to apply for transferability authority; it already has that authority (ESSA Sec. 5103(b)).
- The funds transferred into other eligible ESSA programs are subject to all rules and regulations of that ESSA Program.
- Equitable services requirements are not waived, and timely and meaningful consultation must occur prior to transferring funds from one program into another program.
- LEAs should think about how the transfer of funds will impact any of their required set-asides and Title I 85% drawdown requirement.
- The assigned GaDOE specialist who works with the LEA must be notified in writing (email) regarding the LEA’s intent to transfer eligible funds to or from other eligible ESSA programs 30 days in advance of submitting the budget for approval. This is for notification NOT approval.
- The LEA must notify in writing (email) GaDOE’s Grants Accounting Department regarding the LEA’s intent to transfer funds to or from other eligible ESSA programs prior to the transfer. This is for notification NOT approval. Send the notification 30 days in advance to Regina Hailey (rhailey@doe.k12.ga.us) and Della Kilpatrick (dkilpatr@doe.k12.ga.us) and copy the managers of the programs involved. For documentation purposes, LEAs must also attach the email to the current year consolidated application attachment tab.
- Since the transferred amount is not brought into the Grants Accounting Online Report System (GAORS), the amount transferred to another program will have to be drawn down from the originating program. LEAs must draw down funds from the originating program first.
- The LEA will track the drawdowns at the local level.
• In the budget, include all funds except those to be transferred.
• When transferring:
  o From Program to Program *(other eligible ESSA program)*. Repeat for each eligible ESSA program to which the LEA is transferring funds
  o Function 5000, Object 930, Amount

Appendix F: CFM Document Sharing

Cross Functional Monitoring (CFM) Document Sharing Application

Located in the Consolidated LEA Improvement Plan (CLIP) dashboard on the Statewide Longitudinal Data System (SLDS), the Cross-Functional Monitoring (CFM) tab allows local education agencies to share monitoring documents with the Georgia Department of Education (GaDOE) in a secure location.

1. CFM can be accessed with the same roles as the CLIP: District User, District Superintendent, District Administrator, and State Users
2. CFM has a fixed folder structure, by default, that cannot be altered. The structure follows the GaDOE Cross-Functional Monitoring document.
   a. Users can create new subfolders within the fixed folder structure.
   b. Users can upload files.
   c. Users can add, rename, delete, and copy/paste files into the folders.

3. When ready, the CFM files can be submitted to the Georgia Department of Education by the District Administrator role.
Here is the confirmation message you will see after the Administrator clicks on ‘Submit to State’

4. The GaDOE can view the files/folders and re-open CFM for a District to submit additional files. Send an email to federalprograms@doe.k12.ga.us to re-open the CFM submission.
5. Email confirmation notifications will be sent to users for actions such as ‘Submit to State’ and ‘Reopen for State’

Need assistance? Contact federalprograms@doe.k12.ga.us
Appendix G: Braiding - Using Federal Funds to Coordinate Services and Initiatives

Local Educational Agencies (LEA) continuously seek various ways to support their children and youth. Coordinating federal resources is an allowable method to ensure all resources are maximized to meet the needs identified.

The Code of Federal Regulations (34 CFR §76.760) states that more than one program may assist a single activity:

A State or a subgrantee may use funds under more than one program to support different parts of the same project if the State or subgrantee meets the following conditions:

a. The State or subgrantee complies with the requirements of each program with respect to the part of the project assisted with funds under that program.

b. The State or subgrantee has an accounting system that permits identification of the costs paid for under each program.

Often referred to as “braiding”, this flexibility allows GaDOE and LEAs to effectively use their supplemental federal resources to meet those identified needs. Funds remain with the respective program and are not consolidated. Braiding uses funds from different federal programs to provide items across the categories below, so that together it forms an initiative. For example, Title IA purchases devices, Title IIIA purchases digital language learning resources, and Title IIA provides the PD for teachers to implement an initiative successfully.

Examples: Braiding Funds to Coordinate Online and Distance Learning

**Devices and Hardware:**

- In a Title I schoolwide school, Title I, Part A could purchase devices and software for all students.
- In a Title I targeted assistance school, Title I, Part A could purchase devices and software for identified eligible students.
- If Title IA is purchasing headsets, Title IIIA could be braided to upgrade the headsets to include microphones for EL students.
- For all examples above, IDEA funds could be used to fund the portion for students with disabilities.
- Activities funded by other Federal Programs can be supplemented to increase/expand access to students utilizing Title IV, Part A funds.

**Internet Access and Hotspots:**

- If Title I provides internet access to all students, Title IIIA funds could be used to make regular contact with EL and immigrant students’ families to ensure they are able to use the internet access successfully (various languages required).
- Internet access for virtual learning for students and teachers would be allowable using IDEA funds for the following scenarios:
  - special education only teachers and students,
• the special education portion of co-taught classrooms for teachers and students,
• or if an LEA purchases hotspots or internet access for all teachers and students, then a proportionate share could be used with IDEA funds.

Software Programs:
• Title I and Title III funds could be braided to purchase an academic language learning software program for all students, and especially ELs, in a Title IA school. Title IIIA funds would purchase the same program for ELs in non-Title IA schools.
• If Title IA has purchased a software program for all students, Title III could fund an online tutor to meet with EL students regularly to ensure their success.
• If other federal programs are purchasing software programs, Title IIIA could fund related instructional text and paper resources to send home to EL families.

Professional Development for Staff:
• Title II and Title III funds could be braided to purchase an online PD course for teachers which has an additional language learning focus.
• Title IV, Part A funds can be braided to support substitutes during teacher’s participation in PD/PL/SD supported by other Federal Programs.

Digital Family Outreach
• Title IA & IIIA could braid funds to ensure families who don’t understand English are receiving communication in a language they understand
• Activities funded by other Federal Programs can be supplemented to increase/expand access to students utilizing Title IV, Part A funds.
This table shows how the federal resources can be used for online and distance learning **without** braiding funds:

Focus Area Effective Use of Technology (ET) (As per Non-Regulatory Guidance: Student Support and Academic Enrichment Grants- 85% of funding for this portion)
must be in support of professional development to improve the effective use of technology in teaching and learning)

- Formal personalized, blended or project-based learning programming for student consumption
- PD/PL for teachers utilizing digital learning tools, planning/implementing blended learning projects/programming, STEM/STEAM integrated activities including endorsements
- Support competency-based PL for teachers/instructional leaders
- Substitutes for classes while teacher attends PD/PL (even if PD/PL is funded by another program)
- Stipend for online collaboration/communication
- High quality digital content for teachers/students (Open Educational Resources) to include educator training to locate and adapt OER
- Grassroots (planning and implementation) technology-based staff development to include manage and analyze data systems to support and improve instruction and guide data-driven school improvement efforts
- Salary/stipend for PD/PL/SD personnel supporting teachers in effectively integrating technology into instruction
- Fees in support of blended professional learning opportunities designed for increasing/improving technology-based instruction/learning
- Activities subject to Special Rule of 15% cap on technology:
  - technology infrastructure (computer, tablets, protective covers, auxiliary equipment like printers/monitors/headphones/mouse/, cabling, etc.) to increase readiness
  - hardware to establish internet accessibility
  - software applications

</table>

For Teachers of English learners only:

- Professional development to build virtual teaching capacity
- Professional development on the use of technology
- Professional development on teaching 4 domains of language in an online environment
- Supplemental educational resources such as academic study guides on academic language acquisition
- Webinars or podcasts from outside entities with expertise working with members of the cultural groups the immigrant families represent

For Parents of English learners:

- Webinars or podcasts (in various languages) on how to support child’s learning in an online environment
- Telephone calls to check-in on child’s learning (various languages)
- Digital literacy programs for students and families
- Coordinated strategies with other federal programs

For Immigrant students & families:

- Online courses, modules, or classes of introduction to U.S. educational system
- Digital civics education classes or modules
- Online or telephone tutoring, mentoring, or counseling
- Provision of basic educational supplies for digital learning
- Community-coordinated activities to provide services to immigrant families

### Title IV, Part B

The following list denotes resources that are allowable expenditures for use at 21st CCLC afterschool program sites:

- Virtual & Online Curriculum Software Subscriptions (cost could be shared/allocated with other federal programs)
- Online Video/Conference Call Platform Subscriptions (cost could be shared/allocated with other federal programs)
- Remote Tutoring Services
- Online Learning Games (pre-approval required)
- Conversion of student provided devices (Loading of software and learning platforms)
- Laptops, Tablets, Study Buddies, etc.
- Mobile Printers
- Digital Apps for Laptops & Tablets
- Remote Computer and IT Support Services
- Virtual & Online Subscriptions for staff professional development
- Virtual Field Trips (many are free of charge)

### Title I, Part C

The following list denotes resources that are allowable expenditures for eligible migratory children and youth:

- Laptop computers
- iPads or any tablet devices
- iPods or mp3 if available
- Internet access such as hotspots
- Subscriptions to online educational resources
- Standalone software programs
- English language acquisition programs
- Education learning CDs
- Professional development on virtual teaching capacity
- Professional development on the use of technology
- Supplemental educational resources such as academic study guides

Georgia Department of Education

Unless otherwise noted, all references to ESSA in this document refer to the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA).
| Title I, Part D | Improve educational services for children and youth in local, tribal, and State institutions for neglected or delinquent children and youth so that such children and youth have the opportunity to meet the same challenging State academic standards that all children in the State are expected to meet.  
- Hot spots  
- Internet access  
- Instructor access to the internet and associated devices  
- Technology supplies such as computers, tablets, Chromebooks, etc.  
- Ensure appropriate access to technology for children and youth returning to local schools from correctional facilities |
| McKinney-Vento | The following list denotes resources that are allowable expenditures for children identified as homeless:  
- Providing supplies to non-school facilities serving eligible students and adapting these facilities to enable them to provide services. (Section 723(d)(14)).  
- Providing school supplies, including those to be distributed at shelters or temporary housing facilities, or other appropriate locations. (Section 723(d)(15)).  
- Providing extraordinary or emergency services needed to enable homeless children and youths to attend school and participate fully in school activities. (Section 723(d)(16)). This broad language allows for much funding flexibility including:  
  - Hot spots  
  - Internet access  
  - Technology supplies such as computers, tablets, Chromebooks, etc.  
- Provide homeless students with access to technology resources, including those to be at shelters or other appropriate locations. |
| IDEA, Part B |  
- Technology supplies such as computers, tablets, or other electronic learning devices are allowable for students with disabilities.  
- Assistive technology for students with disabilities  
- Software programs that allow students with disabilities to receive unique services  
- Allocability allows IDEA funds to be used pay for internet services and hotspots to access the curriculum for students with disabilities and teachers of students with disabilities in proportion to the benefit to the grant. While generally IDEA funds must be used only for the excess cost of educating students with disabilities, in an instance of accessing the curriculum, it is allowable because it is reasonable, necessary, and allocable. |
