Georgia’s Systems of Continuous Improvement

The Friday Webinar Series

Conducting a Single Comprehensive Needs Assessment – Identifying Need: Root Causes, Drawing Conclusions, and Prioritizing

Office of Federal Programs
Office of Special Education

March 31, 2017
Presenters

Dr. Ken Banter, Title I Program Manager
Federal Programs

Nakeba Rahming, State Director
GNETS

Dr. Zelphine Smith-Dixon, State Director
Special Education Services and Supports

Nicholas Handville, Business Analyst III
Federal Programs

John Wight, Director
Federal Programs
Georgia’s Systems of Continuous Improvement

Root Cause Analysis
Dr. Ken Banter
Title I Program Manager
Federal Programs
Purpose of Webinar

• Overview of Root Cause Analysis (RCA)
• Share sample tools and models for RCA
• Review the ICEL/RIOT Matrix
• Addressing Technical Problems vs Adaptive Challenges
• Using Process Data
• RCA and the CNA Tool
Overview of RCA

Definition:
Root cause analysis (RCA) is a class of problem solving methods designed to help identify not only what and how an event occurred, but also why it happened.
Overview of RCA

- RCA helps identify “WHY” something happened, thus preventing recurrence
- Root causes are underlying, are reasonably identifiable, can be controlled, and allow for generation of recommendations
- The process involves data collection (CNA tool), cause charting, root cause identification/recommendation
- The process requires stakeholders being open and honest with the data
Overview of RCA

RCA traces a problem to its origins

• There are usually three basic types of “causes”
  • **Physical causes** – Tangible, material items failed in some way (for example, a car's brakes stopped working).
  • **Human causes** – People did something wrong, or did not do something that was needed. Human causes typically lead to physical causes (for example, no one filled the brake fluid, which led to the brakes failing).
  • **Organizational causes** – A system, process, or policy that people use to make decisions or do their work is faulty (for example, no one person was responsible for vehicle maintenance, and everyone assumed someone else had filled the brake fluid).
Nakeba Rahming
State Director, GNETS
Getting to the Root Cause of your Outcomes

• Root cause analysis is an organized method of problem solving used to identify the underlying reasons for undesired outcomes.

• Systems review outcomes and use RCA to find out what happened, why it happened, and determine what needs to be changed and/or sustained.

• Events that should be investigated using the RCA process can be identified from your comprehensive needs assessment.
Multiple Tools and Models Exist
The 4 Step Problem Solving Process and ICEL/RIOT Matrix

**Key Domains of Learning**

<table>
<thead>
<tr>
<th>I</th>
<th>Instruction</th>
</tr>
</thead>
<tbody>
<tr>
<td>C</td>
<td>Curriculum</td>
</tr>
<tr>
<td>E</td>
<td>Environment</td>
</tr>
<tr>
<td>L</td>
<td>Learner</td>
</tr>
</tbody>
</table>

**Potential Sources of Information**

- **R**
  - Review of historical records and products

- **I**
  - Interview of key stakeholders

- **O**
  - Observe performance in real time functional settings

- **T**
  - Test student through careful use of appropriately matched measurement technologies

---

**STEP 1** Problem Identification
What’s the problem?

**STEP 2** Problem Analysis
Why is it occurring?

**STEP 3** Instruction and Intervention Design
What are we going to do about it?

**STEP 4** Response to Instruction and Intervention
Is it working?
Using the ICEL/RIOT Matrix

- The ICEL/RIOT matrix is not itself a data collection instrument. Rather, it is framework that increases organizations’ confidence both in the quality of the data that they collect and the findings that emerge from the data (Hosp, May 2006).

- Educators use it to assist in their quest to sample information from a broad range of sources and to investigate all likely explanations for system and student level outcomes.
Dr. Zelphine Smith-Dixon
State Director, Special Education Services and Supports
Are you planning to address Technical Problems or Adaptive Challenges with some Technical Fixes?
Improved Outcomes for ALL Students

GOAL

Improvement Efforts
Get to the root of the problem!
General Supervision

- Policies/Procedures
- Professional Learning/Technical Assistance
- Implementation of Compliant Practices
- Supervision/Monitoring Procedures
The Processes Data are like a “blue thread” that pulls all the data sets together! It brings meaning to the analysis!
Priorities

