

Advancing School Leadership for Continuous Improvement

Leading Family Engagement in Effective Schools

Winter Instructional Leadership Conference

February 25-26, 2019

Susan Holcomb and Dawn Scott

Family Engagement Specialists

Georgia Department of Education – Family-School Partnership Program

Georgia's Systems of Continuous Improvement

Family and Community Engagement System

Session Norms

- Place electronics on silence/vibrate.
- Remain engaged in learning.
- Respectfully share opinions.
- Ask questions for clarification to avoid making assumptions.

Learning Targets School Leaders will:

Identify

Identify ESSA family engagement requirements for schools

Evaluate

Evaluate family engagement activities to determine which are most effective at impacting student academic achievement

Understand

Understand how to engage families through programs such as the SLDS Parent Portal, Academic Parent-Teacher Teams

Acquire

Acquire a knowledge of resources and tools offered through the Family-School Partnership Program.

Title I-A, Section 1116 Every Student Succeeds Act (ESSA)

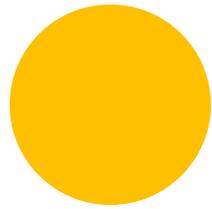

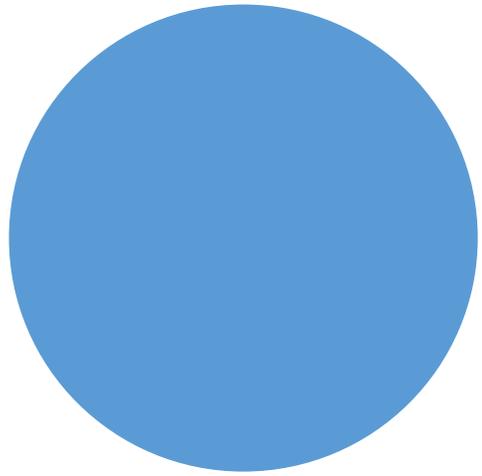

(1) IN GENERAL – A local educational agency may receive funds under this part only if such agency conducts outreach to all parents and family members and implements programs, activities, and procedures for the involvement of parents and family members in programs assisted under this part consistent with this section. Such programs, activities, and procedures shall be planned and implemented with meaningful consultation with parents of participating children.

Family Engagement

The definition of parental involvement can be found in Section 8101(39) of the ESSA and states:

- The term parental involvement means the participation of parents in regular, two-way, and meaningful communication involving student academic learning and other school activities, including and ensuring that:
- Parents play an integral role in assisting their child's learning.
- Parents are encouraged to be actively involved in their child's education at school.
- Parents are full partners in their child's education and are included, when appropriate, in decision-making as well as being a part of the advisory committees to assist in the education of their child.
- Other activities are carried out, such as those described in Section 1116.

Family Engagement Inventory

Title I-A, Section 1116 Every Student Succeeds Act (ESSA), General School Requirements

- Annual Title I Meeting
- School Parent and Family Engagement Plan
- School-Parent Compact
- Building Parent Capacity (The “Shalls”)
- Building School Staff Capacity

(Input and Distribution)

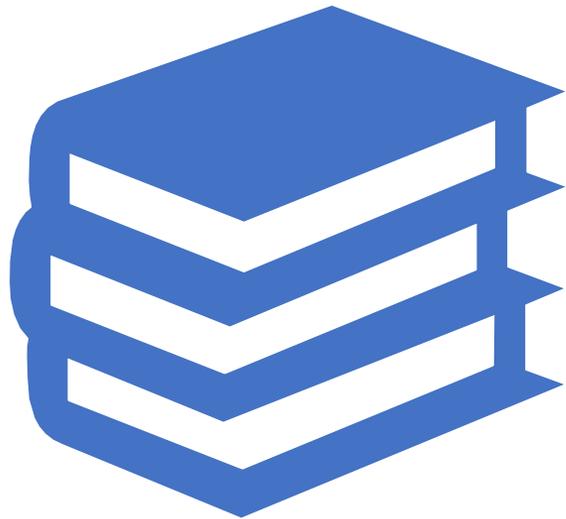

See the Georgia Department of Education – Family-School Partnership page at <http://partnerships.gadoe.org> for more information.

**What does
the research
tell us about
engaged
families?**

Beyond the Bake Sale

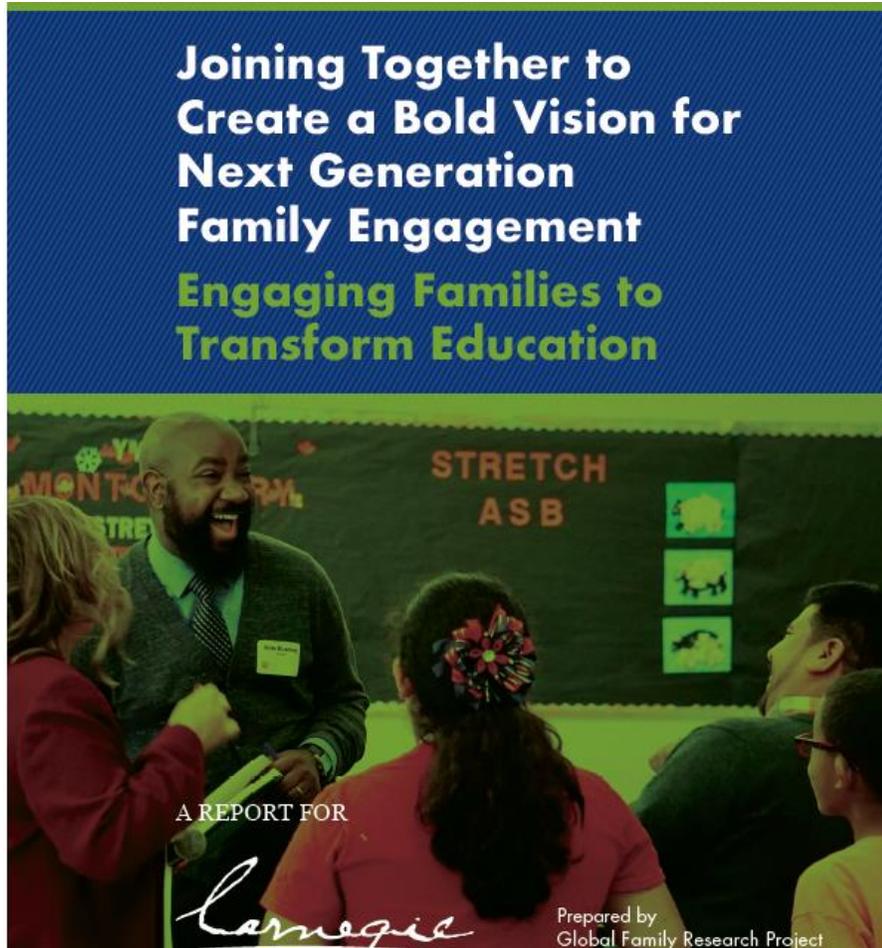

“The evidence is consistent, positive, and convincing: families have a major influence on their children’s achievement. When schools, families, and community groups work together to support learning children tend to do better in school, stay in school longer, and like school more.”

Summary of Key Findings from: *A New Wave of Evidence: The Impact of School, Family and Community Connections of Student Achievement.*

Henderson, A. et al (2007) *Beyond the Bake Sale, The Essential Guide to Family-School Partnerships.* The NY Press

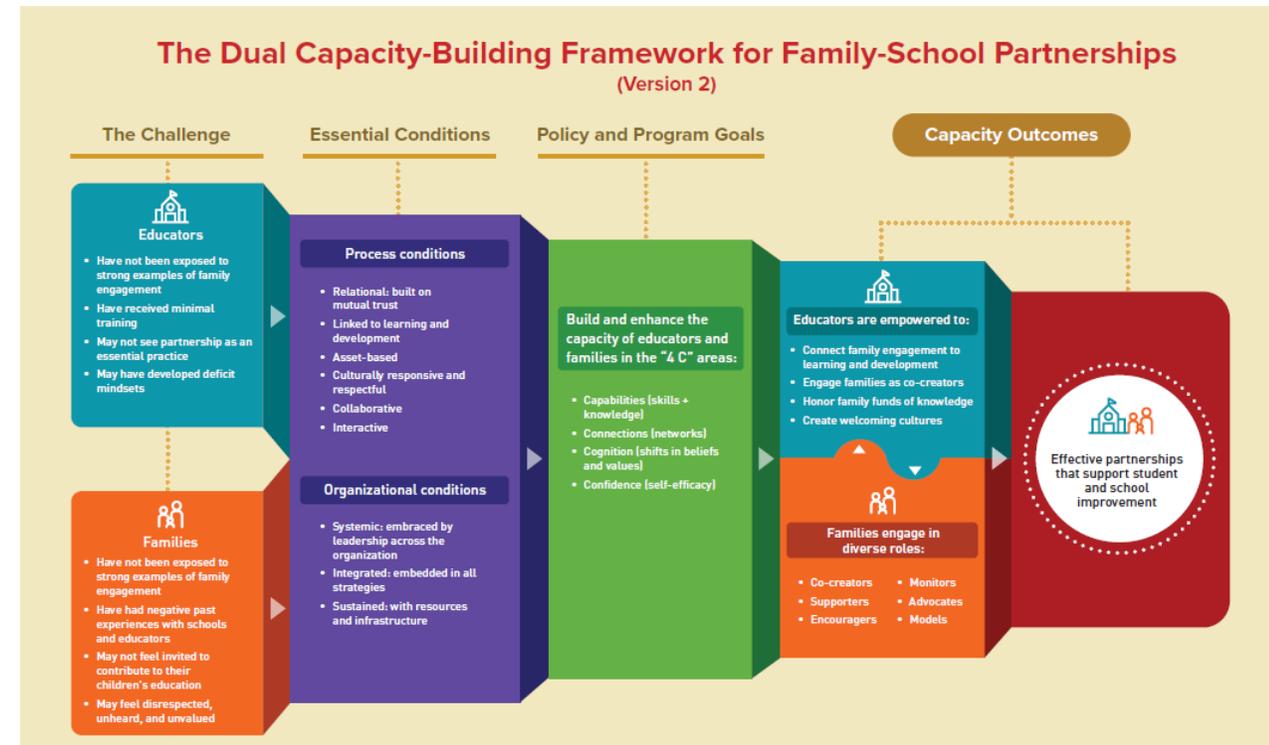

The Carnegie Foundation

Dual Capacity-Building Framework

According to its authors, the Dual Capacity-Building Framework for Family-School Partnerships (2), *“is designed to support the development of family engagement strategies, policies, and programs. It is not a blueprint for engagement initiatives ... [but] should be seen as a compass, laying out the goals and conditions necessary to chart a path toward effective family engagement efforts that are linked to student achievement and school improvement.”*

Mapp, K. L. & Bergman, E. (2019). Dual capacity-building framework for family-school partnerships (Version 2).

PTA National Standards for Family-School Partnerships Assessment Guide

https://www.pta.org/docs/default-source/files/programs/national-standards-for-family-school-partnerships/national_standards_assessment_guide.pdf

Evaluation: National PTA Assessment Guide Rubric

Level 1:

Emerging – Limited level of development and implementation

Level 2:

Progressing – Functioning level of development and implementation

Level 3:

Excelling – Highly functioning level of development and implementation

Directions

- Form a small group
- Each group will take one PTA standard / rubric
- Read the goal(s) of each standard and review the indicators
- Discuss your school's current level of performance as it relates to each of the indicators
- How is your school doing? What is the school doing well? What needs to be improved upon?

Parent and Family Engagement Performance

Red = Emerging

Yellow = Progressing

Green = Excelling

1. “Welcoming All Families”
2. “Communicating Effectively”
3. “Supporting Student Success”
4. “Speaking Up for Every Child”
5. “Sharing Power”
6. “Collaborating with Community”

Family-School Partnership Action Plan – Sample

School/Location: Roundtree Elementary School, Anytown, State **Year:** 2009–2010 school year

Lead Person(s): Frank Johnson, Standard 1 action team leader

Standard: Welcoming All Families into the School Community (Standard 1)

Goal(s): 1. When families walk into the school building, they feel the school is inviting and is a place where they “belong.”
2. The school’s policies and programs reflect, respect, and value the diversity of the families in the school community.

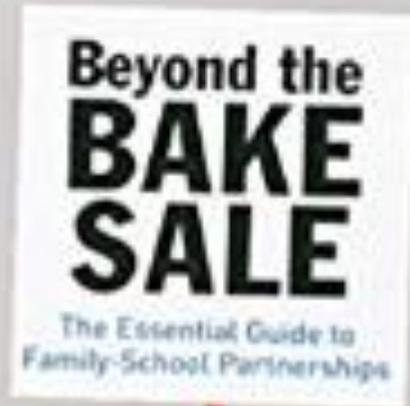

Results (How will you know when your school reaches this goal? What does success look like?): More families are participating in school-sponsored events; parents and teachers report increased communication between home and school; increase in volunteer hours; increased presence of principal during student drop-off and pick-up; improved student attendance/decrease in tardiness and absences.

| Activities, Practices, Policies | Persons Responsible, Including Lead(s)* | Timeline | Resources and Funding (What do you need and who can supply it?) | Evaluation (How will you determine whether the activity achieved its desired effect?) |
|---|---|--|--|---|
| <p>1. Hang welcome signs in all the languages spoken in the homes of the students.</p> <p>2. Work with the art, social studies, or history teachers to organize a classroom activity in which students make</p> | <p>School staff member, parents/family members</p> <p>School staff member, parents/family members <i>Coordinate with art/social</i></p> | <p>Start Aug. 1; Done by 1st day of school</p> <p>Talk to teachers at start of school year; Create flags as fits</p> | <p>Translators—bilingual or multilingual volunteers</p> <p>Signs—\$___ from PTA/school funds; discount or donation from local print/copy shop</p> <p>Art supplies—\$___ from PTA/school funds, donations from community businesses/organizations</p> | <p>Applicable to all activities:</p> <ul style="list-style-type: none"> • Feedback (formal end-of-year survey and informal comments) from family and community members • Improved family and community perception of the school • Increased presence of parents and family members in the school |

Example from a District Improvement Plan (DIP)

Goal Definition

Increase the percent of students achieving a Lexile measure at or above the Lexile Mid-point in Grades 3-9 and American Literature from 63% in 2019 and 68% in 2020 as measured by the GA Milestones Assessment.

Action Step # 3

Action Step *

Show how to access online literacy resources in the parent portal to families of students in Grades 3-9 to practice at home with their child by hosting Literacy Nights and emailing links.

Academic Standards

Online Resources Aligned to the Academic Standards

School-Parent Compact

Shared Responsibilities

School Goal: Increase student reading comprehension as measured by a 5% increase in Lexile scores on the Georgia Milestones

<http://bit.ly/poweripshandbookcompacts>

The School will conduct in-person and online parent training for parents to demonstrate the use of the SLDS parent portal.

Teachers will conduct a Facebook Live and provide written information defining Lexile and its connection to reading comprehension. Teachers will provide resources within the SLDS that parents may access for at home reading activities that will improve reading comprehension

School-Parent Compact

Shared Responsibilities

School Goal: Increase student reading comprehension as measured by a 5% increase in Lexile scores on the Georgia Milestones

<http://bit.ly/poweripshandbookcompacts>

Parents will participate in the training and will access the resources within the SLDS to support student reading comprehension improvement at home. They will monitor student practice and ensure engagement at least 4 times per week

Students will use reading comprehension resources within the SLDS at least 4 times per week

GRADE LEVEL NEWSLETTERS

MATH NEWS

2nd Grade Math

2nd Grade Volume 2

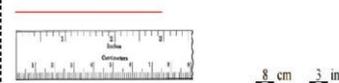

2nd 9 Weeks Unit 3

Unit 3 Goals

- Measure the length of an object by selecting & using appropriate tools such as rulers, yardsticks, meter sticks, and measuring tapes.
- Measure the length of an object twice, using length units of different lengths for the two measurement.
- Estimate lengths using units of inches, feet, centimeters, and meters.
- Measure to determine how much longer one object is than another.
- Use a number line to add and subtract.
- Solve addition and subtraction word problems within 100 involving lengths.
- Create and read line plots.
- Tell and write time to the nearest five minutes, using a.m. and p.m.

Unit 3 Focus Measurement

Measure the line in inches and centimeters. Round to the nearest inch or centimeter.

Clocks

Students will tell time to the nearest five minutes on both analog and digital clocks.

Words to know:

Compare- How something is similar to or different from something.
Standard Unit- Commonly used units of measurement: inches, feet, yards, centimeters, meters, etc.
Non-standard Units- A unit of measure that is not part of a consistent system: paperclips, shoes, coins, etc.
 $>$, $=$, $<$ - symbols used to compare numbers or distinct sets.
Expanded Form- a number expressed in terms of its component places, for example 567 would be expanded as $500 + 60 + 7$.
Number names- a way of using words to write a number
Place Value- the value a digit has because of its place in a number.

Things to remember!!!

- Remember to use appropriate tools when measuring.
 - Measure something round with a measuring tape or strip.
 - Measure something straight with a ruler or meter stick.
- Remember to use appropriate units for specific objects when measuring.
 - Use centimeters or inches for short objects.
 - Use meters or yards for long objects.

Images courtesy of Google Images

Line Plot

Draw a line plot to represent a given data set; answer questions and draw conclusions based on measurement data.

Bean Plant Height

| Height of Bean Plant (cm) | Number of Students |
|---------------------------|--------------------|
| 9 cm | 1 |
| 11 cm | 4 |
| 12 cm | 6 |
| 13 cm | 7 |
| 14 cm | 5 |
| 15 cm | 3 |

Measure & Compare

Students measure and compare to determine how much longer one object is than another. They also measure objects twice using different length units thereby developing their understanding of how the total measurement relates to the size of the length unit. Repeated experience and explicit comparisons will help students recognize that the smaller the length unit, the larger the number of units, and the larger the length unit, the smaller the number of units.

Measure and Compare Examples

Line E

Line F

Line G

Line E measured about 3 cm.
 Line F measured about 6 cm.
 Line G measured about 5 cm.

Measurement Word Problem

Carol's ribbon is 76 centimeters long. Alice's ribbon is 100 centimeters long. How much longer is Alice's ribbon than Carol's? $100\text{ cm} - 76\text{ cm} = \underline{24\text{ cm}}$

$\begin{array}{r} 100 - 76 = 24 \\ - 76 \\ \hline 24 \end{array}$

$\begin{array}{r} 70 + 6 \\ 100 - 70 = 30 \\ 30 - 6 = 24 \end{array}$

Students apply their understanding of partitioning the whole into halves and fourths to tell time to the nearest five minutes, using both analog and digital clocks. They construct simple clocks and see the relationship to partitioning a circle into quarters and halves, thereby decomposing 60 minutes. They also use their understanding of skip-counting by fives and tens to tell time on an analog clock.

Rigorous Curriculum Dialogue

Welcome to the Griffin-Spalding County School System's Rigorous Curriculum Dialogue parent website. These guides include unit standards, words to know, resources and strategies and examples for each Rigorous Curriculum Design (RCD) unit.

RIGOROUS CURRICULUM DIALOGUE

ALGEBRA 1

UNIT 1

UNIT STANDARDS

- Students will learn how to:
- Understand the difference between rational and irrational numbers.
 - Explain whether the product or sum of rational and irrational numbers is rational or irrational.
 - Convert between different units - dimensional analysis.
 - Add, subtract, and multiply polynomials.

WHAT STUDENTS ARE EXPECTED TO KNOW

- Classify and explain whether numbers are rational or irrational
- Simplify radicals
- Add, subtract, and multiply radicals
- Add, subtract, and multiply polynomials
- Problem solve with polynomials
- Unit conversion - dimensional analysis

WORDS TO KNOW

STRATEGY

Help your child review how to subtract polynomials by first distributing the negative to the second polynomial and then lining the terms up vertically by like terms. By doing this process, they will make fewer mistakes.

EXAMPLE

Have your child solve the following problem on a piece of paper: Candace is changing the look of a room. She found that the area of a room could be given by the expression $3x^2 + 2x$ and the area rug which she wants to use is given by the expression $x^2 + 24x - 144$. What expression represents the area of the room not covered by the rug?

Sample solution: The area of the room not covered by the rug is the area of the entire room minus the area of the room covered by the area rug.

- Step 1:** Distributing the negative. Since we have to subtract the area of the room covered by the rug, the negative has to be distributed or multiplied by each term. When you multiply a negative by each term, the sign of the term changes. If it was positive, it becomes negative and if it was negative, it becomes positive. For example, this is why the $24x$ changes to $-24x$.
- Step 2:** Combining the like terms. Like terms are terms that have the same variable (letters) and powers (exponents). The like terms are: $3x^2$ and $-x^2$ AND $2x$ and $-24x$. (144 does not have a like term because it is the only term without a variable.)

$$(3x^2 + 2x) - (x^2 + 24x - 144)$$

$$3x^2 + 2x - x^2 - 24x + 144$$

$$3x^2 + 2x - x^2 - 24x + 144$$

$$2x^2 - 22x + 144$$

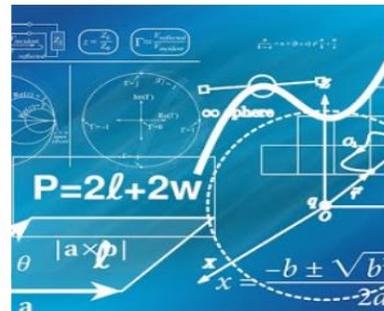

- The expression that represents the area of the room not covered by the rug is $2x^2 - 22x + 144$.

APTT

Academic Parent-Teacher Teams (APTT) is a family engagement model, designed by Dr. Maria Paredes of WestEd, that strengthens teacher-family relationships by focusing on student academic growth and achievement. The APTT Model elevates the efforts of traditional parent-teacher conferences by inviting all families of the same classroom teacher to meet together rather than individually

National Standards Implementation Guide

National Standards Implementation Guide

The benefits of family-school-community partnerships are many: higher teacher morale, more parent involvement, and greater student success are only a few. That is why PTA developed the **National Standards for Family-School Partnerships Implementation Guide**, a tool for empowering people to work together with an end goal of building family-school partnerships and student success.

For each of the six National Standards for Family-School Partnerships, this online guide provides:

- An explanation of each standard and its importance
- Insights to help convince educators of the standard's value
- A success story from a school community
- Action steps for your school community
- Resources to enhance your understanding

The full guide, **downloadable as a PDF**, provides additional details, background, research, and success stories.

Next Steps :
What did you find most beneficial about today's workshop that you will take back to your school and implement?

Learning Targets School Leaders will:

Identify

- Identify ESSA family engagement requirements for schools

Evaluate

- Evaluate Family Engagement activities to determine which are most effective at impacting student academic achievement

Understand

- Understand how to engage families through programs such as the SLDS Parent Portal, Academic Parent-Teacher Teams

Acquire

- Acquire a knowledge of resources and tools offered through the Family-School Partnership Program.