Access to the General Curriculum for All Students
• Coherent Instructional System/Professional Capacity
  • Effective Instruction with Universal Design for Learning (UDL)
  • Interventions and Supports

• Access to Positive School Climate for All Students
  • Supportive Learning Environment/Family & Community Engagement/Effective Leadership
    • Learning environments that nurture the whole child

• Access to Specially Designed Instruction for Students with Disabilities
  • Coherent Instructional System/Professional Capacity
    • Appropriate services and supports
Nicholas Handville
Business Analyst III,
Federal Programs and School Improvement
3.1 TRENDS and PATTERNS
Read the trends and patterns summaries from each section of the data analysis process. Use the information in these summaries to complete 3.2, 3.3, and 3.4. Watch the Identifying Need webinar for additional information and guidance.

<table>
<thead>
<tr>
<th>2.1 Coherent Instructional System:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summarize the coherent instructional system trends and patterns observed by the team while completing this section of the report. What are the important trends and patterns that will support the identification of student, teacher, and leader needs?</td>
</tr>
</tbody>
</table>

A pre-populated text box for each of the following:
2.1 Coherent Instructional System
2.2 Effective Leadership
2.3 Professional Capacity
2.4 Family and Community Engagement
2.5 Supportive Learning Environment
2.6 Demographic and Financial
2.7 Student Achievement
CNA Report – Program Strengths and Challenges (District pp. 76-80)

3.2 PROGRAM STRENGTHS and CHALLENGES
Using the summaries in 3.1 and other local data, describe the strengths and challenges or answer the guiding questions for each program. Include strengths and challenges related to: a) general program implementation, and b) students and adults involved in or affected by the program. Focus on strengths and challenges that will assist in the identification of needs during 3.3. Watch the Identifying Need webinar for additional information and guidance.

3.2.1 IDEA - SPECIAL EDUCATION

<table>
<thead>
<tr>
<th>Strengths</th>

CNA Report –
Identification and Prioritization of Overarching Needs (District p. 81, School p. 75)

3.3 IDENTIFICATION and PRIORITIZATION of OVERARCHING NEEDS

Use the results of 3.1 and 3.2 to identify the overarching needs of the LEA. Determine the priority order of the identified needs based on data, team member and stakeholder knowledge, and answers to questions in the table below. Be sure to address the major program challenges identified in 3.2. Watch the [Identifying Need webinar](#) for additional information and guidance.

<table>
<thead>
<tr>

CNA Report –
Root Cause Analysis (District pp. 82-84, School pp. 76-78)

3.4 ROOT CAUSE ANALYSIS
Select the top 2-4 overarching needs from 3.3. Conduct a separate root cause analysis (RCA) for each need. Any RCA tools and resources can be used, but suggestions are available as part of the Identifying Need webinar. After describing the RCA process, complete a table for each selected overarching need. Use the letter codes below to identify which programs relate to each root cause (ex: “ABCF”).

A. IDEA - Special Education
B. School and District Effectiveness
C. Title I, Part A - Improving the Academic Achievement of the Disadvantaged
D. Title I, Part A - Foster Care Program
E. Title I, Part A - Parent Engagement Program
F. Title I, Part C - Education of Migratory Children
G. Title I, Part D - Programs for Neglected or Delinquent Children
H. Title II, Part A - Preparing, Training, and Recruiting High-Quality Teachers, Principals, and Other School Leaders
I. Title III - Language Instruction for English Learners and Immigrant Students
J. Title IX, Part A - McKinney-Vento Education for Homeless Children and Youth Program

Describe the root cause analysis process used by the team.

Updates

• Prepopulated CNA Documents for Priority and Focus schools have been delivered to Superintendents

• Prepopulated CNA Documents for the targeted schools selected by the 50 intensive SSIP districts have been delivered to Superintendents

• Prepopulating the CNA Documents for Title I schools is still in development.
Updates

District and School Improvement Plans are in the final stages of development. More details soon....
Updates

• Federal Programs Website
  http://www.gadoe.org/School-Improvement/Federal-Programs/Pages/default.aspx

• Frequently Asked Questions (FAQ) available

• Additional webinar scheduled for March 31 at 11:00 showcasing the alignment between SSIP and the GA Systems of Continuous Improvement
  • Register here:
